The New Glasgow glass works is about to resume operations. It will employ 150 hands.

The warships *Pelican*, *Emerald and Partridge* were expected to arrived at Halifax yesterday.

H. L. Jones, ex M. P. for Digby, was married in Halifax on Thursday, to a daughter of Samuel G. Black.

Thomas Keltie, a carpenter by trade, aged 35, fell through the ice in Long Lake, Halifax, on Sunday, and was drowned.

CANADIAN HORSES.—It is said a company has been formed in London, Eng., for the purpose of buying up Canadian horses with a capital of £100,000 stg.

In the New Brunswick House of Assembly on the 8th inst., the Government bill to abolish the Legislative Council passed without a dissenting vote.

W. S. Morrow, of Halifax, a McGill medical graduate, has received the appointment of house surgeon to the John Hopkins university, Baltimore.

Mr. Clement B. Churchill, of Port Maitland, N. S., has a flock of four sheep. Three of them gave birth a few days ago to triplets each and the other to 2, making 11 in all.

The C. P. R. steamer *Empress* of India left Hong Kong April 7th with her around-the-world passengers. She will leave Yokohama on the 17th, and is due at Vancouver on the 27th.

Captain James Hubley, of the schooner *British Queen*, fell into the harbor between the schooner *E. W. Forest*, and Levi Harts wharf, Halifax, on Wednesday morning at 2 o'clock and was drowned.

The Lunenburg fishing fleet are rapidly preparing for the season's work. Several are already in the stream, and others are taking on board their outfits. A number of new vessels have been added to the fleet.

A petition to the minister of justice praying that the lashing in D. C. Ferguson's case be not inflicted on account of his age is in circulation through the city of Halifax, and has already been signed by a number of persons.

The trade and labor associations of Halifax have appointed a committee of seven, six from the trade and one from the labor association to select and report upon a site for a building to be used for association purposes.

Frederick Riddell, aged 15, of Halifax, accidentally discharged a revolver he had purchased the day previous, on Sunday morning. The ball entered his eye, and lodging in his brain, caused immediate death.

The engine house at the Wentworth plaster quarries, Hants, was destroyed by fire the other day. Later on in the night another building was found to be on fire, leading to the supposition that an incendiary was at work.

Mr. Stairs, brother to Lieut. W. G. Stairs of Africa fame, is now in this country. He has taken up his abode with Ralph S. Eaton, of Chipman's Corner. Mr. Stairs intends to become a practical farmer.—*Kentville Chronicle.*

The first train to pass through the Grand Trunk tunnel under St. Clair river made a trip Friday afternoon, carrying several of the road's officials. The return trip was made at a rate of 15 miles an hour and everything was pronounced satisfactory.

D. J. Nickerson, book agent in the employ of S. F. Collier, St. John, N. B., and belonging to Mary Joseph, Guysborough Co., N. S., has been missing since Feb. 6th last, when he left Bridgewater on foot for New Germany, and at which place he did not arrive.

The total yield of gold from the Nova Scotia mines during the past three months was 5,508 ounces, which at $19 per oz. would be $4,652. The best average was by the Eastern mine, South Uniacke, which secured 112 ounces 16 dwt. from 17 tons quartz.

The Portland packing company's factory at Chester was burned down on Saturday night. No particulars are given of the extent of the loss, which would depend upon the amount of stock the establishment contained. It was just about ready for beginning the spring work.

DEAD MOOSE.—A large bull moose was found last week in Diligent River brook about three miles from Parrsboro. The body was frozen in the ice and was in a good state of perservation. One leg was broken by a bullet and there was a bullet hole in the body.

Ferguson, a Halifax photographer, found guilty of an indecent assault on a little girl, was last week sentenced by the Chief Justice to two years in the county jail, and to receive forty lashes—twenty within a month from the date of sentence and the other twenty a month before his release.

The youngest daughter, about 14 months old, of John Publicover Esq., of Kentville, on Saturday last while leaning over the sill of an open window lost her balance and fell to the ground a distance of twelve feet. It seems remarkable that the little one should fall so far and receive no serious injury.

MONTREAL CENSUS.—Lowell, the veteran publisher, has taken a private census of Montreal: Population 211,302—Catholics 155,511, Protestants 58,855; 58 Catholic and 80 Protestant churches, 4 Jewish synagogues. Within city limits 193 priests, 79 ministers, 300 lawyers, 119 notaries, 249 physicians, 34 academies, 21 convents, 10 colleges and three universities. There are in all 34,445 houses.

The young man Reynolds, who murdered a man named Myers by stabbing him about two weeks ago in a Montreal pool room, gave himself up to Mayor McShane on Thursday last. He had been hiding in the States since the murder. He said he had become almost crazy. He spent all the money he had in various towns which he visited and when it became exhausted he resolved to return and surrender himself.

The proprietors of the great Tantramar marsh at Sackville contemplate to tide about 1,000 acres this summer. It is proposed to dig three canals from different starting points. The probable cost is estimated all the way from $10,000 to $30,000, but if it cost the highest estimate, $30 per acre, it would then be a profitable undertaking as considerable of the marsh is now producing a very inferior crop of hay.

THE NOVA SCOTIA MILITIA IRREGULARITIES.—It is understood that the order instituting board of inquiry to investigate the alleged irregularities which occurred in the district staff of Nova Scotia in connection with the camp at Aldershot last fall, has been rescinded, and that General Herbert is himself conducting the inquiry. The board was to have consisted of Lt.-Col. Beer as chairman, with Lt.-Col. Blaine and Lt.-Col. Marsh.

HORSES FOR YARMOUTH.—Geo. R. Smith of Yarmouth, N. S., has purchased from Richard Kirven of Indiantown, N. B., a splendid span of black Percheron horses for the fire department of Yarmouth. Mr. Smith thinks that a better span of horses is not to be found in New Brunswick or Nova Scotia. Each weighs 1350 pounds and they will be six years old in June, all together making them specially adapted to the work for which they are intended. The price paid was in the vicinity of $500 and Mr. Smith has got a good bargain.

As stated in our issue of Friday, the general work on the ship railway is to be resumed on Monday, says the Amherst *Press*. Work on some parts has been carried on more or less throughout the winter, but not to any great extent. One hundred and fifty men are now to be put on the work of excavating and ballasting, in which two ballast trains are to be used—one at Long Lake and the other at Hole'. The work will at present be much retarded on account of the mud. The erecting of the masonry at both docks is to be proceeded with in the course of a week or two.

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesome disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented.

—La grippe leaves the blood in a bad state, which may end in serious results. There is nothing equal to Dr. Norton's Dock Blood Purifier to thoroughly cleanse the system and purify the blood, and thus save life and health.

Margaretville Matters.

Since last report to the MONITOR this village has been visited three times by the grim messenger,—Flora Hudgins, Lottie Goucher and Mrs. Wm. H. Hudgins being the victims. La grippe is very prevalent, and to its effects are due the greater number of deaths that have occurred within the past few weeks.

The ship-yard in the dock is putting on an active appearance once more, and soon the timbers will be erected for the construction of another vessel. This one, we believe, is to be rigged into a three-masted schooner. The work is being superintended by the indefatigable Martin, and it is more than likely that a first-class vessel will be turned out under his skilful management.

Rumor says that arrangements for the building of another and larger vessel are soon to be put into operation.

Lawrencetown Items.

Beautiful weather, and it looks like spring in earnest.

We are sorry to hear of the death of Miss Lottie Neily of Torbrook. She had a host of friends here.

The debate in Nelson Division on the 11th was a grand one: the right side always wins, and therefore "Nature" won this time. A standing vote was taken at the close, and "Nature" claimed a majority of 33.

The work of repairing the Baptist church is now in progress.

Mrs. Ruben Dodge, Bellisle, paid her home a visit last week.

The Mission Band meets at the residence of R. B. Durling, Esq., on the 18th, at 3 o'clock.

Social services in the Methodist church Monday, Wednesday and Friday evenings.

Miss Welton had a fine bunch of May-flowers last week, first of the season here.

Prof. Spinney & Co., give a concert here on the 16th.

Round Hill Jottings.

Camp fires are somewhat numerous at present.

Our busy postmaster, C. E. Spurr, returned last week from a short vacation trip across the border.

J. A. Kirkpatrick has purchased the property formerly owned by P. Whitman, and will at once take possession.

The agents for "Crabb's Fencing" and the "Eureka Fertilizers," also other commercial travellers, have been making a canvass here in the interest of their respective firms.

A few sportsmen have appeared lately, testing their skill with the rifle, but just at the critical moment, when they descry some article of game soaring in the sky, they generally get excited, lose aim and return unsuccessful.

Causes of the Chilian War.

IT IS SAID TO BE A REVOLT OF THE PEOPLE AGAINST AN OLIGARCHY.

Dr. W. A. Edwards, who was for ten years a resident of Valparaiso, Chili, and who has studied the course of events in Chili, in a recent interview as to the cause of the Chilian revolution, says:—"The present revolt, and the manner in which the warfare is carried on, cannot surprise any one who is at all familiar with the Chilian. Chili is nominally a republic, but practically it has long been an oligarchy governed by thirty or forty rich and influential families. While the rising is nominally against the President, it is in reality directed against the system of which he is the representative, and while the personal causes of complaint brought matters to a focus, they had little to do with the origin of the troubles.

"When I first went to Chili, in 1875, the hostility between the inhabitants of the seacoast cities and those who lived inland was extremely bitter. The landlords for the most part lived in Valparaiso, and the feeling was very similar to that in Ireland against the absentee landlords. This landholding class has practically controlled the Government for thirty years, and has invariably chosen the President. All legislation has been in the hands of a few people, and until recently all commissions in the army and navy were given to those in sympathy with the ruling caste. By holding control of the army and navy, however, the ruling classes were able to prevent any rebellion from breaking out, and by declaring war against Peru and Bolivia the Government did much to make it popular.

"The true history of that war has never been written. Such a piratical expedition is unknown in modern times, and it was carried on with a barbarity worthy of our wild Indians. When the war broke out the army was largely increased, which accounts for the fine showing made by those in rebellion against the Government at the present time, as nearly all the leaders are men who gained reputation in that contest.

"Chili did not try to conquer Peru, but to destroy her, in order that the Peruvians, who hate the Chilians, might be compelled to ask for annexation. What had once been a rich and fertile country has been transformed almost into a desert. Plantations were destroyed, houses burned, and irrigating canals blown up long after peace had been declared. But the object was accomplished and while Peru was not annexed it is no longer a rival of Chili. No one can estimate the amount of plunder that was taken out of the country.

"With the removal of Peru as a dangerous rival and the annexation of the Peruvian guano fields, the young men of the ruling families abandoned the army and navy and obtained employment as Government agents in managing the newly acquired property, with which they did pretty much as they pleased. This opened promotion to men who never before had been able to obtain commissions in the military or naval service and changed its whole complexion. The great weapon of the Government was thus brought to a condition in which it could be turned against it, and this has occurred. The army and navy are now in close sympathy with the people, and together they seem to control the situation. As to the ruthless slaughter of prisoners and non-combatants it is only carrying out the rules of the Peruvian war."

Harvard and Canada.

The Canadian club of Harvard university held its monthly meeting at the Union club rooms, Harvard street, Cambridge, Friday evening.

Dr. Kand, secretary of the club, read an interesting paper on Historical Relations of Harvard and Canada.

John Adams, of Annapolis, he said, was the first Canadian to graduate from Harvard college. He was of the class of 1721. Aaron Cleveland, another early graduate of the college, and an ancestor of ex-president Cleveland, was the first non-conformist minister in Nova Scotia. Gov. Wentworth and John Belcher, first chief justices of the supreme court in the latter province, were also Harvard men.

Among the loyalists who sought Canadian homes during the war of independence were a large number of Harvard men, and from them some of the most distinguished families in the maritime provinces are descended. The present strength of the English church in New Brunswick and Nova Scotia is largely due to the number of clergymen who joined the exodus from New England rather than sever their allegiance to the British crown.

—For la grippe use a teaspoonful of Norton's Magic Liniment in a glass of hot water and sugar. It is splendid.

The publishers of *Our Homes*, a large, elegantly printed 32-page magazine, announce that in order to increase their circulation they are willing to devote their entire first year's profits to this end, and in order to do so, offer competitions in which they give large *cash rewards* to those taking part. One of these competitions is now in progress and closes April 25th. In addition to the large amount given in cash on their general prize list, they offer as an extra inducement the following special cash prizes: During the weeks ending April 11th and 18th they offer daily cash prizes of $10, and a weekly cash prize of $50 for the first named week, and $100 for the latter. For the week ending April 25th they offer daily cash prizes of $25, and a prize of $100 for the week. These exceedingly generous prizes are in addition to the general prize list, and the person who gets one of the special rewards may also get a large prize in the general list. No other magazine publishers have ever made such a liberal offer, and as the competition only remains open three more weeks you should avail yourself of the liberal offer *at once*. Send 10 cents in stamps for a sample copy of *Our Homes* and complete particulars of the competition. Address *Our Homes* Publishing Co., Brockville, Ont. 47 1y

—The health of Prince Albert Victor, heir presumptive to the British crown, is causing anxiety.

—John D. Lewis, a colored lawyer of Philadelphia, who recently died, bequeaths $100,000 as a fund to aid in securing the colored persons in the United States their civil rights.

—The British steamer *Queen Victoria*, at London from New York, reports that she was driven miles back and her supplies were mostly exhausted. All hands subsisted for a fortnight on limited rations of bread, corned beef and tea.

—Mr. John Maitland McDonald, said to be a cousin of Sir John MacDonald, the Canadian premier, died at Fort Smith, Ark., on Tuesday. He inherited the title of Lord Maitland from his mother, Lady Maitland, but never assumed his rank.

—It is estimated that 500 funerals took place in New York city on Sunday. The great increase in the death rate is due to grippe. The demand on the undertakers was so great that many interments had to be postponed until Monday because the undertakers were unable to supply hearses or attend to other details of burial.

—Marshall Ballington Booth, of the Salvation Army, in an address at Baltimore last Sunday detailed his experiences in a tour of the slums of New York disguised as a ruffian. He said unless there was a great change in New York soon the state of affairs would be far worse than ever existed in "Darkest England."

—Robert Drummond, of the *Trades Journal*; George H. Murray, of North Sydney; and Henry M. Robichau, of Clare, Digby, have been appointed members of the legislative council. Mr. Murray and C. F. McIsaac, M. P. P. for Antigonish, have been appointed members of the executive council, vice Fraser and McGillivray.

A NEW THING.—A meeting of a new type is becoming quite popular in some of the English churches. It is not exactly after the Salvation Army pattern, nor yet at all suggestive of the second preaching service, the place of which it occupies. It is shown by the designation "Pleasant Sunday afternoons." The aim is to reach working-men and their families, and good singing, prayer, and a short, earnest address, form the chief exercises. These "Afternoons" have proved, we are told, "wonderfully successful" in Nottingham, Derby, Birmingham, and other places, and much good has resulted.

Telegraph Flashes.

Ottawa, April 10.—It is officially announced that October 12 has been fixed upon as the date upon which Reciprocity negotiatons between the United States and Canada will commence.

WANTS NO REMOVAL VICEROYSHIP.

London, April 9.—The Chronicle says the Marquis of Lansdowne has intimated to the government his desire to resign the viceroyship of India on account of ill health and for other reasons.

REBELLION, PLAGUE, FAMINE.

Rome, April 11.—The Tribune to-day publishes Massowah advices which say the inhabitants of the interior of Abyssinia have risen in rebellion and that plague and famine are in that country.

A PROMINET MASON SUICIDES.

St. Catharines, Ont., April 11.—Richard Ratcliffe, stove manufacturer, committed suicide by hanging himself. Melancholia from the grippe is supposed to have been the cause. He was Past Grand Tyler of the grand lodge of Canada, A. F. and A. M., and the most prominent Mason in Niagara district.

ITALY MEANS BUSINESS.

Rome, April 10.—It is reported that if the United States government does not answer the Marquis Rudini's note by tomorrow, Mr. Porter, American minister here, will be ordered to leave Italy, and the whole Italian legation in Washington will be recalled and Italian interests left in charge of the British minister.

SMALL CROWD, LITTLE MONEY.

Philadelphia, April 11.—Wm. Redmond and John O'Conner, Parnell's envoys, and Mr. Parnell's mother, addressed a public meeting held under the auspices of Parnell branch of the National League in Horticultural hall last evening. The attendance was small. One thousand dollars was collected to aid in the coming elections in Ireland. Last November the Nationalists secured $13,000.

ATTEMPT AT TRAIN WRECKING.

Providence, R. I., April 10.—A dastardly attempt was made to wreck the Boston and New York midnight mail and express train over the Old Colony division, a short distance west of Hebronville station, last Monday night. Sleepers were piled upon the track at that point in such a manner as would throw the "lighting train" from the steel into a trench. Had it not been for the timely discovery of the obstruction by the night watchman at Hebronville station the heavy train filled with sleeping passengers and others would have been thrown into the Ten mile river. A similar attempt was made to wreck Conductor York's train near Pleasant View about four years ago.

IS ANNA DICKENSON INSANE?

New York, April 10.—The New York *Herald* publishes to-day a story relating to the incarceration of Miss Anna Dickenson, the famous lecturer, in an insane asylum. Miss Dickenson came to New York yesterday with Dr. Frederick W. Seward of Goshen, N. Y., at whose house she had been since the escape from Danville, April 2, to apprise her friends of the wrong she says she has suffered. Miss Dickenson lays blame for her incarceration upon her sister, whom she accuses of harboring an intense feeling of jealousy and hatred. She also accuses her sister's physician, Dr. Hileman, of being in the plot against her. Dr. Seward says he is confident Miss Dickenson is sane.

STATES ITALY SQUABBLE.

Rome, April 13.—Up to noon to-day it has been impossible to learn anything further regarding the report that the Italian cabinet had decided to request United States Minister Porter to leave Rome in case no reply be received from Secretary Blaine to-morrow. The officials are reticent. At the American legation nothing can be learned. Minister Porter has heard nothing except what he gained from the newspapers.

SOCIAL SENSATION IN ENGLAND.

London, April 13.—A sensation has been caused in social circles throughout England by the fact that a warrant has been issued for the arrest of Captain Edmund Hope Verney, member of parliament for North Buckinghamshire, charged with procuring a girl for immoral purposes. The offence was committed last autumn, Verney giving the name of Wilson. Verney is a leading county magnate magistrate and member of the London county council. It is believed that Verney has escaped from England and is hiding on the continent.

St John, April 14.—Hon. L. E. Baker has notified the board of trade that the Yarmouth steamer would be withdrawn unless the provincial subsidy was continued. The provincial secretary has informed the board that the provincial government will not grant any subsidies to steamers out of St. John this year except the *Flushing*.

—Work on the new American canal at the Sault will be actively prosecuted during the coming season. The first canal built there was commenced in 1853, and in 1855 the first vessel was locked through from Lake Huron to Lake Superior. This canal consisted of a lock with two cells, and was built chiefly out of the proceeds of the sale of 750,000 acres of land granted by the United States Government to the State of Michigan. In 1870 the canal now in use was commenced. It cost $2,250,000. In 1889 the tonnage passing through amounted to over 7,500,000 tons, as compared with 106,200 tons in 1855. Some time ago Congress made an appropriation for the construction of what is practically a parallel lock with double the capacity of the present one. This lock will be 800 feet long between the gates, 100 feet wide and 44 feet deep. The cost will exceed $5,000,000. No tolls are charged on vessels using the Sault canal, not even on Canadian vessels. The Dominion Government is building a canal of its own, which will be finished shortly. The American canals, for there will really be two, are works of vast importance to the copper and iron districts on the American side of Lake Superior and also to the Duluth wheat shippers.

A Childless Home.

Smith and his wife have every luxury that money can buy, but there is one thing lacking to their happiness. Both are fond of children, but no little voices prattle, no little feet patter in their beautiful home. "I would give ten years of my life if I could have one healthy, living child of my own," Smith often says to himself. No woman can be the mother of healthy offspring unless she is herself in good health. If she suffers from female weakness, general debility, bearing-down pains, and functional derangements, her physical condition is such that she cannot hope to have healthy children. Dr. Pierce's Favorite Prescription is a sovereign and *guaranteed* remedy for all these ailments. See guarantee printed on bottle wrapper.

MESSRS. C. C. RICHARDS & CO.,

Gentlemen,—I take pleasure in giving my testimony to your well known MINARD'S LINIMENT, as I feel that it saved my life. In the winter of 1887 I was attacked by a severe pain in my left side caused by a fall from a building during the previous summer. I got relief every time it was bathed with the MINARD'S LINIMENT and eventually cured by the use of only a few bottles. This liniment has made some wonderful cures. THOMAS WASSON.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Sarsaparilla. It had wrought wonders in the case of his wife. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering

Hood's Sarsaparilla cured his dyspepsia.

$3000 A YEAR! I will take to teach my family interest at home any person of good character, who can read and write, and who, after instruction, will work industriously for me in their own localities, where they live. I will also furnish the situation of employment, at which you can earn that amount. No money for me unless successful as above. Easily and quickly learned. I desire but one worker from each district. Address immediately, stating age, and mention this paper. I have always made my business strictly honorable, and have $1000 to back my word. ALL SUPPLIES SENT FREE. Address at once, and SOLID, all particulars FREE. Address at once. E. C. ALLEN, Box 420, Augusta, Maine.

GREAT BARGAINS
IN
FURNITURE
During the month of April all the Furniture, Lumber, Paints, Oils, Varnishes, etc., owned by the undersigned of J. B. REED & SONS will be sold at actual cost for cash or bankable paper.
The stock is too well known to need detail description.
Notices and statements of accounts have been sent to all who are indebted to the estate, and many of them have not responded. All accounts incurred before the assignment not paid or arranged for by the 31st instant will be sued without further notice.
Parties who have bought goods from the assignees are requested to pay up not later than April 20th, 1891.
The undersigned also invite bids for the real property, consisting of
THE FACTORY
so called. The building is 140 x 38 feet, three stories high, with a cellar under the same. This factory is equipped with all the newest and most improved machinery used in the manufacture of First-class Furniture, including a 35-horse power engine and boiler, two dry houses, steam elevator, etc., etc. The whole factory and the dry houses are heated with steam pipes, with water on each flat.
THE WAREHOUSE
46 x 28 feet, two stories high, with an Upholstering Shop attached, 20 x 24 feet, two stories high.
The Reed Homestead and the Double Dwelling-House
occupied by W. E. and S. S. Reed. All buildings are in thorough repair, spacious grounds, gardens, and the necessary barns and out-houses are attached to each dwelling.
