FRUIT MARKET.

The receipts of fruit and vegetables at the Scott-street market yesterday were a little larger than usual, and especially so in the case of peaches and plums. These fruits are being received in all varieties and the price range is a big one, peaches running all the way from thirty cents for the small Canadians to $1.25 per basket for the better qualities.

Lawton berries were rather scarce and quotations firmer to six and a half cents per box for such as were on the market. Black currants are now coming in more rapidly, and prices eased considerably yesterday.

In the vegetables tomatoes were somewhat scarcer than of late, and an advance of from five to ten cents a basket was made during the day. Other vegetables were about steady.

Chicago Gossip.

J. P. Bickell & Co. say at the close: Wheat—Lower—Weakness in foreign markets and ideal harvesting conditions furthered liquidation and short selling, closing session with a loss of ¼c to ½c for the day. Sentiment is unanimously bearish and large short interest has been incurred in futures, and altho there isn't anything in the news at the moment to cause heavy covering movement, we advise extreme caution in selling on breaks, as cash situation later on will be a sustaining factor to values, and suggest waiting for bulges before committing on short side. Be satisfied with reasonable profits.

Bartlett Patten & Co. (Beaty & Glassco) wired the following:

The distinguishing feature was the general covering of shorts both by commission houses and local professionals, chiefly on the theory that market was entitled to a reaction with all this covering, the rally was distinctly feeble. It seems to us that there can be but one end, and that is the pressure must come in the way of hedges and the price of wheat is scarcely low enough, considering the total of crops, to induce some buying of sufficient volume to be able to hold the price and absorb the offerings.

Corn—The market opened at last night's prices, but soon turned strong and advanced 1c per bushel with the buying chiefly by local professionals. The market was a nervous one and change of ½c either way was frequent. We cannot advise purchases as we believe the general average of the crop will prove good. Cash prices unchanged.

Oats—The market was dull, but rather steadier in tone than for several days. Strength in corn was a help. There was good selling by commission houses, while shorts were moderate buyers.

R. B. Lyman & Co. wired R. B. Holden: Wheat—Market showed considerable weakness all day. The news has been bearish and practically nothing to encourage buying.

Corn opened shade lower, but when some of the local shorts started to cover found the offerings light and bid the price up about a cent.

Oats—The strength in corn has helped to keep oats firm.

The railways reported receipts of 80 carloads at the city yards, consisting of 1411 cattle, 686 hogs, 1359 sheep and lambs, 205 calves and 2 horses.

There was not any improvement but just about the same quality of cattle as has been coming, a few lots and loads of fairly good to choice, and many more of the common to medium.

There were many lots of eastern cattle; these were hard to cash at any price, and some of them were reported unsold at the close of the market.

GREAT DAY AT UNION YARD EVERYTHING CLEANED AWAY

Prices as High as at Any Time in Past Eight Weeks — More Cattle Would Have Sold.

The receipts of live stock at the Union Stock Yards for Tuesday were 41 carloads, consisting of 845 cattle, 72 sheep, and 4 calves, or a total of 184 cars, containing 1235 cattle, 2 hogs, 357 sheep and lambs, with 47 calves for the two days, Monday and Tuesday.

The quality of cattle generally, the dealers reported, as being fair to good, with some of the best loads of exporters seen on the market this season.

Trade was good, all offerings being sold, and some of the American buyers stated that twenty-five loads more would have been taken could they have got them. Drovers seemed to be well pleased with prices obtained. David McDonald of the firm of McDonald & Halligan was pleased with his sales, and stated that this was the best market in the past six weeks. That is, the buyers took time to buy the cattle on their merits and paid acordingly.

As to Live Stock Receipts.

The correctness of our report of totals of live stock for the city and Union Stock Yards for last week, having been called in question, we deem it our duty to our readers to tell them where we go for our figures. For the receipts for the city yards we go to the railways, which we have been doing for years. J. B. Hay of the Grand Trunk, and John Fox of the C.P.R. are ready to prove the correctness of the report as stated in The World for the city market. And for the Union Stock Yards report we have taken the figures given by the manager, Mr. Grundy, who is prepared to prove the correctness of our report as given in The World, by showing up his books to any impartial tribunal.
