English Markets.

WEDNESDAY, Nov. 12.

London—Floating cargoes—Wheat, very dull; maize, steady; cargoes on passage—Wheat and maize, inactive. Mark Lane—Wheat and maize, heavy; good cargoes red winter wheat, off the coast, was 54s, now 53s; good cargoes California wheat, off the coast, was 55s, now 54s 6d; good cargoes No. 2 spring wheat, off the coast, was 51s, now 50s 6d to 51s. London—Fair shipping California wheat, just shipped, unchanged at 55s; nearly due was 55s, now 54s. English country markets—Generally cheaper; French, quiet. Imports into the United Kingdom the past week—Wheat, 320,000 to 325,000 qrs.; maize, 60,000 to 65,000 qrs.; flour, 135,000 to 140,000 bbls. Liverpool—Wheat, on the spot, inactive; California, average, red winter, and white Michigan, 1d cheaper; spring, 9s 2d to 11s 1d for new No. 3 spring and No. 2; lowest and highest price of maize, ½d cheaper.

WEEKLY REVIEW OF TORONTO WHOLESALE MARKETS.

WEDNESDAY, November 12.

PRODUCE.

Dullness, inactivity, and weakness have been the predominant features of the market since our last, though in one or two sorts of grain a somewhat different tendency has been manifested. There have been scarcely any orders for shipment in the market, and the fact that prices have been above the shipping point, settles that either prices must advance outside or decline here before any improvement can be expected. At present chances seem decidedly in favour of the latter alternative; but holders are by no means inclined to think so. Offerings have been very small and the few made only at slight concessions. Stocks have been increasing in most cases, and stood on Monday as follows:—Flour, 9,100 bbls; fall wheat, 160,348 bushels; spring wheat, 112,479 bushels; oats, 1,340 bushels; barley, 341,443 bushels; peas, 20,806 bushels; and rye, 13,761 bushels. Outside markets have been unsettled and declining. English quotations show a fall of 2d on red wheat, of 5d on red winter, of 2d on white and club, of 5d on peas, of 1d on corn, and of 6d on flour. Markets were very dull to-day both in the country and for cargoes, and prices of the latter have been declining for two days past; indeed, the dullness and inactivity set in, and have steadily continued, since the latter part of last week. Further cable advices to the 3rd inst. state that a good deal of English wheat was being thrashed with results fully confirming the shortness of the crop. The condition of the bulk of the wheat which was offered for sale during the preceding week, owing to the pressing pecuniary needs of farmers, was anything but good. Really sound grain, fit for milling or sowing, was comparatively rare, and was unaffected by the decline of 1s to 2s per quarter, which was generally quoted. Trade was very quiet throughout the week, with only a moderate consumptive demand. Speculators were anxious to realize, and prices receded about 1s per quarter for all descriptions of foreign wheat. Indian wheat was arriving more freely, and attracted a fair share of attention, though the activity therein was expected to be less marked than in 1876, when the large arrivals very sensibly interfered with the sale of Russian and American descriptions. The supplies in English markets have been very large. The imports into the United Kingdom during the week ending October 25, were 1,608,837 hundred-weight of wheat, and 207,175 hundred-weight of flour; being equal to about 494,500 quarters of wheat. The home deliveries in the United Kingdom during the same week were about 142,500 qrs. And the total supply thus seems to have been equal to about 637,000 quarters of wheat which is at least 200,000 quarters in excess of the usual weekly consumption. The chances also seem to be in favour of large supplies being maintained for some time to come; for the deliveries of home-grown wheat have thus far been barely one-third of those in the corresponding period last year, and the quantity in transit has continued steadily to increase. The amount of wheat and flour in transit on the 4th inst., was equal to 2,557,000 quarters, against 2,205,000 on the 23rd ult., and 1,440,000 quarters at the corresponding date last year. The approximate quantity of grain on passage for the United Kingdom for orders, expected to arrive during the four weeks from Oct. 23 to Nov. 20, is:—Wheat, 395,000 quarters, comprising *nil* quarters from the Danube and Black Sea; 295,000 quarters from Atlantic ports; 70,000 quarters from California, and 80,000 quarters from Chili and Australia, along with 132,000 quarters of corn, all from American Atlantic ports. It is to these large supplies, both present and perspective, that the late weakness in prices has been due; and so long as these immense supplies can be offered the weakness will not fall to be continued. But with home deliveries during the current harvest year not likely to exceed eight million quarters, and a consumption reaching to 23 to 24 million quarters, leaving 16 to 17 millions to be imported; and with an almost unexampled demand for breadstuffs in western Europe—where the wants of France are estimated by some as high as 10 million quarters—it seems to us highly improbable that any such excess of supply as has lately existed can be very long maintained. Mail advices to the 27th ult. state that French markets had been poorly supplied during the previous week, and prices had improved in 71 out of 86 markets whence reports had been received. Continued animation and a further advance in prices has marked the course of the trade at Paris for both wheat and rye, while flour has been held with great firmness. Considerable animation has prevailed in the ports. At Bordeaux native wheat has sold freely at equal to 61s 6d per 480 lbs, while American has found buyers at the same quotation. At Havre prices have been steadily rising, the latest quotation for red winter American being 62s 9d per 480 lbs, free on rail. At Marseilles there has been a large demand for wheat, both for consumption and speculation, and about 180,000 qrs have changed hands. Prices have advanced 2f in about ten days. In Germany the weather was cold and wintry. At Berlin wheat was in active request, both on spot and for forward delivery, at an advance of 5 to 7 marks; but there has been less activity in rye, as the arrivals continue on a liberal scale. At Hamburg a good business has been passing in wheat for exportation to England, France, and Belgium, at 3s. per qr. more money than was obtainable last week. Fine qualities of German wheat are said to be very scarce. The best white Saale and Polish is quoted at 58s. to 59s., fine yellow Mecklenburg and Saale at 56s. 6d., and common new Holstein at 52s. 6d. to 55s. 6d. per 504 lbs., free on board. All descriptions of malting barley have advanced in value, and a good trade has been done. Peas have been actively inquired for, but the offerings have been small, as this year's crop has proved quite a failure. At Danzig the supply of wheat has been irregular and frequently insufficient for the demand, which has been active, and values have risen rapidly in response to the rise in London and New York. At the close of the week business was a good deal checked by the extreme views of sellers, and buyers strenuously resisted any further advance. Austro-Hungarian markets also seem to have been tending upwards. Russian advices report shipments of wheat for the United Kingdom still small. There were on passage Oct. 21 from America in sailing ships bound for the Continent, 1,249,500 qrs. of wheat, comprising 878,700 qrs. for France, 173,000 qrs. for Belgium, 69,300 qrs. for Holland, 58,800 qrs. for Spain and Portugal, 76,000 qrs. for other countries. Advices from Alexandria report the previous animation in grain to have been succeeded by a quieter tone, and the upward movement to have been arrested, especially for contracts for forward delivery. A further advance was asked for the finer sorts of wheat, but little business resulted, the demand having been restricted by the high level of prices. On this continent markets have been irregular and unsettled. The first cause of this has been the weakness in English markets, and the second the fact that States' markets have been far above the shipping point all over, and governed generally by speculators. At New York, in order to prevent a break in the market, they have been compelled to take up the bulk of the spot offerings which they have found extremely difficult in the stringent condition of the money market. It is said that the quantity of No. 2 red sold for December is immense, and it is very plain that are the middle of that month a few houses will control nearly all of this grade in market. In western markets immense receipts and a continued increase of the visible supply are making the talk of the "bulls" exceedingly difficult; but it is expected that farmers will shortly come to their aid with decreased deliveries. The visible supply of grain, comprising the stocks in granary in the principal points of accumulation at lake and seaboard ports, and the rail shipments from Western lake and river ports:—

FLOUR—The dullness and inactivity prevalent have been almost unexampled; scarcely any enquiry has been heard for anything. Prices have been declining. There was one lot of superior extra sold on Wednesday last at $5.63 f.o.c., but the same grade was offered on Tuesday at $5.50 without buyers, and yesterday it was again offered at $5.40 with $5.25, bid and we should say that certainly no more than $5.30 could have been obtained. Other grades have been neither offered nor wanted, and our quotations must be regarded as purely nominal.

BRAN—Seems rather easier and has sold at $3 on track.

OATMEAL—Has been fairly steady; car-lots sold about the close of last week at $4.30 and $4.35 and we should say that the same prices would have been repeated to-day. Small lots unchanged at $4.50 to $4.75.

WHEAT—The market has been dull and inactive, at declining prices, with the enquiry very slack. No. 2 fall sold in cargo lots at outside points, on Saturday, at equal to $1.22 here Spring has been inactive and neglected, with no sales reported through the week. The market to-day showed no improvement whatever. No. 2 fall would probably have found buyers at $1.20, but holders were not down to this price; for a single car of No. 1 spring $1.22 was bid, but for lots there was no demand, and we should say that they would not have brought over $1.20 for No. 1, or $1.18 for No. 2, if pressed on the market. On the street fall has sold at $1.19 to $1.21, and spring at $1.16 to $1.21.

OATS—Have been scarce and wanted at advancing prices. Sales were made on Friday at 34 and 35c for cars on track, and on Saturday at 35c, while the same price was freely bid on Tuesday with none to be had. The upward movement was maintained to-day when a car sold at 36c on track, with more wanted at the same price. Street price 36c.

BARLEY—The market has been fairly active, but the tendency of prices rather unsettled. No. 1 has been steady, with sales of car lots on Saturday and Monday at 71c f.o.c. No. 2 has been rather easier; it sold on Friday in car lots at 65c and 66c f.o.c.; on Saturday at 63½c for cars and 63c for a choice cargo; on Monday at 63c for cars, and on Tuesday at 63c for round lots, all f.o.c. Extra No. 3 has been steady with sales of cars at 56 and 57c on Saturday; at 57c on Monday and Tuesday f.o.c. No. 3 sold at 50c for cars f.o.c., on Saturday; at 47c for cars on track on Monday, and at 51c f.o.c. for a round lot on Tuesday. There was no movement reported to-day, but former prices would probably have been repeated, though No. 2 was offered at 64c with no bids. Street receipts small with prices ranging from 50 to 70c, average qualities bringing 57 to 60c.

PEAS—Have been unsettled and weak; one sale of a car of No. 2 was made last week at 65c f.o.c., but on Tuesday the same grade was offered at 65c, with no bids; but to-day a cargo of this grade was sold at 66c f.o.b., with cars offering as before and not taken. Street prices lower at 55 to 64c.

RYE—Rather easier and selling at about 71c on street, cars seem to be worth about 70c but no sales reported.

HAY—Pressed has been quiet and weak, but has sold at $10.00 on track. Receipts on the market were large in the latter part of last week, and have since been sufficient with prices weak at $7 to $10.50, and the general run from $8 to $9 per ton.

STRAW—The supply has been small, and all readily taken at former prices; oat and rye in sheaves have ranged from $6 to $7.50; no loose offering, but probably worth about $5.

POTATOES—Cars have sold much as before, at 50 to 52c for early rose on track. Street receipts have been fair, but all wanted and readily taken at from 60 to 65c per bag.

APPLES—Have shown no change; they have been in fair supply, and selling steadily at from $1 to $1.75 per barrel, according to quality, with all offering wanted, and the great bulk going about $1.25.

MUTTON—All offering has been readily taken at $5.00 to $6 per cental, the latter price for good lamb only.

POULTRY—Has come in with a rush, and come down with a crash. Fowl have sold at 25 to 40c; ducks at 40 to 55c; geese at 35 to 45c, and turkeys at 60c to $1 at farmer's wagons. Box lots have also been arriving freely, and have sold at 4 to 6c per lb for fowl and geese, and 7 to 8 for turkeys and ducks.

PRODUCE.

Fruit, Provisions, Etc.

CONSIGNMENTS SOLICITED.

Highest prices realized. Drafts on London promptly remitted. Advances against Bills Lading if desired.

The Village of Haliburton is the terminus of the Victoria Railway, by which means direct communication is established with the best markets East and West. The Township of Dysart is well settled, and there are other flourishing settlements in other Townships the property of the Company.

GOOD ROADS IN ALL DIRECTIONS.

Apply to

C. J. BLOMFIELD, Manager, C. L. & E. C., Haliburton; or to

Messrs. W. & C. BAINES, Toronto street, Toronto. 375-52

MANITOBA AND THE NORTH-WEST.

FARMING LANDS FOR SALE.

The HUDSON'S BAY CO. have very large tracts of land in

THE GREAT FERTILE BELT

FOR SALE,

AND NOW OFFER

500,000 ACRES

IN THE

TOWNSHIPS

ALREADY SURVEYED.

They own two sections in each Township, and have in addition large numbers of farms for sale on the Red and Assiniboine rivers.

Splendid Prairie Farms, Grazing Land and Wood Lots.

Prices range from $3 to $6 per acre, according to location, &c.

Terms of payment remarkably easy.

Pamphlets giving full information about the country, and the lands for sale, can be had on application at the Company's office in Winnipeg and at Montreal.

C. J. BRYDGES,

Land Commissioner Hudson's Bay Co.

Montreal, Nov., 1879. 398-44

A Fortune Quickly Made.

Money has been made more rapidly within the last few months in Wall street than at any period since 1873. Immense profits have been realized from small investments. The following affidavit explains itself:

Personally appeared before me, George A. Payne, of 134 West 49th street, New York city, to me known, and, on being duly sworn, says that on an investment of $25 placed with Thatcher, Belmont & Co., bankers, and by them operated for a period of two weeks, I had returned to me by the said firm $972.53.

(Signed), GEO. A. PAYNE.

State of New York, City and County of New York, } ss.

Sworn before me this 22nd September, 1879.

J. B. NORRIS, Notary Public, 61 Duane street, N. Y.

Thatcher, Belmont & Co. accept subscribers on their 1 per cent. margin or in their concentration of capital, whereby a number of small sums, from $10 upwards, are aggregated and stocks operated. Latest Wall street information sent free upon application by Messrs. Thatcher, Belmont & Co., Bankers, P. O. Box 1,267, or 48 Broad street, New York. 398-13
