FROM ALL OVER THE MARITIME PROVINCES

FREDERICTON

Fredericton, Aug. 21—The Singer Sewing Machine Company's office on King street was the scene of a bold burglary last night. Some person, who is as yet unknown, with the aid of a piece of wire, pushed the key out of the door at the rear entrance and then with a key of their own unlocked the door and entered the place. All they got for their trouble was between $3 and $4, all the money available.

Tomorrow morning at St. Anthony's church, St. Marys, Miss Marie Rush, daughter of Mrs. Elizabeth and the late John Rush, and Francis Shortill, son of Mr. and Mrs. Owen Shortill, will be united in marriage. The nuptial mass will be celebrated by Rev. Father Ryan.

A race for a side bet of from $100 to $300 is being arranged between the two local trotters, Rapidity, owned by J. E. Sullivan, and Bottom, owned by L. B. C. Phair. Arrangements for the race have not been completed as yet, but the parties are expected to meet tomorrow and post their money.

Fredericton, Aug. 22—The campaign of Dr. A. B. Atherton, Liberal candidate in York, will begin in earnest tomorrow, when Dr. Atherton will cover a portion of the county by motor car, making a canvass. The party organization is proving to be excellent, and today much preliminary work was done. Public meetings will begin tomorrow.

Dr. Atherton, even at this early stage of the campaign, is securing the adherence of many electors who on former occasions voted against the Liberals. This feature of the campaign has been early recognized by the Tories who, by personal abuse and slander, are endeavoring unsuccessfully to weaken his hold on the electorate. These stories are losing votes for the party employing them.

Arrangements are being made for addresses by well known speakers from various parts of the province, and it is likely that before the campaign closes the people of York will have an opportunity of hearing some of the foremost orators of Canada speak on reciprocity.

All talk of an enormous majority has been abandoned by the Conservatives, who recognize that Dr. Atherton and reciprocity make a combination that is hard to beat.

Frank Shortell, merchant, of St. Mary's, and Miss Maria Rush, teacher in St. Mary's Indian school, were married in St. Anthony's church this morning, by Rev. Father Ryan. The bride received an address from her school children. Mr. and Mrs. Shortell left for St. John.

Judge Barker of Namaimo, B. C., a former resident of Sheffield, is visiting friends in the locality.

Judge White in the supreme court today Harrison vs. the Nipisiguit Lumber Company. The judgment was prepared by Chief Justice Barker and is that the claims of the bondholders amounting to $90,000 and those of the certificate holders amounting to $35,000, were valid. In regard to Clark Bros and Wicks Bros., the court held that their claims, which were for machinery, not having been filed in time, were not as good as the other claims. Judge White dissented from this view, but on other points the decision was unanimous.

Mr. and Mrs. Robert Pugsley, Miss Pugsley, and Mr. and Mrs. H. R. Emmerson, jr., of Amherst, reached here last night by auto, and will go to St. John today.

If the reciprocity agreement is carried it is likely that several industries for manufacture of hardwood will be established in this province. G. Patrick, of Moncton, who owns several thousand acres on the headwaters of the Keswick, has had men at work cruising it for ten days. He says that it is his intention, if reciprocity carries, to establish a hardwood mill and clothes-pin factory on property.

Judge McKeown has handed down judgment in the divorce case of Frederick B. Chapman vs. Joanna Chapman. The parties were married in Moncton in 1893 and some years later the defendant deserted her husband and went to North Dakota. The evidence went to show that she was followed there by a man named Colwell, a person with whom she was often seen in company with in Moncton. Most of the testimony was taken under a commission in Fargo, North Dakota, and on the evidence being returned to New Brunswick and submitted to the court here, it went to show that Mrs. Chapman, after going to Dakota, married Colwell and was now living there with him as his wife.

Only a short time ago a party of Americans paid a visit to Stanley and made enquiries in regard to a large tract of hardwood on the G. T. P. near Napodogan. It is understood that they are considering the matter of establishing a factory for manufacture of last blocks.

His honor after reviewing the evidence in his judgment orders that the marriage contract entered into in 1903 be set aside and that the plaintiff be granted an absolute divorce on the ground of infidelity.

Fredericton, N. B., Aug. 23—(Special)—Many hitherto staunch Conservatives are rallying to the support of Dr. Atherton. He is proving a remarkably strong candidate, and the tories are greatly alarmed over the outlook. They frankly admit that he will reduce Crocket's majority, and are now only hopeful that their man may squeeze in.

The will of Elisha Vanwart, of St. Mary's was probated here today. The estate was sworn in at $3,700, of which $2,500 is real estate. It is bequeathed to his widow.

The Fredericton despatch to the Times yesterday made it appear that G. Patrick of Moncton, was cruising lumber lands on the Keswick with a view of establishing a hardwood mill in case reciprocity is carried. Ora Gilpatrick, of Houlton, is the name that should have appeared. He is the owner of 70,000 acres of timber land on the Keswick stream.

A boy of ten years is suspected of having been implicated in several robberies here of late. Those interested are not disposed to take proceedings against him because of his youth.

SUFFERED THREE YEARS

Till Dr. Morse's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sudbury Ont., is one of those who know it. He writes:

"For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the small of my back and it would be impossible for me to straighten myself up for several minutes. A dull ache across the kidneys was always present, my urine was thick and cloudy, and passing it caused a burning, scalding pain. Tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured my wife years before. A few boxes affected a complete cure. I now enjoy the blessings of good health, which is due to this remedy."

Don't neglect kidney trouble—it's too dangerous as well as too painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and sick headaches, and in purifing the blood. 25c a box at your druggist's. 10

MARRIAGE OF ST. JOHN PASTOR AT JUBILEE

Rev. Miles McCutcheon Weds Miss Saunders—To American Cities on Wedding Trip.

Wednesday, Aug 23

An event of much interest to many friends of the groom in St. John, was the wedding at the Jubilee Anglican church yesterday afternoon, when Rev. Miles P. McCutcheon, pastor of the Brussels street Baptist church, was united in marriage to Miss Henrietta Saunders, daughter of Isaac Saunders, of Jubilee. Rev. A. A. W. Daniel, rector of St. Paul's church, performed the ceremony in a church which had been tastefully decorated for the occasion with flowers and evergreen, and a large number of the friends of the principals were present.

The bride was given away by her father and was gowned in white satin with pearl trimmings and bridal veil, with orange blossoms, carrying a shower bouquet of lillies of the valley. Miss Ethel Saunders, sister of the bride, was bridesmaid, and wore pink silk eolienne with lace insertion and pearl trimmings, and black picture hat. Little Miss Pearl Dodge acted as flower girl and was dressed in white silk with pink trimmings. Rev. Wilder Williams, pastor of the Haymarket Square church, was the groomsman.

After the ceremony a dainty luncheon was served at the home of the bride's parents, and Mr. and Mrs. McCutcheon left later by auto to take the Boston steamer here for a honeymoon trip to American cities.

Good wishes of the many friends of the couple found tangible expression in the handsome array of gifts received, among which were an oak china cabinet and a cut glass bowl from members of Brussels street Baptist church. The groom's present to the bride was a valuable set of mink furs, and the bride's father presented a substantial check.

He was abut thirty-five and leaves several brothers and sisters. His wife died a few years ago.

HON. MR. FIELDING EXPOSES FALSITY OF THREE TORY CAMPAIGN CANVASSES

(Halifax Chronicle.)

To the Editor of the Chronicle:

Sir,—One of the best evidences of the merits of the reciprocity agreement is to be seen in the fact that the opponents of it steadily ignore the real terms of the arrangement, and attack things which are not to be found in the agreement at all. It is only reasonable to believe that, if the real agreement could be successfully assailed, more attention would be directed to it, and less to the work of misrepresenting its character.

Notable examples of this misrepresentation may be found in the statements, which I am informed, are being widely made by our opponents concerning the terms of the agreement in relation to our fisheries.

Three Falsehoods.

Three allegations are, I am assured, constantly made by opponents who are endeavoring to influence the votes of our fishermen:

(1)—That the agreement grants to the Americans the right to take fish inside the Canadian three mile limit;

(2)—That the agreement provides for the abolition of the fishing bounty which has for many years been paid to our fishermen by the Canadian Government;

(3)—That the tariff concessions set forth in the agreement do not extend to the Island of Porto Rico.

FOR NO ONE OF THESE STATEMENTS IS THERE A SHADOW OF FOUNDATION. ALL ARE ABSOLUTELY AND UNQUALIFIEDLY UNTRUE.

Some of the treaties of the earlier years did grant to the Americans the right to take fish in Canadian waters. But that right is not granted by the new agreement. There is no possible mistake about this.

Bounty Not Affected.

As to the abolition of the fishing bounty now paid by the Canadian government, there is not a word in the agreement touching that in any shape or form. The fact that the Canadian government pay this bounty has not escaped notice in the United States. It was brought to the attention of the United States senate committee which had under consideration the reciprocity bill. The argument was advanced that because Canada granted this bounty the reciprocity bill should be rejected or amended. But the president of the United States and those who were cooperating with him very properly took the ground that the agreement must stand as it had been made with the Canadian ministers.

The agreement, as so made, was approved by both houses of the United states congress without any change. There is not a line or word in it touching the abolition of the bounty. The abolishing of the bounty has never been thought of by the Canadian government. I have never heard a proposal to abolish the bounty except in the statements made by the opposition speakers, which are WITHOUT A SHADOW OF FOUNDATION.

Apply to Porto Rico.

With regard to Porto Rico, when that island was a Spanish colony we had a large trade with it. After the conquest by the United States, this trade was very seriously affected. By the agreement now made we are able to restore to this country a considerable part of the trade that was lost. The tariff concessions set forth in the agreement DO apply to Porto Rico and, therefore, under the agreement, THE FISH OF CANADA WILL BE ADMITTED FREE INTO THE MARKETS OF PORTO RICO.

I have given several samples of the manner in which this agreement is misrepresented in important points. To all who wish to intelligently consider the question I would say—carefully examine the agreement itself. The agreement is to be found in the letters exchanged between Mr. Paterson and myself, on the part of the Canadian government, and Mr. Secretary of State Knox, on the part of the United States government. These letters have been widely published and are easily accessible to those who wish to see them.

There is no other agreement or understanding of any kind in this matter. The whole transaction is to be found in these letters. They speak for themselves. A perusal of them will show how unfounded are the opposition statements to which I have referred.

Yours faithfully,
W. S. FIELDING.

DR. ATHERTON NAILS A ST. JOHN STANDARD FALSEHOOD ABOUT HIM

The Fredericton correspondent of the St. John Standard, having no fault to find with Dr. A. B. Atherton, insinuated in that paper this morning that the Liberal candidate in York was "said to have strong leanings towards annexation."

By giving this shameful falsehood an early start, the Crocket party hoped to create prejudice against Dr. Atherton.

When shown a copy of the St. John Standard this morning Dr. Atherton made this statement:—

"Now that I have entered politics I do not suppose I ought to take notice of what opposition newspapers say about me. In regard to this annexation story, however, you might say for me that when I graduated from an American College, instead of remaining in the United States to practice my profession as I might have done to advantage, I came to Canada and settled down among my own people.

"When I decided on a change some years ago I removed from Fredericton to Toronto that I might continue my Canadian citizenship. I have never at any time expressed any desire to live under the Yankee flag. I am a Canadian first, and foremost and will live and die as such."

Dr. Atherton's acceptance of the Liberal nomination in York has created the greatest enthusiasm in the Liberal ranks and has had a depressing effect on tories. The monster convention here on Saturday was a surprise even to Liberals and is proof that the reciprocity issue is taking a firm hold in the country districts.

That the Liberal party have a winner in York county was the opinion expressed by a man who arrived from there this morning. Dr. Atherton, he said, had a large practice throughout the county and this, together with his strong personality numbered him hosts of friends. His popularity will bring him a large Conservative vote. The gentleman refered to said that he had talked with Conservatives who had made no bones of the fact that they would vote for Dr. Atherton.

IT IS UP TO PEOPLE NOW TO CARRY RECIPROCITY, SAYS THIS FARMER

To the Editor of The Telegraph:

Sir,—The Parliament of Canada has recently been dissolved and the people are called upon to decide a very important question, namely, the question of Reciprocity. This question should have been decided in Parliament a month ago, and would have been, only for the contention of a stubborn opposition who so recklessly obstructed the passing of a reciprocity agreement that the government was unable to carry out its intention.

When it was anounced some little time ago that the United States and Canada had entered into an agreement for better trade relations between the two countries, the people were delighted to think that reciprocity, which they had so long and so often hoped for, was now so near at hand. But they were none the less surprised when they heard, to their sorrow, that R. L. Borden and his party had obstructed the passing of the said agreement. Mr. Borden and his party have termed themselves the King's Loyal Opposition. They may, no doubt, be loyal to their King; but surely they are not loyal to their country. Mr. Borden and his party know right well that reciprocity would be a prime factor in the prosperity of Canada; therefore, if they were loyal to their country, they would not have opposed it in such a reckless manner as they have done.

Now, Mr. Editor, it is not hard to see that party and power are what Mr. Borden is after, not at all the welfare of Canada. And further, it is not difficult to see Mr. Borden's reason for obstructing reciprocity. He knows very well if Canada had reciprocity with the United States that the people of Canada would be delighted with the result and the benefit they would receive through freer trade, and that the government that obtained reciprocity for Canada would gain the applause of the people; and as the proper time for the federal election is not due for a year hence, Mr. Borden must have thought it best to nip, so far as he was able, the bud before it matured, so that the people of Canada would not have the benefit of freer trade a year previous to the election. Now it is up to the people, and it is in their hands to hold on to what the government has obtained for them, namely, reciprocity.

Yours etc.,
ELECTOR AND FARMER.

THE ANNEXATION CRY

(By Hon. Sydney Fisher, Minister of Agriculture.)

"I have shown you already that our trade is more with America than with Great Britain. Where then is the disloyalty? If to sell a few more tons of hay or a few more pounds of butter to the States leads to annexation, why are we not annexed today? There never was a time when the people of Canada were more contented or more determined to keep Canada a separate nation in North America within the British empire than they are today.

"I tell these men who are crying 'Annexation' that if they can answer for themselves, I am prepared to answer for the loyalty and patriotism of the farmers in Canada and that nothing will seduce us into annexation."
