### Football Season Opens

#### B.I.S. DEFEAT ST. ANDREW'S.

The initial game of the League series for the season was pulled off on St. George's Field last evening between the B.I.S. and St. Andrew's, resulting in a victory for the former by four goals to nil. The attendance of spectators showed that interest in the good old English game is not waning. A fair share of enthusiasm was evident from the supporters of both sides, but the outcome of the match was a general disappointment, as the score was not an indication of the exhibition. The personnel of the teams were:

B.I.S.—Goal, Walsh; backs, Kavanagh, Hogan; halves, Duggan, Jackman, Kavanagh; forwards, Duffy, McGrath, Simms, Constantine, Jackman.

SAINTS.—Goal, Ewing; backs, Spry, Foster; halves, Reid, Munn, Elton; forwards, Ferguson, Kerr, Bastow, Ewing, Crawford.

#### THE GAME.

The Saints, who kicked from western territory, began hostilities and kept the B.I.S. on the run. The Scotch forward line pressed hard and had many narrow escapes from scoring. The Irish back division defended well and repulsed the dashes of their opponents. Once a corner was conceded the Saints, it was "on the goal," but the result was fruitless. After the Scotch had finished a series of ineffective rushes, the Irish put on extra power and made several calls on Ewing, who saved well. Duffy made a splendid run on the right wing. When within proper distance he centred, Jackman was on the spot and landed the first goal for the season as well as drawing first blood for his team. This enlivened matters for a while and some good combination work was displayed by both sides, but no further scoring was done up to half time.

#### SECOND PERIOD.

"Lemon time" was longer than usual, owing to the "caplin scull" striking in and taking charge of the ball. After keeping some of the officials busy for a while chasing them around the arena, the youngsters surrendered the lead and the teams again got down to business. The Scotch lads started well, but soon showed fatigue. This the Irish took advantage of, made several brilliant dashes and in the course of ten minutes scored two goals through Jackman and Constantine. After that the Saints defended well and kept the ball in mid-field. Several attempts were made to score, but without success, as Walsh saved well. Ere long the B.I.S. renewed their former attacks and forced into Saints' territory. A corner was secured, the ball was neatly placed, though Ewing cleared it in style. The ball was then taken control of by Duggan, who sent a scorcher to the Saints' goal-tender and which proved too good for him, thus the 4th and last goal for the evening was recorded. A few minutes later the game ended. Mr. J. Condon refereed.

The exhibition on the whole for a "first evening" was as good as ever witnessed here. There were a few defects in the combination line, but these can be rubbed out by a little practice. Some players should rid themselves of the idea of being too anxious to score, and if they do that, their work will be doubly effective.

#### "OURS" IN THE WEST END.

There was a large audience at the ever popular little theatre last night and all enjoyed the good show provided. The little singer received great applause. Always a good selection of pictures to please all patrons, good music and a well conducted place to spend an enjoyable evening.

Some full sleeveless bodices have ruffles set in the armholes in lieu of sleeves.

### The Rise and Decline of Prices.

Editor Evening Telegram.

Sir,—I take great pleasure and interest in reading "The Thoughts of Theobald," appearing in your paper Saturdays, and whilst he usually "strikes the nail on the head," he was certainly very wide of the mark when he referred to the Flour situation in your issue of the 12th inst. Under the heading "Stand Firm Under," he says:—

"The flour market has come down at last and war prices are no longer asked at the mills. When this low price will strike Newfoundland is another question, for although prices rise here in sympathy with prices at the mills yet it does not always follow that prices decline here in sympathy with a falling market. However, there has been a good profit made on flour during the last four or five months and the dealers can well afford to lose a dollar or two per barrel now, much will be required."

I must take strong exception to Theobald's statement that prices rise here, in sympathy with prices at the Mills, yet it does not always follow that prices decline here in sympathy with a falling market. In answer I would like to state that the recent decline referred to has already been met, and our largest importer of Flour, Messrs. Harvey & Co., have reduced their prices 50c. per barrel, others will, of course, be obliged to follow, without delay. This, too, Mr. Editor, in view of the fact that it will take, at least, three or four weeks to get this low-priced Flour from the Mills. Under these circumstances, you will observe that the decline actually takes place before the low-priced goods arrive.

When a "drop" takes place, our market invariably responds to the decline. When an advance occurs the holders of Flour, or other provisions may, possibly get part of the advance, but rarely more than 50 per

cent. Last Fall Pork declined \$5.00 to \$6.00, and I know dealers who lost this amount per barrel on hundreds of barrels, and took their losses complacently. Would it be unjust or unfair to look for this loss if the market advanced to this extent this year? I hardly think so.

Competition, and the law of supply and demand will regulate the price of provisions, and other commodities, and I believe "Theobald" is innocent of the Provision business as conducted here, otherwise he would not have penned such unfair and unreasonable comments.

Yours truly,  
IMPORTER.

### MUNICIPALITIES NOT ALONE RESPONSIBLE.

London, June 7.—"Days pass on and still the city of Prince Rupert is allowed to remain in default," says the financial editor of the Daily Mail, "in spite of assurances that a settlement was on the point of arrangement."

"Doubtless many of these small Canadian municipalities have been rash in their borrowing, but the way was rendered easy for them by financiers to whose profit it was they should borrow. Settlement should not be rendered easy for them in these exceptional times by those who have profited. In any case we do not want a Canadian municipality hanging about in default."
