The Viceroy seemed preparing for some extremity or other for we find that he has settled and liquidated all the claims of the European merchants for supplies furnished him.

The blockade of Alexandria was so carelessly enforced, that a Greek vessel entered the harbor unmolested on the 19th of October.

The overland mail from India had not arrived consequently we have nothing further from China. It was hourly expected.

INDISPOSITION OF HER MAJESTY.—On Sunday, the 12th instant, in consequence of Her Majesty feeling indisposed, the two military bands were not permitted to perform on the terrace, but were ordered, by command of the Queen, back to their respective barracks, and an express was immediately sent off to London, for the immediate attendance of Sir James Clark. Her Majesty was in excellent health on the 5th inst.

STATE OF TRADE.—The little increase of demand for manufactured goods that appeared last week, arising from the execution of the orders bro't by the steamer from the United States, appears to have now died away; and the pressure for money continuing unabated, the market has now relapsed into its former state of dulness and inactivity. The yarn market was also injuriously affected by unfavorable accounts from Germany, where sales of yarn appear to have been checked by hostile rumors, and several orders for purchases in this country have been countermanded. On the whole, the market was very gloomy, and exhibited little promise of change until an improvement takes place in the state of the money market.

Rochdale Flannel market, Monday, Nov. 2.—Notwithstanding a tolerably fair attendance of buyers in the market to-day, there has been less than the usual amount of business done. The general rent-day in Rochdale occurs this month, and the buyers never fail to take advantage of it. Lower prices have been offered; and, in some cases, the needy makers have been obliged to accept it. Considerably more business might have been done, if the manufacturers generally would have submitted to a reduction. The wool market is about the same as that of last Monday.

Huddersfield Market, Tuesday.—This was much the same sort of market as last week,—by no means discouraging, taking into consideration the time of the year. Heavy woollens, plain and fancy, are still in fair demand: prices remain firm. Business in the warehouses is no worse.—*Manchester Guardian, Nov. 4.*

FIRE AND LOSS OF LIFE.—This morning, about six o'clock, a fire broke out in a barn belonging to Mr. J. Belanger, at St. Michel, in the rear of Beauport, which, we are sorry to learn, has been accompanied with a serious loss of life. It appears, that, on perceiving the building was on fire, Mr. Belanger, his brother, and a servant man, rushed into the place with the intention of saving the cattle and what other property they could, but it is supposed they were overpowered by the smoke, and all three perished in the flames. A young lad had been in the barn shortly before the melancholy accident occurred, with a lantern, foddering the cattle, from which it is supposed the fire was communicated.—*Quebec Gazette, 25th November.*

A number of counterfeit Spanish half dollars and quarter dollars have been put in circulation, in this city, within a few days past, and, we understand, that an individual has been lodged in jail on a charge of uttering Counterfeit Coin. The base money may be detected by its dead colour and greasy feel.—*Ib.*

To Correspondents.—"A Mechanic" and others have been received;—we would recommend "A Mechanic," who calls himself a Member of the Mechanic's Institute, to lay his appeal and complaints before the Directors of the Institute; or get a sufficient number of Members to call an extra meeting of that body, that his charges may be fairly and fully investigated.

"N" will appear in our next number.

A Correspondent wishes to know why the winter covers are not placed over the Fire Plugs in the city.—"The probability is that in case of fire, not one of them will be found serviceable in consequence."
