PLANTAGENET WATER.

The following testimonials have been handed to us for publication:—

MONTREAL, April 19, 1850.

SIR, I have now prescribed this Plantagenet Water for upwards of a year, and I am very happy in being able to state, that the opinion which I formed of their properties, based on Mr. Hunt's Analysis, at the time of my commencing to use them, has been fully and satisfactorily verified by subsequent experience. I now recommend them extensively, and I have frequent opportunities of hearing from my patients that their employment has been attended with all the beneficial results for which they were prescribed.

I am, Sir,
Your obedient servant,
FRANCIS BADGLEY, M. D.,
Lecturer on Med. Juris., McGill College.

To Mr. C. Larocque, Agent.

From the careful and scientific analysis which was made by Mr. Hunt, of the Plantagenet Mineral Waters, the enlightened Physicians could at once proclaim that it was, in a great variety of diseases, acute and chronic—that he would prescribe their use, with the strongest reliance that he must thereby obtain the most favorable results. Experience soon confirmed the decision. Several of the Physicians of the highest standing and reputation in this city, and whose practice is therefore most extensive, became most successful, have published certificates, testifying to the great efficacy of this invaluable medicine, which they have most frequently administered to their patients. Their authority is the one that ought to carry the greatest weight with sick persons, and persuade them. Though I am a stranger to their learned profession, and have been blessed with such uninterrupted health, that I have not needed calling them to my aid, nor to make use of any remedy for several years, yet I attest, on my personal knowledge and observation, that many persons in my family, as well as in a large circle of friends, relations, and acquaintances, have used these Waters either under direction of their Physicians, or of their own accord, and that, in an infinite number of cases, they drew therefrom their cure, often; relief, always; inconvenience, never.

At the desire of the proprietor, with true satisfaction do I give him the present certificate, happy if it can become a proximate cause of usefulness to any sick one whom it had helped to induce to resort to a remedy which, more often than almost any other, shall prove successful.

L. J. PAPINEAU.

Montreal, April 19, 1850.

I, the Mayor of the City of Montreal, in Canada, certify and attest, as being within my own knowledge, the facts hereafter mentioned:—

1. The physicians who have given certificates setting forth the virtues of the Plantagenet Waters are well known to me as enjoying a large practice, and occupying a distinguished rank among the members of the Profession.

2. On my own behalf, I may say that I have used the Plantagenet Water, and know by experience its beneficial effects during the intense summer heats. I have often preferred this natural fluid to the Soda Waters and refreshing Syrups commonly used in hot climates.

I think myself fortunate in being able to add my disinterested testimony to that of the physicians of this city, and confidently recommend to the public the use of the Plantagenet Mineral Waters. In doing so, I believe that I fulfil a duty imposed on all good citizens, that of assisting in the maintenance of the public health.

E. R. FABRE, *Mayor.*

ANALYSIS OF THE ST. LEON WATER.

I HAVE submitted to analysis the Water from the Source of St. Leon, and find it to be strongly saline. It contains chloride of sodium in large quantity, with magnesia and lime, partly as carbonates, dissolved by the excess of carbonic acid, and partly as chloride. Like most of the other saline waters of the country, it contains bromine and iodine; in addition to which, I have detected, in small quantities, salts of baryles and strontia which had hitherto been met with only in the Waters of Varennes. In its general characters, it is allied to the Sources of Caxton, Plantagenet, and the intermittent of Caledonia.

The contents of one pound of 7000 grains, as calculated from my analysis, are as follows:—

| | | |
|---|---|---|
| Chlorid of Sodium, | 80.477600 | grains. |
| Chlorid of Potassium, | 1.332400 | do |
| Chlorid of Barium, | .013600 | do |
| Chlorid of Strontium, | .012720 | do |
| Chlorid of Calcium, | .030200 | do |
| Chlorid of Magnesium, | 4.645840 | do |
| Bromid of Magnesium, | .084092 | do |
| Iodid of Magnesium, | .002410 | do |
| Carbonate of Lime, | 2.445320 | do |
| Carbonate of Magnesia, | 5.571620 | do |
