JOHN MALLINDINE

has opened out a large stock of Men's and Boys' Calf Boots, purchased for cash months ago. Owing to the extensive alterations of his premises, he fears that many of his numerous customers could not be properly attended to, consequently has a large accumulation of Women's, Misses, Youths and Boys Kid, Calf, Buff, and Pebble Boots and Shoes which he will sacrifice at less than cost, as the stock must be reduced to make room for spring and summer goods. A fine assortment of gent's gaiter Button and Lace Goods at prices below city stores.

MEDICAL.

ONTARIO PULMONARY INSTITUTE,

135 Church Street, Toronto, Ont.

E. HILTON WILLIAMS, M.D., M.C.P.S.O., Proprietor,

Who *personally* receives patients at the Institute for the cure of all the various diseases of the Head, Throat and Chest, including the Eye, Ear and Heart.

CATARRH.

There is no disease with which the human family is afflicted so deleterious in its effects, so loathsome to the sufferer, and so fatal in its consequences, and yet so neglected as catarrh. The danger of disregarding the first and earlier symptoms of the disease is realized by few, and still less are they aware of the many diseases entailed upon them, and of which catarrh and catarrh alone is the exciting cause. Foremost among them stands consumption, the destroyer of millions, while prevalent to an alarming extent is bronchitis, laryngitis, aphonia, asthma, and other dangerous affections of the throat and chest. You may think that we give undue importance to these trifles, but go to those among your friends who are now in the last stage of consumption and ask them how their disease began. They will in almost every instance tell you of a slight cold, a hacking cough, or a little soreness in the throat, which were treated as scarcely worthy of notice a few months ago, and will add their cough grew worse. The name of consumption would have awakened them to a consciousness of their true state. That name was withheld, and in fancied security they have journeyed onward to the brink of the grave, now waiting to receive them. There is one point to which we would silver—that is the unwillingness of those suffering from diseases of the head, throat and chest to acknowledge themselves in any danger until the disease has reached an advanced stage. Many lose their lives by waiting to see what will become of their cold and catarrh. Nothing is gained by fearing you cannot be cured. Never give way to despair or listen to the bad advice of a narrow-minded person who has but one routine, never cured a case, never saw a case cured, never knew of any other treatment but his, has but one idea, and who would discourage you from ever trying to get well. Those who desire treatment should spend no time in writing; if you can come to the Institute this month or this week it may be of the greatest possible value to you; it may be the turning point of your disease for fatality or recovery. Consultation free, and prices of the Institute within the reach of all. The very best of references given from those already cured. If impossible to call personally at the Institute, write for a "List of Questions," and Medical Treatise." Address

EPPS' COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

TESTIMONIALS.

BOSANQUET, Sept. 24, 1881.

Charles Cluthe, Esq.:

DEAR SIR: It affords me great pleasure to certify I have been troubled for the last five years with a rupture. I have been using the ordinary truss sold by druggists without success. A "particular friend" of mine, who had some of yours used success fully, not only advised but pressed me to try one of your Patent Trusses. I am delighted with it. It seems to work like a charm in whatever position the body may be in, in lifting or pitching hay or lifting big stones from the ground has no effect on the part affected. The elastic and spring are so arranged to accomplish the object so long looked for. I shall only be too happy to recommend them to those similarly affected.

Yours truly,

W. McDONALD.

MONCTON, N.B., Aug. 23, 1882.

Mr. Charles Cluthe, Toronto:

DEAR SIR: The truss you sent three weeks ago gives perfect satisfaction. From the hour I put it on up to the present time I have not had the slight est trouble with my hernia, whereas with all the other trusses I have worn they were a constant source of annoyance to me. Nothing seemed to keep the hernia in place until I got one of your Spiral Spring Trusses. Now I can run, spring, jump, play crocket or do anything that I used to do before I hurt myself. Yours truly,

E. M. ESTEY.

DUMBURTON, N.B., March 21, 1882.

Chas Cluthe, Esq., 118½ King street west, Toronto, Ont.

DEAR SIR AND BRO.: I have just received your truss and find it a great improvement on the one that I have worn. There is everything about it that my case needs, and it is the most common sense article that I ever saw. I shall be pleased to recommend it for ease and efficiency to any one.

Yours, etc.

Rev. WM. WASS.
