Advertising Cheats

"It has become so common to begin an article in an elegant, interesting style,

"Then run it into some advertisement, that we avoid all such,

"And simply call attention to the merits of Hop Bitters in as plain, honest terms as possible.

"To induce people

"To give them *one trial*, which so proves their value that they will never use anything else."

"THE REMEDY so favorably noticed in all the papers, Religious and secular, is

"Having a large sale, and is supplanting all other medicines.

"There is no denying the virtues of the hop plant, and the proprietors of Hop Bitters have shown great shrewdness and ability

"In compounding a medicine whose virtues are so palpable to every one's observation."

Did She Die?

"No!

"She lingered and suffered along, pining away all the time for years."

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery.

"From a complication of kidney, liver, rheumatic trouble and Nervous debility,

"Under the care of the best physicians,

"Who gave her disease various names,

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it." THE PARENTS.

STABBING IN THE DARK.

THE ENGLISH PRESS AT THEIR OLD WORK OF MANUFACTURING OUTRAGES.

DUBLIN, Sept. 18.—This time last year, when the land was ruled under the coercive provisions of the Crimes Act, there was an undeniable crop of agrarian outrages. At the present time some of the London papers are full of reports of similar disturbances, but they are vague and unauthenticated by locality, name of sufferer, or date of outrage. As an instance the *Morning Post* to-day says "boycotting is practised in Ireland to a greater extent than ever before." Then the *Post* goes on to say that it has been furnished with the details of several cases of boycotting, under a pledge to suppress the names of the persons and places for fear of a worse fate befalling the sufferers. I asked a prominent Nationalist what he thought of the statement. His reply was emphatic, "false, utterly false, and worse than that, it is stabbing us in the dark. It does not stand to reason that there should be an increase of boycotting or agrarian crimes at the present time, when it is the object of every Nationalist in the country to show the Imperial Government that we deserve the confidence reposed in us when the Crimes Act was withdrawn. I believe, and I have sources of information more reliable than are obtainable by any other London paper, that Ireland has not been so free from crime for years as during the past few months." I next consulted an officer of the constabulary. He said: "The recent reports from all the outlying constabulary posts indicate an absence of agrarian crime that is perfectly surprising. Of course, as long as landlords and middlemen rack-rent, hot-headed tenants will resort to retaliatory practices, and cattle are houghed, and barns burned, and will be till 'Tib's' eve; but bar these, and few at that, within my five years' experience the reports have not shown a cleaner record." Some of the Castle officials have had a fright, and are applying for police protection in consequence of information supplied by informers that two Nationalist emissaries, with evil intent, are in the city; but it is not believed there is any reason for alarm. Until the elections, I believe the peace of Ireland will be maintained. After that there are equal chances for a millenium or the deluge.

HEALY'S PLAIN TALK ABOUT LORD BANTRY.

DUBLIN, Sept. 18.—Mr. Healy's recent violent speech at Glengariff appears likely to get him into trouble because of his onslaught on the landlords and agents in the county of Kerry, and especially on the Earl of Bantry. "Now, I ask," said Healy, "who was Lord Bantry? He owns every foot of ground as far as the eye can reach, is a person who was drummed out of the British army for disgraceful conduct; a person of such low and miserable disposition, that, having enlisted as a common private in the Guards, had himself expelled by order of the commander-in-chief for being a ruffian. Such is the man who has exercised power and spread terror over the district for years past, and is one of England's sacred idols. It will be remembered that at one time Mr. Walsh and myself were arrested by Lord Bantry's agent, and that my lord had the audacity to sit upon the bench of magistrates, and send us off to prison. (Groans.) Although dismissed from the army Lord Bantry had been immediately appointed to the commission of the place. He is now unable to show his nose in the vicinity. He was in Australia bushwhacking while his agent here was carrying out his commands." Lord Ardilaun, late Sir Arthur Guinness, the brother-in-law of Lord Bantry, has written a letter to the newspapers which states that he has written to Mr Healy asking if he is correctly reported in what has been given about Lord Bantry. It is understood that Mr. Healy will be prosecuted for defamation

MORE SINNED AGAINST THAN SINNING.

THE HAGUE, Sept. 18.—The public prosecutor in the case of Jeanne Lorette, on trial for the murder of the Japanese consul, Sakurada, to-day demanded a sentence of ten years' servitude for the prisoner. The prisoner is only 21 and possessed of extraordinary beauty. She was the victim of assault at the age of 7, and her advocate urges in her defence that this misfortune necessarily affected her moral condition. After her mother's death her father neglected her altogether, and she was obliged to gain her living by teaching music. In the dock she betrays extreme nervousness and declares that her life has been broken, her family disgraced and that she has no desire to live. Considerable public sympathy has been awakened in her behalf by the publication of the facts of her career and her assertion that Sakurada promised to marry her.

RUMORED POSTPONEMENT OF THE BRITISH ELECTIONS.

LONDON, Sept. 18.—Parliament has been further prorogued until December 5th. This announcement caused considerable excitement in the clubs here, owing to a report that the Government intended to postpone the elections. Ministers state positively that the Government had no such intention.

THE GENESTA

VICTORIOUS IN A REGATTA.

NEW YORK, Sept. 18.—The English cutter, the Genesta, retrieved herself by winning the regatta given under the auspices of the New York Yacht Club near Sandy Hook to-day. As it was the annual race of the club the prizes consisted of two cups, one given by Commodore James Gordon Bennett for schooners and the other given by Vice-Commodore W. P. Douglas for cutters or sloops. There were ten entries in the race to-day. Among the schooners were the Fortuna, Grayling and Dauntless, and the cutters were as follows: the Genesta, the Ileen, the Stranger, the Clara, the Iris, and the centre board sloops consisted of the Gracie, the Athlon and the Daphne. The course was a triangular run of thirty-five miles from an imaginary line drawn between the Scotland lightship and the judge's boat, which was the tug Luckenbach. Shortly after eleven o'clock the tug whistled for preparation and a few minutes later the signal for the start was given. The first yacht to cross the line was the Ileen, which passed over at 11 o'clock, 11 minutes and 3 seconds; she was followed by the Clara, who crossed at 11 11 9. The third craft was the Genesta, upon which all eyes were fixed. She glided over the line at 11.11.30, and was followed a few seconds later by the Fortuna; then came respectively the Grayling, the Athlon, the Dauntless, the Gracie, the Daphne, and the Iris. The last two were handicapped by an allowance of five minutes. The Genesta forged rapidly ahead and gained steadily upon the yachts which had crossed before her. She gained upon the Clara and Ileen, but she in turn was closely pressed by the Fortuna. At 11.45 the Genesta, Ileen and Fortuna were almost abreast of each other with the English cutter slightly in the lead. The Genesta gained slowly upon the other two, and after the first five miles it became evident that the Genesta was ahead and intended to keep the first place. She had the wind fair on the first leg and did not spare her canvas. The result was that she steadily walked away from her competitors. Captain Carter dexterously rounded the first buoy at 12 49 15, followed by the Fortuna, which made the turn at 12.50.23. The Grayling manifested good sailing powers, and passed the red float a few seconds after the Fortuna. The Genesta made a big sweep to windward, and left the others so far behind that the race seemed certain for her. The Gracie, however, picked up and threatened her seriously for some time. The second buoy was passed by the Genesta at 3 07.55, and the Grayling, which dropped into the second place, turned at 3 19. The Fortuna came third and Gracie fourth, the latter being nearly half an hour behind the English cutter. On the home stretch the Genesta came scudding like a duck, and she passed the line at the Scotland lightship at 3 41 10, with the Grayling second. There were private sweepstakes contended for during the race by the English cutter Clara, the New York cutters Ileen and Iris and the sloop Athlon, which were won by the Clara. The Bennett prize cup was awarded to the Grayling and the Douglas cup was given to the Genesta. The English cutter, her owner, captain and crew received an ovation after the race, and between cheers, the noise of steam whistles and the din of fog horns the course seemed enhanced. Everybody was satisfied with the race, and the weather and other conditions were as favorable as could be desired.

A DETERMINED GIRL.

THE ECCENTRIC COURSE OF THE DAUGHTER OF A CHICAGO MILLIONAIRE.

CHICAGO Sept. 17.—Miss Nellie Dean, the young and accomplished daughter of Thaddeus Dean, No. 347 West Monroe street, yesterday began work at the Rockford Spinning Mills, in Rockford, Ill., at 60 cents a day. She did it in a spirit of independence, and it is likely to make her not-de, besides putting a large sum of money in her purse. Her father is a millionaire lumber dealer. A short time ago his daughter Nellie proposed visiting some friends at Rockford, who are also very wealthy. Before she started, the spinning factory at Rockford was made the subject of conversation. "I believe I will secure work there and earn my own living," the young lady remarked playfully. "You are too much afraid of work," answered her father. "You are afraid to offer me a dollar for every cent I earn in a spinning mill," said the girl, spiritedly. Mr. Dean made the offer, and it was accepted. The alloted time of the young lady's visit was up Saturday, and she was expected home, but did not arrive. The reason was not known until to-day, when it was ascertained that she had made a sensation in Rockford by entering the factory as a working girl for 60 cents a day, making, with her commision, $60 60 a day. Mr. Dean was full of grim good humor when he entered the Lumbermen's Exchange to-day. "I'll have to do something to stop her," he said, "if I am compelled to hire some one to break her arm. I never imagined she would carry it so far, although I thought I saw blood in her eye when I made the offer. But I put her under great restrictions. It was in the agreement that she was to go there as a poor girl and wear a poor girl's raiment." "How long do you suppose she will continue at work?" "Oh, not over a week; she'll tire of it by Saturday, and I guess I'll get off with paying her $360." A late despatch from Rockford says Miss Dean promises to work for a year. She is dressed like an ordinary mill girl, and has created a great sensation among the mill girls.

TRAMPLED BY BUFFALOES.

BISMARCK, Dak., Sept. 18.—Charles Laflin, a prominent Canadian, John Wilson, and two other hunters, were hunting buffaloes a few days ago on the banks of the Missouri river, 800 miles northwest of this city. The hunters started a herd of 200 animals and were in hot pursuit, when a storm burst upon them. The wind blew the dust and leaves in the eyes of the buffaloes and they turned about and stampeded. The hunters were run down, and all but Wilson were trampled under foot. Wilson recovered the mangled bodies and sent them to their friends.

AYER'S PILLS

CURE HEADACHE.

Headaches are usually induced by costiveness, indigestion, foul stomach, or other derangements of the digestive system, and may be easily cured by the use of Ayer's Pills. Mrs. Mary A. Scott, Portland, Me., writes: "I had suffered dreadfully from Sick Headache, and thought myself incurable. Disorder of the stomach caused it. Ayer's Pills cured me entirely."

CURE BILIOUSNESS.

John C. Pattison, Lowell, Nebr., writes: "I was attacked with Bilious Fever, which was followed by Jaundice. I was so dangerously ill, that my friends despaired of my recovery. I commenced taking Ayer's Cathartic Pills, and soon regained my customary strength and vigor. I feel certain that I owe my recovery to your invaluable Pills."

CURE INDIGESTION.

Ayer's Pills act directly on the digestive and assimilative organs, influencing healthful action, imparting strength, and eradicating disease. G. W. Mooney, Walla Walla, W. T., writes: "I have suffered from Dyspepsia and Liver troubles for years past. I found no permanent relief, until I commenced taking Ayer's Pills, which have effected a complete cure."

CURE RHEUMATISM.

Rheumatism is among the most painful of the disorders arising from vitiated blood and derangement of the digestive and biliary organs. Ayer's Pills relieve and cure Rheumatism when other remedies fail. S. M. Spencer, Syracuse, N. Y., writes: "I was confined to my bed, with Rheumatism, three months, but, after using a few boxes of Ayer's Pills, became a well man."

CURE GOUT.

S. Lansing, Yonkers, N. Y., writes: "Recommended to me as a cure for chronic Costiveness, Ayer's Pills have relieved me not only from that trouble, but also from Gout. If every victim of this disease would heed only three words of mine, I could banish Gout from the land. Those words would be, 'Try Ayer's Pills.'"

CURE PILES.

Piles are induced by habitual constipation, debility, indigestion, or a morbid condition of the liver. A cure is best effected by the use of Ayer's Pills. John Lazarus, St. John, N. B., writes: "I was cured of the Piles by the use of Ayer's Pills. They not only cured me of that disagreeable disorder, but gave me new life and health."

JUMBO'S DEATH.

THE GRAND TRUNK WILL OPPOSE ANY CLAIM FOR INDEMNITY—ENGLAND IN MOURNING.

LONDON, Sept. 17.—It was ascertained today from Mr. Wainwright, of the Grand Trunk, who is in the city, that a report had already been received by the company from its employés at St. Thomas regarding the death of Jumbo. The circumstances attending the fatality will warrant the company in disputing any claims that may be set up for the recovery of damages. It appears that when the animals were being put in the circus train it was found inconvenient to bring Jumbo by the ordinary traffic way, and the employés of the circus tore down the railway fence to permit of his being placed on the car more speedily. It was while on the track that the incoming freight train struck and killed him. The signal man, it is said, was wholly unaware that Jumbo was being brought that way to the train and thought the track was clear.

ST. THOMAS, Ont., Sept. 17.—Prof. Ward, of Rochester, N.Y., with several assistants, arrived here to-day and commenced to remove the skin and dissect the bones of Jumbo. The work is very difficult and requiries all the ingenuity of Ward to accomplish it. Jumbo's hide and skeleton will be shipped to Rochester, N.Y., and there stuffed and set up by Prof. Ward.

LONDON, Sept. 17.—The *Telegraph* over its report of the death and history of the famous elephant, displays large head lines, reading, "Sad End of Jumbo; Killed by a Collision with a Railroad Train.

The Tennessee schoolma'am who put on a pair of $4 stockings to astonish the natives got her walking papers next day. Natives couldn't stand such extravagance.
