Rivers and Philipsburgh, at the latter station replacing the 1st Provincial Regiment, which is to be disbanded on the 30th April next, when its term of service expires.

The 14th Regiment, now stationed at Kingston, will take the place of the 89th, at Amherstburgh; the latter corps, with the 1st Royals, constituting the Garrison of London.

The 83d Light Infantry, (now at Toronto and Kingston), the 70th Regiment (now at Laprairie and Isle aux Noix), and the 71st Light Infantry (from St. Johns) will form the Garrison of Montreal.

In addition to the 23d Fusiliers from Montreal, the left wing of the 93d Highlanders, now at Toronto, will be stationed at Kingston.

The 83d Regiment (now at London) and the head quarters of the 93d, will form the Garrison of Toronto.

The other Cavalry and Infantry Regiments in this command, will continue to occupy their present quarters; and the various Volunteer Corps (horse and foot) throughout the different sections of the Province, (with the exception of Lieut. Col. Dyer's above alluded to,) are to be maintained, we understand, on their present establishment.

MONTREAL, Feb. 11th.—Yesterday was a day of great rejoicing, being the anniversary of many important epochs in Canadian history, and the day appointed for the celebration of the Birth of the Infant Prince. In the forenoon, there was a very fine procession of the scholars of several schools, who, with banners and music, walked round the city, in testimony to the feelings of loyalty inculcated upon the rising generation. The little fellows seemed highly pleased with the part assigned them in the succession of fetes and feasts which have marked this interesting occasion.

In the afternoon, the fire companies recently organized, had a field day, and paraded the streets, in procession, headed by a band of music. The gallant array passed through many of the principal streets, and by the ease of their evolutions, and the scientific manner in which the engines were managed and manœuvred, gave promise of great efficiency, should our city be so unfortunate, which occasionally happens, as to require their professional aid.

In the evening the inhabitants of the Island city, and of miles around it, were gratified by a display of fireworks such as, we imagine, never before was witnessed in Canada. The ice, in front of the city, was in a blaze from about seven until ten o'clock, when the bonfire, prepared for the occasion, was almost altogether consumed. The panses were filled in by martial music; and the booming of artillery gave to the scene somewhat of the appearance of a battle by night—with the exception that, instead of shrieks and groans, cheers and exclamations of delight rose frequently on the air.

MONTREAL, Feb. 12th.—We understand that an individual named George Whelan, was this day tried under the Ordinance 2nd Vict. chap. 16, and convicted, before Charles Tait, John Dyde and Henry Driscoll, Esquires, three of Her Majesty's Justices of the Peace, of having, in this city, on the 9th inst., endeavoured to persuade one William Halliday, private of the 74th Regiment, to desert. He was sentenced to pay a fine of £40 sterling, and to stand committed to the Common Jail for the space of six calendar months, and so long afterwards as the said fine shall remain unpaid.

BROCKVILLE, Feb. 10.—The weather for about a fortnight up to Monday last has been uncommonly mild for this season. On the night of the 4th we had lightning and thunder, and the snow almost all disappeared. It has, however, been cold since Monday, and we have had a slight fall of snow and sleighs are again moving, though the roads are bad.

At Wallace, N. S. on the 1st inst. seven persons broke through the ice, while assisting to get a horse out. By the immediate assistance of a number of individuals with ropes, planks, &c., they were all rescued from their perilous situation; though not before two or three of them were almost exhausted, and had received considerable injury by getting entangled in the harness under water. While they were being extricated from their perilous situation, the cries of the persons in the water, and of their friends on the ice, were heart-rendering in the extreme.

BERMUDA, January 25.—Arrived on Wednesday last, H. M. S. Pique, Captain Forbes, from Plymouth, from which place she sailed on the 9th of December. There had five cases of small pox occurred on board the Pique during the passage, three of which terminated fatally.—The P. was placed in quarantine on her arrival, but in consequence of no case having appeared since the 12th instant, the Quarantine restrictions have, to a certain extent, been removed.

FIGHTING IN VENEZUELA.—By an arrival at New Orleans, from Kingston, Jamaica, late dates from Carthagena have been received. In consequence of some outrages on British subjects and their property by Carmona, the leader of the revolters, under pretence of enforcing his blockade, several persons were flogged and taken out to be shot, and several vessels plundered.

The Charybdis brig of war, was ordered to sail from Jamaica to examine into the matter. The news is, that on her arrival at Carthagena she was fired upon by two Carthagenian brigs of war, and several gun boats, &c. The Charybdis thereupon cast anchor and commenced her defence; and the result of the action was, the two Venezulian ships were sunk, and the Admiral, with a large number of men killed. The Charybdis lost four men killed in the engagement, and was considerably injured in her upper works.

THE MEXICAN SCHOONERS.—The armed schooner Liberty, Capt. W. H. Howard, from New-York, was totally lost on the 21st ult. off Stirrup Keys, in the Bahamas. The crew escaped with their lives. The Liberty was one of the fine schooners lately built at New-York for the Mexican Navy, and was insured in that city for $34,000.

The Haverhill Gazette says, the wife of Mr. Abijah Kelley of that town, was found on Thursday last, in the fire-place, quite dead. She had probably fallen while employed about the fire in a state of intoxication. She was first discovered by her daughter, when she was entirely dead, and her head, face, breast and arms were literally roasted. A bottle and tin pail, partially filled with rum, were found in the room, and she had been seen but a few hours before in a state of intoxication, coming from a neighbouring grog-shop with the tin pail in her hand.

GREGAN DEAD.—Gregan, the patriot, whose seizure by the British in Vermont, and imprisonment in Montreal, last fall, caused so much noise, died at Champlain, N. Y., on the 7th of January.

ATTEMPTED INSURRECTION IN PONCE, P. R.—Capt. Pierce, of schooner Pearl, arrived at Norfolk on Saturday week from Ponce, (P. R.) states that the negroes of that Island contemplated a revolt, which was to have taken place on Christmas night. The intention of the insurrectionists was discovered previous to that night, and a large number of them were arrested. They have been tried, and three were shot, and several received two hundred lashes and sent to the chain galleys for life, on the day previous to the departure of Capt. Pierce.

AN UNNATURAL ELOPEMENT.—The New York Express says, that a young Miss, in her 14th year, from the West, perhaps the richest heiress in the whole West, whose property, too, was in her own right, recently left that city for Liverpool, with a man aged about 60. The young lady was left by her father at a boarding school, near the city, where the gentleman became acquainted with her, and it is believed that a marriage ceremony was performed before they left.

The young lady referred to is Miss Emily Croghan, the daughter of a Mr Croghan, of one of the western States, who has been an Indian agent in the service of the government.—Her uncle is the celebrated hero of Sandusky, Col. Croghan, of the U. S. army. Her father is now in Washington. She is the heiress it is said, of *half a million of dollars!* The affair has produced a great excitement in fashionable circles, and execrations are, of course, thrown out at random upon all parties concerned.

DISTRESSING CASE OF DROWNING.—A young woman, with a child in her arms, fell through a broken place in Craig's bridge, Boston, on Monday week, and both were drowned. Some persons at the Toll House heard her screams, as the unfortunate woman went over into the water, and boats were got out with all speed; but the distance of her fall being great, she probably sunk deep and suffocated immediately, and the body floating with the stream, it was a long time before it could be found. The poor woman, it would seem, lost her hold of the child, either in the fall or the struggles afterwards, as the bodies were found in different places. The woman was quite dead, but the child opened its eyes and gasped several times. Both of them were floating.

ST. PAUL'S, LONDON.—The height of the cross surmounting the dome of St. Paul's, is thirty feet; diameter of the ball, six feet. The weight of the ball is five thousand six hundred pounds, and that of the cross, three thousand six hundred. The dial of the clock is eight feet ten inches in diameter, the length of the minute is eight feet, and that of the hour hand is five feet five inches.

THE PORTUGUESE SLAVE TRADE.—The following is an extract of a letter from an officer on board her Majesty's ship Acorn:—

"St. Helena, 4th Sept. 1841.

"On our passage here from Rio Janeiro, when about half way across, a sail was reported one morning at daylight, and chase was immediately given, the stranger also making sail, and putting before the wind, which looked very suspicious. At about 8 o'clock we neared him considerably and fired a blank gun, and hoisted our colours—no answer!—At ten o'clock we were closing her fast, and observing it was a shaver with slaves on board, fired several shots over her, which at last made her hoist Portuguese colours, and round to. On getting alongside of her, and when in the act of hoisting out and lowering our boats the villainous captain put his helm up and ran on board of us. Luckily we were too quick for him in making sail again, so sustained no damage. I was the first on board, and such a sight I never saw before, and hope never to see again.—first, one of their crew lying shot through the shoulder and nobody caring for him in the least; secondly the captain two-thards drunk, and very abusive and insolent; and last though not least, about 530 poor creatures crowded in stween decks, where they could just sit upright. The smell and sight of their poor emaciated bodies was dreadful, and although only 14 days out 22 had died of small pox, and 20 others had it also, indeed so reduced were they, that it was difficult to decide at a glance the sex of the poor women and girls, not a vestige of breast or feature remaining by which to distinguish them. Two or three of them were lifted with the greatest ease with one hand. Such a horrible sight I never saw. We sent the slaver (the Anna by name) the same evening to Rio for condemnation."
