Peculiar

To itself in many important particulars, Hood's Sarsaparilla is different from and superior to any other medicine.

Peculiar in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "100 doses one dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's Sarsaparilla.

Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time. Do not be induced to take any other preparation. Be sure to get

CRICKET.

Lady Harris, wife of the governor of Bombay, shares her husband's love of cricket. Last month at the hill station of Mahabaleshwar—the seat of the Bombay Government in the hot season—she captained a team of six ladies and six gentlemen, who were pitted against a similarly constituted team, also under the leadership of a lady. The conditions of the game were that the gentlemen should play left-handed with a broomstick and bowl and field with the left hand, while the ladies should play in the ordinary manner. In the end Lady Harris' team came off the winners, scoring 63 runs to their opponents' 58.

On Saturday next Mickey Jones and Pete Wood will be in the box for opposing teams at Dundurn Park, Hamilton. Pete Wood will pitch for the ex-students of Toronto University, who are to play against Mickey's team.

He won the Merchant Stakes, the Brokers' Stakes and the Piper Heidsieck Stakes at Montreal last year and was expected to capture a purse or two at Toronto this month.

THE WHEEL.

The London Cycling Club had a run Tuesday night, starting from the Guns, passing out Blackfriars street and the third concession for three miles, then south and east to Mount Pleasant Cemetery, returning by Blackfriars bridge. The roads were found in good condition, particularly the long coast down the Mount Pleasant hill, which was much enjoyed. After the run the regular monthly meeting was held, at which routine business was transacted and new members elected. The president offered a silver medal to be competed for as the club should deem best. It was decided that the medal be raced for on the road, place and distance as yet undecided, and that it be won by the first winner of two races. Three regular races are to be held, the first on June 2; the others later in the season. It is expected there will be a full turnout of the club at the first race, as the team for the C. W. A. road race at Hamilton on July 1 will probably be selected from the entries of that evening.

A man's wife should always be the same especially to her husband; but if she is weak and nervous and uses Carter's Iron Pills, she cannot be, for they will make her "feel like a different person," at least so they all say, and their husbands say so, too.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells at 50 cents and $1 a package and is called Lane's Family Medicine. ywt

A nick-name is the heaviest stone the devil can throw at a man.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eclectric Oil, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject.

DOMINION PARLIAMENT.

OTTAWA, May 12.—The House sat about two hours to-day, but there was little business done. A batch of private bills were introduced. Among others:

By Dr. Montague—Respecting the Niagara and Grand Island Bridge Company. Respecting the St. Clair Railway Bridge and Tunnel Company.

By Mr. Trow—Respecting the Temiscamingue Railway Company.

On the motion of Mr. Bergeron it was resolved that the time for presenting private bills be extended until Friday, the 29th instant.

There were two public bills introduced—one by Mr. Charlton to amend the Dominion Franchise Act, the other by Sir John Thompson, an act to codify the criminal law of Canada. The first reading of Mr. Charlton's bill was agreed to without discussion.

Sir John Thompson made a short explanation of the measure to codify the criminal law.

Sir Richard Cartwright—I would like to ask the Minister of Justice whether he proposes to introduce any alterations, more or less, to the existing criminal law in this bill, or whether it is to be confined simply to a codification of the law as it stands.

Sir John Thompson replied that there were some changes, but he did not indicate their nature.

"Are they of importance?" inquired Sir Richard.

The Minister answered that the changes were only such as would be necessary in the codification. There were some changes which had been discussed in the press for the last few months, but these were not yet incorporated in the measure. They would, however, be introduced at a later stage.

A question was asked by Mr. Flint whether it was the intention of the Government (her Majesty's birthday this year falling upon Sunday) to fix by proclamation the 25th of May, or any other day, for the celebration of the birthday of her Majesty. The reply was that the Monday following the anniversary of the Queen's birth would be observed and the necessary proclamation made.

Mr. Foster, in answer to Dr. Landerkin, stated that the revenue derived from the sale of registration stamps by the Postoffice Department during each year since 1882 had been: 1883, $61,769; 1884, $66,311; 1885, $66,444; 1886, $72,123; 1887, $74,021; 1888, $68,573; 1889, $73,310; 1890, $104,526. The doctor's object in asking this question was to ascertain whether the revenue had increased since the duty had been raised, and the figures for the last year show that it has gone up by leaps and bounds. This money, for the most part, comes out of the pockets of the farmers and the people in the country. No doubt Dr. Landerkin will have something to say on the question of its reduction by-and-bye.

Sir Richard Cartwright is determined that the Premier shall not escape from his promise to lay the papers relating to the reciprocity negotiations with Washington before the House. He reminded the House that the First Minister had promised that they would be forthcoming at the earliest possible moment. This is the second time Sir Richard has asked for the papers since the Premier's promise was made and he was met with an evasive answer.

Sir Hector Langevin promised to note the question and lay it before the First Minister.

The West Indian Commission was the subject of an inquiry by Mr. Mills, who desired to be informed when the correspondence relating to it would be laid on the table.

"It will be laid on the table in a few days," was the response of the Finance Minister.

Mr. Perry, in moving for returns relative to the service performed by the steamer Stanley between Prince Edward Island and the mainland last winter, said the islanders had a distinct grievance in the way in which they had been treated.

Mr. Davies supported Mr. Perry in a strong speech. He would say nothing about the proposed tunnel at present, because the leader of the Government and the High Commissioner had promised to have it built, and he supposed the proposal would be brought down.

Mr. Tupper said that as the leader of the Opposition had also given assurances Mr. Davies should be satisfied.

Mr. Davies asked him if he would, at this excellent opportunity, tell the House if, when the matter came up at council, he would support it, but the honorable Minister remained silent.

Mr. Haggart, Postmaster-General, complained of the small receipts from postage in Prince Edward Island. His department looked upon the receipts as the standard for judging the needs of the island.

Mr. Perry indignantly asked if the Postmaster-General was outlining the policy of the Government. If he was, the Intercolonial Railway would have to be shut up because its receipts were less than its cost.

Mr. Welsh interjected, "And all the canals in the country," whereat there came to the minds of members the canal from Perth to the Rideau, in the honorable Postmaster-General's constituency, which has cost the country $500,000, and up which it is said no craft sail but now and again a pleasure boat.

Mr. Perry, with much warmth, said Prince Edward Island paid a fair share of the interest on the debt incurred for improvements in their part of the country, and the discomfited Minister collapsed. The motion was agreed to.

Mr. Edgar complained that the counties had not been set to work. Sir Hector Langevin, who was leaving the House, promised amendment, and the House adjourned at 4:45.

SINCE LAST SEPTEMBER

I had not spent one day without intense suffering until I obtained a bottle of SCOTT'S CURE FOR RHEUMATISM. I have used part of my second bottle, and consider it the greatest cure for Rheumatism ever discovered. I would recommend anyone to try it who suffers as I did—I was unable to work, or even walk, and now enjoy better health than I have for years. Yours truly,
E. B. GREEN,

We are not going to advertise that we do the best tailoring in London—that is generally conceded—Neither shall we announce a "Great Reduction Sale," so common among merchant tailors. We are constantly buying new patterns, and at no time are we burdened with unseasonable goods. Low prices, good fabrics and perfect fit, and satisfaction guaranteed to every customer. Will use up our stock as fast as required and give place for new goods.
