NARROW MARKET IN WALL STREET

Leaders Were Weak Early, But Closed Day With Slight Gains.

LONDON PRICES FIRMER

Bank Statement Rather Colorless Document—More Gold From Canada.

Canadian Press Despatch.

NEW YORK, March 13.—Stock trading today was narrow, dull and altogether professional, the latter element imparting some firmness to the better known issues by covering some of its outstanding commitments. Specialties, more particularly the motor group, moved to lower levels on further profit-taking, but showed some recuperative powers in the final dealings. Market leaders were disposed to sag at the outset, but closed the day with moderate gains.

Overnight developments bearing upon financial conditions were without influence, even tho they told of further improvement in the steel trade and increased dry goods shipments. Yesterday's suspension of the preferred dividend on Southern Railway was followed by renewed heaviness in the stock and bonds.

London Was Firm.

Foreign markets were easier, except Italian remittances, which held at the previous day's final quotation and gave rise to further conjecture respecting financial arrangements between our bankers and Italian interests. More gold imports from Canada are expected in the coming week.

London's markets were firm, the new war and exchequer bonds showing especial strength. Little enquiry was seen for American securities. Rumors were current of an impending price revision of our stocks by authorities of the London exchange.

The principal features of the local bank statement was the increase of about $9,000,000 in the loan account. Much of this expansion was traceable to the shifting of loans connected with the New York State bond sale. There was a nominal gain in cash, with a small increase in excess reserves.

The bond market showed an easier tone. Total sales, par value, $1,134,000.

Panama reg. 3's declined 3-8 per cent. on call during the week.

VEGETABLES AND FRUITS WILL DROP IN PRICE

Lincoln and Welland Growers Oppose Raise in Freight Rates.

Special to The Toronto World.

ST. CATHARINES, March 14.—At a meeting of Lincoln and Welland Vegetable and Fruit Growers' Association here yesterday it was shown that there should be abundant fruit at low prices this year. A big crop and depressed markets made it advisable that nothing but the best fruit should be sent out, and there would be such large quantities that the question of distribution should receive attention as never before.

It was stated growers viewed with alarm the proposed increase of rates by the transportation companies, and the meeting appointed W. H. Bunting and H. L. Craig a committee to take steps to oppose the increase in every way possible. The question of fighting the canners' reduction of the price of tomatoes to 25c per bushel was not further considered at this meeting, a large number of growers having already contracted to grow at that price.

SHARP ADVANCE IN TIMISKAMING

News, Reserved for Annual Meeting, Leaks Out to the Public.

DOME LAKE IS STRONG

Vipond Feature of the Gold Stocks — Big Dome Holds Firm.

Timiskaming once more furnished the fireworks on the Standard Exchange on Saturday, advancing to 22 3-4 with the final sale at 22½, a net gain in two days of over five points. It is announced that the crosscut on the 500 foot level has encountered the new vein about 125 feet from the Beaver line and that values are very high. This is the vein followed from the Beaver workings some time ago, which has been yielding for the 100 feet so far drifted upon 4000 to 10,000 ounce ore.

President Culver, in confirming the news that the vein had been reached, regretted the fact that the matter had become public property, as he had hoped to reserve the announcement for the annual meeting on Tuesday.

Beaver was another strong issue of the silver group, selling at 29½. City of Cobalt was dealt in for the first time in months at 25, McKinley-Darragh sold at 43, La Rose at 66, Crown Reserve at 82, Trethewey at 16 and Coniagas at $4.70.

Dome Lake Advancing.

In the Porcupine list Dome Lake was again prominent, advancing to 28½, after opening at 27. Dome Extension was another strong feature, touching 8 after early sales one point lower. McIntyre eased off a point after opening at 36. Vipond was fairly active and strong, selling up to 38½.

Big Dome was again in request around $8. Hollinger was $22.55 bid, but there were no sales. It is announced that the first unit of 20 stamps is now crushing acme ore. The other half will likely be in operation at the month end. The new cyanide plant is now in operation, and the amount of Holly ore treated has been increased to 900 tons daily.

Cobalt Shipments.

Seven names appear in the list of shippers from Cobalt camp the past week, the total sent out being 724,523 pounds, quite a respectable showing as compared with recent exhibits since the water troubles started. Here is the list:

	Pounds
Dome Reduction	88,000
O'Brien Mines	40,920
McKinley-Darragh	84,630
La Rose	84,740
Mining Corporation	173,820
Nipissing	129,695
Kerr Lake-Beaver	122,718
Total	724,523

WHEAT ADVANCED BUT CLOSED WEAK

Delay in Forcing Dardanelles Ostensible Reason for Early Bulge.

MORE PROFIT TAKING

Big Falling Off Looked for in Visible Supply—Oats Strong.

Canadian Press Despatch.

CHICAGO, March 13.—Assertions that much less progress had been made in forcing the Dardanelles than had been generally supposed, gave the wheat market today a sudden upturn. On account of sales to realize profits, however, the close was weak at a range ⅞c off to ⅝c up compared with last night. Corn gained ⅝c to 1c net, oats 1c to 1⅛c and provisions 5c to 12½c.

Notwithstanding that the market had an upward tendency at the start, no unusual advance in wheat values took place until an hour later, when Paris despatches were made public indicating that serious over-statements had been made as to the headway attained by the fleets assailing the defences of Constantinople. This hint of unlooked for delay in relenting the greatly desired wheat surplus now piled up in Russia had an immediate effect on the market here, the direct results being in some cases gains of more than 2c a bushel.

Light Foreign Buying.

European demand for cash wheat remained as urgent as heretofore, but the amount contracted for today was relatively small owing to the inability to obtain any large quantities in the west. The bulk of stocks at terminal points was said to have been already sold for shipment, and there was no disposition shown to part with any material remnant of the country's reserve. A big falling off was expected in the visible supply total on Monday.

Decreased receipts helped to make corn firm. So little arrived here that industries were compelled to draw on elevator stocks for current needs.

Excellent cash demand hoisted the oats market. A feature was the inquiry for deferred shipment, including June.

Provisions rose with hogs and grain. It was said packers were on the buying side of lard.

NOVA SCOTIA STEEL.

The Nova Scotia Steel Company has turned out its first shrapnel shell at its works in New Glasgow. Hitherto the shell bodies alone were being shipped to other Canadian points, where the parts were assembled and later they would pass to a third party for the placing of the explosives in the shell. Orders have been received to date for 100,000 shells.

DOMINION COAL.

Winter shipments of coal by the Dominion Coal Company to St. John, Boston and Everett, Mass., have continued so sadly to date this season. The corrected output from the collieries for the month of February was 263,978 tons.

MAKING LIQUID EXPLOSIVES.

Gangs of men are at work night and day rushing to completion construction on the new building in which the Dominion Iron and Steel Company will manufacture tulol, a liquid explosive, for which large contracts have been arranged with the Canadian Government. The agreement calls for the delivery of a minimum of six hundred gallons a day, which necessitates the installation of a plant of large capacity. It is hoped the plant will be turning out the product by the middle of next month. The crude material will be shipped from Sydney to one of the armories in Quebec, where it will be refined.

DOME MINES

We strongly advise the immediate purchase of this security. Persistent buying by American interests means decided advance in market price. This stock is the choice bargain of the Porcupine list, selling far below its real value.

We execute orders for cash or on a marginal basis of one-third of purchase price.
