BUTCHER STEERS RANGE $6 TO $6.75

Prospects Are For Large Hold-over of Cattle Over the Week-End.

Canadian Press Despatch.

Toronto, Feb. 14.—Trading opened slow with 700 stale cattle in the yard. Odd lots of good butcher steers sold from $6 to $6.75, with some export feeders at $6.50. Prospects are for a large hold-over. Export shipments for the week totalled 1,426 cattle.

Calves sold steady, according to quality.

The hog market closed at $7.50, fed and watered basis.

Small lots of lambs sold from $13 to $14.

Local Market

Weather conditions once again prevented a large attendance on the market square today. General demand all around was slow.

Hay, which was quite a feature of the market last week, dropped a little. Fifteen loads came in this morning.

There were three loads of oats and a load of wheat.

Eggs maintain a strong demand. They are not plentiful, but seem popular with Londoners.

Apples must be in every cellar in the city; they also are plentiful in the country, but are hard to get rid of on the market.

Green vegetables are at last beginning to make a showing, though a very limited one, and are finding a readier sale.

MARKET SIDELIGHTS

BRAZIL'S POSITION.

Further information throwing light on the rise in milreis is becoming available, Brazil's foreign trade in first nine months of 923 is better in every respect for same period in 1922.

On the basis, of figures available the total trade balance for year will have been $8,396,533, which has been valorized this year by a 20 per cent rise in exchange to $4,075,940. This is within $36,000,000 of the amount considered necessary to meet yearly bill of Brazil's foreign commitments. If, therefore, Brazil is able to obtain new capital amounting to $36,000,000, and can increase the value of her exports by the same amount this year, her economic condition should be absolutely sound before the end of 1924, and the financial position of the government capable of ready adjustment.

INTERNAL CONDITION.

Commenting on the improved internal condition of Brazil the Commercial Intelligence Journal of the department of trade and commerce in Ottawa writes as follows:

"The revolution which had been raging in Rio Grande do Sul for more than a year came to an end on the 15th of December, 1923, and the state of siege in the state of Rio de Janeiro was lifted on Christmas Eve. Political tranquility and the renewal of constitutional gurantees undoubtedly have contributed largely to the improvement in commercial conditions, though the immediate future cannot be safely predicted. There is every evidence, however, that the government is endeavoring in deadly earnest to put its financial house in order. A British Financial Mission has arrived in Rio de Janeiro at the request of the Brazilian government to investigate the financial and economic conditions of the country. The outlook in Brazil has not looked so bright for many months past, although the recovery of the country must necessarily take a considerable time, and a return to normal conditions may not be accomplished within the term of office of the present government."

THE BOND MARKET.

After the successful flotation of the $50,000,000 loan a couple of weeks ago the bond market has had something of a rest. Prices have remained firm and bidding for new issues has been quite keen, although very few new offerings have appeared. The few municipalities which have issued bonds appear to have received favorable prices and the keen demand by bondholders, combined with close bidding, have been gratifying to those cities and towns whose bonds have been offered.

A. E. Ames' report of bond sales up to February 9 shows a total of $91,912,062, of which $68,718,500 were sold in Canada and $28,193,562 in the United States.

MOTOR SIDELIGHTS.

Another slidelight on the motor stocks was the increase in the price of Oldsmobile cars announced yesterday. These increases ranged from $35 to $45.

This is the first change made by the company in about two years.

In an interview the other day Henry Ford said: "I can see nothing but big business for 1924. We are planning for a 15 per cent to 20 per cent increase in output for Fords, Lincolns and tractors including all plants in the States, England and Canada."

Similar statements have recently been reported by the heads of Hupp Motors, Packard, Studebaker, Nash Motors, Durant and Page-Jewitt.

BRITISH IN B. C. MINING.

A deal is reported to have been made between British interests and the present owners of the Big Missouri Mine in the Portland Canal district. The Big Missouri consists of sixteen claims and forty fractions and lies in the same mineralized zone as the Premier and Indian. The party arrived in New York from Europe on the Empress of Canada, January 25 last, and were met by the Big Missouri interests.

Drilling on the property during the summer months was a big success, the drills striking the ore at 155 feet and staying in it to a depth of 225 feet in a down hole and crossing the dip of the vein.

SUGAR

Associated Press Despatch.

New York, Feb. 13.—The raw sugar market was firm, but at unchanged prices today. Large purchases were made by the United Kingdom in Cuba on the basis of $7.53, duty paid, and while holders asked quotations from local refiners, they appeared unwilling to pay above $7.41, and no sales resulted.

Early advances of 6 to 10 points in raw sugar futures, as a result of covering on the strength abroad and firmness in the spot market, were followed by sharp reactions under heavy Wall Street and commission-house selling. Prices were the poorest of the day, and from 5 to 11 points net lower. March closed at $5.59, May $5.60, July $5.63, Sept. $5.63.

The demand for refined was less active, but prices were unchanged, at from $8.90 to $9 for fine granulated.

Grain Markets

WINNIPEG

Canadian Press Despatch.

Winnipeg, Feb. 13. — The wheat market was quiet again today, with prices showing a little higher tendency, but acting stubbornly in the face of bearish news. Export sales were reported by the seaboard as being very light, and cables indicated that Argentine offerings were still pressing, and the demand for Manitobas was not very strong. Around the opening there appeared to be considerable selling, which carried the market down, but the offerings were well absorbed, and the market reacted, final prices being ¼c to ½c lower. Liverpool cables earlier in the session tended towards lower prices, but orders around mid-session stimulated trade, and prices remained relatively steady and fluctuated within a narrow range. Most of the selling orders came from country interests, which looked like profit-taking on long wheat.

The future coarse grains were weaker today, oats and barley showing recessions of ½c or more in the face of selling pressure. Flax was also reflecting the general weakness, and fell off about 1½c. There was only a moderate trade in cash wheat, due to covering by shorts in No. 1 and No. 2 northern, which were ¼c better to unchanged. The lower grades were not wanted.

Cash prices:

Report Shows Substantial Increases Were Made in All Branches.

The fifty-third annual report of the Sun Life Assurance Company of Canada, with an accompanying statement covering its transactions for the year 1923, is made public this week, and affords remarkable evidence of all-round prosperity and progress. New high levels of achievement, both in business and resources, are recorded, establishing standards new to the history of Canadian Life Insurance. The leadership of the Sun Life amongst those companies in the British Empire which confine their operations to ordinary life business, is further emphasized, and the results of the year confirm its position amongst the great financial institutions of the world.

Windsor, Feb. 13.—There are too few Windsor businessmen selected for jury duty in the assize courts at Sandwich, according to George A. Urquhart, crown attorney for Essex County, who spoke at a meeting of the county municipal association Tuesday afternoon at Sandwich.

An inspection of the voters' lists show more businessmen selected at Walkerville than at Windsor, he said. Mr. Urquhart said this was not fair to tradesmen who could not afford to lose their time serving on juries as easily as businessmen, because of the loss in wages. He urged municipalities to have a better and larger selection of jurymen in making up the lists from which they were chosen.
