### ASSOCIATION FOOTBALL.

BAYS WIN CHAMPIONSHIP.

The Fifth Regiment developed unusual strength in the game against the J. B. A. A. yesterday by taking on several old timers, but in spite of this they were unable to make a win of it, the Bays getting the only goal scored. This gives the Bays the championship of the city.

The game was played on a very sloppy ground, and at first the Regiment went off with a rush, playing with the wind. For a time they pressed their opponents pretty much, but the Bays getting away, made their goal during this half. After this they came back to their old form and continually pressed the Regiment defence, but the muddy condition of the ground at their scoring end made it almost impossible to stand long enough to put the ball through. There was a gale blowing and the game was played under very difficult circumstances. The teams were as follows:

J. B. A. A.—Nortncott, Lawson, S. Lorimer, J. Lorimer, Hughes, Shanks, F. Davis, J. Davis, Peden, Gray and Todd.

Fifth Regiment—Jones, Kinloch, W. Fairall, C. Fairall, J. Hart, Petch, Berkeley, Kroeger, Schwengers, Loat, J. Lawson.

OFFER ACCEPTED.

The following clipping is from the Vancouver Province, and of Monday last:

"A meeting of the Vancouver District League received a communication from Victoria asking for a series of games with Vancouver. This was favorably received, and the offer accepted, the undertaking being that the games will be played at an early date."

VERY DRASTIC.

In connection with the discussion which has taken place in regard to amateur and professional players the following letter received by J. G. Brown from F. J. Wall, secretary of the English Football Association should prove of exceptional interest:

"J. G. Brown, President Vancouver Island Football Association.

"Dear Sir,—I am pleased to receive your letter of the 25th November.

"Our rules (rule 28) a copy of which I send you herewith defines a professional football player as follows:

"'Any player registered with this association as a professional or receiving remuneration or consideration of any sort above his necessary hotel and travelling expenses actually paid shall be considered to be a professional.'

"The British Columbia Football Association will doubtless take steps to protect its members having regard to the rule of the Canadian Amateur Athletic Union.

"The rule of the union appears to be a very drastic one.

"There are many of our university and public school men playing with the best professional clubs in England. The amateur status of these players is in no way affected.

"Amateur clubs in England are regularly playing against professional clubs.

"I do not think I can state the matter more definite than I have done but if you think I can be of further use please do not hesitate to write to me.

"Believe me, yours very truly,

"F. J. WALL."

TO-DAY'S MATCH.

Those who wish to see some good soccer should go out to Work Point this afternoon to witness the game between the Blues and Whites, two picked teams from the Victoria United, which will be played for the purpose of picking a team for the Island league. McDougall will referee the game. This new aggregation is looking forward to taking the Island championship. They have unusual opportunities for practice together, and some of their men were among the best in the Victoria league. There is no centre half around to equal Teddy O'Connor, and Findlay is no mean foe.

### MISCELLANEOUS

A SOUVENIR.

A very fine souvenir record of the athletic year 1906-7 of the University of Pennsylvania is to hand. Features of the book are the half-tone illustrations which are of the very first order, especially those dealing with football.

The Univcversity of Pennsylvania is proud of its student manhood. It has a system of compulsory athletics, so that the whole four thousand students take part in the games and athletic exercises of the institution. The illustrations certainly show some fine samples of well-developed men.

### RUGBY FOOTBALL.

STARR JORDAN KNOWS.

President David Starr Jordan, of Stanford University, in an address to the students of Occidental college, a few days ago, branded American football as "unethical, unchristian and unsportsmanlike," and endorsed Rugby football as the only game for American colleges. Dr. Jordan not only attacked football as played in this country, but accused Walter Camp and other advocates of the American game of corrupting the English into the American style of play in order to get control of the game.

"The mass play in the American game," he said, "is a monstrosity. It is the greatest evil ever introduced into play. A game placing a premium on brute strength is devoid of sportsmanlike qualities."

VICTORIA VS. VANCOUVER.

To the Sporting Editor,—Sir: The match played at Vancouver on Saturday last, though resulting in a sweeping victory for the home team was brilliantly contested from start to finish by the Victoria forwards, who proved themselves fully equal to their opponents and this was the only redeeming feature of the game. The absence of Victoria's crack players was generally commented upon, and the fact that they found it inconvenient to leave home to play in this important game was unfortunate indeed, but no doubt they will all be able to play against Stanford University at Oak Bay on January 4th. The Victoria captain in the above match was not "in touch" with his team, the majority of whom he didn't know personally and never spoke to before the game or afterwards. All of which goes to show a lack of unanimity and enthusiasm, without which no football team can hope to achieve a full measure of success.

"TOUCH DOWN."

### HOCKEY.

PRINCELY SALARIES RECEIVED.

How would you like to be a hockey player?

Immense salaries are being paid to puck-chasers in the eastern Canada Hockey League this season, and unless the game breaks all precedents as far as attendance and popularity go, some of the club backers will be handing around I. O. U. notes about easter time. Salaries, in fact have soared higher than ever before, and one would hardly believe the high salaries the different clubs are going to pay their men.

Last year when the late Hod Stuart jumped the Pittsburg Club and went to the Montreal Wanderers, it was thought that the hockey stipend had reached its limit. Wanderers paid between twelve and fifteen hundred for the famous Ottawa man, and besides Hod stayed at one of the best hotels in Montreal at the expense of the Wanderer Club. But Hod, to the Wanderers was worth every cent of it, for to him belongs credit for winning the Stanley Cup.

Next to Stuart came Pud Glass, who demanded $700 at the start of the season and then held out for an extra $200 before he went on the ice in the Stanley Cup games at Winnipeg. Erney Johnston got his good $700, and Riley Hern $600. Blatchford and Patrick, two of the best men in the game, were amongst the lowest paid, while the public has yet to be shown Ernie Russell's bank book.

The Ottawa salaries were low last season—lower, in fact than some of the players expected. It was the financial question which led to the trouble between the club and the players, but that is a dead issue now and it won't do any good to resurrect it. Most of the Ottawas have better positions, however, than the other men in the game, so they have no kick coming. Bruce Stuart and Fred Taylor received prize packages for their work in the International, and Billy Baird was given about $50 per week by the Ottawas, Tom Phillips getting $1,000 from Thistles also. When Alf. Smith and Harry Westwick went West they cost the Kenoras a pretty penny. Victorias, Shamrocks and Montreals claim to have managed amateur teams last season, but this year they are all out with the green stuff.

The Ottawa team's pay list of this sason has not yet been announced, but will not be near as expensive as that of Wanderers, or Montreal. Montreals are said to be paying Ernie Russell, Pud Glass and Arnie Johnston their sweet $900 for the season, and Wanderers will hand $1,000 over to Bruce Stuart for his services. Laviolette is said to be asking $700 from the Shamrocks, and Charlie Ross, the Ottawa boy, is understood to value his skill as a hockeyist, at $600. Shamrocks, it is reported, are giving Billy Nicholson and Jimmie Gardner $500, while Horace Gaul has been offered almost that amount and a permanent position as well.

Victorias say they will stick to their amateur rule and that not a man will be paid. Tom Phillips' prices are quoted elsewhere, and if Wanderers succeed in inducing Lester Patrick to come out of the woods in British Columbia, it is a ten to one shot that they will have to touch up their bank account for another few hundred plunks.

Salaries keep going on, however, and the clubs are now talking of getting together and putting on a limit as done in the National, American and Eastern Baseball Leagues. They will have to do this eventually, if they hope to remain in existence, and in more than one city it is believed that the players with their alleged "hold-up" tactics will yet "kill the goose that lays the golden eggs."

Lacrosse players in the N. L. U. last season were lucky to get $250 for four months' work, but the hockeyists are evidently going to take in small fortunes for twelve weeks' exertion. The Pittsburg teams are paying from $15 to $25 per week, and the scale in the Canadian pro league is about the same.—Ottawa Citizen.

MANITOBA LEAGUE.

Winnipeg, Dec. 26.—To-night will see the opening of the Manitoba hockey league when the Strathconas will line up against the late holders of the Stanley cup at Kenora. The other game between Brandon and the Maple Leafs, which was scheduled for to-night, has been postponed until January 1st, owing to the delayed admittance of the latter club into the league.

### THE RING.

WANTS TO FIGHT BURNS.

Jem Roche, of Wexford, the Irish champion, has for some time been in the field ready to challenge the winner of the Burns and Moir fight—long before its consummation, in fact. Mr. Jem Clark, Roche's backer, journeyed from Dublin to London for the purpose of challenging Burns, and made a strenuous effort to publicly proclaim the fact in the National Sporting Club immediately after the contest. He was informed that challenges of this nature were not allowed in the club, and must be made through the sporting press.

Mr. Clark accordingly withdrew, but, afterwards (says "Sporting Life") he discussed the matter with Tommy Burns and Mr. Billy Neall at their hotel. Mr. Clark said Jem Roche was anxious to box Burnss for $2,500 and the best legitimate purse offered either in England or Ireland.

Mr. Neall remarked that Burns would never box again for so small a purse as the one given at the National Sporting Club. In America they had now an offer of thrice that amount.

Burns inquired how much they were prepared to give in Ireland, and Mr. Clark said he could not positively say, but thought it would be larger than elsewhere.

Burns said he had been offered a $10,000 purse in England, but Mr. Clark assured him that the purse in Ireland would be considerably short of that sum. He was not authorized to make any definite proposition; only that it would be larger than any legitimate offer. Roche was anxious for the fight and would put no obstacle in the way of a fair and sportsmanlike understanding.

Burns was of the same way of thinking, and as all his business was "on the level," this proposed match could only go one way, which was the right and proper one, from which he (Burns) would not deviate.

Mr. Clark convinced the champion that over in Ireland it was fair play and no favor, and the better man always won.

Burns said he felt sure of that, and, after a very friendly interview, it was decided to defer for the present any further discussion until offers of a purse were made, and then select the largest, when articles could be signed, and part or the whole of the stake money ($2,500) deposited.

DUFRESNE WON.

Montreal, Dec. 24.—"Kid" Dufresne, of Lewiston, Maine, knocked out Pinky Evans, of Albany, in the seventh round of what was to have been a ten-round bout at the National Club house last night.

### BASKETBALL.

LOCAL Y.M.C.A. LOSES.

Owing largely to the absence of Bob White through illness, Victoria Y. M. C. A. lost their final basketball game last night against Vancouver Y. M. C. A., the score being 16 to 9 in favor of the visitors.

There was a big crowd out, the biggest yet, with the exception of the night the Klondikers played. The first game was between the Fifth Regiment and Y. M. C. A. intermediates, the Regiment winning by a score of 19 to 13. The score at half time stood 10 to 2 in favor of the winners, but after half time the Y.M.C.A.'s picked up and had much the best of the game. Some very fine shots were made by Renfree after half time. This game was refereed by Physical Director Smith of Vancouver.

The real fun of the evening began when the Vancouver and Victoria fives took the floor. The home team was without its crack centre and captain, and their supporters were naturally somewhat downhearted. The game was keenly contested and fast from the start. Vancouver had the heavier men and they played better combination. The locals were quick and worked hard, but they often failed to find the basket. The game went clearly won by the better team, although if White had been present the result might have been different.

The regimental band gave a number of selections, which helped to enliven the evening.

After the game the contestants and a few of their friends repaired to the Y. M. C. A., where supper was spread in the auditorium. J. A. Brace acted as toastmaster and the health of the visiting team and success to clean sport were drunk with enthusiasm. Speeches were made by Physical Director Smith of Vancouver; Findlay of the local association; Tuck, captain of the visiting team; T. Peden, of the home five; and Referee Rino of Seattle, who came over on purpose to referee the game. The festivities closed about midnight, and the visitors left on the one o'clock boat for home.

The next game of the series will be played next Tuesday evening in the Drill hall, between the local team and Seattle Y. M. C. A.

### GENERAL NOTES.

There is a general feeling of satisfaction at the fact that the Victoria and District championship has been won by the James Bay Athletic Association, whose team has never been beaten during the series. They will now make a bid for the Island league championship, but should they prove unsuccessful they will doubtless prove themselves to be as good losers as they have proved to be good winners. What they are out for is good, clean sport.

Among the things the News-Advertiser thought Santa Clause should have brought was the following: "Capt. Meredith, Victoria Rugby team —'A photograph of the McKechnie Cup. Thanks, that's all this year.'"

The Vancouver Province hands out a bouquet to Newcombe whom it says was the best all-round man on the Victoria Rugby team in the recent game.

The J. B. A. A. soccer team has not been beaten throughout the series, although they came pretty close to it on several occasions.

J. B. A. A. junior basketball team play the Shamrocks to-morrow evening.

## CONCERNING DEATH PENALTIES.

Which is the most common form employed in the carrying out of the death sentence? The probability is that most people, if asked, would at once say the gallows, yet this is far from the case.

The favorite mode appears to be the guillotine, which is employed publicly in France, Belgium, Denmark, and two cantons in Switzerland, and privately in Bavaria, Saxony, and also in two cantons of Switzerland.

The cherry gallows comes next in the running, and is favored publicly in Austria, Portugal and Russia, and privately in Great Britain and the United States.

Death by the sword obtains in fifteen cantons in Switzerland, in China and Russia publicly, and in Prussia privately. Ecuador, Odenburg and Russia have adopted the musket, all publicly, while in China they have strangulation by the cord, and in Spain the garrote, both public, and in Brunswick death by axe, and by the electric chair in New York.

Out of an average annual loss to the world's shipping of 2,172 vessels, 94 are completely missing and never heard of again.

## A SECRET OF SUCCESS

To the current number of the Nineteenth Century Mr. J. B. Williams contributes an interesting article on the "Early History of London Advertising." And it is rather curious to reflect that London did not begin to practice that graceful art—since carried to such perfection—until the Stuarts were imported from Scotland. Yet ancient Rome had its recognized media of publicity, and in an even earlier age Babylon heaved its half bricks at the public, telling it what it wanted and where it was sold. Elizabethan London could think of no better plan than to station its 'prentice outside the shops with the cry "What d'ye lack?" Now this showed a remarkable ignorance of the underlying principle of all advertisement, which by no means consists in asking another fellow what he wants. Just the opposite.

You may take it as a maxim that the average man does not know what he wants. He knows he wants something; this, at least, is the case with most of us; we are vaguely uncomfortable in the present and desire an alteration in the future. There is the business man's opportunity to tell the other fellow what it is that he desires—what both of them desire. For the other fellow has a vacuum, the business man has a lump of something or other—a new religion or a new soap—and it is the glory of the business man to dab his lump into the other fellow's vacuum (with no particular regard to size or shape) and announce persuasively that "This is what you want!" What seems to lead us incidentally to a view of the laws of supply and demand that would startle Adam Smith out of his long sleep.

The Art of Advertising.

It is really—this art of advertising—the art of forcing the card. You have seen that art practiced in public many times, or to fix the tax according to the relative assessed value taken from the Assessment Roll, with power to place a special or additional tax on vacant lands fronting or abutting on the water mains, or partly by each of these methods, or by two or more or all, and so that such tax shall be a charge on the land supplied, or capable of being supplied, and also the power to fix a water rental for water supplied, whether with or without water meter, or by estimation or otherwise, with power to the City to pass By-Laws levying the tax and approving and enforcing the rates, rentals and charges for the supply of water;

To amend Section 14, as amended by Section 5 of said Chapter 64 of 1892, by separating, on the passing of a By-Law to that effect by the Council, the waterworks monies from general revenue, and to require payment thereof into a separate Bank account, paying only to the City Treasurer such amounts as the Council may, by resolution, direct;

To amend Section 27 of said Act of 1873 by giving power to the Corporation to authorize contracts for the sale of water mains and plant used in the supply of water outside the City or in adjoining municipalities to the Corporations of such municipalities, with power to contract with outside municipalities, corporations or persons for the supply of any quantity of water or power produced by water within such outside municipality or outside the City, upon such terms as to supply and use and payment therefor as may be arranged, and with express power and authority to any outside municipality with whom the Corporation may have made contract for supply, to levy within such municipality a frontage tax or other tax, assessment or rate for the payment of such water supply or power for the benefit of the Corporation, and with power to such Corporations to levy and collect such rates, assessments or taxes with the like remedies as the Corporation have within the City limits;

To repeal Sections 28, 29 and 31 of said Act of 1873 and to substitute therefor power to the Corporation to borrow money upon the security of the waterworks taxes, rates, rentals and charges and the general revenue of the waterworks system, or of waters belonging to the Corporation, with or without the guarantee of the city, and that the debentures to raise monies shall be issued under the formalities required for debentures issued under the authority of the Municipal Clauses Act and following Section 81 of the Municipal Clauses Act;

To repeal Section 32 of the said Act of 1873, and to substitute therefor power to the Corporation to purchase in extinguishment, at a sum not exceeding the par or nominal value of same, outstanding waterworks debentures out, of the sinking funds set aside for the particular issue, with a direction to Bankers and others holding the said sinking funds to give effect to this enactment;

To repeal Section 33 of said Act of 1873;

To add to Section 34 of said Act of 1873, as amended by Section 9 of said Chapter 64, by enabling the passing of a By-Law to give effect to Section 14, and by separating and paying all waterworks monies into an account with the Bankers of the Corporation, there to remain under the control of the Council, and that such funds shall, unless otherwise at any time thereafter directed by resolution by a two-thirds vote of the Council, be expended on waterworks account alone, including sinking fund and interest on borrowed monies;

To add to Section 36 a proviso entitling the Commissioner and Corporation to one month's notice of action before any proceedings arising out of or in connection with the carrying out of the said Act;

To repeal Sections 40, 42 and 43 of said Act of 1873, and to enact that waterworks taxes, rates, rentals and assessments shall be debts due to the Corporation and collected as municipal taxes;

To give to the Corporation power to use or sell waters for producing any form of power, or for producing and generating and disposing of by sale or otherwise, light, heat and power, either within or without the City; that all powers, rights and privileges by any Act granted to the Corporation shall be applicable to the acquisition, use, disposal, supply and sale of waters for power purposes, and giving to the Corporation the following special powers:

Power to construct works;

To transmit power;

To convey power by wires and place poles for carrying wires on lands or highways outside the City, including Crown lands;

To construct all necessary buildings and works and maintain and operate the same, extending the powers of expropriation to waters for power purposes;

That any arbitration to ascertain compensation under Waterworks Acts may, at the election of the Council, be proceeded with under Section 251 of the Municipal Clauses Act;

And such incidental and necessary powers as are involved in the foregoing or may be conveniently used therewith.

MASON & MANN,
Solicitors to the Corporation of the City of Victoria.
November 20th, 1907.

NOTICE is hereby given that we intend to apply to the Board of Licensing Commissioners of the City of Victoria, at their next sitting as a Licensing Court, for a transfer of our license for the sale of wines and liquors by retail upon the premises situated at the corner of Douglas and Pandora streets, in the City of Victoria, B. C., and known as the "Elk" Saloon, to Lorenzo McCrae and Bert Holden.

Dated this 9th day of November, 1907.

## Session of the Legislative Assembly, 1908.

NOTICE OF APPLICATION FOR PRIVATE BILL.

NOTICE is hereby given on behalf of the Corporation of the City of Victoria that application will be made in the Legislative Assembly of the Province of British Columbia at its next Session for a private Bill to re-enact, ratify and confirm the "Corporation of Victoria Waterworks Act, 1873," and the "Victoria Waterworks Amendment Act," Chapter 64 of the Statutes of 1892, and to make the following amendments and additions to such Act, and to consolidate the same with the following amendments:

To amend Section 2 of the Act of 1873, which enables the Corporation by a Commissioner to construct waterworks, by giving to such Commissioner power to manage and conduct and determine the use for any and every purpose to which any waters of the Corporation are put;

In Section 6 of the Act of 1873, as amended by Section 3 of said Chapter 64 of 1892, to empower entry on and expropriation of Crown lands and expropriation of surplus waters running to waste of any waterworks company, and of land in the water shed of any waterworks company, whether portion of the waterworks or not;

To amend Section 7 of the said Act of 1873 to authorize the conducting of water over and across the lands of the Crown and of the lands of the Esquimalt Waterworks Company at Goldstream or in Esquimalt, and to construct necessary works for conducting such water across, over, or under any conduit, or pipe or other work of such Company;

To amend Section 10 by making the date for the annual return therein directed with statement of affairs of the waterworks to be made on the 15th January of the year following, in lieu of on the 31st December for the year terminating on that date;

To amend Section 13 as amended by Section 4 of Chapter 64 of 1892, by repealing the same, and substituting therefor a section giving power and authority to the Water Commissioner to fix the amount of waterworks tax, and so that the same may be assessed and levied on the basis of frontage along the water mains and branches thereof, or, in case of special benefit and advantage having regard to locality, to fix a special tax or additional tax, or to fix the tax according to the relative assessed value taken from the Assessment Roll, with power to place a special or additional tax on vacant lands fronting or abutting on the water mains, or partly by each of these methods, or by two or more or all, and so that such tax shall be a charge on the land supplied, or capable of being supplied, and also the power to fix a water rental for water supplied, whether with or without water meter, or by estimation or otherwise, with power to the City to pass By-Laws levying the tax and approving and enforcing the rates, rentals and charges for the supply of water;

To amend Section 14, as amended by Section 5 of said Chapter 64 of 1892, by separating, on the passing of a By-Law to that effect by the Council, the waterworks monies from general revenue, and to require payment thereof into a separate Bank account, paying only to the City Treasurer such amounts as the Council may, by resolution, direct;

To amend Section 27 of said Act of 1873 by giving power to the Corporation to authorize contracts for the sale of water mains and plant used in the supply of water outside the City or in adjoining municipalities to the Corporations of such municipalities, with power to contract with outside municipalities, corporations or persons for the supply of any quantity of water or power produced by water within such outside municipality or outside the City, upon such terms as to supply and use and payment therefor as may be arranged, and with express power and authority to any outside municipality with whom the Corporation may have made contract for supply, to levy within such municipality a frontage tax or other tax, assessment or rate for the payment of such water supply or power for the benefit of the Corporation, and with power to such Corporations to levy and collect such rates, assessments or taxes with the like remedies as the Corporation have within the City limits;

To repeal Sections 28, 29 and 31 of said Act of 1873 and to substitute therefor power to the Corporation to borrow money upon the security of the waterworks taxes, rates, rentals and charges and the general revenue of the waterworks system, or of waters belonging to the Corporation, with or without the guarantee of the city, and that the debentures to raise monies shall be issued under the formalities required for debentures issued under the authority of the Municipal Clauses Act and following Section 81 of the Municipal Clauses Act;

To repeal Section 32 of the said Act of 1873, and to substitute therefor power to the Corporation to purchase in extinguishment, at a sum not exceeding the par or nominal value of same, outstanding waterworks debentures out, of the sinking funds set aside for the particular issue, with a direction to Bankers and others holding the said sinking funds to give effect to this enactment;

To repeal Section 33 of said Act of 1873;

To add to Section 34 of said Act of 1873, as amended by Section 9 of said Chapter 64, by enabling the passing of a By-Law to give effect to Section 14, and by separating and paying all waterworks monies into an account with the Bankers of the Corporation, there to remain under the control of the Council, and that such funds shall, unless otherwise at any time thereafter directed by resolution by a two-thirds vote of the Council, be expended on waterworks account alone, including sinking fund and interest on borrowed monies;

To add to Section 36 a proviso entitling the Commissioner and Corporation to one month's notice of action before any proceedings arising out of or in connection with the carrying out of the said Act;

To repeal Sections 40, 42 and 43 of said Act of 1873, and to enact that waterworks taxes, rates, rentals and assessments shall be debts due to the Corporation and collected as municipal taxes;

To give to the Corporation power to use or sell waters for producing any form of power, or for producing and generating and disposing of by sale or otherwise, light, heat and power, either within or without the City; that all powers, rights and privileges by any Act granted to the Corporation shall be applicable to the acquisition, use, disposal, supply and sale of waters for power purposes, and giving to the Corporation the following special powers:

Power to construct works;

To transmit power;

To convey power by wires and place poles for carrying wires on lands or highways outside the City, including Crown lands;

To construct all necessary buildings and works and maintain and operate the same, extending the powers of expropriation to waters for power purposes;

That any arbitration to ascertain compensation under Waterworks Acts may, at the election of the Council, be proceeded with under Section 251 of the Municipal Clauses Act;

And such incidental and necessary powers as are involved in the foregoing or may be conveniently used therewith.

Ch

THE little people of Jap
taught us the decorati
of the chrysanthemum f
ing and embroidery. Indeed,
we owe many of the finest
blooms that brighten for us
days of fall.

While it would be hard for us
the exquisite embroidery done
Japanese, which is flawless o
as well as right side, we have
from them many of our most
designs for art needlework.

Especially is this so in the
adaptations of chrysanthemum
which we have grown fond of
lingerie, household linens and f
decorative purposes.

One reason that most embroid
joy working a chrysanthemum
it is susceptible of so many
treatment. For instance,
worker may merely outline the
slender petals and jagged foliage
so graceful a motif as the one
day, and yet have quite an
blouse.

Or again, it may be done in
stitch, which, though somewha
first furore, is still in great f
those who like results withou
effort.

If this method of working is
do the flowers in the shadow s
the foliage either in long or sho
with the veins done in outline,
half the leaf padded and cove
satin stitch and the other sid
on the edge and filled in with
