CANADIANS WILL PROBABLY ENTER LENS SOON

ENEMY'S POSITIONS NEAR LENS PENETRATED BY THE MEN FROM DOMINION

Ontario Soldiers Who Participated in Action State That There Would Be No Difficulty in Pushing Forward Into the Streets of Lens.

FRENCH FORCES ON LEFT FLANK OF BRITISH LINES MAKE PROGRESS

Russians and Roumanians Repulse Attacks of Considerable Intensity on the Roumanian Front South of Aeruth as far as Village of Selka.

Canadian, Army Headquarters, Aug. 10—(By Stewart Lyon, special correspondent of the Canadian Press in France)—Under the protection of a heavy barrage, shortly after four o'clock on Thursday morning, raiding parties on a front of more than two thousand yards penetrated the enemy's positions in the Cite-du-moulin and St. Laurant sectors, returning with several prisoners.

The raiders on a large part of the front attacked passed over the enemy first line and support trenches which were found lightly held and in bad condition.

A number of the enemy subterranean shelters were demolished, but nothing is known as to the fate of their occupants.

Our men returned to their own trenches with manifest reluctance. Some of them said there would have been no difficulty in pushing forward into the streets of Lens.

The troops engaged were from Ontario. Their casualties were slight. At some points the trenches were found to have been pounded out of all resemblance to defensive positions. Many dugouts were also seen that had been blown in by our heavy guns. Our exploring party had land mines exploded in front of them near a crater which was the scene of lively fighting earlier in the week. Undisturbed by these explosions they pushed on and encountered an enemy patrol of thirteen men, who took shelter in a dugout. Only two answered the call to surrender and the remainder were killed in the destruction of the dugouts.

British Statement.

London, Aug. 10—The official communication issued by British headquarters last night reads:

"Artillery activity on both sides continued in the neighborhood of Ypres. There was no infantry action.

"Successful raids took place early in the morning in the neighborhood of Lens. We secured a few prisoners and killed many Germans. Our troops entered the enemy positions at all points attacked and, after destroying the dugouts and wrecking his defences, returned with slight casualties.

"Hostile artillery has been more active than usual in the Nieuport sector. Air work continued yesterday, although bad weather interfered. In air fighting, two German airplanes wer brought down and another driven down out of control. None of ours is missing."

French Made Gains.

London, Aug. 10—The French forces on the left flank of the British lines in Belgium made further progress to the east and north of Bixschoote last night, according to the official report made to the war office today by Field Marshal Sir Douglas Haig. British raiding parties blew up the German dugouts on a wide front east of Monchy-Le-Preux, on the Arras front, the report adds, and greatly damaged the Teutons' defences.

British Successes.

Paris, Aug. 10—French forces last night made further progress against the German positions on the Belgian front. The Frenchmen broke into the German lines, occupied several farms to the east of Bixschoote and west of Langemarck, and captured a number of machine guns, according to the official statement given out today by the French war department.

Russian Statement.

Petrograd, Aug. 9—The Russian war office statement issued today reads as follows:

"There were fusillades of greater intensity in the direction of Brody.

"On the Roumanian front, south of Aeruth, as far as the village of Selka the enemy conducted a series of attacks of considerable intensity. All were repulsed.

"In the region northwest of Sipot and Katergall, the enemy, after obstinate attacks, occupied a series of heights, forcing back our troops slightly eastward.

"Between rivulets Slucza and Destiana a number of enemy attacks were beaten off. The enemy succeeded in penetrating our trenches on one of the heights, but he was ejected by a counter attack. This retirement developed into a flight. We captured eight prisoners and a machine gun.

"After artillery preparation the enemy attacked the Roumanian positions in the region between the Rivers Sitoza and Kasino and in certain districts pressed back some of them. An attack south of the River Kasino was repulsed by the Roumanians."

ST. JOHN HORSE WINNER OF 2.19 MONCTON RACE

Nancy Weston Takes Three Out of Four Heats—Sackville Horse Wins 2.35 Trot and Pace.

Special to The Standard.

Moncton, Aug. 10—The first day's racing at Moncton speedway was well attended and keen contests marked the two events of the afternoon. In the 2.19 class four heats were required, and in 2.35 class there were six heats. Nancy Weston, owned by Robert Brown, St. John, won the 2.19 race and Lake Be Sure, owned by Geo. M. Finney, Sackville, was the winner of the 2.35 class. The track was in fair condition, although a little soft from the morning rain.

Summary:

2.19 Trot and Pace, Purse $300.

Nancy Weston, Robert Brown, St. John 2 1 1 1
Miss Keifer, H. G. Kitchen, Fredericton 1 6 6 3
Cochato Lady, C. E. Smith, Halifax 3 2 2 2
Oakley H, James Naphe, Red Bank 4 3 3 2
Mattie March, J. B. Gilkers, Norton 5 4 4 4
Brage, R. H. Edwards, Halifax 6 5 5 6
Time—2.19½, 2.21¼, 2.22, 2.23¾.

2.35 Trot and Pace, Purse $200.

Lake Be Sure, Geo. M. Finney, Sackville 7 5 1 2 1 1
Queen Earl, Harry Ballard, St. John 1 1 3 5 3 2
Claude C, Jas. Hennessy, River Hebert 2 2 2 1 2 3
Dr. Clarke, D. W. Wilber, Moncton 4 4 4 3 4

OBITUARY

John D. McAuley.

Newcastle, Aug. 10—Death claimed one of Northumberland's best known and most respected citizens this morning in the person of John D. McAuley, who for upwards of eighteen years has conducted the Union Hotel here. Mr. McAuley's death came as a shock to his many friends, as few, if any, knew of his illness. About three weeks ago his barn was destroyed by fire. In his endeavors to save his property he was affected by the smoke and water, which later developed into bronchitis and pneumonia. The deceased was born at Whitneyville, seventy-one years and six months ago, and has resided in this vicinity about all his life. In politics he was a staunch Conservative. He was also a strong temperance advocate. He leaves a widow, formerly Miss Mackleton, of Iowa; three sons, Oran G., Moncton; Murray, Fall River, Mass.; Frank, at home; six daughters, Mrs. John McDougall, Roxbury, Mass.; Mrs. Robert Norris, Fall River; Mrs. Alfred Bowser, Amherst; Mrs. Charles McCulloch, Lower Onslow, N. S.; Mrs. William Borton, Moncton; Miss Nina, Dorchester, Mass. The funeral will take place at three o'clock Monday afternoon.

The geography lesson was about France. The teacher asked: "Now in this present war, who is our principal ally?"

"France," came the answer from the chorus of voices.

"Quite right," said the teacher, beaming. "Now give the name of a town in France, if you can?"

"A small boy at the back of the class almost fell in his eagerness to put up his hand.

"Well, Charlie, tell us the name of a town in France," asked teacher.

"Somewhere," he murmured breathlessly.

City Physicians Explain Why They Prescribe Nuxated Iron

To Make Beautiful, Healthy Women and Strong, Vigorous Men

NOW BEING USED BY OVER THREE MILLION PEOPLE ANNUALLY

Quickly Transforms the flabby flesh, toneless tissues, and pallid cheeks of weak, anaemic men and women into a perfect glow of health and beauty—Often increases the strength of delicate, nervous, run-down folks 100 per cent. in two weeks' time.

New York, N. Y.—It is conservatively estimated that over three million people annually in this country alone are taking Nuxated Iron. Such astonishing results have been reported from its use both by doctors and laymen, that a number of physicians in various parts of the country have been asked to explain why they prescribe it so extensively, and why it apparently produces so much better results than were obtained from the old forms of inorganic iron.

Extracts from some of the letters received are given below:

Dr. Ferdinand King, a New York Physician and Medical Author says: "There can be no vigorous iron men without iron. Pallor means anaemia. Anaemia means iron deficiency. The skin of anaemic men and women is pale. The flesh flabby. The muscles lack tone, the brain fags and the memory fails and they often become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks.

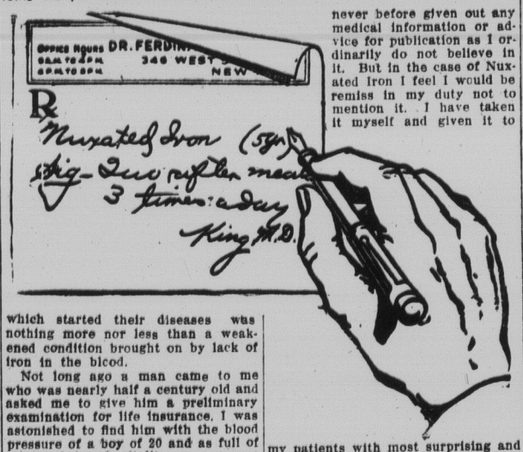
In the most common foods of America, the starched sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degerminated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cookery, by throwing down the waste-pipe the water in which our vegetables are cooked are responsible for another grave iron loss.

Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron just as you would use salt when your food has not enough salt.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago and former House Surgeon, Jefferson Park Hospital, Chicago, in commenting on Nuxated Iron, says: "It has been my particular duty during the past six years to assist in keeping Chicago's five thousand bluecoats in good health and perfect fighting trim so that they would be physically equipped to withstand all manner of storms and the ravages of nature's elements.

Recently I was prompted through an endorsement of Nuxated Iron by Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York, to give it a trial. This remedy has proven through my own tests of it to excel any preparation I have ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders."

Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European Medical Institutions says: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run-down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, preventing it becoming organic in thousands of cases and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood.



Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact a young man he really was notwithstanding his age. The secret, he said, was taking iron—nuxated iron had filled him with renewed life. At 30 he was in bad health; at 46 he was careworn and nearly all in—now at 50, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good, and as a consequence you become weak, pale and sickly-looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children is, alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray; while many another has gone down in inglorious defeat simply for the lack of iron."

Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

Dr. N. H. Hornstine, for ten years in the Department of Public Health and Charities of Philadelphia, said: "After carefully examining the formula of Nuxated Iron I realized that here at last was organic iron—the only kind I could conscientiously recommend, prepared in such a way with other ingredients as to be easily assimilated and calculated to act as a quick revitalizer of the blood and a true strength builder. Its administration in a number of stubborn cases where other tonics had utterly failed only served to convince me absolutely of the remarkable and unusual power of Nuxated Iron. When I personally took it I found the rapidity with which my energy and endurance increased most surprising. In my opinion the widespread use of Nuxated Iron is bound to make a nation of stronger men, lovelier women and healthier children."

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in nuxated iron, that they offer to forfeit $100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and increase their strength 100 per cent. or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Wasson's Drug Store and by all good druggists.

ABBE BOND WINS BIG PACING EVENT

Columbus, Aug. 10—Two very desperately contested races furnished the best thrills of the entire week on getaway-day of the grand circuit meeting here. The 2.18 pace, in which Marjorie Kay was a first choice, furnished the sensational work. Not until the end of the seven heats was Abbe Bond declared the winner over Robert Gatewood, the three-year-old pacer that Ed Geers gave his maiden race this afternoon. Both these horses were in a $7 field on a ticket worth $77.

The Weed won the first heat in 2.04¾.

The Neilhouse, 2.07 trot, purse $3,000, was won by Wilkes Brewer, the original favorite. In the 2.13 pace Butthale won his second race of the week. The last half of the first mile was paced in .59¼. The first half of the second heat was paced in 1.01¼ in this event.
