Analysis of the Water of the Georgian Spring.

I have made a careful quantitative analysis of a quantity of this Water sent me by the Proprietor of the Spring, Captain Kains. It is a Saline Water, containing earthy Chloride, with portions of Bromide and Iodide, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Sulphates, which are not often met with in Waters of the class in the Province. It has a specific gravity of 1008.78, and contains in one pound avoirdupois, the annexed quantities of the following substances:—

| | Grains. |
|---|---|
| Chloid of Sodium | 66.2200 |
| Chloid of Potassium | .7280 |
| Chloid of Calcium | .3103 |
| Chloid of Magnesium | 3.4592 |
| Bromid of Magnesium | .0206 |
| Iodid of Magnesium | .0174 |
| Sulphate of Soda | 1.3504 |
| Carbonate of Lime | 2.0859 |
| Carbonate of Magnesia | 2.5416 |
| Carbonate of Iron | Trace |

R. R. R.
THE PROPHECY FULFILLED.

IN the month of August, 1849, we promised to the world that we would produce a medicine that would instantly stop the most severe pangs of pain, and quickly remove its cause.

We proposed to Hospitals, and all other Institutions for the reception of the sick; to Physicians, Surgeons, and all Medical Institutions and Bodies, to produce our Remedy Relief for their investigation, and to illustrate its merits and marvellous power over pain on the patients.

We claimed that in a short time, in a few minutes, the most severe Cramps and Spasms—it would arrest the progress of that dread disease, the Cholera—that in a few minutes it would change the hard, knotty, cold, and lifeless body, to warmth, vitality, and vigor.

That in a few minutes it would relieve the most severe pains in the bowels, that in fifteen minutes it would stop all painful and diarrhœic disposition, will restore a genial warmth to every organ and secretion of the body; that it would positively relieve the most severe and dangerous, the pains of sick and nervous headache in fifteen minutes, and effectually cure this distressing complaint.

That it would in an instant mitigate the cruel pangs of Neuralgic pains, and permanently cure this excruciating affliction. That it would stop the most tormenting toothache in a few seconds.

That it would relieve all Rheumatic pains in fifteen minutes, and cure many Chronic cases of Rheumatism in a few hours.

That it possessed a miraculous soothing and relieving influence over all pains originating from Rheumatic, Neuralgic, Nervous, and Bilious complaints, and that the most severe suffering, the most excruciating tortures, would feel its soothing influence in a few minutes.

The world was astonished at the publication of our discovery. The wise sayings of Medical Science shook their heads in doubt. The sick and suffering hoped against hope, dared that like other remedies, it would cure quicker on paper than by practical experimental demonstration. They said it was the most excruciating pains, at once determined to try it; the consequence was, that from all parts of the country, city, town, and village, in the State of New York, we were the daily recipients of orders for our extraordinary remedy. The prophecy told it was found it good; the most torturing pains were mitigated, weak and feeble victims of Rheumatism, who had been bedridden for years, were suddenly relieved from pain and restored to health. So with the sufferers of Neuralgia, Sick and Nervous Headache, Chill Fever, Diarrhœa, Cramps, Spasms, Cholera Morbus, and, in fact, all pains, the said disturbing Acute complaints, were suddenly relieved from the tortures, and restored to health. So fame spread from city to city, the people spoke of the wonderful virtues far and wide, and over the earth has run our yearly course.

FIVE MILLION BOTTLES WERE SOLD!

In every town in Maine, New Hampshire, Vermont, Rhode Island, Massachusetts, Connecticut, New York, and Ohio; in Michigan, Wisconsin, Illinois, Indiana, Missouri; the people have tested its merits, and proclaimed it a subjugator against disease, and a quick antidote for all pains. In New Jersey, Pennsylvania, Virginia, Maryland, Delaware, the Carolinas, Georgia, Alabama, and Louisiana—in every town in each State it has made friends, and poured its efficacy.

TO THOSE WHO KNOW NOTHING OF IT.

If you are unacquainted with the merits of Radway's Ready Relief, and if you reside in any portion of the States not been disappointed in the result, I have found it one of the most valuable of Medicinal Waters that I have ever prescribed. I consider it highly advantageous in most cases of Rheumatism, Dyspepsia, and many other chronic complaints. I consider it a valuable aperient in Constipation of the bowels, caused by Sedentary Habits or Old Age. It will be found extremely prompt, and of salutary operation; and it is likewise a most valuable remedy for many diseases peculiar to women. I have also spoken highly effects from its employment in allaying the inordinate thirst of Fevers, producing beneficial results from its Tonic and Laxative operation, and I have no doubt it will be found equally useful in removing and scouring that extreme thirst in hot weather, which, by gratifying with ordinary drinks, so debilitates and overtaxes people generally. Yours, &c.

CRAMP AND PAIN-KILLER.

THE MOST SUCCESSFUL REMEDY KNOWN For the Cure of all Rheumatic Affections—Pain in the Stomach, Back, Side or Limbs—Stitches in the Back, Side or Limbs—Cramp in the Limbs or Stomach—Shorting Pains, Bilious Cholic, Dysentery and Diarrhœa, Colds and Sore Throat, all cases of Local Inflammation—Cuts, Wounds, Bruises, Headache, Toothache, Burns, Scalds, Frozen Limbs, &c., &c.

THIS wonderful Medicine has effected many truly surprising cures in cases of the foregoing complaints. And we say no more than hundreds and thousands who have used it will assert, when we say there is no Medicine designed for that class of complaints, possessing more than a tithe of the power to relieve and cure of this.

We solicit particular attention to the fact that it does not contain a particle of Opium in any form. Neither does it contain Camphor.

It is free from any deleterious article, and cannot, in any supposable case, injure the patient.

It does not deaden the *Life Faculties*, nor produce the burning, drying, parching sensations, so much complained of in the use of other "Pain Killers."

It does not weaken the prostatic action of the bowels, producing *Costiveness* and its attendant evils, but is a preventive of Costiveness, and of proper and healthy action in the stomach and intestine canal.

IN ALL RHEUMATIC AFFECTIONS,

Local Pains, &c., it has proved *our triangle* successful, rarely failing to cure, even in the most desperate and long standing cases. (See Certificate.) In three cases, the parts affected should be freely bathed, and then rubbed lightly, but briskly, for some time, and then bathed freely, and an application is produced on the surface, and in severe cases the patient should take half a teaspoonful on sugar or molasses.

CRAMP IN THE STOMACH OR BILIOUS CHOLIC.

We believe it will never fail to *speedily cure*. It should be a teaspoonful at a time, on sugar or molasses, or in any manner the patient can take it best, and the stomach and bowels freely bathed, and if in fifteen or twenty minutes the patient does not feel relief, repeat the dose.

DYSENTERY OR DIARRHŒA.

Are speedily and easily cured by it. It should be given a teaspoonful at a time, once in an hour or two, or oftener in severe cases, and bathe the stomach and bowels with the same.

EVEN THE CHOLERA.

Which during the past year has swept off such fearful numbers, has been cured by it. We believe in every case; where it has been early and faithfully applied. In Bangor, where it proved so globally virulent, it was found to yield to this remedy, and CURTIS & PERKINS' *CRAMP AND PAIN KILLER*, was the Medicine recommended by the first Physicians, and by the Press, as the first, the surest remedy to be used.

As a dressing for *Cuts, Wounds, Bruises, &c.*, it is without a rival. As also in cases of *Burns, Scalds, Frozen, &c.*—relieving the pain and healing without scar.

FOR TOOTHACHE:

It is, nine times out of ten, a *CURE*. We believe it will never fail, unless the tooth is decayed. If the tooth is hollow, saturate a little lint and put into the cavity. Hold some of it in the mouth. If the face is swollen bathe with it.

Bathing the head with it is generally a cure for the *Headache*.

We are constantly receiving certificates from every part of the country, many of which may be seen in newspapers, and in pamphlets, which may be obtained of any our agents.

P. S.—It is the best *HORSE AND OX LINIMENT* in the world.

Please read the following testimonial from John Buckham, Esq., of Belmont, Me.:—

BELMONT, July 11, 1848.

*Messrs. Curtis & Perkins.*—For two years past I have been entirely prostrated with the Rheumatism; both of my knees were swollen to the size of a pumpkin; the joints of my ankles came out on my breast bone, spreading like a part of the bone thrown out. Another bone was thrown out of my wrist. In short, I endured the most excruciating pains for nearly three years. I obtained the best medical attendance the country afforded, and tried a great number of medicines and prescriptions without the least benefit or alleviation, which I ind the good fortune to procure a bottle of Cramp and Pain Killer, prepared by Messrs. Curtis & Perkins, of Belmont. Soon after taking it I found I would get some rest nights, and the pain became less violent. I have continued to take it and apply it externally, until I have not eight better, I took much larger quantities than was recommended.—The swelling has all gone down both in my limbs and breast, and I am entirely relieved from pain. I have been able to do a good day's work at any time for the last three months, for a month my age. No description of my case can convey the vast amount of benefit I have received from this article. I believe it is the best article in the world for Rheumatism, and always found immediate relief.

THIS GALVANIC EMBROCATION is an unparalleled remedy for the Cure of Rheumatism, Arrents or Chronic, seated in the Head, Joints or Limbs, The Disease Ague in the Breast, Pleurisy, Pain, Fit, Jaundice or King's Evil, Spasms and Hip Complaints, Stiffness of the Joints, Lumbago, Neuralgia, Chilblains, Fever Sores, Salt Rheum, Ring Worms, White Swellings, Tumors of the Skin, E. mpelas, Goitre or Thick Neck. It is likewise highly recommended in the most obstinate cases of Scrofula and Scrofulous Affections of the Neck, Affections of the Spine, Mercurial Affections, &c. &c., &c.

It is now generally adopted by the learned, and scientific, that the mysterious power called *Galvanism or Magnetism* is in fact the principle of Vitality of life, and that disease in many of its most painful forms is entirely owing to the absence of this fluid, or Magnetic power in the healthy proportions. If, then, we can readily supply this wonderful power, when it is thus deficient, we can successfully combat disease; and this has been fully and perfectly attained by this most wonderful scientific discovery of combining Magnetism or Galvanism with a Fluid which has cost the inventor of this remedy years of study and labor.

There is not an intelligent Physician, who has kept pace with the progress of science, that does not readily approve of the use of the Magnetic power in various diseases, and there is scarcely a Medical Journal, either in this country or Europe, which makes its appearance, without the statement of various cases, showing some new effects of these wonderful agents, or corroborating previous experiences of their beneficial effects. The inventor of the *Galvanic Embrocation* has great pleasure in being able to state, that a majority of the most distinguished Physicians of New York constantly recommend this Embrocation in their practice, and from many of them he has received the kindest testimonials of approval and commendation.

THE LAST GRAND DISCOVERY!

ALAS for the poor PLANTAGENET WATER!—It has not only to bear its own sins, (if it has any,) but the sins of all other Springs, whether up the river or down the river, whether fresh or salt, sweet or bitter,—no matter where,—they must all rise into fame on the reputation of the Plantagenet Water. This fact discovery comes from Georgian Lake, via St. Albans, or rather gets to Europe by this route. It appears that, by the agency of a most "learned pundit," a notable "analysis" has been furnished of the Georgian Spring Water, which, it is said to "contain all the ingredients found in the Plantagenet," only with the addition of something else, and a nourishing disproportion of quantities. On this principle, we take a cabbage contains all the ingredients found in a pumpkin, with the addition of onions, of something else, and a nourishing disproportion in the quantities! Certain it is that Georgian is not the Plantagenet, and was never yet mistaken for it. If it has to use the *Diamond* as a test, it will be proved that it would have remained for twenty years in Stephen's cellar, but that the sale of the bottle, commenced at the old majority of 7. There was such an analysis, and it might be instructive to see it how much further was Paris in that? Perhaps it was the wonderful discovery of iodine which led Mr. Kain to sell the surplus of establishment of George to Mr. Tucker, Professions, Magnesium, Chloride, Sulphuric Iodine, and all. The user, that the new analysis is only a revision of the new agency; a good "Bow-man" likes to have two arrows to his bow, and the famous Plantagenet Spring is a capital mark.

We beg to call attention to the unsolicited certificate of the efficacy of the Plantagenet, which is coming into more extensive use every day. See the Advertisement.

Rheumatism, Bronchitis and Dyspepsia

REV. DR. LANDIS, A CLERGYMAN

of New Jersey, of distinguished attainments and unsullied reputation:—

SIDNEY, New Jersey, July 12, 1848.

Dr. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about *twenty years* I had been suffering from Dyspepsia. Every year the symptoms became worse nor could I obtain permanent relief from any course I became addicted to a severe Chronic Rheumatism, which for year after year, caused me inconceivable anguish. Further: in the winter of '48 and '49, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system soon was thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—these disorders were connected with the medium of the Nervous System, accompanied these sensations which could reach and recuperate anything that I had tried for years, failed. At last I was led to your invaluable, and (though I say it of their efficiency,) I speak of the application of the GALVANIC NECKLACE, with the results was in June, 1848. To my own surprise and astonishment, I was enabled to retrace my steps, and I have since continued to use the BELT and FLUID to which I am likewise suffering from Rheumatic affections. They have tried them, with many others, I assure, in every case.

I am, dear sir, very respectfully yours,

ROBERT W. LANDIS.
