OUR FARMERS' CLUB

Correspondence Invited

QUEBEC.

RICHMOND CO., QUE.

DANVILLE, July 21.—Haying is in full swing but the crop is not as good as last year. There has been a lot of rain the last two weeks. Grain crops are doing fine. The berry crop has been destroyed by the frosts, and the apples were destroyed by the caterpillars. Gardens are doing fairly well; also the root crops. Dressed pork, 12½c per lb.; eggs, 23c; butter, 25c; chickens, 20c.—M. D. B.

ONTARIO.

HALIBURTON CO., ONT.

KINMOUNT, July 15.—The dry, hot weather still continues; only two hours rain this month. On the 10th a frost did some damage in places. The hay is almost a complete failure; a number of farmers are buying baled hay by the car; about 1 ton delivered. Some are feeding straw by very short. It seems to be heading out well. Corn, roots and potatoes are standing the drought. Strawberries of all kinds are drying up on the hills. Pastures are getting short. Cattle buyers are holding off to see if it will not be a case of have to sell. Butter, store, new, 21 a bus.; bbl. 60c; oats, 55c; butter, 25c; eggs, 22c; veal, 10c.—J. A. T.

BEDFORD CO., ONT.

MITCHELL, July 21.—We have once more completed hay harvest, with only half a crop; some claim to have five loads off 10 acres. Fall rye looks good, but not good is a good sample. Barley, oats and peas are looking well, also roots and potatoes. Corn is growing fine, with a few more silos going up, as more and more people are learning the value of good feed for dairy cattle. Pastures have been poor on account of so much dry weather.—G.A.

HASTINGS CO., ONT.

CHAPMAN, July 23.—The weather continues dry and pastures are becoming short, with the milk flow decreasing in consequence. Haying is about completed, and the crop is about one-half the average yield. Barley will be somewhat light and oats are being cut green. Corn, root crop and potatoes are looking very good but rain is very much needed.—S. S. T.

MIDDLESEX CO., ONT.

BELMONT, July 16.—Haying is about done and a fair average would be about a ton to the acre. Most of the crop that is cut, is in a good condition and will be above the average. Oats are looking fine, and although a little shorter in the straw will be headed, and will be a fair crop. Barley will be above the average. Corn is growing fine, and, judging by its appearance now, it will be a bumper crop. Some fields were injured by the cut worm. A good way to stop them is to spread about fifty pounds per acre of fertilizer when planting the corn. The Belmont Milk Powder factory is taking in about fifty thousand pounds of milk a day. The milk is run through a cream separator, and the cream is either made into butter or sent away in cans to market. The skim-milk and butter-milk are converted into powder. Everyone is glad to see they paid us so much per pound for fat; they then changed and paid 1 per cent. of milk, $1.10 for June and $1.15 for July.—G. M. R.

THE FARMER

The farmer is in the strong glare of public aid and counsel at the present moment for sure.

Soil fertility, alfalfa, crop rotation and and several of the present-day preachments are for his good and stock raising is a home market for his products is at the least of the most valuable teaching he is receiving; in fact, we may say it is the most opinionated at the moment. Live stock of every description is selling at high figures and must continue for a decade or more because at the ratio of increase of population at this date, live stock will be the most profitable output of the American farm for many years, for its own direct profit and its immense value as an adjunct to the farm, enabling the farmer to return to the soil a proper payment for value received.

The dairy cow is beyond doubt the greatest value consideration for any farm and the week's college in dairying at the great National Dairy Show in Chicago, each year, carries lessons that no farmer can afford to overlook. This year will be held the eighth annual show of this association and it is intended to re-organize the entire dairy industry at this show. October 23rd to November 1st, and, while the cows have to be milked twice a day, some representative farmer from every section should attend the meetings and see this show.

OFFICIAL RECORDS OF HOLSTEIN-FRIESIAN COWS FROM JULY 1ST TO JULY 15TH, 1913

Full Age Class

1. Royalton Petunia 2nd, 19566; 9y. 1m. 25d.; 546.3 lbs. milk; 20.13 lbs. fat; 25.17 lbs. butter. Laidlaw Bros., Aylmer, Ont.
2. Lucy Tensen De Kol, 9035; 6y. 0m. 17d.; 419.5 lbs. milk; 19.84 lbs. fat; 24.80 lbs. butter. Brown Bros., Lyn, Ont.

8. Rose of Tyrrell, 3535; 12y. 0m. 21d.; 417.9 lbs. milk; 13.86 lbs. fat; 17.35 lbs. butter. Wallace H. Mason, Tyrrell, Ont.
9. Gem Tensen's Girl Posch, 6963; 7y. 2m. 27d.; 317.5 lbs. milk; 13.49 lbs. fat; 16.86 lbs. butter. G. S. Gooderham, Bedford Park, Ont.

Junior Four Year Class

1. Belle Model Johanna 2nd, 14225; 4y. 5m. 0d.; 570.7 lbs. milk; 25.63 lbs. fat; 32.04 lbs. butter. A. C. Hardy, Brockville, Ont.

Fourteen-day record; 1,141.6 lbs. milk; 50.01 lbs. fat; 62.51 lbs. butter.

2. Winona Pauline De Kol, 14688; 4y. 3m. 26d.; 550.7 lbs. milk; 17.61 lbs. fat; 22.01 lbs. butter. W. W. Brown, Lyn, Ont.

Senior Three Year Class

1. Alice Tensen, 13079; 3y. 11m. 5d.; 676.2 lbs. milk; 22.90 lbs. fat; 28.50 lbs. butter. A. C. Hardy, Brockville, Ont.
2. Pietje De Kol Pietertje, 16690; 3y. 0m. 29d.; 394.4 lbs. milk; 16.04 lbs. fat; 13.29 lbs. butter. Glenn E. White, Lacombe, Alta.
3. Jewel Hengerveld Abbekerk, 1444; 3y. 4m. 10d.; 325.9 lbs. milk; 14.07 lbs. fat; 13.09 lbs. butter. W. W. Brown, Lyn, Ont.

Senior Two Year Class

1. Sara Jewel Hengerveld B, 16919; 2y. 11m. 14d.; 561.5 lbs. milk; 16.12 lbs. fat; 20.23 lbs. butter. W. W. Brown, Lyn, Ont.

Thirty-day record; 1,641.6 lbs. milk; 64.86 lbs. fat; 81.08 lbs. butter.

Junior Two Year Class

1. Segis Burke, 16866; 2y. 0m. 16d.; 314.4 lbs. milk; 12.36 lbs. fat; 15.45 lbs. butter. J. M. Joyce, Bay Centre, Ont.
2. Segis Keyes Walker, 19559; 2y. 1m. 8d.; 348.1 lbs. milk; 12.10 lbs. fat; 15.12 lbs. butter. B. R. Leavens, Bloomfield, Ont.
3. Pontiac Segis Prescott, 19560; 2y. 0m. 23d.; 271 lbs. milk; 11.94 lbs. fat; 14.92 lbs. butter. B. R. Leavens, Bloomfield, Ont.
4. Pietje Sarah Jewel, 19303; 1y. 11m. 24d.; 346.5 lbs. milk; 11.51 lbs. fat; 14.39 lbs. butter. A. C. Hardy, Brockville, Ont.
5. Bos Korndyke, 18867; 2y. 0m. 12d.; 324.5 lbs. milk; 10.93 lbs. fat; 13.66 lbs. butter. J. A. Joyce, Bay Centre, Ont.
6. Princess Stella Segis, 19539; 2y. 0m. 16d.; 319.2 lbs. milk; 10.79 lbs. fat; 13.49 lbs. butter. A. C. Hardy, Brockville, Ont.
7. Korndyke Lyons Hengerveld, 19975; 1y. 11m. 16d.; 303.5 lbs. milk; 10.40 lbs. fat; 13.75 lbs. butter. Glenn E. White, Lacombe, Alta.
8. Inka De Kol Pietertje 5th, 20929; 1y. 10m. 9d.; 298.1 lbs. milk; 8.30 lbs. fat; 10.38 lbs. butter. W. W. Brown, Lyn, Ont.

Eight Months After Calving

1. Homestead Susie Colantha, 14273; 2y. 3m. 2d.; 346 lbs. milk; 11.63 lbs. fat; 14.54 lbs. butter. Laidlaw Bros., Aylmer, Ont.

Reports of the official tests of twenty-seven cows and heifers were received and accepted during the first half of the month of July. Royalton Petunia 2nd leads the mature cows with a record of 25.17 lbs. of butter. However, the sensational records are found among the younger cows. In the junior four-year-old class a new Canadian record is established by Belle Model Johanna 2nd with 32.04 lbs. of butter. In the senior three-year-old class Alice Tensen also breaks the record with 28.50 lbs. of butter. These two heifers certainly make a fine showing for one herd.

W. A. CLEMONS, Secretary.

More than Satisfied

Another proof that Farm and Dairy offers premiums of only the highest quality:

"I received in good condition the pair of pure-bred Buff Rock fowl for securing five new yearly subscriptions for Farm and Dairy.

"They are certainly a fine pair of fowl, and I feel that I am more than repaid for the time which it took me to secure the subscriptions."—F. W. Snell, Oxford Co., Ont.

All the Essential Information regarding

The Dairy Cow

is placed in a compact and usable form in a new book,

Dairy Cattle and Milk Production

By Prof. C. H. Eckles.

Over 540 pages presenting material in such a way that it will assist the practical farmer to care properly for his dairy cows and to produce milk economically.

Fifty-seven illustrations show types of dairy breeds, noted dairy animals, apparatus for treating milk fever, examples of good barns, stalls, King System of Ventilation, Trocar used for Bloat.

A chapter on Common Ailments of Cattle—Udder Troubles, Contagious Abortion, etc.

Prof. Eckles, the author of this book, is a noted dairy authority. He has the practical experience, together with a scientific training. For over 15 years he has had charge of a herd of from 30 to 50 cows, many of these being high producing animals. For some years he has been Professor of Dairy Husbandry at the University of Missouri.

Every man with dairy cows can profit from this book. It will be fine for your boys.

Price, $1.75 postpaid.
