"August Flower"

Perhaps you do not believe these statements concerning Green's August Flower. Well, we can't make you. We can't force conviction into your head or medicine into your throat. We don't want to. The money is yours, and the misery is yours; and until you are willing to believe, and spend the one for the relief of the other, they will stay so. John H. Foster, 1122 Brown Street, Philadelphia, says: "My wife is a little Scotch woman, thirty years of age and of a naturally delicate disposition. For five or six years past she has been suffering from Dyspepsia. She became so bad at last that she could not sit down to a meal but she had to vomit it as soon as she had eaten it. Two bottles of your August Flower have cured her, after many doctors failed. She can now eat anything, and enjoy it; and as for Dyspepsia, she does not know that she ever had it."

I CURE FITS!

When I say I cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give EXPRESS and POST-OFFICE.

H. G. ROOT, M. C., 186 ADELAIDE ST. WEST, TORONTO, ONT.

GENERAL NEWS.

—Russia has sent 10,000 disused rifles to Turkestan. The Turcomas intend to revolt against the Ameer of Afganistan.

—Four colored men and one woman were sentenced to be hanged at Columbia, S. C., last week for beating a man to death with stones.

—A coroner's jury in Illinois brought in the following verdict recently: "We find that the deceased came to his death by being found dead in his bed."

—At Philadelphia on Saturday Fred Hengle deliberately placed his head under a trip hammer and had his brains crushed out. He had been married a year.

—Marie Juneau, a French woman living on the outskirts of Guayaquil, Ecuador, gave birth to seven children, all perfect and healthy, on the 13th ult.

—One of the largest salaries received by any man in America is paid to Mr. C. A. Grimscom, chief of the International Navigation company, with headquarters at Philadelphia. He draws $60,000 a year and they say he earns it.

—The daily water supply of London is 175,148,189 gallons, of which about 90,000,000 are drawn from the river Thames, and a little over 85,000,000 from the river Lea and from various artesian wells.

—The British naval estimates provide for commencing three new battle ships and ten torpedo boats, besides an appropriation of £2,000,000 for completing ships now building by private contract.

—A barber recently skipped from St. Thomas, Ont., leaving behind him besides his debts the following note:—"Good bye to St. Thomas. Buckwheat will be growing on Talbot street when I come back. Yours Truly, G. Osborne."

—A singular casuality attended the suicide of an artilleryman in the barracks at Vienna Saturday. The man shot himself. The bullet, after passing through the suicide's breast, ploughed through the head of a second soldier standing near, killing him, and then embedded itself in the arm of a third soldier, inflicting a serious injury.

—An Australian provincial paper lately contained the following advertise. the entire wardrobe of her deceased husband, is disposed to enter into correspondence with a suitable gentleman, if such can be found, with a view to matrimony.'

—A frightful accident occurred on the Canadian Pacific Railway near Hull Station, Wednesday evening. An express train, including several emigrant cars, was turned into an open switch and ran off the track. The engine and two cars rolled down the embankment. The fireman and driver were killed. No passengers were hurt seriously.

—Twenty thousand English sparrows were killed in Chicago in consequence of the bonus of two cents per head which was offered to effect their extermination. One boy was killed, another lost his eyesight, and a score were maimed in the pursuit of the birds. This was a high price to pay, and besides that, the sparrows will soon multiply again and be as much a nuisance as ever. Even sparrows cannot be persecuted with impunity.

—In the cheese regions of Switzerland a custom prevails for the friends of the bride and bridgroom to join in the presentation to them on their wedding day of an elaborate cheese. The cheese is used as a family register and heirloom, on which the births, deaths and marriages of its various members are recorded. Some of these old cheeses date back to 1660.

—Graduates of Canada's Military college are finding both glory and the grave in Africa. The fame of Lieut. Stairs, who went with Stanley through the Dark Continent, to the English speaking world is now common as a household word. He was one of the fortunate ones. Huntley McKay, following the path of duty, found that it ended in an African grave. Capt. Robinson, of the Royal Engineers, has trod the same road to the same end. Kingston and Africa are being linked by many associations.

—Thirty of the miners entombed in the Belgian mine where the fire damp explosion took place have been rescued. Friday evening a rescue party descended to the scene of the explosion. They cleared away the debris at the entrance to the gallery and found 25 dead bodies, five of them women. Most of the bodies were terribly mutilated. Death was caused, apparently, by suffocation. The rescue party are still at work in the gallery. The latest official estimate places the number of dead at 200.

Consumption Cured.

An old physican retired from practice, having d placed in his ha nds by an East India Missi on y the formula of a simple vegetable remedy for he speedy and permanent cure of Consumption Bronchitis Catarrh, Asthma and all threat an Lung affections, also a positive and radical cu or Nervous Debility and all Nervous Complai nts after having tested its wonderful curative power in thousands of cases, has felt it his duty to mak t k own to his suffering fellows. Actuated b this motive and a desire to relieve human sufering W will send free of charge, to all who desire it this receipe, in German French or English, with directions for prepairing and using. Sent by mail addressing with stamp, naming this paper A NOVES, 820 Powers' Block, Rochester, N. Y.

A SMOOTH SKIN.—Estey's Fragrant Philoderma is strongly recommended for softening, beautifying and preserving the skin, and giving it a blooming and charming appearance. It completely removes tan, sunburn, redness, etc., and by its balsamic and healing qualities renders the skin soft, pliable and free from dryness. Sold by druggists.

Little Things That Tell.

It is the little things that tell—little brothers for instance, who hide away in the parlor while sister entertains her beau, etc. Dr. Pierce's Pleasant Pellets are little things that tell. They tell on the liver and tone up the system. So small and yet so effectual, they are rapidly supplanting the old-style pill. an infallible remedy for sick and billious headaches, billousness and constipation. Put up in vials, convenient to carry. Their use attended with no discomfort.

Home is where those we love dwell—wherever that may be—where we are valued for ourselves, and are held in esteem because of what we are in ourselves and not because of power, or wealth, or what we can do for other people.

—Kill that chronic cough before it kills you. A cough often ends in Consumption, and to cure Coughs, Colds, Bronchitis, Whooping Cough, and all wasting diseases, no remedy equals Estey's Emulsion of Cod Liver Oil. Sold by druggists.

Willing to Oblige—A police officer met an organ grinder on the street and said: "Have you a license to play? If not you must accompany me." "With pleasure," answered the street musician. "What will you sing?"

—Baird's Balsam of Horehound cures Whooping Cough and Croup.

—Emperor William has added another to his list of remarkable speeches. He says he will "pulverize Russia." By the way, His Majesty of Germany is ill just now with a severe cold and the trouble in his ear threatens to be serious.

—For Inflamation, Cramps and pains in the stomach, apply Dr. Kendricks White Liniment.

It is safe to say that, as a general thing, every one enjoys doing that which he can do well, and the spirit and energy which he instinctively puts into it enables him to produce the largest results with the least fatigue.

—The Montreal *Witness* proposes the union of the Maritime provinces under the name of Acadia. The question of provincial federation is looked upon by the upper province people as something which it would be well to consumate at the earliest possible date.

—Now is a good time to take Estey's Iron Tonic so that the system may be strengthened and the blood purified to withstand the debilitating effects of warm summer weather. Druggists sell it. Price 50c.

—The Bishop of Rimouski has cited three priests of his diocese to appear before him to answer to the charge of having used undue influence at the recent provincial elections.

—REV. FATHER SHAW'S TESTIMONY:—"To all those who may be suffering from that prevalent and horrible disorder called dyspepsia, I say with confidence and without any hesitation, go at once and procure a package of K. D. C., use it as directed, and before you consume the contents of one package, you will thank me for directing your attention to this wonderful cure. I have suffered from dyspepsia for the last 28 years until last summer it reached a crisis. my appitite for every kind of food was completely gone, when a friend in town advised me to try K. D. C. assuring me that it completely cured him when suffering from the same affliction. I obeyed, and procured a package of K. D. C. at once. I used it according to directions, and I am happy to say that in a few days I felt nearly as well as ever.

I have no selfish motive in making the foregoing declaration, I am not of the Company, neither am I a cousin to any of them, my only desire is to alleviate the sufferings of my fellow creatures."

(Signed) REV. FATHER SHAW. P. P. Rectory of St. John the Baptist, Jan. 28, '91.

—Protests have been filed against the return of Mr. Featherston as member for Peel; Mr. Hughes as member for North Victoria, and Mr. Cargill as member for East Bruce.

—SHILOH'S COUGH and Consumption Cure is sold by us on a guarantee. It cures consumption. For sale by A. Dixon, Sackville, and Fairweather, Dorchester.

—The Province of Ontario has made a definate advance in the matter of technical education. The new technical school in Toronto was opened last month in the presence of 1,400 people, many others being unable to gain admittance to the hall—a fact which shows the active interest the people of the Province are taking in the question. The subjects that are taught at present are mechanics, engineering, sanitary science, mensuration, chemistry, mechanical drawing and discriptive geometry. The Woodstock College has a department in which wood-working is taught, and considering the movement in other institutions for departments of applied science, Ontario is far ahead of the rest of the Dominion in technical education, which is the great need of the day. What are the other Provinces going to do?

—CROUP, WHOOPING COUGH and Bronchitis immediately relieved by Shiloh's Cure. For sale by A. Dixon, Sackville, and Fairweather, Dorchester.

—For the past two years the Government buildings at New Toronto (formerly Mimico) have been burning natural gas, accidently struck when putting down a well for water. The supply, notwithstanding the limited depth of the well subsequently sunk, having kept up steadily, a company was formed to ascertain the extent of the store. Operations have been in progress for three months, with the result that on Saturday afternoon a large flow of natural gas was struck. This is the fourth and largest flow encountered. The first was at 775 feet, the second at 912 feet, the third at 1085 feet, and that on Saturday afternoon at 1340 feet. The pressure is so strong that the company deem it unnecessary to bore any further. The capital stock has been increased to $400,000, and numerous other wells will be put down with the object of piping the gas into the city.

—The Windsor and Annapolis R. R. has taken over the Cornwallis road.

WOMEN'S COLUMN.

Conducted by the Ladies of the Sackville W. C. T. U.

The next regular meeting of the Sackville W. C. T. U. will be held in the parlor of reading room on April 8th, (Friday) at 3 o'clock. A full attendance of members is earnestly requested.

Scientific Temperance.

Mrs. Mary Hunt in Sackville.

A large and representative audience from the Mt. Allison Colleges, the town and adjoining villages, assembled in Beethoven Hall on last Wednesday evening to hear Mrs. Mary Hunt, of the National W. C. T. U.

Mr. Borden, principal of the Ladies College, presided, and introduced the lecturer in a few well chosen wores, expressive of his appreciation of the work of this lady whose "fame continent wide had preceeded her," and also endorsing warmly the work of the W. C. T. U. and of woman in this age.

As Mrs. Hunt rises and thanks the chairman for his kind words, we notice the repose and dignity of her manner. Her widow's bonnet and veil surround a face intelligent and refined, marked with great sweetness of expression; but as she proceeded with her address one entirely forgot the woman in her theme.

It is impossible in cold type to give any idea of Mrs. Hunt's eloquence, and the convincing power of her arguments.

The work that she has accomplished in her own country is simply marvellous, for she has obtained legislation providing for the truths of science in reference to alcohol to be taught in public schools in all but nine States. She quoted the most undoubted authorities in all her assertions in reference to the deadly character of alcohol. Dr. Taylor on poison, Dr. Parker, the 'London Lancet" etc. Her plea is that children shall be taught the declarations of science in reference to the nature of alcohol, and that scientific truths shall be expressed in simple language which children can easily understand. One scientific truth, repeated in her her lecture was this—Alcohol has the power when taken even in small quantities to induce an inner thirst for more. The poisonous nature of alcohol and its peculiar power as proven by science. All this should be taught the children. Mrs. Hunt has spoken before the House of Legislature in Fredericton, and is to speak in Halifax. A bill has been introduced, and is pending in the N. B. Legislation asking for scientific temperance instruction in all our public schools. Mrs. Hunt visits only a few places in the Maritime provinces and returns to Kentucky to work in the same line.

The Handsomest of all Coins

This proud distinction is generally conceded to the United States twenty-dollar gold piece, a marvel of beauty in design and finish. The loveliest of God's handiwork is a handsome woman, if in the bloom of health; if she is not, Dr. Pierce's Favorite Perscripton will restore her. Ladies who use this peerless remedy are unamious in its praise, for it cures those countless ills which are the bane of their sex—irregularities, dragging-down pains, inflammation, hysteria, sleeplessness, and the 'all-gone' sensations which burden their daily lives. A tonic and nervine, without alcohol.

—Notwithstanding the prophecies of a diminished log cut in New Brunswick this winter, the lumbermen will equal if not surpass their efforts of the past years. The cut on the upper St. John and its tributaries, destined for the Fredericton booms, will this year reach the total of between 120,000,000 and 130,000,000 feet. Among the principal operators are; Dunn Bros., 6,000,000; Hale & Murchie, 8,000,000; John A. Morrison, who is putting in about 5,000,000 feet of cedar; W. H. Cunelife, 5,000,000; Nixon Bros., 3,500,000; Kilburn & McIntosh, 5,000,000. The Nashwaak drives will total over 22,000,000, while the cut on the Miramichi and its tributaries will fully equal that of last year.

—A nasal injector free with each bottle of Shiloh's Catarrh Remedy. Price 50 cents. A. Dixon, Sackville; Fair weather, Dorchester.

—A. R. Forbes, of North Sydney, has in his possession a "Matthew Henry" commentary in six volumes complete, which was printed in London nearly 200 years ago. It is of the first edition published, and consequently must be a rare book at the present day.

—A singular accident recently happened at the fifth lake, a few miles west of Weymouth. The Free Press says: Alfred Doucet, of the Doucet Settlement, left home that day with his team of oxen for the lake to get a load of meadow hay. Being too late to return that evening, he remained over night at a camp. Having put up his oxen for the night in a small barn adjoining the camp, Mr. Doucet made a fire and retired. During the night he awoke and found the barn and camp on fire, and before he could render any assistance his oxen had perished in the flames.

—SLEEPLESS NIGHTS, made miserable by that terrible cough. Shiloh's cure is the remedy for you. For sale by A Dixon Sackville, and Fairweather Dorchester.

—A lad who had been employed in the Newcastle Postoffice made or found a key to fit the inside door. He let himself in the other day when the postmaster was at dinner, and took $25 out of the cash drawer. A watch was set for him at noon next day, and he was caught in the act of making another scoop. He was let off for his mother's sake.—*World.*

AGRICULTURAL NOTES.

—It is pretty generally accepted belief that the morning milk of a cow is richer in butter fat than the evening milk, and the explanation given for it is that the cow is resting at night, and so looses no fat through muscular exercise. If this is true it affords a strong argument against pasturing and in favoring of soiling, and in favor of the practice of the Swiss and other European dairymen, of keeping their cows at all times under such conditions as will avoid all unnecessary exertion

—A farmer needs to be handy with tools, and in time of leisure a trowel with a little cement will do a good many odd jobs that add to the comfort and convenience of house and barn The walls of buildings after a few years are apt to have holes in them which make air passages admitting frost to basements and cellars If the farmer is handy with the trowel the little jobs can be done up in less time and at less expense than if the mason were sent for. The linings of feed boxes should be of cement. It will prevent rats and mice working through them, and enable the feeder to keep the boxes in much better condition.

Says the Breeders Guide: "The cost of a pound of milk is one of the things that every dairyman should know; that is, the cost to him, not to somebody else, working under different conditions, The New Jersey experiment station has just figured it out at three-fourths of one cent for them, but the cost depends upon so many considerations that no man can safely take the figures made by some one else. The cost depends upon the cow, the feed, the season and the man. The first and the last are the greatest considerations. The poorer the cow the more the milk will cost; and if the man lacks the right sort of ability for the dairy business, the best cows in the world cannot produce milk cheaply enough to enable him to get a profit from it."

Germantown Telegram: If there is any faculty wanted in the general make-up of the farmer it is that rare ability to meet all adverse happenings by some smart, cute, practical process and which saves a crop in its day of adversity. It is good discipline for a farmer to imagine disasters for the sole purpose of planing methods to meet them We once planned a mode of fighting fire if one should ever attack our store from outside, and gave orders how to manage to our man. Six years after an outside fire did reach us the identical means were employed and averted the total destruction of $30,000 worth of property, by the loss of eaves and two window frames only. Any farmer can do as well by using common foresight.

—The seal catch of the Newfoundland fleet has been exceptionally good during this season. The steamers already in report everything promising a profitable seasons fishing. Below are some of the catches of seals reported.

Steamer Labrador	19,000
Steamer Ranger	28,000
Steamer Diana	27,000
Steamer Wolf	27,000

They report the takes of other steamers to be as follows:

Steamer Eagle	28,000
Steamer Kite	11,000
Steamer Hope	11,000
Steamer Neptune	2,000
Steamer Iceland	23,000
Steamer Esquimaux	20,000
Steamer Leopard	12,000
Total heard from	208,000

Five steamers are reported clean, viz: Aurora, Terra Nova, Vanguard, Greenland and Falcon, but they may still get many seals, as the season is early. The fleet struck the seals off Horse Islands on Sunday, the 13th, and killed 20,000 that day. Four steamers are in the Gulf of St. Lawrence sealing, but their catch is not yet known. A good fishery is assured, and there is great rejoicing among the people.

— THAT HACKING COUGH can be quickly cured by Shiloh's Cure. We guarantee it. For sale by A. Dixon, Sackville, and Fairweather, Dorchester.

—A butter factory is to be started early in the spring somewhere in the vicinity of the I. C. R. station. A young man by the name of Greleigh, well known as an excellent cheese maker, is now at the government experimental farm near Ingersoll, Ontario, studying the art of butter making, and will be sufficiently acquainted with his work to have charge. It will be fresh in the memory of many that G. H. Wallace, now stipendiary magistrate, who built in Sussex many years ago, and for a time assisted in running the first factory started in the maritime provinces for the manufacture of cheese, also went to Ingersoll to buy plant and acquire the necessary information—*Sussex Record.*

—Walt Whitman, the good grey poet died at Camden, N. J. on the 26th. He has been ill since December. Whitman was a leading figure in the American world of letters.

—The general election in Manitoba is being worked up actively by both parties. The Conservatives have every hope of ousting the Greenway government from power.

Dr. T. A Slocum's

OXYGENIZED EMULSION of PURE COD LIVER OIL. If you have a wasting away of Flesh——Use it. For sale by all druggists. 35 cents per bottle.

—It is stated in official circles at Ottowa, that a considerable number of dismissals will undoubtedly take place on the Intercolonial before very long.

—Alex. Forsythe, a former prominent druggist of Halifax died in Windsor last week.
