Forethought and Good Judgment Used

Travellers show preference for Scenic Route; Busy Men use Night Trains

Nowadays, forethought, and a lively sense of public appreciation play an important part in the construction of a railroad. The Canadian Northern made a happy choice in the selection of its route between Toronto and Ottawa: skirting the shoreline of Lake Ontario and the Bay of Quinte; over the height of land between Napanee and Sydenham; and through Rideau Lakes region, adds zest to the daytime journey in Spring or Summer. Comfortable day and night trains, stopping at principal intermediate stations, have made the route very popular.

GERMAN POLICY CENSORED

By Courier Leased Wire.

Copenhagen, May 27.—Germany's policy in the Ukraine is repelling her old friends and gaining her no new ones, declares the Socialist Vorwaerts of Berlin in commenting on a letter it publishes from a correspondent in the Ukraine. This writer describes the cabinet formed by the new dictator General Skoropadisky, as composed of Constitutional Democrats, Octobrists and Russian monarchists of whom the first named incline the most toward the Radical side.

Commenting on the letter Vorwaerts says:

"The German Government's policy appears but recently to have regarded the disemberment of Russia as its greatest triumph, but it is now on the way to destroy that supposed triumph."

"I'M DELIGHTED WITH IT", HE SAYS

"Well, sir, ever since I started on Tanlac my improvement has been so wonderful that I don't feel like the same person I was before," recently said Charles Spradbrow, an employe of the T. Eaton Company who has resided at 742 Huron Street, corner of Davenport Road, Toronto, for thirty years, and is known to everybody in that neighborhood.

"I had been going down hill for the past two or three years," continued Mr. Spradbrow, "and I suffered all the time from a severe case of indigestion and stomach trouble. After eating anything my food would sour and rise up in my throat, I suffered from heartburn and would bloat up so with gas till I could hardly get my breath. Any kind of vegetables or fried food would upset me every time, and I got so I was afraid to eat a good square meal, for I knew I'd have to pay dearly for it afterwards. I had a tightness across my chest and a bad cough that worried me so at night I could hardly sleep and I felt terriby fagged out when I would get up in the mornings.

"Nothing I took seemed to do me a bit of good, and finally I decided to try Tanlac a while. I have taken but two bottles of this medicine so far and it has certainly done me more good than everything else I have ever taken. I am not troubled with gas or indigestion near like I was before, the tightness in my chest is gone, I don't suffer any more from sour stomach or heart burn and I rest better at night, I am just delighted with the way Tanlac is straightening me out."

Tanlac is sold in Brantford by Robertson Drug Store. In Paris by Apps. Ltd. In Mt. Vernon by A. Yoemans. In Middleport by William Peddie. In Onondaga by Neil McPhadden.

TERRIFY CITY.

By Courier Leased Wire.

Moscow, Tuesday, May 21.—(By Associated Press)—Apparently for the purpose of terrifying the city, German airships have appeared over Novorossysk and German submarines have entered the harbor. The Transcaucasian Government has refused to cede the city to Turkey in accordance with new demands made by Turkey in the peace conference at Batoum, which is now deadlocked.

Novorossysk is 130 miles northwest of Batoum and these two cities are the most important ports on the Black Sea coast of the Caucasus. Novorossaysk is the capital of the Black Sea province and has a population of about 17,000. Part of the Russian Black Sea fleet was reported to have taken refuge there after the Germans captured Sebastopol.

David Butler, an employe of the Taylor Woolen Mills, Chatham, was badly injured in an explosion. His condition is serious.

Advices from the Maritime Provinces are to the effect that farmers are not sowing as much land in wheat as was hoped and expected.

We Are Looking For Intelligent Girls.

IN the profession of telephone operating, there are many opportunities for advancement open to capable young women.

¶ The student operator does not handle calls from the public. She first receives instruction in the Operators' Training Department and is paid a salary while learning.

¶ Her prospects for advancement are many, and an efficient operator can always be sure of a position in whatever city she may be.

¶ The healthful conditions under which the telephone operator works, the opportunity for congenial companionship under pleasant conditions, the many opportunities for advancement and in case of sickness, the protection afforded by a liberal Benefit Plan without cost to her--all these combine to make telephone operating a most attractive profession.

¶ *If you would like to become a telephone operator, call at our office*

CANADA'S BANKS SENT TEN FULL BATTALIONS

Canadian banks have ten full battalions in khaki. This is the inspiring contribution of Canadian bankers to Canada's overseas forces as shown in figures recently compiled and just received by local bank managers. It is an inspiring indication of the patriotism of the staffs of the banks, for it represents a contribution of over half of the men employed in Canadian banking institutions.

At the beginning of the war there were 17,674 men and 1,609 women employed in Canadian banks. By Jan. 15, 1918, there were only 14,220 men on the staffs and the numbebr of women clerks had increased by over 500 per ent. Enlistments up to January of this year, have reached the figure of 7,741; 820 additional men were called under the decision of Mr. Justice Duff on March last; 300 have volunteered since January of this year, and 1200 more men have been called under recent legislation. This makes a grand total of over 10,000 young men who have gone from Canadian banks to fight and die for their country in France and Flanders.

The places of the men have been taken by thousands of women clerks, who are doing splendid work in their new sphere. When interviewed with regard to the work of the women, local bank managers said that all honor was due to the manner in which Canadian women had risen to the task of carrying on the growing banking business of the Dominion. However, they said it was not out of the question to expect the women to work as rapidly or with the same knowledge of banking, as officers of many years' training in the profession. It is understood that the Canadian Bankers' Association is about to issue an appeal to the public to cooperate as far as possible with the staffs in the handling of greatly increased business, under exceptionally difficult circumstances.

Canadian Officers' Training Corps at Laval University, Quebec, has been completed, 250 men having enlisted.

Anglo-Canadian Leather Co.'s band t Harrisville made its fifth public ppearance under the direction of Herbert L. Clarke.
