51 29TH YEAR

COLLEGE TRAVEL SCHOLARSHIPS

Anglo-American Scheme of Elaborate Nature, in Which Canadians May Participate.

LONDON, June 30.—A scheme for the interchange of university students between the United States, Canada and the United Kingdom, rivaling in importance that established under the will of the late Cecil Rhodes, is being formed, with every prospect of success.

The idea, which is supported by an influential committee headed by Premier Asquith and Lord Strathcona, and including the heads of the chief universities in the United Kingdom, with the endorsements also of presidents of American and Canadian universities, aims at providing opportunities to students of the three countries to obtain some real insight into the life, progress and customs of other nations, with a minimum of inconvenience to their academic work, at the least possible expense. The promoters suggest the provision of certain traveling scholarships, the selection for which should be along the lines of the Rhodes scholarships, the selected candidate, in addition to his academic qualifications, to be what is known as an "all around" man.

Twenty-eight of these scholarships are proposed, 14 to be available for universities in the United Kingdom, 10 for America and four for Canada, the American and Canadian students winning them to have a ten weeks' trip in Great Britain under the guidance of a university man, the British students making a similar trip in America and Canada in their respective long vacations.

Some of the Regulations.

To be eligible Canadians and American scholars shall have completed their junior (third) year, and shall not have begun their fourth.

Preference shall be given to men who have shown interest in international, national, industrial, civil and social problems.

Scholars must keep a detailed written record of their visit, together with their impressions, for inspection by the executive and general committees, as well as by their university authorities.

Reports should appear in as many university and other magazines and newspapers as possible. Papers should be read before student organizations and discussions should be arranged in debating and other societies on matters arising out of the visits.

Facilities will be provided for the scholars to meet leaders in many spheres of activity, and lectures will be arranged where necessary, but as far as possible information will be imparted personally.

It is planned also to establish two students' traveling bureaus, one in New York and the other in London, under American and British secretaries, respectively, both to be college men, who would afford every facility to any student or undergraduate of any university who wished to visit the United States, Canada or the United Kingdom for the purpose of obtaining an insight into the student, national and industrial life of these countries.

Suggested Routes.

The routes suggested for the trips are: American and Canadian students: From New York or Montreal to Glasgow, Edinburgh, Newcastle, York, Hull, Sheffeld, Wolverhampton, Derby, Birmingham, Swansea, Cardiff, Marlborough, Oxford, Windsor, London, Cambridge, Southampton, Guernsey, Weymouth, Manchester, Liverpool, Belfast, Dublin, Queenstown, thence back to New York or Montreal.

For British students: Liverpool to St. John's, Quebec, Montreal, Toronto, Niagara, Winnipeg and British Columbia, returning thru Washington and Mntana, Ann Arbor, Chicago, Indianapolis, Washington, Baltimore, Pittsburg, Philadelphia, New York, Boston, and side trips to Madison, Wis.; Champaign, Ill.; Brooklyn, Guelph, St. Anne de Bellevue, Annapolis, Chautauqua and Long Island.

The total cost is estimated at $67,500 for the three years, of which it is proposed that the United Kingdom shall contribute $36,000, the United States $22,500, and Canada $9000.

OVER-ESTIMATE

Succession Duties for Six Months Exceed Estimate for Fiscal Year.

When the provincial fiscal year was changed last session from Dec. 31 to Oct. 31, making the fiscal year of 1909 of only ten months' duration, the provincial treasurer estimated the amount which would be received for succession duties at $400,000.

Up to last night the returns for the six months ending June 30, were $420,989, which is already $20,000 over the estimate, with four months yet to be accounted for.

"This," said Hon. Col. Matheson yesterday, "is really a remarkable showing."

ARTILLERY MAN DROPS DEAD

Creighton Cartwright Succumbs During Field Exercises.

GUELPH, June 30.—(Special.)— Driver Creighton Cartwright of the Canadian Field Artillery dropped dead on the field from heart failure while the 16th and 17th Batteries of Guelph were manoeuvring on the camp grounds this afternoon.

The galloping in the hot sun proved very hard on both horses and men. Before he dropped, he said to the man next, "If they go thru this gallop again they'll have to get another man to ride this horse." Cartwright was over 50 years of age, a well-known farmer of Moffatt, Halton Co., and is survived by a widow and 6 children. Two daughters live in Guelph.

Col. Peters, D.O.C., was inspecting the batteries.

Where to Spend the Day.

Scarboro Beach — Lacrosse, Nationals v. Torontos, 3 p.m.; vaudeville attractions all day; pyrotechnic display in evening.
Hanlan's Point — Baseball, Buffalo v. Toronto, 10.30 and 3.30; vaudeville attractions all day.
Dominion Day Regatta—Hanlan's Point, 10.30 and 2.30.
Long Branch Park—Rocky Road to Dublin and Scenic Roller Coaster.
Open Air Horse Show—Queen's Park; muster, 8 a.m.; judging, 9; parade, 10.
Golf Tournament — Toronto Golf Club Grounds.
Trotting Races—Dufferin Park, 2.30.
Governor-General's Body Guard Field Day, Lambton, 2.30 p.m.
National Council of Women, Convocation Hall, 10.
Single Fare Excursions on all railways.
Excursions by steamer: Ningara Navigation Co., leaves 7.30, 9, 11, 2, 3.45 and 5.15. To Hamilton Macassa and Modjeska, 9.30, 11.30 and 5.30; Turbinia, 8, 2 and 8. To St. Catharines—Lakeside and Garden City, 8, 11 and 2. To Olcott Beach—Argyle, 7 a.m., returning same day.

JURY ACQUIT CHAUFFEUR THO CORONER CONDEMNS

Car in Which William McIntyre Was Riding Was Going at From 35 to 50 Miles an Hour.

MONTREAL, June 30.—(Special).—After three minutes' deliberation the coroner's jury on the death of William C. McIntyre, killed last night, in an auto accident at Dixie, returned a verdict exonerating the chauffeur from all blame.

The chauffeur, Pierre Deloose, had testified that he had been driving at 35 miles an hour, which is more than the law allows, and the coroner said that, according to law, the chauffeur was guilty of manslaughter.

"If you do not bring in a verdict of manslaughter against Pierre Deloose you yourselves are guilty of perjury," he told the jury.

Duncan McMartin, who had been ahead of McIntyre's car, stated that the latter was traveling at about 40 miles an hour. Others spoke of 45 or 50 miles.

Mr. Cowans, in the General Hospital, is still in a serious condition from concussion of the brain.

MURDER MYSTERY AT FALLS?

Packing Case Found, Containing Bones and Flesh.

NIAGARA FALLS, Ont., June 30.—(Special.)—By the discovery at Stamford of a packing case containing bones and decomposed flesh, thought to belong to a human being, it is believed that possibly a murder mystery is attached thereto. The box was found in a hollow near the Wabash tracks by sectionmen, who advised Chief Mains. The portions of flesh were wrapped in paper. So advanced was the decay of the flesh that it was buried immediately. It will be exhumed if a medical examination is decided on.

Policeman Martin Ennis was presented with a suitcase by his comrades at the Wilton-avenue station last night. He goes to his home in Ireland on a three months' leave of absence.

BUILD! BUILD! SAYS BERESFORD

Tells London Chamber of Commerce That 300 Millions Should Be Expended.

LONDON, June 30.—Admiral Lord Charles Beresford appeared before the London Chamber of Commerce this afternoon in his favorite role of a candid critic of the naval administration.

The effect of his speech, however, was to a certain extent discounted by the apparently authoritative announcement that the admiral has failed to establish his case before a committee of the cabinet and experts appointed at his own request, which has been sitting for some weeks past.

Nevertheless, the admiral again declared that the situation in the navy was more serious than was generally known, and he said that in order to put the empire in a state of safety by March, 1914, Great Britain would have to build ten battleships, 18 second-class cruisers, 18 cruisers for the protection of commerce, 24 vessels of a new type, larger than torpedo boat destroyers, and four floating docks, as well as replenish the depleted stores of ammunition, coal, etc., and add 16,000 men to the personnel.

This program would necessitate an expenditure of from $275,000,000 to $300,000,000.

Arnold White, in The Chronicle, agrees with Beresford that the Unionist Government were wrong to land Esquimalt over to Canada, and that Canada did wrong to leave the guns rusting on the ground.

FOUGHT DUEL OVER WOMAN

Husband Is Dead and Other Fellow Is Dying.

DETROIT, Mich., June 30.—(Special)—A special from Milan, Mich., to-night says: One man is dead and another dying as the result of a gun duel here shortly before midnight last night, between two Bohemians.

Andy Palicz, 40 years old, died instantly, and John Mascaros, aged 30, is in the hospital with three bullets in his body.

Mascaros came here Tuesday, expecting to go to work this morning in the beet fields. He spent most of the day in the Palicz home with Mrs. Palicz. The two men had met before, and had quarreled frequently, and Palicz is alleged to have drawn a revolver, struck him over the head, and then shot at him three times. The wounded man, as he went down, pulled his own weapon, and shot Palicz in the head. He staggered against the door, trying to re-enter the house, and his wife, fearing he was about to attack her, barred the door. Palicz pounded desperately on the panel and then dropped dead.

WINNIPEG WANTS A GRANT

$2,500,000 For World's Fair—Premier Doesn't Promise.

OTTAWA, June 30.—(Special.)—A Winnipeg deputation, composed of D. C. Cameron, E. D. Martin, Charles F. Roland and Horace Chevrier, asked Sir Wilfrid Laurier to-day for a grant of two and a half million dollars towards the Selkirk Centennial Exposition of 1912. The premier said that he could promise nothing until he had consulted the other ministers. Hon. Clifford Sifton introduced the delegation.

DOLLY DIMPLES STILL FREE

"DOLLY DIMPLES" HAS MARVELOUS EYES. WATCH FOR THEM TO-NIGHT AT HANLAN'S.

Short nerve ne'er won fair Dolly.

Remember this, blithesome, bonnie lasses and brave cavaliers, for in these words is contained the secret of the many failures and disappointments in the search for Dimpled Dolly, likened fairly to the chase after the will o' the wisp or the pot of gold that is said to lie at the foot of the rainbow after every summer shower.

Dolly will be at the Point to-day from 3 p.m. until captured.

Major Barker, one of the committee who are looking after the affairs of Dimpled Dolly during her sojourn in the city, has kindly consented to be at the Point to identify the elusive one from 3 p.m. to-day.

Remember, you must have in your right hand a copy of to-day's World and must say to Dolly:

"Pardon me, you are the mysterious Miss Dolly Dimples of The Toronto World."

If you so salute her, using these exact words, she will immediately accompany you to the Island office of The Toronto Ferry Company, where a World representative will pay you $100 in gold.

By Dolly Dimples.

I commenced operations sharp at 8 p.m. at the sound of the whistle, and I immediately strolled around the different places of amusement. About 8.25, when I went up to the refreshment stand opposite the Ferry Landing I was accompanied by my ward, Elsie, all evening. After purchasing a package of peanuts, it inadvertently fell out of my hand to the ground and burst, scattering the peanuts all around. One of two young fellows who were passing exclaimed: "Why, Dolly dropped her peanuts." I looked up and smiled,

How are YOU going to spend the holiday?

TAFT SOUNDS WARNING TO REPUBLICAN PARTY

May Be Relegated to Position Like His Majesty's Opposition—"Troubles of Our Own."

NEW HAVEN, Conn., June 30.—In a speech before the Yale Alumni this afternoon, President Taft issued a note of warning to congress.

He declared that if the Republican party failed to live up to its promises and what was expected of it, it would be relegated to "his majesty's opposition."

The president made this reference in speaking of the difficulty in defining a latter-day Democrat and declaring that the trouble was not altogether on that side of the house.

President Taft was paying tribute to Secretary of War Dickinson—a Democrat, and added:

"Now, my dear friends, in suggesting differences among Democrats, I am far from ignoring some difficulties that there are on our side. I remember, in 1904, that Charles Francis Adams said that one of the essentials of a successful free government was an able, patriotic and efficient opposition, and that as the Democratic party had utterly failed in reaching that ideal, he was in favor of putting the Republican party in that place.

"Now, I venture to say that while that may not be the reason, which shall move the American people, it is true that if the Republican party does not live up to its promises, and what the people expect of it, it will be relegated to a position like that of his majesty's opposition.

"And, therefore, I may say by way of caveat, that we have troubles of our own."

END OF THE QUINQUENNIAL

Parting of the Delegates at a Pleasant Function.

In the coruscation of soical brilliance the fourth quinquennial meeting of the International Women's Council and Congress was brought to a conclusion in the parliament biuldings last night.

About 600 of the intellectual and fashionable creme de la creme of 22 different nations filled the great chamber. His honor the lieutenant-governor was there with two countesses, her excellency of Ottawa, and her excellency of Dublin. Sir James Wheetney, as the foreign delegates call him, was not present, but Hon. J. J. Foy was. Mayor Oliver was present also, and got all sorts of compliments for the beautiful city he rules, and there were probably 50 other men as well, Inspector Hughes, to wit, and Samuel Nordheimer, A. E. Kempt, Prof. Keys, Everlyn Macrae, W. A. Charlton, Angus MacMurchy, J. J. Kelso, Sir William Mulock, Dr. McPhedran, Dr. J. B. Gullen, Dr. Bruce Smith, Dr. Davies, Sir Mortimer Clark and the aide-de-camps Capt. Newton and Major Macdonald among others.

Before the countess arrived, and they came very late in true aristocrativ style, the ladies of the Canadian National Council received the guests in the legislative chamber; these were Lady Edgar, rMs. Dignam, Miss Derick, Montreal; Mrs. Albert Austin, Mrs. McCallum, St. John, Mrs. Frost, Mrs. McEwen, Mrs. Grant Macdonald, Lady Taylor (Hamilton) and Mrs. Dennis (Halifax).

Lady Aberdeen directed the proceedings as chairman of the council, and Frau Marie Stritt, Berlin, assisted. There were a good many echoes of the work of the past three weeks, and everything was couched in the most optimistic vein. x

Then Mrs. Cummings was presented with a carriage clock on behalf of the 19 councils represented at the congress, and thanks were given to Inspector Hughes and the board of education, to the decorators, the Women's Historical Society and everybody else concerned in the successful meeting.

Ask For Chinese Expert.

NEW YORK, June 30.—A letter was sent by District Attorney Jerome today to Professor John Endicott Gardner, professor of Chinese language and literature at the University of the Pacific, asking him to come to New York to assist in the Sigel case.

GRANDMOTHER'S GRIEF CAUSES FATAL STROKE

Falls Dead by Coffin of Child Whose Death is Traced to Ice Cream Cone.

Mourning over the body of eight-year-old Viola Callan, who died on Tuesday from what is believed to have been ptomaine poisoning, Mrs. Mary Caswell of 1315 Dufferin-street, grandmother of the child, was stricken with apoplexy and expired immediately.

The body of Viola was to have been laid away in the cemetery yesterday, but when the grandmother died it was decided that there should be a double funeral to-day. J. W. Bates of Bates & Dodds has charge of the arrangements.

Viola Callan's illness was traced to her indulgence in ice cream in the cone purchased from a street vendor. Dr. Charles H. Hawkins, who attended the child, diagnosed the ailment as poisoning of some nature, the cause of which neither he nor the child's parents could determine until it was remembered that on Saturday afternoon she had eaten an ice cream cone. She was taken ill Sunday. During Sunday night and Monday morning other medical advice was called, but all efforts to save the child's life were in vain.

DECAPITATED BONIFACES WILL STAY IN BUSINESS

A Number Have Decided to Supply Local Option Beverages to Thirsty Customers.

A number of hotelkeepers who have been deprived of their licenses to sell spirits, have decided to lay in a stock of "local option" beer and endeavor to persuade their patrons that it is "just" as good as the real thing.

Patrick Clancy of the Maple Leaf Hotel at 771 East Queen-street, says he will stay with the game. M. Greensius of the Wilard House at 175 Teraulay-street, will continue selling refreshments. The Clarke House at 536 West King-street, will keep the sign up. Edward Mallon of the Lansdowne Hotel at 700 Dundas-street, will run a local option house. James McGrath of the Brockton Club, at 547 Dundas-street, will try to sell two per cent. beer for a week or so and see if he can make it pay. George Hance of the Union House, 19 Simcoe-street, will stay in business as long as he can stand it, financially. John M. Wright of the Cameron House at 408 West Queen-street, will also try it.

Quite a number of hotelmen have not yet decided what they will do. Only three or four have decided definitely not to stay in business.

MOTORMAN ATTACKED

Mauled by Gang of Men For Rousing Sleeping Passenger.

A lively scrap occurred on a King-street car about 11.30 last night and the motorman, D. Miller of 1712 West Queen-street, was severely mauled by a gang of six. Miller put a man off the car at the corner of Sunnyside-avenue and two men who saw the occurrence boarded the car and struck the conductor. They fought for several minutes when Jack and Charles Hill, who have a store on West Queen St. joined in the fight, assisting the motorman, who took the lever as a weapon of defence.

The conductor had left the car at the barns, instructing the motorman to take it around the loop and put off a man who was sleeping on a seat. P. C. 165 got the names of some of the men who were mixed up in the affair and they will be summed to the police court.

CONDUCTOR KILLED.

FORT WILLIAM, June 30.—(Special.)—As a result of a tail end collision between a ballast train and a train of empty box cars, Conductor Fred Way lost his life and Brakeman John Isaac sustained several injuries.

CANADA HALTED CUT IN THE CABLE RATES

Premier Asquith Says Hon. Mr. Lemieux Asked Government to Postpone Action.

LONDON, June 30.—(C.A.P.)The Imperial Press Conference deputation, re the cable question, waited on Premier Asquith this afternoon at the house of commons.

Delegates having laid their views before the premier, he in response said that towards the general objects of the deputation the government was entirely sympathetic. The Pacific board's reduction had the full concurrence of the imperial government.

As regards Canada Hon. Sydney Buxton and Mr. Lemieux had been in communication for a considerable time on the question of the reduction of Atlantic rates. If nothing had been done it was certainly not the home government's fault, because it was at the request of Mr. Lemieux any action had been postponed.

He hoped a satisfactory arrangement would ultimately be come to respecting the cable companies. The means of action at the disposal of the imperial government were limited, but its influence would be used as far as may be in the reduction of rates.

Cable companies were commercial bodies, and the most powerful argument for the reduction of press rates would be the assurance of largely increased service.

The development of wireless was a matter which could not be left out of sight, especially in connection with the suggestion to lay a state cable, and the progress of invention might considerably alter the carrying capacity of cables and thus change existing circumstances. The government department would keep in touch with the standing committee of the I. P. C., and this would be a very solid result of the conference.

In conclusion he declared one of the first requisites of the empire would be a cheap, certain, constant, convenient and universally accessible system of electric communication.

For Cheaper Cables.

OTTAWA, June 30.—(Special.)—Sir Sandford Fleming will leave for England on Friday, to consult with Henniker Heaton regarding cheaper cable communication.

ONE BENEFIT DEPARTMENT

Sons of Temperance Consolidate Work of Provincial Divisions.

Representatives of the Sons of Temperance of the province met in special session last night to consider and rearrange the benefit department of the order. Previously separate divisions thruout the province have conducted their own benefit departments, and these have all been consolidated under one head. Arrangements were made for representation at the national division, which meets at Worcester, Mass., on July 14.

BUG-EATING DUCKS VALUABLE

Illinois Man Says They're Worth a Dollar to Him.

ALTON, Ill., June 30.—Joseph Junette, who farms one of the Job ranches on the Alton bluffs, is enjoying an income of $15 a day from 15 ducks, which he has trained to clear potato patches of the little spotted pests.

He shut up the ducks in a pen and fed them on potato bugs exclusively after starving them until they were glad to get the bug diet. Junette tried them first on his own potato patch, which comprised several acres. The ducks went thru the patch like a neighboring scandal.

The ducks are in good demand on the farms in Junette's neighborhood.

TANNER IS LEADER.

TRURO, N. S., June 30.—(Special.)—Three hundred delegates assembled today to the biggest convention of the Conservative party in the history of Nova Scotia.

C. E. Tanner, ex-M.L.A., of Pictou, was unanimously chosen leader.

PAINTER DROWNS IN EFFORT TO SAVE

Unseen, Attempts Rescue of Woman and Child—Boatman Loses Life Thru Upsetting of Craft By Swimmer.

Two drownings marred yesterday in the city. Frederick Playter, 26 years, who lived with his parents at 376 West Adelaide-street, and Alfred Downs, 25 years, a painter, of Reid-avenue, north of Gerrard-street, were the victims.

Downs, who was employed as a painter at the island home of George Gooderham, was on the bayside of the island, near Oriole-avenue, at 10.30 in the morning, when 8-year-old Kathleen Skey, an islander, got into deep water while bathing. Her aunt, Mrs. J. Duffield, went to her rescue, and she, too, got beyond her depth.

Frank Goss, 4 Stanley-terrace, who chanced to be nearby, heard their cries and went to the rescue. He succeeded in getting them to the bank, and it appears that Downs also went to the rescue. Mrs. Duffield was in a serious condition when taken out and Goss put in 25 minutes' hard work to bring her to consciousness. Meanwhile, in the excitement, no one had noticed that Downs had disappeared, and it was not until 12.30, when his body was found floating in the lagoon by Joseph Goodwin, jr., and Samuel Inder, 173 Bolton-avenue, and his fate was learned.

The body was brought to the city side and placed in the morgue. Later it was turned over to his widow, who, wit hone child, survive him.

Playter was drowned while rowing on the bay opposite No. 4 G. T. R. dock, near Spadina-avenue, at 7.30 last night. His friend, Harry Denis, 4 Sutton-avenue, was swimming from the dock and swam to the boat. In taking hold of it he capsized the little craft, and Playter, who could not swim, was thrown into the water.

Malt Aykroyd was notified and the body recovered after it had been in the water only a few minutes. It was taken to Dr. McKibbon, 196 Spadina-avenue, but life was extinct. It was then taken to his home.

DOUBLE DROWNING.

MONTREOL, June 30.—The yacht Red Feather was struck by a squall near Sorel and captized. Three young men, Albert Hanna, Herbert Shaw and Archie Crossley, were thrown into the water. Shaw and Crossley were drowned.

10,000 GREET FOURNIER

Editor Is Given Hearty Reception in Montreal.

MONTREAL, June 30.—(Special.)—At least ten thousand people greeted Jules Fournier on the St. James Market place this evening, where the editor of Le Nationaliste delivered an address followed by speeches from H. Bourassa and others. Senator Legris also announced his antagonism to the Quebec Government.

Fournier is out on bail, having been condemned to three months' imprisonment for editorial comments on the Oliver Asselin affair.

AWKWARD FOR CHUNG SIN.

NEW YORK, June 30.—Altho Chung Sin, companion of Leon Ling, had sworn he knew nothing of the moving of the Sigel trunk, he was positively identified to-day by an expressman as the man who had told him to take the trunk downstairs carefully. Chung Sin shook with fear as he declared the witness was mistaken.

RAIN IN WEST.

"Recent reports received by the Bank of Toronto regarding the crops in the Northwest have all been favorable," said Duncan Coulson, general manager, to The World yesterday. "There has been plenty of rainfall."

NOTHING LEADS LIKE SUCCESS.

It is an old adage, but one we see exemplified almost every day, that nothing succeeds like success. The man or woman who gets a good start thru his or her own efforts in life is the one who seems to get helped along freely by others.

This truth applies as well in The World's Contest, as in any other walk of life, and for this reason Every winner of a prize, and particularly the capital prizes, will be lauded by the public at large, which has been watching the battle of ballots, for to win in so great and popular an event is to be like a champion in a popular sport, the idol of supporters and followers. With the pecuniary start which such prizes as any of the capital awards will give, with an introduction to the public, to methods of beating a competitor, and with the spirit of triumph in the breast, it is only natural that greater success, in whatever walks you are in, will court you.

One of the hardest things for any person in this age of keen business rivalry is to get a start and a lift upward so that you may have a chance to breathe among the masses who are struggling for supremacy. The offer which The World makes to candidates at the present time is the greatest and most generous ever put out by any Canadian paper, and, remember, the persons who work hard for a few weeks more, and come out on top in the voting, will be the ones who will get a fine start toward success.

Now is the time to do the hard work. In nine more days the second voting period ends. After that subscription values decrease, as you know. Does it not stand to reason, therefore, that the next nine days are vital in your career?

Think over these facts and then go out and act on them every hour.
