MODERN WAYS ARE WRONG

THEY ARE NOT THE METHODS THAT JESUS USED.

Reforms Must Come From Within—Legislation Practically Useless—Giant Evils Never Killed by Platform Speeches or Denunciation—Christ Was No Political Agitator or Firebrand.

Canon DuMoulin addressed the noontide congregation in St. James' Cathedral yesterday on "Christ as a Citizen." The sermon was a remarkable one in many respects.

Jesus Christ, the preacher said, recognized his obligations to the State and duly and properly discharged them. Although a reformer He never attacked the great Roman power; He never organized an uprising; He never sanctioned an insurrection; He never even spoke against Caesar.

Unlike Political Agitators.

Jesus never incited the people to rebellion; He never stood before them and recounted their wrongs; He was utterly unlike the political agitators of far-off countries of the present day. He never appealed to the national passions of the people. He laid down the principles of eternal truth, and knew well that in process of time they would take wide hold upon humanity and lead to a mighty upturning of the political conditions of the whole world.

Lessons for the Times.

Here is a great lesson, said the Canon, for us of to-day. The giant abuses, the great and venerable forms of evil, all things which are found corrupt in the life of old countries, must be attacked from within rather than from without. Take intemperance, hideous monster that it is, walking through the world with an iron heel and crushing the sons and daughters of men beneath its terrible and relentless advance. How is it to be cut down? How little outward attack does—how little even legislation! You must follow the example of Christ. Teach men to be temperate in all things. Teach them, after the example of the Son of God, to hold their appetites in subjection, and then you will cast down this tremendous evil which now devastates the world.

So With Gambling and Impurity.

The Canon said: It is almost useless to seek legislation on these subjects. Legislators care not for Christian thought or sentiment. They make laws according to the popular cry. The young generation must be taught to abhor everything which is mean and base.

In conclusion the preacher said: This is what I am afraid English speaking people are not doing. In Australia, the United States and even in Canada you will find that the system of educating people is destitute of religion. They abstain from indoctrinating and instilling and instructing holy and right and powerful principles into the human heart.

Feeders of Secularism.

These systems are all one in this, that they are the very feeders of secularism. They teach that society can roll on without God. If you want to encounter the giant evils of the world, it is not by making speeches on platforms, by calling names, by branding and denouncing, by legislating against them, but it is by bringing up another generation of young men and women to love God and keep His commandments and abominate that which is evil. It is by that—the public policy of the man Christ Jesus—the kingdoms of this world will become the kingdoms of our Lord and of His Christ.

A foul breath is one of the greatest afflictions that a man or woman can have. An affliction not only to themselves, but to those with whom they come in contact. A foul breath is a dreadful discourager of affection, or rather of the demonstration of affection. It would probably be more so if people only realized just what bad breath means. Bad breath is one of the symptoms of constipation. Some of the other symptoms are sour stomach, loss of appetite, sick and bilious headache, dizziness, heartburn and distress after eating. These things mean indigestion. They lead to dyspepsia and worse things. They all start with constipation, and constipation is inexcusable because it can be cured—cured easily, quickly and permanently, by the use of Dr. Pierce's Pleasant Pellets. They are a perfect remedy for this most common of all troubles. They give to nature just the little help that she needs. They are very mild in their action, and act without any violence whatever. In this, they are different from many preparations offered for a similar purpose. Sometimes the remedy is worse than the disease, Dr. Pierce's Pleasant Pellets are mild, but they are infallibly efficient. They do the work which they are intended to do, without deranging the system in any way. They not only give immediate relief, but the benefit derived from them is permanent. You can stop taking them by and by and there is no danger that you will become a slave to their use. The druggist who tries to sell you something else "just as good," either does not know what he is talking about, or he makes more money on the other thing. If you care more for his prosperity than you do for your own health, take the other thing. If you value your health, insist on having Dr. Pierce's Pleasant Pellets. A free sample, of from 4 to 7 doses, will be sent to any address.

A copy of Dr. Pierce's celebrated 1008 page book, "The Common Sense Medical Adviser," profusely illustrated, will be sent *free* on receipt of thirty-one (31) cents in one-cent stamps to cover cost of customs and mailing *only*.

Provincial Constabulary Tender Their Sympathy to Chief Rose.

The Executive Committee of the Provincial Constabulary Association have passed the following resolution: "We, the Executive Committee of the Ontario Provincial Constabulary Association, on behalf of its members, do hereby tender to J. Rose, Chief of Police, Brockville, Ontario, our sincere sympathy for himself and family in the circumstances attending the recent dastardly attempt on his life whilst in the discharge of his duties. We also beg to express our deep regret at the occurrence, and trust the consequences may not prove more serious than they are at present. As Chief Rose is one of the promoters of this association, we hereby instruct Detective Wasson, president, to convey to him a copy of this resolution, and any assistance which we can give him will be freely offered. We also tender to the Mayor of Brockville the services of one or two experienced constables, if necessary, during the indisposition of the Chief and P. C. Tinsley."

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of headache. Parmalee's Vegetable Pills, taken before going to bed, for a while, never fail to give relief, and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parmalee's Pills are taking the lead against ten other makes which I have in stock."

TO THE MARK.

In all diseases that affect humanity there is some weak link in the chain of health, some spot that is the seat of the trouble. It may be the liver, it may be the stomach; perhaps it is the bowels or the kidneys; most likely it is the blood. Burdock Blood Bitters goes straight to that spot, strengthens the weak link in the chain, removes the cause of the disease, and restores health, because it acts with cleansing force and curative power upon the stomach, liver, kidneys, bowels and blood.

ELIAS ROGERS & CO.'Y

TO RENT THE SAND BAR.

Other Small Affairs Discussed at the City Hall.

The Property Committee yesterday at the request of Solicitor Gunther, deferred dealing with the Heber lots at the Island until the next meeting of the committee.

A deputation of merchants in the vicinity of St. Lawrence Market asked to have the outside of the market paved with vitrified brick, or asphalt, so that it could be kept in a more sanitary condition. Ald. Small moved that the City Engineer be instructed to examine and report as to the work necessary and the probable cost. On motion of Alderman Dunn, the City Commissioner will report on the cost of two urinals for the market.

It was decided to have the sand bar at Ashbridge's Bay surveyed and divided into lots, so that a fair rental can be obtained from those who live on that strip of land.

The letter of Edward Hanlan in reference to the establishment of a life saving crew on the bay was referred to City Commissioner Coatsworth. Ald. Dunn thought if anything was done, the Sons of England life boat crew should be given the preference.

City Hall Notes.

The Mayor will call a special meeting of the council Monday afternoon for the purpose of clearing off the order paper.

Commissioners Maughan and Coatsworth value the land and the old drill shed at $40,000. This should bring a rental of $1600. This is the property the Dominion Cold Storage Company is after.

Mayor Stewart and a number of Ottawa aldermen visited Mayor Fleming yesterday.

Business Embarrassments.

Ross & Watson, general store, Harwood, have assigned.

The statement presented yesterday at a meeting of creditors of William Green of Thornbury shows assets of $2500, and liabilities of about $3500.

The bailiff is in possession of the Victoria House, Ottawa.

The creditors of the estate of W. T. Wickham, grocer, Brantford, have received the first and final dividend of two cents on the dollar.

The total failures for the week are 49, as against 60 last week and 33 the corresponding week of last year.

Returned Missionaries Will Speak.

A missionary conference will be held in Beverley-street Baptist Church Tuesday and Wednesday of next week under the auspices of the Baptist Foreign Missionary Society. There will be two services each day, beginning at 3 and 8 o'clock. A number of prominent missionary workers are to speak at the conference, among whom are the Rev. A. P. McDiarmid and the Rev. H. F. Laflamme of India.

Their Favorite Beverage.

An organization of a most exclusive nature is the Onion Club. Its members are connoisseurs in all that partains to good living, and the selection of East Kent Ale as the official beverage of the club speaks not a little for the excellence of that brand, which has in a short time eclipsed the glories of all other ales, and taken a foremost place in the Canadian market. More than one Briton has been heard to declare that, "It's as good as any at 'ome."

At the monthly meeting of the Historical Section held last evening, a paper on the History of the Six Nation Indians was read by Mr. Champion, the secretary, for its author, Mr. A. Mackenzie. The paper dealt first with the conditions of the Indians' settlements and then passed on to consider the physical characteristics of the race. It then sketched the Indian in council, their manners and powers of oratory and then described the origin and attributes of the chiefship, concluding with reflections on the Indian's political status. A hearty vote of thanks was awarded the author of the paper.

The easiest cleaning is with Pearline. Yes, easiest for everybody. Whether you're doing the hard work of house-cleaning yourself, or having it done, get Pearline and get through with it. It'll do more work, better work, quicker work, than anything else.

You ought to look out for the wear and tear in house-cleaning as well as in washing. Some of your delicate things won't stand much rubbing. They're meant, especially, to be cleaned with Pearline.

Send it Back

Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* 652 JAMES PYLE, New York.
