Robb's Rotary Saws.—County Court.

FROM JOGGINS.

—Joggins miners have been enjoying a vacation owing to a strike. The crisis lasted 18 days, but terminated on 9th., work has been resumed and shipments commenced

FROM AMHERST.

The following communication speaks well for the class of machinery manufactured at the Amherst stove and machine works. Messrs. Freeze, Bros., of Penobsquis, N. B., in writing to A. Robb & Sons a few days ago say: Concerning the Rotary Saw Mill purchased by you would say: "We cut from 12,000 to 20,000 superficial feet of lumber each day of ten hours, the mill making first class work. The frost dogs, set out and underneath dogs, are good and effective. The rollers placed on the floor, just what is wanted; the feed and reversing gear superior to any other rotary gear; the workmanship is excellent and gives good satisfaction in every respect. Any person or persons wishing information will be at liberty to call on our sawyer, Mr. J. W. Floyd, who has run rotary mills for the past twelve years and he does not hesitate to say that your mill is far superior to any he has worked with. We do not wish to flatter, but will say that you have *the rotary* of the day. We have seen numbers working but nothing to compare with this."

FROM PUGWASH.

—Two barques arrived on Monday, 9th inst. There are five barques (all Norwegian) now in port, loading and to load deals for G. B. Four schooner loads of P. E. Island produce have arrived this season. Oats and potatoes find a ready market at 45c. for oats and 25c. for potatoes.

—The new pier of the Palmerston bridge is about completed and they are preparing to launch the deflected spans of the bridge into the new pier. So we hope soon to see it resume its former straight, upright position, and so be rendered safe and convenient for the travelling public.

—Diphtheria is lurking around. Mr. John Woodlock lost a little girl about 7 years old. Two of his children are recovering, while two others are very low with that terrible sickness. Other families have been visited by it, and one child of John Mackler's died a short time ago.

—The few fine days had dried and warmed the land so that farmers were beginning on Monday to do something by way of preparing the land to put in seed, but the pouring rain and cold of Monday night and Tuesday will put them back again. The prospects at the present time are not at all flattering for the farmers in this section of country.

—Wesley Clarke, formerly of Paradise, N. S., has been granted a divorce from his wife Annie on the ground of adultery and desertion. The parties are living in Boston.

Baie Verte Items.

—Two cargoes of potatoes and oats arrived on Tuesday from P. E. Island.

—Arrived at this port on the 5th inst., Norwegian barque "Miriam," Salvesen, from Liverpool, G. B., in ballast, to E. C. Gooden & Co.

—Mr. J. R. Barry, who, a short time ago, was convicted before Commissioner Sharpe for violation of the second part of the Canada Temperance Act, appealed, and has obtained from Mr. Justice Weldon of the Sup. Court, an order for a hearing in Michaelmas Term next. Copies of which have been served on the Commissioner and Sub-Inspector Colpitts. Other parties similarly charged will, if convicted, also appeal, and are determined to test the validity of certain proceedings in said Commissioners court.

—We are requested to draw the attention of the "Overseer of Fisheries" for this section of the County to the fact that saw-dust has been permitted to flow down the Gaspereaux River from mills situated above the bridge. Large quantities of which he embedded to the depth of from three to four feet at the head of the principal wharf at Port Elgin, to the serious detriment of shipping interest. We trust and feel assured that our obliging official will in the future, as he has in the past, when matters pertaining to the duties of his office have been brought to his notice, see that those nuisances are removed and not again repeated.

—It is our sad duty this week to record the departure from our midst, by death, of one of the most amiable and christian-like young ladies, whose loss, as a faithful friend and loving companion, as well as a zealous worker in the "Master's Vineyard," will be deeply regretted by all who had the pleasure of associating with her, either in the domestic circle or in christian enterprises, in which she ever took, when health permitted, a lively and interesting part. Miss Susie Gooden, third daughter of the late Stephen Gooden, Esq., aged twenty-three years, calmly passed away the morning of Friday last at the residence of her uncle E. C. Gooden, Esq., after a lingering and painful illness of nearly two years, which she, during that long period, bore with meek resignation to the Divine Will. She leaves a widowed mother, a brother and two sisters to mourn the loss of a kind and dutiful daughter and a loving and affectionate sister.

For Sea.

Capt. George Swayne, master of the barque "P. J. Palmer," has been making visits to Jolicure for the purpose, it was said, of securing the services of a mate. Negociations were brought to a successful issue on Tuesday morning, when he shipped a mate, the articles being signed before the Rector of the parish, Rev. Donald Bliss, and the term being for life. The affair took place at the residence of the bride's mother, Mrs. Priestly Wells, and after luncheon, they left by the 1.30 train for Hillsboro', where the "P J. Palmer" is loaded, ready for sea. We wish the dashing captain and his charming bride every happiness.

FROM WESTMORLAND.—Mr. Jos. Wells, Jr. has a duck that takes the cake in the egg line, it produced one a few days ago measuring 9½x7½ inches.—Messrs Turner & Dobson have sown 90 bushels of oats this spring.—Why has not the POST made some reference to the lecture delivered by a crank at the Point Hall some time ago, on Greater Britain? I will not mention the name of the lecturer—every one knows who the crank *per excellence* of this County is, and this was one of his craziest efforts. Remarks were made at the close by Messrs Jas. Sutherland, Jas. King and others condemning the spirit of the lecture, but none went so far as Mr. Walten, school master, of Weldford, who denominates the lecturer in the *Times* (after listening to his lecture there) a parasite of satan.

BOTSFORD ITEMS.—Bait is very scarce this season. Lobster boiling was commenced last Friday and the first canning of the season was done on Saturday.—Farming operations are making very slow progress. Some of the farmers have little or no grain sown yet.—George Spence and Charles Allen recently killed a large bear.

It seems impossible that a remedy made of such common, simple plants as Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such great cures as Hop Bitters do; but when old and young rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

A Fact.

There are oils white, and oils black,
Put in bottles short and tall,
But Hagyard's Yellow Oil, for pain,
Is the very best oil of all.

It cures rheumatism, neuralgia, deafness, sprains, bruises, contracted cords, sore throat, frost bites, burns and all soreness of the flesh. It is for external and internal use.

—This paper has done as much as any other to expose the worthlessness of the big pack "Condition Powders," and means to keep it up, too. We know of only one kind that are absolutely and strictly pure, and that is Sheridan's.
