ABSTRACT TABLE OF STATISTICS OF CONGREGATIONAL CHURCHES IN CANADA,

From 7th May, 1854, to 7th May, 1855.

This Table embraces the period from 7th May, 1854, to 7th May, 1855; the only exception is, that the names of Ministers where recent settlements have taken place are given to a later period.

The numbers given under "No. of hearers," denote the whole congregation absent or present at any time; also, old and young.

Those marked * are churches who did not report, and whose statistics as given, were taken from last year's reports, or from other sources.
