Montreal Produce Market

Montreal, Jan. 31.—There was no important change in the condition of the local market for oats today. The prices were maintained at the recent advance, but the volume of business was very small, because buyers do not seem disposed to operate freely at the present high figures ruling. In consequence, the demand for oats is of a hand-to-mouth character. Sales of odd cars of No. 3 C. W. and extra No. 1 feed oats were made at $1.01½ to $1.02 per bushel. Owing to the severe storms which have swept over Quebec and Ontario, the supplies of fresh-gathered eggs are small, and storage stocks are low, tho temporary help has been forthcoming thru the movement of car lots of storage eggs from the Maritime Provinces and Manitoba, and Toronto. Some sales of eastern Ontario storage eggs have been reported made to Montreal buyers on the basis of 50c, f.o.b., shipping points. The condition of the spot market for eggs today was unchanged, and prices were firmly maintained on account of the continued small receipts of fresh-gathered eggs and the small stocks of storage on spot, for which there is a steady demand these days. The receipts of eggs today were 150 cases, as compared with 199 last Thursday.

The receipts of butter today were 58 packages, as against 151 last Thursday. The tone of the butter market remains very firm, with a steady trade passing in a wholesale jobbing way, but there is no urgent demand at present for round lots, especially of the finest grades.

The trade in oleomargarine continues fairly active in a jobbing way, and there is a good demand for small lots to meet immediate wants. Sales of oleomargarine were made today at 30c to 32c per pound, as to quality.

The receipts of cheese today were 33 boxes, as against 381 last Thursday. The market continues quiet, with only a small local jobbing trade passing.

WHOLESALERS ALARMED

Declare Big Increase in Eggs in Storage is Justified.

Montreal, Jan. 31.—The statement made yesterday at Ottawa by W. F. O'Connor, cost of living commissioner, regarding the unjustifiableness of the accumulations and prices of eggs in Montreal, caused consternation in wholesale circles all over the city. The consensus of opinion appeared to be that Mr. O'Connor's predictions of a market flooded with eggs, rotting for lack of demand, was unjustified. The published stocks of eggs on January 1, 1918, for the Province of Quebec, in reality only refers to Montreal, so the dealers say.

On Jan. 1 eggs in store in Montreal amounted to 1,036,618 dozen, as compared with only 640,956 dozen last year on the same date. Dealers, in commenting on this big increase, say it is justified because the bulk of the supply of eggs last year had to be imported from Chicago and Detroit during January and February.

MORE FUEL AT GALT.

Special to The Toronto World.

Galt, Jan. 31.—The fuel situation is much improved and the demand is being supplied. Within the past 24 hours four cars of coal have arrived, and the allotment to each party was increased from a quarter to half a ton. Authority has been received to appoint a local fuel commissioner and this will be taken up by the city council on Monday night.

GALT POLICE GET INCREASE.

Special to The Toronto World.

Galt, Jan. 31.—General increase has been made in salaries of Galt police force, all but Constable Teahen, new man, getting $100 increases, and he was given $50. Chief Jorman now receives $1,400 per annum, Sergt. Burtch $950, two constables $900, and one $850.

EXPECT INCREASE IN CORN RECEIPTS

Supply of Cars on Western Roads Has Materially Improved.

Chicago, Jan. 31.—Better conditions in regard to the supply of cars on western roads helped today to ease the corn market. Prices closed steady at ⅛c to ¼c net decline, with March $1.26¾ and May $1.25¼. Oats finished ⅝c to 1½c down and provisions unchanged to 50c lower.

Leaders in the corn trade put themselves on record as saying that improvement in the car situation was becoming plainly apparent. Liberal numbers of eastern cars were reported as having been delivered to western roads, and as being rapidly distributed in the corn belt. It was further announced that energetic measures had been taken for the coming week for deliveries by farmers. Under such circumstances, unfavorable weather was soon more than offset as a bullish influence. The market, however, held within narrow limits both as to volume of business and as to change in values.

Gossip that the government was buying freely at interior points carried the oats market here up to new high price levels for the session, but commission houses selling on the bulge led to a sharp reaction. Some of this selling was ascribed to bearish sentiment resulting from President Wilson's letter to the farm conference at Urbana, Ill.

Realizing sales on the part of recent buyers weakened provisions.

GRAIN AT WINNIPEG

Winnipeg, Jan. 31.—There was a fair amount of offerings today of Nos. 1 and 2 feed cash oats. In the higher grades there was a scarcity of offerings and consequently business was light. Millers and eastern buyers were in the cash wheat market for Nos. 3, 4, 5 and 6 grades. There was an excellent inquiry for cash flax, but only a few cars were offered. The demand for cash barley was very strong at previous spreads, but there was little being offered. At noon the future for May advanced another 2c over the previous close to $1.59, establishing a new record, but closing ¼c lower than this figure. Oats futures closed ½c lower for May and ⅜c lower for July. Barley closed 1⅝c higher for May. Flax closed 1c down for Jan. and ½c lower for May.

Live Stock Market

The Union Stock Yards Exchange began to liven up a little yesterday, as far as receipts were concerned, in the neighborhood of forty cars, with approximately 650 cattle, coming in, but, apart from this, there was not very much to rouse any enthusiasm, buyers and sellers not getting very close together, and as a result a good deal of the stuff was, it is said, left over. There was anywhere from 25c to 40c per cwt. off, and a man would not go very far astray if he put the decline at 50c, and in some cases a trifle more.

The cut in prices was more marked in the common class of cattle, and some of these lost the drovers a lot of money; but, looking at the sales of the different commission houses, there were some very fair prices paid for all. When even extra choice cattle bring from $11 to $12, and in one case (of course, exceptional) as high as $12.50, it may reasonably be said that the bottom is not out of the market yet. But the fact remains that trading was slow, and the market considerably off from Monday's prices.

The reason for this is said to be due to the fact that the same stuff that caused such demoralization to the drovers made it difficult for the big packing houses to work to advantage in the forwarding of their products, added to which the past week has, it is said, been one of the worst in months in local trading, and buyers are naturally disinclined to load up, in view of the unsettled conditions. Looked at in this way, the decline seems a logical one. We will, in the opinion of the market, have a big run on Monday, and just what the market will do then is problematical, and only time can tell.

Sheep, Lambs and Calves.

There was a very light run of sheep, lambs and calves, and no price changes worthy of note to record.

Hogs.

There was a light run of hogs, less than 800, or, to be accurate, 746, and the price held steady at $18.50, fed and watered.
