THE WORLD OF SPORT.

"Capitals" Close the Lacrosse Season With a Win From the Nanaimos.

Progress of the Golf Match at Oak Bay—A Neat Point in Road Racing.

Though somewhat one-sided, the lacrosse match between the Capitals and Nanaimos furnished an enjoyable afternoon for the spectators at Caledonia Park yesterday, when the Capitals won by 6 goals to 1 after a good-tempered, friendly exhibition of the national game. The Nanaimos were under the disadvantage of a weak team, with four juniors among them to face the champions of the intermediate series, and the goal-keeper, Fitzgerald, was handicapped by having had the end of his finger cut off in an accident only a week ago. The kindly courtesy of the Nanaimo men in consenting, under such circumstances, to come to Victoria to play for the benefit of the Jubilee hospital was heartily appreciated by the spectators, who expressed their feelings in cheering and encouraging the visitors whenever opportunity offered. The teams were the same as already published, Mr. A. E. Belfrey acting as referee, while Messrs. George Coldwell and W. Snider were behind the flags.

The Capitals were in fine fettle and started out vigorously with the result that J. Bland scored the first game in 2½ minutes, and Schnoter the second in 30 seconds. These two games were almost duplicates of each other, the ball being carried at once to the Nanaimo goals and kept there.

The third game was longer, Nanaimo settling down to work and making a lively fight of it. Lusier for the visitors made some exceedingly clever plays on the defence, while Williams on the home field did star work. The Capitals were stronger in combination than the visitors, Campbell, Sinclair and the Blands especially distinguishing themselves in the field, and Miller, Smith and Schnoter keeping the ball hot on the flags. Miller scored this game for the Capitals in 12 minutes.

The fourth game went to Nanaimo; Williams by a pretty run got close in and passed to W. Medill, who scored neatly in 2½ minutes.

The next three games went to the Capitals, who had their opponents well in hand, though occasionally the Nanaimos made things lively for them. Gibson and Lukey and H. Medill did well for the visitors during the latter part of the match.

SUMMARY.

Game.	Won By.	Scored By.	Time.
1	Capitals	J. Bland	2½ mins.
2	Capitals	Schnoter	½ "
3	Capitals	Miller	12 "
4	Nanaimo	W. Medill	2½ "
5	Capitals	Miller	7½ "
6	Capitals	Miller	1 "
7	Capitals	Smith	1½ "

THE SEASON REVIEWED.

TO THE SPORTING EDITOR:—The results of the past season of lacrosse must have been very gratifying to the lovers of the game in some respects, although there have been some regrettable features such as the "premature chicken counting" of the Vancouver seniors, the rough playing and ungentlemanly conduct of some of the members of different clubs and the weak team presented on several occasions by the Triangles, although Victoria has abundantly proved that with a judicious combination of Triangles and Capitals she can place the best team in the province in the field, and her prospects for a good championship senior team for 1896 are exceedingly rosy.

The formation of a provincial intermediate league has produced an abundant supply of first class material for the senior clubs of next year, of which Victoria has her full share in the champion Capitals who have only one defeat recorded against them in their series. I for one would like to see the Capitals play some of the crack intermediate teams of the East. I fancy they could hold their own against such teams and gain fresh lustre for our city. It would be difficult I think to find anywhere a team of their weight that could defeat them when at their best. Of course they have been greatly weakened by the loss of two of their best men in Harry Cooley who has gone to New Zealand, and in A. Smith who, however, may play next season.

I said at the formation of the Intermediate league that Nanaimo, considered to be the weakest team, might have a surprise in store for every one and so it has proved for they are the only team that has succeeded in defeating the doughty Capitals and that on their own ground. They have pluckily fulfilled all their engagements and have not received at the hands of some of the other clubs the same fair and gentlemanly treatment that has been accorded by the Nanaimo club this season. They will make a strong bid for senior honors next year.

The gentlemanly play and general good conduct of the Capitals at home and abroad have gone a very great way to restore lacrosse to public favor in the cities of the province. Their liabilities have all been met and they closed the season with a benefit game which put considerable into the treasury of the Jubilee hospital. CITIZEN.

GOLF.

FOR THE HANDICAP TROPHY.

The first heat for the handicap challenge trophy was played off yesterday afternoon and resulted as follows:

W. E. Oliver beat C. Worsfold
O. H. Van Millingen beat H. Combe.
C. J. Prior beat G. S. Holt.
S. F. Morley beat C. Stahlschmidt.

The entries for the second heat, which will in all probability be played off to-day (Sunday), are:

W. E. Oliver (scratch) v. C. T. Prior (rec. 10)
O. H. Van Millingen (rec. 5) v. W. Wilson (rec 18).
W. Beaven (rec. 18) v. C. M. Roberts (rec. 18).
S. F. Morley (bye).

THE WHEEL.

A UNIQUE POINT IN PRACTICE.

TO THE SPORTING EDITOR:—I take the liberty of asking you, as a recognized authority on wheel racing, what decision should have been given in a road race under the following exceptional circumstances. McNiven and Bennie rode in a race, and half a mile from the tape McNiven's tire burst; he left the wheel by the roadside and ran on foot to the tape, breasting it in the lead. Were the judges right in awarding the race to Bennie, who rode his wheel over the tape after McNiven had crossed the same on foot. W. F. LAWSON.

Union, Oct. 2, 1895.

[The judges were quite right in their decision, the key to which lay in the bicycle itself; if McNiven had run with or carried his mount across the tape, the Century rules, as well as those of the C.T.U., would have made it imperative upon the judges to have awarded the race to him. He abandoned his mount by the roadside, however, and though he showed admirable pluck and sportsmanlike grit he assumed the role of a footracer in a match against a bicyclist—something altogether unintended in the arrangement of the race. The liability of wheels to breakage is anticipated in the road-racing rules referred to, and which provide that the bicycle must in any event be brought to the finish by the rider in order that he may be declared a winner.]

THE TURF

"MISSAL" A WINNER

Mr A. Cohen's Missal won the Duke of York's stakes at Kempton park yesterday, defeating a field of six, in which Col. J. Lloyd's Count Schomberg finished second, and Mr. C. J. Black's Rockdove third.

ATHLETICS.

CANADIAN CHAMPIONSHIP MEET.

TORONTO, Oct. 5.—The twelfth annual championship meeting of the Amateur Athletic Association of Canada was held this afternoon. The track was as nearly perfect as care could make it. The results were:

In the 100 yards run, first heat was won by Bradley of London in a close finish, with Humphrey of Moncton second. Time 10 2-5 seconds. The second heat was won handily by T. J. Lee, of the N.Y.A.C.. J. D. Morrow, Toronto, second. Time 10 3-5. The final heat was taken by Bradley easily with Lee three yards behind. Time 10 1-5

The 880 yards run was a pretty race between C. H. Kilpatrick, N.Y.A.C., A. W. Gifford, Montreal A.A.A. and H. S. Lyons, N.Y.A.C., Kilpatrick winning by less than a yard from Gifford with Geo. Smith, 48th Highlanders, thirty yards behind. Time 1:54 3-5 or one second short of world record. The Canadian record of 1:57 1-5 was consequently lowered.

The running high jump was won by R. Williams, of London, at 5 feet 7 inches; Webber, Toronto, second; Gill, Orillia, third.

The 16-pound shot putting contest fell to George F. Gray, N.Y.A.C., at 43 feet 9½ inches, with his brother Joseph second and Duncan French, Beaverton Bicycle Club, third.

The 200 yard run was taken handily by T. J. Lee, N.Y.A.C; J. D. Morrow, Toronto A.C., second, and R. P. Forbes, W.A.A.C., Halifax, third. Time, 22 4-5.

George W. Orton proved too much for his two competitors in the mile run; Brodie, of Montreal, made a game race, finishing twenty yards behind the victor. Time, 4 24 2-5

The pole and high leap went to James Paire, Hamilton, at 10 feet 3 inches.

In the 120 yard hurdle race Shaw, London A.C., had a comparative walk over, with R. Williams second. Time—16 4-5

In the 440 yard run two Canadians, Morrow of Toronto A.C., and A. W. Gifford of Montreal A.A.A., made a clipping pace from the start, and held a very decided lead throughout, finishing almost in a dead heat, the decision being given to Morrow. The time, 50 seconds, lowered the Canadian record by 1-5 second.

In the two mile run C. H. Bean, of the New Jersey A.C., made a rattling pace from the start, closely followed by Wilkins. Geo. W. Orton and Alex. Brodie lay well back till the first mile had been passed, when Brodie spurted and passed Wilkins, coming in a good second to Bean. Time, 9:55 1-5.

SHIPS AND SHIPPING.

An immense cargo of 5,000 tons miscellaneous freight arrived here aboard the Northern Pacific steamship Strathnevis last evening, that big freighter having left Hongkong on August 28 last and Yokohama on the 16th September—only three days after the fast arrived Empress. She bears the marks of rough handling by the sea, received during a typhoon in Shanghai river on the 6th and 7th ultimo; and also had her full share of foggy weather on the trip, being thereby detained outside Cape Flattery for about four-and-twenty hours. The only interesting item of Oriental news brought by the Strathnevis is in regard to the departure of British and American officers, just before her sailing, from Foo Chow, to lend weight by their presence to the demand of the powers represented, for full satisfaction in connection with the Kucheng outrages. Of the cargo just received there are 350 tons for Victoria, inclusive of 80 tons for transhipment to San Francisco; as passengers the Strathnevis had 39 Japs and 12 Chinese.

CAUGHT IN THE ACT.

The Dominion steamer Quadra returned to port yesterday afternoon from a cruise to Baynes Sound, where all the buoys and beacons were overhauled and where necessary renewed. From Baynes Sound the steamer proceeded on fishery service to the Cowichan and Chemainus rivers, Joe Silvia, an Italian fisherman well known here, being caught red-handed at the entrance to the latter while engaged with six employes in taking salmon with a 1200-foot seine net. Capt. Walbran seized boat and net for flagrant violation of the fishery regulations, and with them returned to Victoria. Salmon are running freely along the whole of the inland coastal waters, especially in the vicinity of Cowichan bay and through Sansum Narrows to the northward.

ARRIVAL OF MAIL STEAMERS.

Owing to her being delayed by strong head winds en route from San Francisco it was 10 o'clock yesterday before the Umatilla proceeded to the Sound. She landed here 104 tons of freight and about a score of passengers. The saloon passengers who left Victoria for California last evening on the Walla Walla were as follows: Miss Nayman, Mrs. Nayman and children, Harry Barrett, W. G. Barrington, B. Taverner, A. Ellis, Mrs. J. Ford, Mrs. A. Magneson, Mrs. A. Lewis and children, F. Murray and wife, C. Hislop, Thornton Fell, Miss R. Wolfenden and Mrs. G. F. Matthews and children.

MARINE NOTES.

M. T. Johnson has been made a member of the Victoria pilotage board.

The steamer R. P. Rithet was down from Westminster yesterday to receive 5,000 empty salmon cases in transit from the North to the Fraser.

Through being delayed on the Sound, receiving freight, the City of Topeka did not arrive as expected yesterday. She calls at the ocean dock en route to Alaska at noon to-day.

The sealing schooner Annie E. Paint arrived home yesterday unpleasantly short of provisions, but with 2,022 skins below her hatches, 723 of which were secured in Behring sea. She was picked up towards evening in the straits, just below Sooke, by the tug Daisy, which had been out all afternoon searching for her in the fog. The Paint is but 15 days from Ounalaska and for the past three days has been fog bound in the straits. While at Ounalaska she met quite a large fleet of homeward bound sealers, among them the Mary Ellen and Florence M. Smith, the former with a total catch of 1,400 and the latter 1,200 odd. The U. S. Behring sea patrol started home from Ounalaska on the 20th of last month.

Hot weather proves depressing to those whose blood is poor. Such people should enrich their blood with Hood's Sarsaparilla.

THE CITY.

ACCORDING to a resolution passed at the last meeting of the Agricultural Association Mr. J. Savannah has been informed that the oversight of his display at the exhibition has been rectified and the judges have awarded him first prize and a diploma.

YESTERDAY afternoon, as Dr. Davie was driving down Johnson street, above Cook, the pole of his buggy broke, the result being that the Doctor was thrown to the ground, his horses tearing down the street like mad things, leaving the vehicle and its driver behind them.

THE Victoria Building Society has now a total of $159,000 on investment, the 47th appropriation, of $4,000, having been drawn last evening by Mr. Joseph Levy, the holder of shares 140, A., B., C. and D. A committee composed of Messrs. J. Holland, John Taylor and M. McGregor, conducted the drawing.

THE annual general meeting of the Victoria Liberal-Conservative Association is to be held next Saturday evening at the Association rooms in Adelphi hall, corner of Government and Yates streets. The programme includes the election of officers and the transaction of general business of considerable importance.

THE funeral of Ernest Lane took place yesterday from his parents' residence, Hillside avenue, in the presence of a large number of sympathizing friends. Rev. S. Cleaver conducted the services there and at Ross Bay cemetery, where the remains were laid to rest. The following young gentlemen acted as pallbearers: F. White, M. Jewell, J. Burgess, F. Waller, C. Steers and P. Winnett.

ALL who attended the Harvest Home social at Metchosin hall, on Friday evening—and there were many Victorians among the number—agree in pronouncing the affair delightful and enjoyable in every particular. The hall, which has recently been enlarged and furnished with a dining-room extension, was appropriately decorated with flowers and cereals, and the concert programme was thoroughly in keeping with the occasion. After the concert supper was served—pheasants, grouse, etc., of course having their place on the well filled tables—and afterwards dancing claimed its devotees for several happy hours.

THE Northwest Baptist convention of Western Washington and British Columbia holds its annual meeting in Victoria this year from October 10 to 14 inclusive. Over a hundred delegates are expected, to meet in Calvary Baptist church, the opening session being held at 10 o'clock on Thursday morning. The home mission board of the convention which has the distribution of the home mission funds meets on Wednesday evening to make the various appropriations and to transact other routine business. One feature in connection with the convention is the number of new ministers among the delegates, a great many changes having taken place since the last meeting.

DOCTORS IN COUNCIL.

The annual meeting of the Victoria Medico-Chirurgical Society was held in the Philharmonic hall on Friday night, when the following officers were elected for the ensuing year: President, Dr. G. L. Milne; vice-president, Dr. J. D. Helmcken; and secretary-treasurer, Dr. Fraser.

After the election of officers and usual routine business, Dr. Milne gave a short address on "Reminiscences of Victoria," extending over a period of fifteen years. He referred to his first impressions of Victoria and to the hospital facilities then existing as compared with those at present. He also spoke in complimentary terms of the members of the profession who were then in active professional work and who have since passed away—few now are left who at that time were in active practice. He also referred to the interest taken in political affairs by the medical men who first settled in the province, and who had done much in the way of law-making and governing the country. Among these he mentioned Dr. J. S. Helmcken, who had been a resident of this country since 1850, and who had taken an active part in legislative matters, being one of the three delegates to Ottawa to arrange the terms of confederation. Dr. Carrol, of Cariboo, was another delegate on the same mission. Another prominent member of the medical profession mentioned in this particular was Dr. J. C. Davie, senior, who was at the time of his death an active member of the legislature. Then there were Dr. Trimble who represented Victoria and was for a period speaker of the house of assembly, and Dr. Ash who for some time represented Comox, and was a man who identified himself with everything tending to the advancement of the province. Dr. Powell also took an active part in political affairs, and much of the early legislation which is still on the statutes was the result of their deliberations.

A vote of thanks was tendered Dr. Milne for his address. Other matters pertaining to the society and its work were discussed.

The president informed the meeting that it was possible Dr. P. H. Bryce, secretary of the Ontario Board of Health, who is attending the American Public Health Association now in session at Denver, would visit the city next week, and might be induced to address the society on matters pertaining to public health.

FOSSIL FINDS.

For the past two months Dr. Newcombe has been "up North" on a scientific excursion, and he has now brought back with him a number of interesting specimens, some of which he will present to the Provincial museum. The party had a somewhat rough time of it, having to live upon fish a good part of the time, for food birds and game were not often obtained. In the neighborhood of Nimpkish and Port McNeill a number of fossil plants were secured, an interesting fact being that some of these fossils, as already discovered by Sir William Dawson, bear a close resemblance to plants now growing in Florida and Georgia, an indication that at one time the climate in the far North was similar to that of the Southern Atlantic coast of the continent. At Port McNeill a couple of men were noticed boring for coal, but with what result was not learned.

Next the party went north to Skidegate, where in dredging a specimen of the Feather Star was found, a marine plant that has not hitherto been obtained in British Columbia waters. With the assistance of a prospector named Donaldson three fine specimens of the dark bodied Shearwater (*puffinus griseus*) and some tufted puffins were also obtained. The former will be a new addition to the Provincial museum, no specimens having hitherto been received there.

A great quantity of fossils of the coal-bearing cretaceous period have been brought down by Dr. Newcombe, in the hope that their examination and classification may give some practical results in information as to the geology of the district where they were found.

GREAT CÆSAR!

Had to "Grin and Bear It" when he had a pain. You can grin and banish it at once by using PERRY DAVIS'

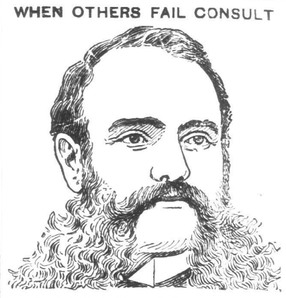
WHEN OTHERS FAIL CONSULT



DOCTOR SWEANY,

THE LEADING SPECIALIST OF THE UNITED STATES.

The friend and benefactor of suffering humanity, who for a number of years has had permanent offices at Seattle, where the sick and afflicted can receive treatment in the future, as they have in the past, from this noted PHILANTHROPIST, whose fame is being spread from Pacific coast to the the Atlantic.

WHY do the sick people of Seattle and vicinity crowd his office daily?

BECAUSE the wonderful cures he is making have created confidence and delighted the hearts of those who struggled in vain for years against the ravages of disease until this doctor restored them to health.

ALL PRIVATE DISEASES OF MEN AND WOMEN POSITIVELY CURED IN THE SHORTEST POSSIBLE TIME.

YOUNG, MIDDLE-AGED AND OLD MEN If you are victims of youthful indiscretions and unnatural losses; if you are on the road to idiocy, insanity and the grave; if gloom and melancholy, morbid fear and unnatural lust pervades your mind; if you are despondent and downhearted; if you have lost all energy and ambition; if you have an aversion to society; if your memory is failing and you are unfit for business or study, you should consult Doctor Sweany before it is too late. Get well and be a man.

POOR who call call at his office Fridays are welcome to his services free of charge.

METHOD OF TREATMENT No poisonous or injurious mineral drugs are used, but the medicines are all compounded from the very choicest, purest and most effective plants, roots and herbs in the whole range of nature. They do not act violently, but all of them harmonize with nature, and while their effects are marked and immediately apparent, they do not build up temporarily, but effect permanent as well as perfect cures.

YOU CAN BE CURED AT HOME There are thousands cured at home by correspondence. Write your troubles, if living away from the city. The strictest secrecy is observed, and medicines sent free from observation.

Address—
LEVERETT SWEANY, M.D.,
Union Block, 713 Front St., Seattle, Wash.
