IT IS A MATTER OF BREEDING.

OUR TONY HORSES CAN MIX IN ELITE AMERICAN SOCIETY

And Nothing McKinley Does Can Keep Them Out—A Better Class of Stock Wanted—Big Demand For Good Stock—Interesting Statistics Touching the Point

"I think there has been too much growling about this McKinley Bill," said Mr. D. W. Grand, of Grand's Repository, to The World yesterday. "Now, horses was one article of export which the bill was to affect adversely, but in my opinion this very bill has done more for horse interests in Canada than our own Government has ever done."

"The only class of horses to be affected by the bill is the cheap work horse variety, running in value from $80 to $130 a head. These horses are wanted for American street car trade. What I maintain, and what I have endeavored to encourage, is the breeding of a better class of stock—good saddle and carriage horses. These will bring $300 and $400 a head, and it will cost the farmer no more to raise them. The United States is our great market, there is no disguising that fact, but if we raised a good class of horses, a class that the American millionaires want, any tariff laws enacted would not affect us. It is only a question of supplying an article that these people want. There is no country in the world where the horse is thought more of than in the United States, and the right kind of a horse will bring his value every time.

"To illustrate the point: Last April I held a large sale, lasting several days. On the first day of the sale I sold 39 horses of the carriage and saddle class, which brought $11,727, or an average of $303 each. On the second day I sold 68, of the same class, which brought $17,068, or $251 each. On the third day I sold 93 general purpose horses, which brought $11,007, or $119 each. On the fourth day I sold 79 general purpose horses for $8927, or $113 each. On the last day I sold 40 ordinary horses for $3440, or $86 each. Now, there is a greater demand for a good quality of horses than cheap stuff, and if the 119 horses sold on the two last days of the sale had been of the proper breed they would have brought twice the money.

"The Government should take action in this matter. They should import good stallions and send them through the country for service at a low rate. We could thus produce just the kind of horses that are in demand, for none are better thought of than our plucky half-breeds."

The export of horses forms an important item in the Canadian foreign trade. The total number exported during the fiscal year ending June 30, 1889, was 17,767, valued at $2,170,722. The particulars are:

	Number.	Value.
From Ontario	3573	$1,336,191
" Quebec	7174	740,098
" Nova Scotia	259	17,677
" New Brunswick	1155	132,537
" Manitoba	232	30,173
" British Columbia	9	930
" P.E. Island	285	42,276
	17,767	$2,170,722

The amount thus realized per head for all horses exported during the time specified averaged $122. The United States has been our chief market, in fact nine-tenths of the total export went there. It has been our chief market because the class of horses bred is not high and unsuited for English demand. By breeding better stock the market will be widened, for there is great demand in both the United States and England for the better class. By higher breeding the farmer will get double the money for the same amount of work. The matter is worthy of the attention of our agricultural ministers.

THE LEGAL GRIST.

City Engineer Jennings Will Be Examined—That Academy Trouble—The Brosi Extradition Case.

In the action of William Pedder against the City of Toronto the master-in-chambers yesterday made an order for the examination of Engineer Jennings.

In the action of Clark J. Whitney against Margaret Mather, Mr. George Kappele on behalf of the plaintiff moved to set aside a præcipe order that the plaintiff furnish security for the defendant's costs. The action is one for damages arising out of the recent trouble at the Academy of Music, when Margaret Mather refused to fulfil her engagement with that house on the ground that the stage furnishings were not sufficient. In support of the motion it was alleged that Mr. Whitney was the lessee of three opera houses in Ontario and that the furnishings, etc., of the Academy of Music are worth some $3000. Mr. Whitney has a ten years' lease of this house. Mr. C. Millar, for the defendant, contended that this property was of a speculative nature and not such as should take the place of security for costs.

Chief Justice Galt yesterday handed out judgment in the case of John C. Brosi, held at Sandwich for extradition on the charge of forgery. It will be remembered that Brosi at Pittsburg, Pa., in March last forged the name of his uncle to a promissory note for $300. Brosi was captured at Windsor last summer and was convicted by the magistrate there to await extradition. A writ of habeas corpus was obtained by the prisoner, and on the return of it a motion was made for his discharge. His Lordship dismisses the application, holding that the evidence is sufficient, and orders the prisoner to be remanded to Sandwich jail to await extradition.

THE STREET RAILWAY CASE.

Another Adjournment Till Witnesses are Ready—Scoring The Globe.

All the principals and counsel in the great arbitration case were present on time in the old chancery court at Osgoode Hall yesterday morning.

Mr. McCarthy, Q.C., called the attention of the arbitrators to an editorial which had appeared in The Toronto Globe stating that the Street Railway Company had abandoned their claims.

Mr. Christopher Robinson, Q.C., and Hon. S. H. Blake, Q.C., disavowed any connection with the editorial and expressed regret at its untruthfulness and inaccuracy generally.

As no witnesses were ready a further adjournment was made till this morning.

Man a Dissatisfied Being.

Dissatisfaction with his lot seems to be the characteristic of man in all ages and climates. So far, however, from being an evil, as at first might be supposed, it has been the great civilizer of our race; and has tended, more than anything else, to raise us above the condition of brutes. But the same discontent which has been the source of all improvement, has been the parent of no small progeny of follies and absurdities. It is evident to all observers that man is daily showing more and more of this spirit of discontent.

In his particular line of business, and in the professions, he is trying to grasp all that is to be done.

His ambition is never satisfied; his energy, vim and activity know no bounds to secure honor, fame and wealth.

This in this way that hundreds of men are broken down in nerve power and body.

They bring upon themselves miseries and evils, to which they often succumb.

These evils are nervousness, sleeplessness, irritability, dyspepsia and indigestion. The great primary trouble, however, is always an impaired nervous organism, which if not attended to in time often brings on that dreaded disease, insanity.

For those afflicted in any way by nervous disorders, Paine's Celery Compound is the only safe and reliable remedy; the only infallible preparation which can fully restore them to health, strength and a new life.

Many business men, in this broad Dominion owe their existence to-day to that great nerve tonic, Paine's Celery Compound.

Let us advise all business men who when they experience the first symptoms of nerve troubles to go at once and procure this most noted of all remedies. Doctors will in every case recommend its use.

The Fair Nuns Will Hold a Fancy Fair.

With the approbation of the Archbishop of Toronto the nuns of Loretto Convent, Bond-street, will hold a fancy fair during the second week in April to aid in liquidating the debt on their new building. A preparatory meeting, to which all friends are invited, will be held in Loretto Convent on Wednesday at 4 p.m.

ANOTHER $200,000 BYLAW

To be Submitted to the Ratepayers For Waterworks Purposes—Will Apply For Power to Issue $166,250 Debentures.

The Waterworks Committee met yesterday afternoon in special session to discuss the financial position of the department. Chairman Hill presided, there being present Ald. Bailey, Small, McMullen, Brandon, Irwin, Gibbs, Leslie, Lindsey, E. A. Macdonald, Gowanlock, Maughan, Mayor Clarke, Superintendent Hamilton and Chairman Saunders of the Executive.

Before the committee plunged into the business for which it had been called there was a desultory discussion on the question of linking the new steel conduit to the old 4-foot wooden one at a point a little south of the spot where the latter was pierced by the piece of spiling at Haulan's Point.

The chairman declared himself against any such proceeding, and as the superintendent had already stated that he would not be responsible for any evil result arising therefrom, it is probable that it will not be persisted in.

When the financial question was taken up this letter from the City Solicitor was read:

GENTLEMEN,—I have your secretary's letter asking my opinion in the following case, viz.:

Bylaw 2310 (having been approved of by the people) was passed providing $577,587 for certain purposes. Owing to change in material and very low contracts obtained by the committee, there will be a surplus of (from present indications) some $130,000 after providing for the discount on sale of debentures.

Will you kindly look up the bylaw and advise how this surplus may be disposed of, if it can be applied towards payment of the cost of other waterworks improvements of a permanent nature, and if so what is the proper course of procedure to effect the transfer?

I have examined Bylaw 2310, referred to in Mr. Matthews' letter, and find that the debt of $577,587 thereby authorized is for specific purposes, as follows:

Conduit pipe	$284,337
36-inch main (pumping)	25,000
12-inch distributing mains in certain streets	166,250
Engines, enlargement of engine house and works at High Level pumping station	102,000
Total	$577,587

The bylaw only authorizes the issue of debentures to the amount of $577,587, so that the above amounts must be calculated to cover discount and expenses of sale. The bylaw further provides that the proceeds of these debentures "shall be applied for the purposes above specified." But for these facts it might be possible, if the amount raised is more than sufficient for the purposes intended, to treat it as unappropriated money, and under sections 376 and 377 of the Municipal Act, to apply it towards the credit of the sinking fund of some other debenture debt or the payment of an instalment accruing due on such debt.

But having regard to the fact that these moneys have been voted upon by the people to be applied to specific purposes and no other, I think they cannot be considered as "unappropriated money" within the meaning of these sections, and that legislation would be necessary to authorize their application to any purpose other than that for which they were voted.

Ald. E. A. Macdonald: "From the solicitor's opinion it is evident there is only one way out of the difficulty, and that is by issuing a supplementary rate. The legal way of doing things is the only proper way."

The Mayor: "It is my firm belief that had the people not been led astray by a gross misrepresentation of facts, they would have long ago recognized the justice of the bylaws submitted."

There was considerable argument over the much-talked-of gravitation scheme and the procuring of a water supply from Lake Simcoe, which brought out the fact that the Mayor was opposed to it from the beginning. He went on to say that Prof. Ellis had declared its waters impure, and that there had never been a report in favor of gravitation from a properly recognized engineering authority submitted to the council. Thirty years ago Mr. Keefer had declared against it, and Messrs. Hering and Gray, two of the greatest authorities on the continent of America, had come to the same conclusion.

At this point Ald. Gowanlock interjected: "Yes, they were influenced by the late chairman. They never went over the ground."

The Mayor: "I would like the alderman to understand that when these gentlemen place their names to a document they are ready to bear out the facts it contains." Left the question of new pumping plant be submitted again and if the people again defeat it let the responsibility rest with them and not with us. When the citizens fully understand the matter at issue they will recognize what is right and vote accordingly."

Ald. Lindsey and Leslie followed the Mayor and in the same lines.

Ald. E. A. Macdonald pressed his motion for a supplementary rate, but it was defeated, the mover and Ald. Gowanlock alone voting "yea."

Ald. Leslie then moved that a bylaw calling for $200,000 for additional pumping plant be submitted to the ratepayers on the day of the general municipal elections for 1891.

This was adopted without opposition.

It was resolved that the opening of tenders for the proposed new pumping plant be deferred until next meeting.

If the citizens approve of the $200,000 bylaw this will let the department out of all its difficulties.

The committee resolved to apply to the Lieutenant-Governor-in-council for power to issue debentures to the amount of $166,250, to cover the extra expenditure for mains and services as provided by the waterworks charter.

What a Somerset (Pa.) County Man Thinks of the Invalids' Hotel and Surgical Institute, located at Buffalo, N.Y.

W. H. Miller of Stoyestown, Pa., who has been suffering for nearly a quarter of a century from an affection of the kidneys, resulting in the necessity for a surgical operation, after consulting and being treated by a number of our own doctors, as well as receiving the treatment and advice of some of the most eminent professional men of the land, finally became acquainted with the above Institute, and their mode and means of treatment. After due correspondence with the World's Dispensary Medical Association, the proprietors of the Invalids' Hotel, he was induced to visit said institution. On arriving there and after being fully acquainted with the abundant means they possess, he lost no time in making the necessary arrangements for the required treatment. After remaining for nearly four weeks at the Invalids' Hotel, where you receive the kindest and best treatment, and where patients are loth to leave, after recovery, he returned to his family and friends a cured and happy man.

In giving this to the public, Mr. Miller wishes to say that he owes the aforesaid institute nothing but his best wishes. And the fact that his own success and great relief is due to similar testimonials from others who were successfully treated there for all manner of chronic diseases from every state and territory of the union, Canada, Mexico and South America. It is a marvel of success. He further says, should this fall to the notice of any sufferers from chronic diseases, such as seem to baffle the skill of your own physician—but first and above all give your own physicians a fair and impartial trial, and all the available means offered, as Somerset county may justly feel proud of her medical men, who spare no means nor time in the treatment of all cases entrusted to their charge. And if they fail, in many cases, it will be an act of charity to point you to a place where a probable cure may be effected, which is the humble intent of the above communication. The above association is courteous, prompt and reliable.—Somerset (Pa.) Herald.

Woman's Medical College.

At the Clinical Society's meeting of the Woman's Medical College on Saturday evening an interesting paper on "Diphtheria, its Etiology, Pathology and Clinical History," was read by Miss Gifford, president of the society. The discussion was ably led by Miss Thomas, who was followed by Dr. Wishart, Dr. Duncan and the students. Dr. Duncan presided at the meeting, which was a very profitable one.

Divine Healing Through Faith.

Rev. John Alexander Dowie and Mrs. Dowie, late of Melbourne, Australia, who conceive they have a mission to expound "healing through faith in Jesus," will expound their views before the Toronto ministers and office-bearers on Friday afternoon in Association Hall. They will also speak in Richmond Hall at the cottage meeting at night and commence their mission on Monday, 17th, of full salvation for spirit, soul and body.

What The Detroit Sun Thinks.

Rev. G. M. Milligan preached on politics at Old St. Andrew's Church, Toronto, on Thanksgiving Day. The Lord hasn't much use for political parsons.

Dr. W. H. Graham

198 KING-ST. WEST
TORONTO, ONT.

Treats Chronic Diseases and gives special attention to skin diseases, as pimples, ulcers, etc.

Private Diseases, as impotency, sterility, varicocele, nervous debility, etc. (the result of youthful folly and excess), gleet and stricture of long standing.

Diseases of Women, painful, profuse or suppressed menstruation, ulceration, leucorrhœa and all displacements of the womb.

Treatment by electricity is used in all chronic diseases and is assisted by electro-medicated and vapor baths. In catarrh, piles or rheumatism this treatment is unrivalled. The battery which is used is a Faradic and Galvanic Combination and is the finest in Toronto.

OFFICE HOURS—9 a.m. to 8 p.m.; Sundays, 1 p.m. to 3 p.m.

DR. OWEN'S ELECTRIC BELTS And Spinal Appliances.

Head Office—Chicago, Ill.

Patented in Canada Dec. 17, 1887.

Dr. Owen's Electro-Galvanic Body Belt and Suspensory will cure the following: All Rheumatic Complaints, Lumbago, General and Nervous Debility, Costiveness, Kidney Diseases, Nervousness, Trembling, Insomnia, Wasting of the Body, Sexual Exhaustion, Female Weakness, Diseases caused by Indiscretion, &c.

This is the Latest and Greatest improvement ever made and is superior to all others. Every buyer of an Electric Belt wants the latest—this he will find in the Owen Belt. It differs from all others, as it is a Battery Belt, and not a chain, voltaic or wire Belt. It will Cure all Complaints curable by Electricity or a Galvanic Battery. The Electric Current can be tested by any one before it is applied to the body. If you will examine this belt you will buy no other. It has cured hundreds where the doctors have failed. Write for Testimonials and Illustrated Catalogue, enclosing 6c. postage.

The Owen Electric Belt Co.
71 KING ST. WEST, TORONTO
G. O. PATTERSON, Mgr. for Can.

Further Progress at West Toronto Junction.

This pushing town is again to the front. The far-famed firm of Barnum & Co., iron works, from Detroit have their plans for their factory ready. They are in the hands of Messrs. Darling & Co., architects, and are being tendered for. Tenders are to be delivered by Wednesday next and the contract signed by Saturday. The new factory will bring a large number of men into the town. No doubt can be had now as to the Junction being the safest and best place for investments, as week by week the town is assuming increased commercial importance.

Fever and Ague and Bilious Derangements are positively cured by the use of Parmelee's Pills. They not only cleanse the stomach and bowels from all bilious matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupted mass is thrown out by the natural passage of the body. They are used as a general family medicine with the best results.

Junction Jots.

Rushbrook's Hall, on the city side, which has a seating capacity of 800, will be formally opened on the 24th.

The five-cent concert on Saturday night under the auspices of the I.O.G.T. was quite a success. The attendance numbered nearly 300.

The regular meeting of the Young People's Association of the Methodist Church was held last night, when an interesting program was presented.

If you feel languid and bilious try Northrop & Lyman's Vegetable Discovery and you will find it one of the best preparations for such complaints. Mr. S. B. Maginn, Ethel, used Northrop & Lyman's Vegetable Discovery and cured a severe bilious sick headache which troubled him for a long time.

R. J. GRIFFITH & CO.,

TO RENT.

A LARGE PARLOR BEDROOM, WELL furnished, without board, private family, near Yonge-street. Box 100, this office.

TO RENT IN PAISLEY—A FIRST-CLASS commercial hotel. This hotel was known as the Central Hotel, but now it has been re-built and re-modeled, also one story being added. It is all heated with hot air throughout; it is situated in the most central part in the town. For terms apply to W. Flood, Paisley. There is also the best brick barn in the country on the place and a large yard.

ARTICLES FOR SALE.

GENTLEMEN'S FINE ORDERED BOOTS and shoes, T. Moffatt, 195 Yonge-street. Perfect fit guaranteed.

BUSINESS CHANCES.

THIS IS A SNAP—A JOURNALISTIC enterprise, well established and on a paying basis, is in want of an active working partner with about $500. He should know something of newspaper or journalistic work. He would be given a half interest in the paper, and against his investment there is considerable value of an asset in outstanding accounts. The capital is wanted mainly for the purpose of developing the income of this paper by extending the advertising and subscription patronage. Will treat only with first parties and those meaning business. This is an opportunity seldom offered and is a certainty. Address ENVY, World Office.
