Raspberries Still Scarce and in Good Demand — Prices Firm.

GLUT OF RED CURRANTS

Black Currants Were on Sale for First Time This Season.

Raspberries were not very plentiful on the market yesterday, and were soon picked up, some of the best fruit bringing 17c per box, the the bulk sold at 16c, and some went at 15c.

Strawberries, too, were rather scarce, but did not sell nearly as quickly as the raspberries, as the people do not seem to want them, perhaps because they have not been very good this year. They sold at 13c to 14c per box.

Black currants appeared on the market for the first time yesterday. Dawson Elliott had some from E. Abbs, Aldershot, and McWilliam & Everist some from W. J. Devlin, Sheridan. They sold at from 75c to $1 for a 6 quart basket.

Red currants are so plentiful they have become a drug on the market, and it is almost impossible to sell them, even at the low figure of 35c to 50c per 11-quart basket, and from 4c to 5c per quart box.

Gooseberries, too, are a very poor sale, and are down to the low water price of 40c to 60c per 11-quart basket, the some extra choice fruit brought as high as 90c.

Tomatoes (Canadian outside grown) are coming on in much larger quantities and are selling at 90c to $1.15 per basket, some extra choice ones bringing $1.25 per basket.

White & Co. had a car of apples from Delaware which were a fair sample for this time of year, and sold at $1.75 per hamper.

New potatoes are a little easier, and are now selling at $5.25 to $5.50 per barrel, the old ones remain firm at $3 per bag.

What The Grain Brokers Say

Finley Barrell & Co.: Look for lower prices for September and December wheat.

Thomson & McKinnon: Suggest sales of wheat on the rallies, as the hedging pressure will undoubtedly be heavy.

Logan & Bryan: Believe it will take continued support to hold wheat prices, barring serious rust damage northwest, which does not seem likely at this time.

Harris, Winthrop & Co.: It will be surprising if the foreigner will stand up under such offers as will be made on the addition to what wheat he has already bought.

James E. Bennett & Co.: It will require sensational developments in the spring wheat fields to offset the certainty of a big wheat crop. Take advantage of the rallies to make sales.

CORN TAKES LEAD IN CHICAGO PIT

Wheat Broke Sharply, But Recovered Later — Market Closed Strong.

CHICAGO, July 9.—Corn took the lead on 'change today, both in activity and strength. Drought damage as well as the bullish construction placed on the government report prepared the way for a decided bulge. The markets loseds trong, 5-8c to 2⅛c above last night. In wheat the outcome was unchanged to ¼c lower, and for oats a gain of 1-8c to 3-8c. Provisions wound up with 2½c to 62½c net advance.

There was a rush to buy corn. The fact that the government estimate of the yield for this season proved to be much under what the trade in general had been led to expect was the origin of the stampede. Then came damage reports from southern Illinois and other parts of the Ohio valley, from northern Texas and from Oklahoma. Despatches showing an excellent cash demand in virtually all markets caused bullish sentiment to become more rampant and kept selling confined largely to longs taking profits.

High Prices Rule.

Highest prices of the day formed the rule in the corn pit as the session drew to a close. It was pointed out that in addition to the effect of the government report and to the injury due to widespread dry, hot weather, the Argentine situation could not be ignored. Buenos Ayres sent word that the corn coming from the interior was disappointing in quality, and that exports are far below last year, with nothing headed toward the U. S.

Wheat Recovered.

Altho wheat broke sharply as a result of the large crop indicated by the government report, the setback was almost entirely overcome. Extremely high temperatures prevailed in the northwest and were accompanied by the first authoritative reports of serious damage from black rust. Mitchell, South Dakota, was where the significant news in regard to the rust originated.

Unfavorable weather and the corn bulge governed oats. The government report had little influence except at the outset.

Shorts in July pork found the market suddenly bare of offerings and had to face a rapid advance in values. Rising prices for hogs and corn helped give the rest of the provision list a moderate upturn.

HAVE LOST HEAVILY IN MEXICAN CRISIS

MONTREAL, July 9.—Dr. F. S. Pearson, an American, with big financial interests in Mexico, is visiting Montreal and Toronto, with, it is understood, the object of raising more capital for his Texas and Mexican Northern Railway schemes. Interested in his various enterprises are Sir William Van Horne, Sir William Mackenzie, E. R. Wood, and his bankers, the Canadian Bank of Commerce. A telegram from El Paso, Texas, credited Mr. Pearson with giving financial aid to the Mexican rebels, but in consultation with one of his legal advisors here, your correspondent was informed such was not the case. "In fact," said he, "Canadian financiers have lost so heavily thru the revolution that their sympathies are with Huerta." One Montrealer has dropped a quarter million since the revolts started. Others have been hit almost as badly and expect to suffer very severely if Villa's success continues.

RAILWAY MORTGAGES ARE NOT FILED YET

OTTAWA, July 9.—The Canadian Northern $45,000,000 and the Grand Trunk Pacific $16,000,000 mortgages, which will cover the bond guarantees of the Dominion Government, have not yet been recorded, and the delay in their completion is causing some embarrassment. The minister of finance and the deputy minister are both out of the city, and no explanation of the delay is forthcoming from the department.

PEERLESS PASS DIVIDEND.

CLEVELAND, O., July 9.—The Peerless Motor Car Co. have passed the regular 1 3-4 per cent. quarterly dividend on their preferred stock. The officials of the company state that the cause of this action is due to their desire to conserve their resources in view of a new lower-priced car which the company is just bringing out.

AMERICAN CROP FIGURES WERE IGNORED ABROAD

LONDON, July 9.—Money was firm today. Discount rates were dearer on the poor bank return.

The stock market was quietly irregular. The chief support came from investors in gilt-edged securities and the recent new issues, and speculative buying helped Mexican Rails and the Maroon stocks, but the Paris favorites, Grand Trunks and Brazilian Rails, were again freely offered, and the closing was weak.

American securities were quiet and featureless during the forenoon. The American crop figures were ignored, and in the afternoon the list sagged under the leadership of Chesapeake and Ohio and Denver and Rio Grande, and finished easy.
