

THE BUDGET.

Sir R. Bond's Criticism

Other than on the increase is brought home to us by the fact that large numbers of our young men are leaving, and still preparing to leave, this country to seek elsewhere a brighter outlook for the future. It is the very best material, the men of pluck and a little capital who are going. I am informed by a competent and reliable authority that owing to the failure of the Labrador fishery last year a large number of young men from Conception Bay are prepared to leave for abroad during the present spring. This is a serious matter, and must impress every thoughtful man with the absolute need for extreme caution in the conduct of our public affairs, and in respect to the rate of public expenditure. The burden of taxation we are now carrying is well nigh intolerable.

Every Man in the Colony is To-Day, Under the Tariff, Paying into the Treasury in Taxes About One-Third of His Earnings.

The late Government every year made some reduction in taxation, and lightened the burdens of the people as I have shown, but the present Government have made no attempt whatever in that direction. They are squandering the revenues they are wringing from the people; they are piling up the Colony's indebtedness; they are sending out of the Colony in interest payable to the parties from whom they have borrowed money that which should more properly have gone to reduce taxation. Is it any wonder if our young men of thought and pluck and energy leave here to seek in other lands conditions as to work and cost of living that they cannot find at home. The Government to-day is throwing away amongst their party supporters, under the guise of an Agricultural policy

Forty Thousand Dollars a Year, a sum sufficient to pay the interest on a capital that would enable them to carry out a progressive Agricultural policy, and to bring into this country a thrifty farming class who would share with our people the burden under which they are now bending. We are told in the Budget Speech that

Two Hundred Thousand Dollars per year of the taxes collected is to go towards an Endowment Fund for what the Government terms Old Age Pensions. Did ever a Finance Minister propose such an absurdity before? I think not. In order to provide an increased paper dose of \$25 to four hundred old men of 75 years and upwards every taxpayer in the country is practically called upon to pay one dollar per head. Don't you see that this sum of money would be sufficient to carry out a Universal Scheme of Pensions for the benefit of every man and woman above 65 years of age?

Yet you propose to invest the money at four per cent, and bestow the interest in the form of a paper dole upon a limited number of people. You are taxing every man to-day in order to accumulate a fund for pensions in which thousands of them will never participate. You are providing to relieve future generations at the expense of the at present overburdened taxpayer. You are depriving the taxpayer of to-day of a benefit in order that another generation may enjoy that benefit. This is dilated upon as a marvelous achievement in the Budget whereas it is the most colossal piece of financial absurdity that probably has ever been the act of a rational being. We have heard of "frenzied finance." This is one phase of it. The only proposed alterations in the tariff are in respect to soap, compound lard, and tin and other commodities that are used in the canning of fish. The latter is the most important change, and it arises out of the Cold Storage Agreement entered into between the Government and some American citizens. It will be remembered that when that Agree-

Now Cured of Rheumatism

Cost him \$100.00 for medicines which failed—Cured by DR. CHASE'S KIDNEY-LIVER PILLS.

Mr. James Clark, Maidstone, Sask., writes: "I suffered for four years with rheumatism in my shoulders and could not lift my arms above the head. I tried nearly all the advertised remedies but none of them gave me relief. It cost me at least \$100.00 for medicines before I used Dr. Chase's Kidney-Liver Pills.

"With the use of this medicine, I soon found relief. I followed up this treatment for six months and was then quite free from rheumatism. While using Dr. Chase's Kidney-Liver Pills I also used Dr. Chase's Backache Master when so stiff that I could scarcely bend. They always found the weak spot and gave relief while the internal treatment was bringing about a thorough cure."

The success of Dr. Chase's Kidney-Liver Pills has been phenomenal. One pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Toronto. Dr. Chase's Recipes will be free on request.

ment was under the consideration of the House I drew attention to the fact that its terms discriminated against every man in this country who engages in the canning of lobsters, salmon, cod and other commodities, inasmuch as the American firm would get in their supplies of tin, solder, labels and other necessities free of duty, while our own merchants and fishermen would have to pay duty on their supplies. As a result of the debate the Premier promised that all engaged in the canning business would be placed on the same footing by an alteration in the tariff.

That Promise Has Not Been Carried Out in the Tariff Before us.

Under this Resolution it is true that tin in sheets and blocks, solder, printed lithograph labels for tins or packages will be admitted free of duty when imported directly by those engaged in the business; but how many of our fishermen who are engaged in the fish canning business can import directly? Very many of them will not have the means or facilities to do so, and under this tariff you are therefore intensifying the difficulties under which the fishermen will labor by enabling the local rich man and the American Company together to monopolize the whole canning business. If the fisherman goes to the importer for tin or solder in this city to purchase his supplies of those articles then he has to pay a price which includes the rate of duty. How will it be possible then for the fisherman to compete with the American Company and his rich neighbour who get their supplies free of duty? It is impossible, and by this tariff you drive the struggling fisherman packer out of his business. This will be a great injustice and I appeal to the Government in all earnestness to carry out the promise made to this House before the passage of the American Fishery Agreement.

I have now dealt with what I regard the most important matters brought before us in the Budget Speech.

Makes Hair Grow.

McMurdo & Co. have an invigorator that will grow hair or money back. The time to take care of your hair is when you have hair to take care of. If your hair is getting thin, gradually falling out, it cannot be long before the spot appears.

The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly for people are amazed. A large bottle for 50c.

Publication of the Debates.

When the Assembly was in Committee on supply yesterday and considering the estimates in supplemental supply under the heading of "Legislation," Rt. Hon. Sir Robert Bond drew attention to the mode which has been in vogue for many years as regards the publication of the debates. The matter had been referred to on many occasions and he held that some better system should be adopted. The reports now being published of Legislative proceedings were now back to the month of February, so that the public had lost all interest in the published proceedings. The present system was obsolete and uninteresting and he would suggest that something better be adopted before next session. He believed a Hansard something after the form of the English or Canadian method, which would be a permanent and concise method of recording proceedings, invaluable for purposes of reference and by which reports would be in the hands of members for division a few hours after speeches were delivered. He thought also that if newspapers desired to publish the debates that the matter should be regarded in the nature of a private venture and that they should have enterprise enough to send a reporter to give a digest of proceedings. The present system was worthless and he hoped that the Premier would give the matter his best consideration. The Premier agreed with Sir Robert that the present system is valueless and out of date and promised at the next meeting of the Internal Economy Commission to have the matter fully dealt with.

Col. Seely, the Parliamentary Secretary to the Colonial Office, has been appointed Under Secretary for War, and Lord Lucas has been made Under Secretary for the Colonies. This exchange of offices is consequent on the elevation of Haldane to the House of Lords. The rumor that Lloyd George is to retire is officially denied. Lord Haldane's elevation is intended to relieve Lord Morley of the heavy task of the leadership of the House of Lords during Lord Crewe's absence.

WASHINGTON, March 23.

The possibility of American intervention in Mexico is strengthened to-day by reports from influential quarters, which indicate that the insurrection in the Southern Republic must be fought out to the bitter end. The refusal of President Diaz to accede to peace terms, carried to Mexico City by Limantour, and the subsequent avowal by the Finance Minister that he has apparently failed in his purpose, move the Mexican situation into a critical aspect to-day. The invasion of United States soil by Mexicans, the destruction of property, and finally the reported firing on United States soldiers by Mexican Federal troops, constitute the most serious breaches of international peace which have arisen since the refusal to peace terms, carried to Mexico City by Limantour, and the subsequent avowal by the Finance Minister that he has apparently failed in his purpose, move the Mexican situation into a critical aspect to-day.
