LONDON, Oct. 25.

Sir Samuel Baker, who recently returned from Africa, is seriously ill, from inflammation of the lungs.

Barque British Banner was run into last night by another vessel and sunk almost immediately. Eight of the crew were drowned.

NEW YORK, Oct. 25.

At Cohoes, N. Y., the Harmony Cotton Mills, the largest of the kind in the world, close to-night indefinitely; probably woolen manufacturers will soon follow their example.

At Memphis the weather is thick and cloudy; damp and gloomy at noon—the report shows twenty-five deaths from yellow fever. The increase of application for nurses at the Howard Association indicate increase of new cases. Ten nurses arrived from New Orleans last night and more are wanted.

FOREST, Ont. Oct. 25.

LUNATICS AT LARGE.

A man, his wife, and one child got off the train going east yesterday saying there were parties on the cars going to murder them. At the hotel it was seen that they were not of sound mind, and during the afternoon they attempted suicide by jumping into a large hole filled with water. The man and child were found dead but the woman was restored. They had tickets from Chicago for Brockville.

NEW YORK, Oct. 25.

COSTLY CRUELTY.

The judgments in the civil suits by the sailors of the ship Sunrise against Capt. Clark for damages now aggregate $27,000, and more cases are now pending.

HOULTON, Me., Oct. 25.

THE HOULTON MURDER.

The Coroner's inquest on the body of Willie Martin, found dead on the bank of the Meduxnekeg stream a week ago this morning, is at last concluded. The jury after a long and extremely careful inquiry into the facts of the case, and hearing a very large number of witnesses, have rendered their verdict which is:

That William Martin came to his death by a pistol shot fired by some person unknown.

The excitement over the case is rapidly abating, although there is still much talk about town.

Michael Kelley is in Jail and not at the Exchange hotel.

Dr. Donnell said that, on the theory of accidental shooting, Martin might *possibly* have got himself into the shape and position in which he was discovered, but that it was not *probable*.

After a careful search in the Mill Pond yesterday in the hope of finding the pistol with which Martin was shot nothing but a jack-knife was found.

Quebec members continue holding caucus meetings respecting Riel. It is not likely, however, that anything definite will be done by them.

A Batch of Rumors.

OTTAWA, Oct. 27.

It is positively asserted by many that Riel is in Ottawa.

It is reported that Masson refuses to vote with the Government unless they promise to procure an amnesty for Riel.

The Grits boast to-day of having a document signed by ninety-eight members promising to vote with the Opposition.

It is reported that the Grits will object to members of the Cabinet voting on the Scandal question on the ground that no member can vote on a question implicating himself.

The Ministerialists express unaltered confidence in the result of the coming struggle, and the general impression continues that the Grits will be beaten in any fair fight.

Domville, who was hurt by the falling of his horse, is better.

Invalid's Bedstead.

A very ingeniously constructed bedstead for the use of invalids has been exhibited to a large number of gentlemen, this morning at the News Room. It is a Canadian invention and has been patented throughout America and also in Europe, and the agent is now introducing it for the first time in the Maritime Provinces. The mattrass rests upon slats as in an ordinary bedstead, but over the mattrass is placed a canvas attached to a frame, and just the size of the bed. This frame is so arranged as to rest upon the mattrass, and can be raised at pleasure. The frame is supported when raised by four posts which pass down through the corners of the bedstead, and are lowered and raised by means of cogs, which are ingeniously arranged under the bed, connected by a bolt and all moved together by turning a little crank on the outside. The frame itself is also a novel and must prove a very useful affair. By moving the band the head is raised to any position, and by another simple arrangement the foot is lowered, so that a perfect invalid's chair is formed. Another slight movement of the machinery, which is very simple, and a bed suitable for use in fracture is formed. The patient can be very easily placed in any position, sitting up or lying down. It is quite a novelty, the endorsement of many celebrated physicians.

THE DAILY TRIBUNE claims the largest city circulation of any daily published in St. John.

A Martyr to the Total Abstinence Cause at Twenty-five — Slanders Refuted.

To the Editor of the Tribune.

As certain evil minded persons have been pleased to manufacture, and set forth in the Parishes of Greenwich, Kingston and elsewhere on the St. John River, a number of reports designed to injure my character before the public, one of which says that when employed as a teacher in Greenwich, King's Co., in 1871, such was the indecent nature of my conduct towards some of my pupils that the School Trustees found it necessary to expel me from my position, I address you in hope that you will permit me to say to the public in this vicinity, through THE TRIBUNE, that the above report is not only a fabrication of the vilest description, but is without the least shadow of a foundation. In proof of my assertion enquirers may get full satisfaction by referring to either of the following individuals, viz: Rev. D. W. Pickett, W. B. McKeel, Esq., or Daniel B. Gorham, all of Greenwich.

I may further say that when I found out that such reports were in circulation I at once endeavored to trace them to their source, but up to the present time, I have not been able to get higher up the stream than one Mr. Slavain, who lives near "Sterritt's Landing," as he refuses to give the names of those who are his authority, but kindly consents to say that he heard 3 or 4 persons telling it in a public house on the opposite side of the river from where he lives, and also intimates that it was set on foot in order to punish me for being so unguarded as to say at a public temperance meeting, recently convened at Flewelling's wharf, that I was of opinion that it would pay the people of that nighborhood better to support a man there, who has unfortunately become a cripple by voluntary subscription, than to have him keeping a low rum shanty in their midst. As yet I have not had a barn or an establishment of mills burnt down as others in this Province have, who have boldly spoken and promptly acted against those who are engaged in the rum traffic, still it affords me some considerable amount of consolation to think that under present circumstances I can aspire in some small degree to the glories of mardyrdom in the total abstinence cause at the early age of twenty-five.

Yours, truly,

NATH. L. PRICE.

Ayer's Sarsaparilla.

FOR PURIFYING THE BLOOD, nothing has ever been offered which can compare with this EXTRACT OF SARSAPARILLA. It is found a great promoter of health, when taken in the spring, to expel the humors that rankle in the system at this season of the year. Many complaints have their origin in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system strives to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it, whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Prepared by
