GERMAN PAPERS SNEER AT SPEECH OF ASQUITH

It is Described as "Made for Benefit of Neutrals."

Berlin, via Sayville, Nov. 12.—The majority of the German newspapers publish the statement of Premier Asquith at the lord mayor's banquet in London Thursday evening without comment, and add tersely that the speech was made for the benefit of neutrals "who naturally resent English war methods, and whom Asquith now tries to coax into patience."

The Vossische Zeitung says that compliments paid to all countries, "especially to violated Greece only indicate the weakness of the British position," and asks how things must be in Salonica if Mr. Asquith feels compelled to flatter even a small country "brutalized into helplessness."

The Cologne Gazette publishes an interview with a French statesman, who declares that a separate peace between Russia and the Teutonic allies is improbable, but adds that this does not mean that all members of the entente necessarily will make peace on the same day.

Insomnia

WE can live without food, but not without sleep. Many will recall Dr. Tanner's 40 days without food, but who could live a single week without sleep and retain their reason.

It is during sleep that the nervous system is restored, and the nerve force, consumed by the activities of the day, is replaced.

Sleeplessness is one of the first and one of the most torturing symptoms of nervous exhaustion.

With sleeplessness you find nervous headaches, tired, wornout feelings, indigestion, lack of energy and strength. You are nervous and irritable, and cannot compose yourself to rest or sleep.

The nerve force in the body is at low ebb, and the feeble, wasted nerve cells must be nourished back to health and strength by such treatment as Dr. Chase's Nerve Food.

You must not confuse this food cure with drugs taken to produce sleep, for it works in an entirely different way. It is not a quick relief, but a restorative, upbuilding treatment. As the nerves are revitalized sleep comes naturally with its soothing influence and hastens recovery.

Sleeplessness

Mrs. Edson Brock, Trenholmville, Que., writes:—"I want to state that I have never taken anything to do me so much good as Dr. Chase's Nerve Food, and I am never without it in the house. I was so nervous I could not sleep, but now I sleep soundly at nights and wake up feeling refreshed and ready for the day's work. I used the Nerve Food for months, and found that it just suits my needs, and has built up the system wonderfully. I know it is Dr. Chase's Nerve Food that has brought about the great change in my condition, and I am thankful for it."

BOY'S CHIEF AMBITION SHOULD BE TO SUCCEED

Great Obligations and Opportunities for Those of Present Day.

If enthusiasm is any criterion of success great things will be accomplished from the boys' work conference which was brought to a close in the Metropolitan Methodist Church last night. The church was crowded with boy delegates and members of the congregation. The speaker of the evening was Taylor Statten, Dominion secretary of boys' work, who spoke on the subject, "Developing our Boy Power for the Canada that is to be." He said that the time of life in which great ideals and life standards were set up was between the ages of 13 and 18 years. An effort was now being made to make two Christian boys where formerly only one had been produced. Men were specializing in the study of the growth and development of boy life as never before.

In the afternoon he spoke on the subject, "Get Home—Score." He said that there was a great game to be played here in Canada, the game of life and a boy's chief ambition as in the game of baseball should be to score or make a success. There were great obligations and opportunities for the boy living today, obligations undreamed of a little time ago. In closing the speaker said: "No matter where we lives, in Canada or abroad, or how we serve, we should serve from one standpoint, the giving of ourselves unselfishly to Jesus Christ for the progress of His kingdom."

Another Jean Armour Has Just Completed Milk Test

The champion Ayrshire records are still coming to the front and breaking all previous records for the Ayrshire breed.

"Jean Armour 3rd"—32219—a senior three-year-old, bred by Mrs. F. D. Erhardt, West Berlin, Vt., and owned by W. F. Schanck, Avon, N. Y., has just completed her year's official test in the United States, with a record of 21,938 lbs. milk, 859.65 lbs. fat, 3.92 per cent. fat.

She was sired by the famous Howie's Dairy King, 9855, imported, and is from Jean Armour—15591—"25487," (the first Ayrshire to reach the 20,000 lb mark for a year's milk record), bred by H. & J. McKee, Norwich, Ont.

Another daughter "Lotus Jean Armour," by Lessnessock Gem's Good Gift, (Imp.), commenced her three-year-old record on June 16th last, and gave in July 1606 lbs. milk, and in August 1653 lbs., with a test of about 3.64 per cent. fat.
