LOCAL NEWS PARAGRAPHED.

The first story of the new town hall at Weston is finished.

Several Yonge street stores were lit up by the electric light last night.

The seventeen emigrants who lodged in No. 2 police station on Monday night have left for parts unknown.

At Weston the case of Wilby v. Firth, for malicious injury to the woollen factory machinery, was dismissed for want of evidence.

The workmen on the Ontario and Quebec railway commenced yesterday to rear the iron framework for the bridge across Smith's creek.

James Sheehan, who assaulted a man named Taylor on June 19 last, and has since been keeping out of the way of the police, was arrested last night by Policeman Burton.

J. W. Wingfield, J.P., Monday committed for trial John and William Hirris, owners of the fat-rendering factory in the township of York, on a charge of maintaining a nuisance.

Matthew Levi, aged 15, of 292 Queen street east, was arrested by Policeman J Cuddy yesterday afternoon on a charge of stealing a dozen silk handerchiefs from a York street furnishing store.

Mr. Denison took occasion yesterday at the police court to deplore the alarming amount of perjury that occurs there every day. It is a common thing to see two persons swear to directly opposite statements.

Miss McCutcheon, pianiste, well known to our readers, will give her first recital of the season at the piano warerooms of J. Suckling & Sons, Yonge street, on Monday evening next. A prominent vocalist will assist Miss McCutcheon.

The city streets was not illuminated with the electric light last night, as was expected. The constructing corps have been very busy the past few days in getting everything ready. The King street circuit will be lighted to-night and the Yonge street circuit to-morrow night.

The Exhibition ferry line have just hit upon a most desirable and needful service of steamboats, plying between the heart of the city and the fair grounds. There are five large boats, and the result is, no unpleasant waiting, comfort, speed and safety in traveling to and fro.

Four children, named Eliza Brown, Mary Smith, Mary Ann Conroy and Joseph Smith, between the ages of 12 and 16, were arrested yesterday by Detective Brown on a charge of breaking into the house of Mr. James S. Hughes, public school inspector, and stealing several jars of preserves.

Parties visiting the exhibition will do well to call and inspect the upholstering warerooms of J. F. Cummings & Co., 349 Yonge street, where you can select a handsome drawing room suite, double stuffed in hair and finished in the latest style for $75. We are positive you cannot do better elsewhere. They make a specialty of upholstering and engage none but first-class workmen.

Yesterday's Police Court.

Mr. Denison presided at the police court yesterday. Eleven drunks were discharged, and various fines were imposed upon five. Patrick Collins and Thos. Sullivan were fined $1 and costs for being disorderly. Edward Clark, charged with stealing a garden rake, pleaded not guilty, and elected to be tried summarily. His mother testified that he was a very bad boy, and he was sent down to the jail for three days. Philip Berger had threatened to kill a neighbor and was remanded till Sept. 17. John Walsh was charged with stealing $30 from Martin Mannigan. His trial will come off on Sept. 19. Two lads, Wm. Vulke and Wm. Bailey, were up for stealing scrap iron belonging to James French. Mr. French identified the iron as having been taken from the ruins of the old Royal opera house. The boys were discharged owing to their unsuspicious conduct in removing the iron in broad daylight. The lad Bailey was ordered to put the iron back where he found it. Vulke was subsequently brought up again on a charge of stealing a handkerchief and some other articles, but was again acquitted for lack of evidence. Jessie Brown by her to answer for sterling a table cover; she was remanded till Sept. 14. Frederick Wilson appeared to explain his conduct in assaulting his wife; he said it was but "a bit of a squabble," and the case was dismissed with costs. William and James Salmon were charged with throwing stones at William Thorne and with kicking his daughter. His worship fined William $4 and James $1. George Mussin, Henry E Stewart, William Jackson and Charles Thompson, alias Newell, all pleaded not guilty to the charge of vagrancy, and elected to be tried summarily. As the crown was not ready to proceed with their cases they were remanded till Sept. 18. A fat old gent named Archibald McDonald is apparently unacquainted with police court etiquette. He was pretty "fresh" and insisted on disturbing the equilibrium of the court by talking. When reprimanded he told the officer to mind his business, and when his worship ordered him out he refused to go and had to be gently assisted by a constable. He struggled till he was forced to the door, and Mr. Denison told him to come back which he refused to do, and struggled to get out. The irate individual was brought back to the bar and fined $10 and costs or 20 days imprisonment for contempt of court.

"Nasal Respiration."

We should always breathe through the nostrils and not by the mouth, as the latter tends to weaken the lungs and produce inflammation of the throat and bronchial tubes. If you have already contracted any disease of the respiratory tract such as laryngitis, bronchitis, catarrh, asthma, consumption or catarrhal deafness which is produced by catarrh, you should at once consult the surgeons of the International Throat and Lung Institute who make a specialty of these diseases and who use the spirometer invented by Dr. M. Souvielle of Paris, ex-aide surgeon of the French army, the only instrument by which medicated air can be conveyed to the lungs through the nasal passages and without the aid of heat. Hundreds suffering from diseases of the lungs and throat are being cured monthly by these surgeons, who without the aid of this new and wonderful instrument the spirometer would certainly die.

This great institution which is daily increasing its magnitude now has 58 physicians and surgeons connected therewith and offices in London, Eng., Montreal, P. Q., Toronto, Ont., Detroit, Mich., and Winnipeg, Man.

Physicians and sufferers are invited to try the instruments at the office free of charge.

Persons unable to visit the institute can be successfully treated by letter addressed to the International Throat and Lung Institute, 13 Philips' square, Montreal, or 173 Church street, Toronto, where French and English specialists are in charge.

Humboldt placed the number of existing volcanoes at 407, of which 225 have been active within a century. Later estimates credit the Indian Archipelago with over 900.
