Seaforth.

July 22nd 1867.

We are now in the midst of our hay harvest, and getting excellent weather for it. It will be an abundant crop, all the other crops look well. The midge has made its appearance in the fall wheat. There is a field of Mr. Sproats' on Saturday, he had two sorts of fall wheat which looked exceedingly well. On examining the heads I found that one sort contained the midge, and the other (though along side of it) did not. He calls that which is free midge proof wheat. I think more of it ought to be sown as it does seem to be proof against this pest.

ACCIDENT.—On the 13th inst, Mrs Brewer wife of Mr. A. Brewer of Roxborough mile, got severely burned. Her dress caught fire and before she got to a tub of water at the door she had extinguished the flames, she was severely burned about the back, sides breast and neck—Dr. Chalk was in attendance.

The Victorin Spinning Wheel.

Mr. M. Whitely, (at the Market) is agent for, and will exhibit to intending purchasers, a great novelty in the shape of a spinning wheel. By the use of a treadle the common large wheel is so improved that a woman or girl can do nearly three times the usual quantity of work in a given time, and with much easier exertion. Those who call and find a place in the house, or visit the farmer, and the wife will tell you how the farmer's wives to call upon them when at home. The new invention is well worth $7.00.

Massacre by Indians.

The *Herald's* Leavenworth special 'bags' a train was captured last Sunday, near Fort Lawrence, by the Indians. Bishop Lamy, ten priests, and six sisters of charity, accompanied the train, en route to Santa Fe. The men were killed, scalped, and shockingly mutilated. The females were carried away captives.

☞ We are informed that the girl Campbell, injured at Smith's Hill on the 12th, did not die, as reported to us, but is expected to recover.

☞ The Holman Opera Troup will appear before Goderich audiences on Monday and Tuesday evgs. next. The press of the country is loud in their praise.

☞ Mr. Hurdon, made his maiden speech at Kincardine on the 7th. Rather funny that a Candidate for the House of Commons should have to make his maiden effort in public speaking.

"The schooner" Orkney Lass," reported lost, arrived all safe at Rondeau on Tuesday.

Annexation of Mexico.

New York, July 19.—The *Herald's* Washington telegram says; Mr. Abbott, brother of the historian, has broached a proposition to the leading members of Congress for the annexation of Mexico, which he intimates meets the approbation of Juarez and the chiefs of the Mexican Republican party. The latter fear another foreign intervention on account of Maximilian's execution, or a continuation of the intestine strife engendered by bad blood, between the leading military chieftains, and are satisfied with annexation, provided they themselves can be secured in some good government berth and peace can be secured to the country. Mr. Abbott's proposition were received with some hesitancy by Sumner and Banks, but with much favor by Howard, Chandler, Call and others.

"A family named Welch, in Columbiana county, of Ohio, was poisoned last week by eating mush prepared by mistake from meal which had arsenic mixed with it for rats. Antidotes were administered, and there was hope they would all recover. The physician said the milk eaten with the mush acted as an antidote to some extent, and helped to save their lives.

General Howard, finding that the negroes will drink and the Sons of Temperance will not admit them into their organizations, has advised his officers to organize "Lincoln Temperance Societies" among them, to which white men may also be admitted. He also desires the names of the officers of the Bureau who are intemperate to be reported to him.

The Federative System.

A short time ago, Sir John A McDonald remarked to one of his intimates that the present Federal constitution would not be of long duration—that the Local Governments would fall into inferior hands, and that the people would speedily accept the idea of a Legislative in preference to a Federal Union. The same thought was put into formal shape by Mr. John Hillyard Cameron, and recently to the electors of Peel, and Mr. Galt is notoriously of the same mind, as his two Conservative *confreres*. The effect of such a change, we need hardly say, would be to bring about a return of the old state of things, when the Local affairs of Upper Canada were controlled by the politicians of Lower Canada, and also to devolve upon a single Government the management of the affairs of a vast country, which could not be accomplished effectively or economically. It would be the breaking into fragment of a country too vast, and embracing populations too different in sentiment, to be able to agree upon the management of minor affairs. There can be no question that the adhesive power of the American Union is mainly due to its system of State government, which keeps the most irritating of all public questions out of the reach of the Federal authority.

Our present intention is not, however, to discuss the general question, but to point out that Sir John A. Macdonald, in the arrangements which he has made for the Cabinet of the Province of Ontario, seems to have aimed to disgust the people with the Federal system. He predicted, it appears, that local men would take possession of the Local Governments, and he has certainly given us small enough men, and few enough of them, to excite popular contempt. We trust, that the people of Upper Canada, whose interests are bound up in the Federal system—who have no motive to change the Constitution, will see to it that Mr. Macdonald's apparent conspiracy to bring the Local Government into contempt, may be nipped in the bud. Let the people of Upper Canada, at the polls, vote for men who will condemn, as soon as the Legislature meets, the attempt to carry on the Government of Ontario with a miserable shadow of a Government such as now exists under the leadership of Mr. Sandfield McDonald. If that be done, all the attempts of Sir John A Macdonald, of Mr. Hillyard Cameron, and of Mr. Galt, will utterly fail, and neither Mr. Sandfield McDonald nor Mr. Richards, thorough opponents of Confederation, will be able to assist in the nefarious work of their Tory leaders. The remedy lies in the votes of the people against all the machinations of men who would gain return to a cumbrous and unwieldly governmental system, to be moved from the purview of the people, because under such a system there is more plunder to be had.—*Globe.*

Among the most important of modern medical discoveries stands the

CANADIAN PAIN DESTROYER!

As a Family Medicine, it is well and favorably known, relieving thousands from pains in the Side, Back and head, Coughs, Colds, Sore throat, Sprains, Bruises, Cramps in the Stomach, Cholera morbus, Dysentery, Bowel complaints, Burns, Scalds, Frost Bites, &c., &c., &c.

THE CANADIAN PAIN DESTROYER has been before the public for a length of time, and wherever used is still liked, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed; but, on the contrary, all are delighted with its operations, and spoke in the highest terms of its virtues and magical efficacy.

We speak from experience in this matter having tested it thoroughly, and therefore those who are suffering from any of the complaints for which it is recommended may depend upon its being a Sovereign Remedy.

The astonishing efficacy of the Canadian Pain Destroyer in curing the diseases for which it is recommended, and its wonderful success in subduing the torturing pains of Rheumatism, and in relieving Nervous Affections, entitle it to a high rank in the list of remedies for these complaints. Orders are coming in from Medicine Dealers in all parts of the country for further supplies, and each testifying as to the universal satisfaction it gives.

The Canadian Pain Destroyer never fails to give immediate relief. All medicine dealers keep it. Physicians order and use it; and no family will be without it after once trying it.

Price only 25 cents per bottle.

TO THE
ELECTORS
OF THE
South Riding of Bruce.

GENTLEMEN.—Upon the nomination of my late lamented predecessor, I have the honour to present myself as a candidate for the representation of your Riding in the Assembly of Ontario.

The duties and obligations attaching to that position are very great. Apart from matters common to Ontario and the other parts of the Dominion, the Assembly has exclusive control over the affairs of the Province, and on the care and wisdom with which its functions are discharged, depend in great measure our happiness and prosperity.

Among the more important matters with which the Assembly is to deal, are—Property and Civil Rights—the administration of Justice—Municipal institutions—the management of Public Lands—the incorporation of Companies with Provincial objects—the raising of a Provincial revenue, and the judicious expenditure and management of Provincial offices. Whether in all these and other premises we be well or ill governed, we shall by the future, be as much to ourselves and our selves alone; and I do not hesitate to say, that in my judgment the success of the new order of things will in a great measure depend on the conduct of the men elected to this, the first Assembly in Ontario.

Upon the Reform party, as constituting the majority of the Assembly, will devolve powers and responsibilities of which it is difficult to overestimate the magnitude. Of that party I am a member. To its principles, as enumerated in the Resolutions of the recent Toronto Convention, I heartily subscribe; and towards their production into practice by cautious and well considered, yet firm and vigorous measures, I shall, if elected lend my humble but earnest aid.

Prominent among the local matters in which your Riding is interested is the question of railway communication. I think this should be settled without further delay. It will be for you to consider carefully which of the projected lines is the most feasible, and will give you the most accommodation. It will be for your representative to use his utmost exertions to promote the interests and accomplish the construction at that line.

Should I be chosen by you, the solicitude of that and of all other questions of a local character will receive my very best attention, while my residence at the seat of Government will greatly increase the facilities for adjusting these numerous matters which arise between individuals and departments and the Crown lands Department.

I will shortly do myself the honour of visiting the Riding, and meeting your friends, when it will be my pleasure as well as my duty to give you the fullest explanations as to my position on every public question.

In the meantime I remain,
Gentlemen,
Your humble servant,

EDWARD BLAKE.

To Dr. Woods, Reeve of Stanley,
AND 772 OTHERS,
PARLIAMENTARY ELECTORS OF THE
SOUTH RIDING OF HURON.

GENTLEMEN:—

I have had the honor to receive your very respectably and numerously signed requisition, asking me to become a candidate to represent this Riding in the House of Commons, at the ensuing election, for which I feel highly flattered, and accept the nomination offered me by so large a number of influential electors. I have since received the unanimous nomination of the liberal Conservative delegates at the Clinton convention.

To the parliamentary electors of the South Riding generally, I offer myself as a candidate, and trust to receive your generous support.

To the most of you I am not unknown, having been a continuous resident in the Riding for a period of thirty two years, and having during that time encountered all the difficulties and privations of a backwoods life, as well as filled numerous elective and other highly responsible offices, therefore necessarily for many years I have been prominently before you, and I challenge any man truthfully to say that I wronged him in the smallest matter. I refer to my past course as an index of what my future may be, should you see fit to elect me. Having no monetary part, and none depending on me for success, from the public chest, I do not wish for, nor, would not accept, from Government any lucrative office, my only desire being energetically and faithfully to secure the interests of the country in which I have lived so many years, and to which from many associations I am sincerely attached.

There are no leading questions before the public at present, but should I be elected, I shall endeavor upon my duties without offering to the ministry of the day any factious opposition, and will assist to the utmost of my power in carrying out the Confederation scheme in a liberal spirit.

To every measure calculated to advance the interests and well-being of the County of Huron I will give my undivided attention and best support.

I shall be an advocate for economy in the public service, so far as may be compatable with thorough efficiency; I shall advocate such alterations in the customs and excise duties as will be most beneficial to the wants and means of the greatest number of the inhabitants, keeping in view the maintenance of the public credit.

The public debt—regulation of trade, and development of commerce—the postal service—the enlargement and improvement of the inland water communication within Canada—the Railways—and generally whatever will advance the welfare and importance of the Dominion of Canada, shall receive my best attention.

I shall take an early opportunity, before the elections come off, of visiting the principal localities in each municipality, and then explain my views on any subjects likely to come before the House of Commons.

I have the honor to be,
Gentlemen,
Your faithful servant,

D. H. RITCHIE.

ELECTORS
OF THE
NORTH RIDING
OF THE
COUNTY OF HURON.

GENTLEMEN,

Having received the nomination of the "Reform Convention," and having been requested by men of all shades of politics to offer myself as a candidate for the Canadian House of Commons for your Riding; I am now in the field claiming your suffrages as a Representative.

As there are no great questions now prominently before the country—Confederation being an accomplished fact—it is unnecessary in a short address like this to speculate on what the future may bring forth; or to submit any particular or specific platform. I may, however, say that I will embrace the earliest opportunity of visiting each township in the Riding and explain my views fairly and fully on both local and general matters: such as the necessity of encouraging emigration, our trade with the United States,—economy in the management of our public departments, and the conduct of the general affairs of the country.

Meantime,
I have the honor to be,
Gentlemen,
Your obe'nt serv't,

Joseph Whitehead.
