ST. JOHN'S MUNICIPAL COUNCIL

THE following Sections of the amended Municipal Act, passed March 22nd, 1910, are published for the information of those interested and the General Public:—
31. From and after the passing of this Act the construction of houses or buildings of any sort shall not be commenced within the city limits without the permission of the Council, who shall have power to make and prescribe terms and conditions to be observed and performed by the owner of the land or the lessee in respect of the payment by the said owner or lessee of the whole or a portion of the cost of the laying or introduction of the water or water pipes, the opening or construction of sewers or sewerage, or the making, opening, widening or improvement of the road or street along or near to which the said house or building is to be constructed.

32. Whenever after the passing of this Act the Council shall decide upon the opening or construction of a main sewer along or through a street abutting upon or in the vicinity of land which is suitable for building purposes, but upon which no buildings have been erected, and it shall appear that the said main sewer about to be constructed is or will be available for connection with buildings hereafter to be erected upon said land so that the value of the said land will thereby be improved, the Council shall have power to levy and impose upon the said land or any portion thereof, from time to time, a tax or assessment at such a rate either per foot or frontage upon the said road or street or otherwise as the Council shall determine, and to apply the money raised by and under the said tax or assessment to or towards the cost of the opening or construction of the said sewer or sewerage. The said tax or assessment shall be a charge upon the said land or such portion thereof as shall be defined by the Council, as subject thereto, and shall be recovered from the owner or lessee, as the case may be, in the same manner as provided in and by the principal Act in respect of the recovery of taxes, rates and assessments.

33. Whenever it shall be found necessary for the purpose of widening or improving any road or street for the Council to take and appropriate private property and to pay compensation therefor to be determined by arbitration under the provisions of the principal Act, the Arbitrators, in computing or assessing the amount of such compensation, shall consider and determine whether or not the said widening or improvement has affected the value of the land or property adjoining to the land so taken, belonging to the same owner, and in case it shall be found that such widening or improvement has improved or increased the value of the said adjoining land, the amount of compensation to be awarded for the taking of the said land shall be reduced or abated accordingly.
