☞Storage to let.

WILLIAM BARR.

17th August, 1838.

☞Notice.

THE subscribers having formed a connection in Business, will in future transact under the Firm of JAMES WHITNEY & CO

JAMES WHITNEY
CHARLES R. GIBBONS.

St. John, 1st May 1838.

☞Notice.

THE subscriber having taken a store in Ward street, adjoining the premises occupied by Messrs. D. Hatfield & Son, for the purpose of transacting a General

Auction & Commission Business,

is now prepared to receive Goods intended for sale, and to attend to such orders in the above line as his friends and the public may be pleased to entrust to his management.

16th March. S. L. LUGRIN.

☞Notice.

THE subscriber announces to his friends and the public, that in addition to the Business of a General Commission Agent, he will from this date undertake that of a MARINE INSURANCE BROKER, and solicits a share of their countenance.

JAMES T. HANFORD.

St. John, April 28, 1838.

REMOVAL.

THE subscriber begs leave to acquaint his friends and the Public, that he has removed to the store formerly occupied by Mr. ANDREW BURGOYNE, three doors North from the corner of Dock street, and opposite the store of Messrs. E. Drury & Co. where he will keep constantly on hand a general assortment of Fancy and Dry GOODS, JEWELRY, HARDWARE, &c. &c. and he respectfully solicits a continuance of that patronage which he has been favoured with while in his former stand.

EDWARD DOHERTY.

☞He daily expects his supply of Spring Goods per first arrivals from Liverpool, London, &c.

May 26.

SOFA BEDS,

On a new and improved Principle.

THE Subscriber begs leave to call the attention of the public to his new and improved SOFA BED. The prices vary according to the pattern and finish, from 5 to £15. The lowest prices asked, and no abatement. They are all warranted, and kept in repair one year, free of expense. Proprietors of hotels and boarding houses, and private families who study economy, are invited to call and examine them. In many cases they save more than the cost in rent and fuel.

July 27, 1838. R. PENGILLY.

CABINET WAREHOUSE,

HORSFIELD STREET.

WILLIAM RAMSAY, returns his sincere thanks for the liberal support he has received since his commencement in business, and trusts that by unremitting attention to the cabinet and written orders of his Friends and Customers, still to merit a share of public patronage.

Dr. Benjamin Brandeth's Vegetable Universal PILLS.

THE Subscriber has been duly appointed under seal and signature of *Dr. Brandeth*, as sole Agent for Saint John, and has just received the genuine Pills, which will be sold at 1s. 3d. per box, with full directions—in the fullest confidence of the merits of this medicine over all others now offered to the public as a grand assistant of nature.

Sept. 7, 1838.—6i A. R. TRURO.

FAMILY MEDICINES.

EVAN'S CAMOMILE AND APERIENT PILLS. These valuable Medicines were introduced under the direction of the "Society for the Restoration of Health," in London, and having gained in England great celebrity by innumerable well authenticated cases of cure, have recently been introduced into this country and are now offered to the Publick, with confidence that their highly distinguished character will stand the test of the most thorough scientific investigation.

It cannot be denied that whilest many medicines which are recommended to the public, have not even the negative merit of harmlessness, there are others which it would be great injustice indeed and suicidal prejudice to involve, in a common condemnation. And when a medicine, comes endorsed with all the great names that have adorned the annals of the medical profession, and warranted by the seal and signature of long and uniform success, the proprietor makes no unreasonable demand upon public confidence, when he claims for it a superior consideration.

The Camomile Preparation of Dr. W. Evans is undeniably entitled to this enviable distinction: for whilst no medical authority in existence condemns it, every medical work which alludes to it, and every medical practitioner that is acquainted with it, freely acknowledges its pre-eminent virtues; and that the latter should do so in opposition to their personal interests must be attributed either to their candor and love of truth, or to their unwillingness to fly in the face of all observation, and the testimony of thousands.

Aware that great imposition is constantly put upon the public in the shape of *deleterious drugs*, it is deemed important that it should be known that they are a *Vegetable Medicine*, and that they are regularly recommended and prescribed by the most experienced physicians in New York, Philadelphia, Albany and other cities in the Union where they have had an extensive sale. That they should thus conquer professional prejudice and interested opposition, and secure the agency of the most eminent and best informed physicians in the Country to render them useful to all classes, can only be fairly ascribed to their undeniable and pre-eminent virtues.

Enviable, however, as this distinction is, it can easily be accounted for from the intrinsic and peculiar properties of the medicine itself. It does not pretend to too much, and it accomplishes all that it promises. Dr. W. EVANS does not pretend, for instance, that either his *Camomile* or his *Aperient Pills* will cure all diseases by merely purifying the blood; but he certainly does pretend, and has the authority of daily proofs for positively asserting that these medicines taken as recommended, will cure a great majority of diseases of the stomach, the Lungs and the Liver, by which impurity of the blood is occasioned. The blood is made from the contents of the stomach; has its red color and vitality given to it by the action of the lungs, and as it performs its duty in circulating through the veins and arteries, has its yellow or bilious excrement, which may be termed its refuse or worn out sediment, collected and discharged by the liver.—These viscera, then, are the anatomical mechanism or apparatus by which the blood is manufactured and preserved; and it is therefore obvious that the state of these should be the first consideration of the physican. Now there are various causes that will affect and derange these organs with which the blood has nothing whatever to do. Thus the stomach may be utterly debilitated in one moment by affright, grief, disappointment, heat of the weather, or any other nervous action; and be wholly unable to digest its food. Is the blood to blame for this? A nervous action of long continuance will produce settled dyspepsia, with headache, bile, mental and physical debility, and a funeral retinue of other evils. Is the blood to blame for this? Intemperance, by inflaming the coat of the stomach, and leaving it in fixed prostrate weakness; and an undue quantity and continuance of purgative medicines by producing the same effects, will put this organ almost out of us for digesting wholesome and solid food, and thus impoverish the blood and the whole system. Is the blood to blamed for this? Again, with regard to the Lungs; it is well known that a slight cold, occasioned by damp feet, or by a current of air, will inflame the bronchia, all down through the branching air tubes of the lungs, and create either excessive mucus, or that dreadfully insidious disease, Consumption, with pustules and suppuration of the lobes, which, though timely remedies may prevent, no earthly skill can cure. Is the blood of the fair and blooming victim to blame for this? so the liver, when climate, sedentary habits, intemperance, or either prostrating causes have withered it away or paralyzed it with distention, becomes unable to carry off the bile from the circulation, and instead of discharging it through the gall bladder, leaves it to come through the skin in jaundiced and sallow fluids, and to rush upon the stomach in irregular and excessive quantities. Is the unfortunate blood to blame for this? No: these vital organs are never effected by the blood, until after the blood has been effected by them; they are its makers and masters, and it is merely their work and their passive agent.

Knowing this to be a sound and demonstrated fact in science and experience, Dr. W. EVANS' system of practice is in faithful accordance with it.

These medicines, which can be purchased either together or seperately, are confidently recommended for the following complaints, and directions for use accompany them:—Dyspepsia, in all its forms, Bilious and Liver affections, in every stage and degree; Female sickness, more particularly the nauseas incident to mothers; Flour Albus; Fever and ague; Incipient Consumptions or Declines, whether of the Liver or Lungs; Headache and Giddiness; Loss of Appetite; Nervous Tremors; Inebriation, or Detirium Tremens; spasmodic Affections of all kinds, Rhumatism, whether Chronic or Inflamatory, Nervous and Bilious Fevers of every variety, scorbuta, salt Rheum and all blotches, bad humors, and impure complexions of the skin, Restlessness at night and daily irritability mealancholy, the summer Complaint and Cholera Morbus, or Diarrhoea in grown persons, Worms and Flatulency with bad breath, Chlorosis, and Palpatation of the Heart or Head, Changes of Female Constitution; and for impared and disorganised constitutions in either sex which have been permanently relieved by any other medicine. A single trial of Dr. W. EVANS' Medicines to any of these cases will produce such effects as will indicate their incomparable superiority, and introduce sucah use of them as will ensure a speedy and unquestionable cure. The purchaser, however, should be careful to get them genuine of the authorised Agents, as all others are base and ignorant impositions.—For further particulars, he respectfully requests the public to peruse his other advertisments and medical papers, which may be depended upon for their strict and acknowledged truth.

Among the multiplied Certificates that have been given to the Public the following are given.

PARALOTIC RHEUMATISM.—*A perfect cure effected by the treatment of Dr. W. Evans.*—Mr. John Gibson, of North Fourth st. Williamsburg, afflicted with the above complaint for three years and nine months,—during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, but especially in the hip, shoulder, knees, and ankles, an aggravation of the pain towards night: and for the most part all times from external heat, an obvious thickening of the fascia & ligaments, with a complete loss of muscular power. For the benefit of those afflicted in a similar manner, Mr. Gibson conceives it meet to say that the pains have entirely ceased, and that his joints have completely recovered their natural tone, and feels able to resume his ordinary business.

MRS. MARY DILLON, Williamsburgh, corner of Fourth and North sts. completely restored to health by the treatment of Dr. W. EVANS, 7 Division st.

The symptoms of this distressing case were as follows: Total loss of appetite, palpitation of the heart, twiching of the tendons, with a general spasmodic affection of the muscles, difficulty of breathing, giddiness, langour, lassitude, great depression of spirits, with a fear of some impending evil, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts, great emaciations, with other symptoms of extreme debility.

The above case was pronounced hopeless by three of the most eminent physicians, and the dissolution of the patient daily awaited for by her friends, which may be authenticated by the physicians who were in attendance. She has given her cheerful permission to publish the above facts, and will also gladly give any information respecting the benefits she has received, to any inquiring mind.

MARY DILLON.

MORE CONCLUSIVE PROOFS of the extraordinary efficacy of Dr. *Wm. Evans'* celebrated *Camomile and Aperient Anti-Bilious Pills* in alleviating afflicted mankind. Mr. Robert Cameron, 101 Bowery. Disease, Chronic Dysentery or bloody Flux. Symptoms, unusual flatulency in the bowels, severe griping, frequent inclination to go to stool, tenesmus, loss of appetite, nausea, vomiting, frequency of pulse, and a frequent discharge of a peculiar acrid matter mixed with blood, great debility, sense of burning heat, with an intolerable bearing down of the parts. Mr. Cameron is now enjoying perfect health, and returns his sincere thanks for the extraordinary benefits he has received.

DYSPEPSIA AND HYPOCHONDRIASM.

Interesting Case.—Mr. William Salmon, Green just above Third, Philadelphia, afflicted for several years with the following distressing symptoms. Sickness at the stomach, headache, dizziness, palpitation of the heart, impared appetite, sometimes acid and putrescent eructations, coldness and weakness of the extremeties, emaciation and general debility, disturbed rest, a sense of pressure and weight at the stomach after eating, night mare, great mental despondency, severe flying pains in the chest, back and sides, costiveness, a dislike for society, or conversation, involuntary sighing and weeping, langor and assitude upon the least exercise.

Mr. Salmon had applied to the most eminent physicians, who considered it beyond the power of medicine to restore him to health; however, as his afflictions had reduced him to a very deplorable condition; and having been recommended by a relative of his to make trial of Dr. W. EVANS' medicine, he with difficulty repaired to the office and procured a package, to which, he says, he is indebted for his restoration to life, health and friends. He is now enjoying all the blessings of perfect health,—Persons desireous of further information will be satisfied in every particular of his astonishing cure at Dr. Wm. Evan's Medical Office, 100 Chatham st. N. Y.

LIVER COMPLAINT. Ten Years' standing—Mrs. Hannah Browne, wife of Joseph Browne, North sixth st. near Second st. Williamsburg, afflicted for the last ten years with the Liver Complaint, completely restored to health through the treatment of Dr. W. EVANS.

Symptoms—habitual constipation of the bowels, total loss of apetite, excruciating pain of the epigatric region, great depression of spirits, languor and other symptoms of extreme debility, disturbed sleep, mordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high colored, with other symptoms indicating great derangement in the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but yet received but little relief from their medicine till Mr. Brown procured some of Dr. Wm. Evans' invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

JOSEPH BROWNE.

City and County of New York, ss:

Joseph Browne, of Williamsburg, Long Island, being duly sworn, did depose and say that the facts as set forth in the within statement, to which he has subscribed his name, is just and true.

J. BROWNE,
Husband of the said Hannah Browne.

Sworn before me, this 8th day January, 1838.
PETER PINKING, Com. of Deeds.

PATHOLOGY OF CONSUMPTION.

BY DR. WILLIAM EVANS.—If the medical maxim be true, that "the knowledge of a disease is half its cure," how greatly is it to be deplored that the knowledge of those prevalent diseases which annually carry off millions of the human race, is not more generally diffused. How lamentable is it that so few of the great human family possess any information upon a subject in which, of all others, they are most vitally interested. It will probably be an incredible marvel of future generations of the world that the past should have been acquainted with every thing except that which it most concerns them to know.

To convey this knowledge more extensively than has yet been attempted by any other practioner, and to direct the attention of the afflicted to those few and simple remedies by which many of the most prevalent diseases may be arrested and removed, is the object of Dr. Evans in this and other pathological summaries which he will publish, upon the authority of the highest medical writers of the age. His instruction will necessarily be brief, but its accuracy will be undeniable.

CONSUMPTION.—Of this disease, in one or other of its forms, four thousand persons have died in the city of New York within the last seven years; this is proved by the city bills of mortality; and its victims throughout the country, have been in almost the same proportion to the population. Consumption (or Marasmus Phthisis) is of three kinds, the Catarrhal, the Apostematous, and the Tubercular. In catarrhal consumption, the cough is frequent and violent, with a copious excretion of a thin, offensive, purulent mucus, sometimes, but not frequently, streaked
