TO-DAY'S Messages.**10.00 A.M.****SUB. WORK.**

LONDON, To-day. Four British steamers and one Greek are reported sunk. The aggregate tonnage of the vessels is \$361.

SPANISH STEAMER FOUNDERS. NEW YORK, To-day.

The Spanish steamer Josefa Reich, bound from Barcelona, sank at noon to-day in lat. 37 degrees 49 mins. north, long. 68 degrees 39 mins in a E. gale and snow storm, according to a wireless. The Antonio Lopez, of the Spanish Line, rescued all the crew but the captain and second mate, the message said.

TERRORIZING HOLLAND.**COPENHAGEN, To-day.**

Five German Army Corps concentrated on the Holland front are a convincing explanation in default of other reasons, for the failure of the Dutch Government to adopt the policy towards Germany recommended by Wilson on account of the German sub. campaign. That the Germans were assembling large numbers in the vicinity of the Holland border, had been the subject of gossip in Berlin military circles for several weeks.

HARD TO FIND WORDS FOR IT.**LONDON, To-day.**

The Foreign Office has issued a statement showing that just before the rupture of diplomatic relations between Germany and the United States, Germany, through American channels, notified Britain that she would no longer permit as heretofore the transportation of British and German incapacitated war prisoners on hospital ships to and from Holland, such a method of transportation being no longer considered safe owing to the changes which have occurred. It was added that henceforth it would only be permitted by a Dutch Paddle steamer, which would have safe conduct from the German side, or by hospital ships to southern France outside the prohibited maritime zone, and thence to Switzerland. The German notification further announced that the transport of severely wounded English was temporarily suspended until Britain replied to this note. The Foreign Office appended a note that comment on the nature of such communication or upon the character that inspires them seems superfluous.

QUEEN OF BULGARIA SICK.**LONDON, To-day.**

A despatch to Reuters from Amsterdam quoting from Sofia says that the health of Queen Eleanor of Bulgaria is very bad.

1.00 P.M.**MEAT SCARCIE IN BERLIN.****BERNE, To-day.**

Americans who have arrived here from Germany with Ambassador Gerard are congratulating themselves on having escaped further wrestling with Germany's food problem. The butchers' windows, well stocked with assorted meats, such as are seen here, are an unwelcome sight in Berlin. Meat is now so scarce in the German capital that it is never shown in windows, but is specially distributed without advertising. Customers keep in close touch with butchers so as to know when the next meagre supply will be on sale. Practically all meat is sold on a card entitling each person to half a pound weekly, but a dish made of kidneys, lungs and other scraps can be bought in restaurants without a card. Game and poultry are exempt from the card system and command extraordinary prices. The maximum prices of pork and mutton range from fifty to seventy cents.

PREPARING FOR BERNSTORFF'S DEPARTURE.**NEW YORK, To-day.**

New York is crowded with shipping and the officers of the various transatlantic lines are busy settling the questions raised by the German blockade declaration. Two large steamers came in yesterday and last night, five of them from the danger zone. The busiest place in the shipping district to-day is the office of the Scandinavian-American line, where final arrangements are being made for the departure of the Frederick the Eighth, upon which the German Ambassador and his staff will return to Europe. The assurance of safety from German submarines has crowded the liner with passengers. It is estimated that

she will carry 1200 persons in addition to her crew when she leaves port to-morrow. Extraordinary precautions have been taken by the police of Hoboken where Frederick VIII. is docked and by Federal officials here to guard the pier and the steamship. Ambassador Von Bernstorff will be carried from the railroad terminal upon his arrival from Washington to the Scandinavian-American pier on a navy cutter. The river in the neighborhood of the liner will be patrolled by New York police tugs.

PATRIOTIC SUBSCRIPTION.

LONDON, To-day. The newspapers to-day call attention to the investment of a part of the millions of the Smith family, of Chicago in the new British War Loan by Sir George Alexander Cooper, who on Monday applied for the biggest allotment of stock yet asked for by a private individual, exceeding £2,000,000. Sir George's new investment, plus his holdings of the former loan, which he has converted into the new stock, makes a total of £2,835,000 which he has subscribed for. Cooper married in 1887 Mary Emma, daughter of George S. Smith, Evanston, Ills.

FARM AND LABOUR PETITIONS IN CANADA.

OTTAWA, To-day. Mobilization for home defence by means of the enforcement of the Militia Act; the application of the National Service system to the farm problem in order to furnish labor and facilitate production; an occupational survey to determine the previous line of employment of men now at the front; and the utilization of female labor in munitions output are the outstanding recommendations of the National Service directors who have just concluded a lengthy session. The labor situation in the west is the most serious problem which the Board has to deal with. There is a shortage of 15,000 men while 375,000 more acres than last year will await cultivation this spring.

Ayrshire Bacon and Scotch Beef Ham at ELLIS.**United Epworth League Service**

The Quarterly United League Service at George St. Church S. S. room last night was most enjoyable, and the very able address of the Rev. Gordon Dickie, M.A., on "Missions" was much appreciated by the large audience. His brush aside in the most complete and convincing manner the arguments of those narrow-minded people that object to spending money on the heathen in foreign lands, and the best answer for the success and authority of the men who are carrying "the cross" to the heathen, "Go and teach all nations," etc., is the answer of Christ dictated to the disciple of John the Baptist, "Go and tell John of the things ye have heard and seen, how that the blind see, the lame walk, the lepers are cleansed and the poor have the gospel preached unto them." The rev. gentleman stated that in many cases, in the hospitals and dispensaries in China, India and Korea, there were more complete and convincing manner the arguments of those narrow-minded people that object to spending money on the heathen in foreign lands, and the best answer for the success and authority of the men who are carrying "the cross" to the heathen, "Go and teach all nations," etc., is the answer of Christ dictated to the disciple of John the Baptist, "Go and tell John of the things ye have heard and seen, how that the blind see, the lame walk, the lepers are cleansed and the poor have the gospel preached unto them." Every day comes the good news of wonderful cures with Ferrozone. In Peterboro' it worked marvels for Louis Meehan—put him right on his feet—made him entirely well. "About three years ago," says Mr. Meehan, "I had the Grippe which left me in a very run-down condition that finally developed into Dyspepsia. I was unable to eat but a few things and had a craving for acid. I gave up treating with the doctors because they did not help me and on the advice of a friend used Ferrozone. It not only cured me of Dyspepsia and Biliousness, but has built up my strength to what it was before I had the Grippe. I can recommend Ferrozone as an ideal restorative. Shannahan on the Trippers.

Tucker says that a tremendous exodus of our well-to-do-citizens is on just now and he fears that if the outward passenger list keeps up we will have no one left amongst us only those who haven't a copper to rattle on the marble slab of a soda water fountain. Tucker says that all these people look good and healthy and therefore cannot be leaving this salubrious clime for their health's sake. Maybe it is for recreation they are going, for after all, one likes now and then to witness a real drama acted by the genuine actor while in the flesh, or to behold a good old-fashioned boxing match such as we used to have in the Prince's Rink in days gone by. The point Tucker would like to make is that while most of our well to do citizens stroll in far-off lands when they feel like it, they come back to dear old Newfoundland after their rambling and put on a very serious face and weep over the extravagance of our poor beggars who blow our selves now and again at the Nickel. Nothing gets on Tucker's nerves like this kind of twaddle. It takes the Rich Man all his time to keep his enthusiasm at high pressure, by an annual or semi-annual tour of to the States, Canada or Europe, where as the ordinary being is supposed to be as gay as the morning lark and have no 'bust' at all. The well-to-do's lose a lot of sleep over the extravagance of the "Tailor" but does it ever occur to them that the "Tailor" being a human being has a desire for and is entitled to something more than "steady work and a voracious appetite." The "Poor Man" has to manage to live on the three score and ten limit without ever getting a more luxurious trip than a voyage to Harbor Grace in the "Delta", but the "Rich Man" ere he is followed to his family plot by a "large concourse" has visited all the beauty spots on the globe and taken his wife with him so as he won't go astray. Tucker don't find fault with them for having their "Annual Bust" but would ask them that when they return when they ramble home again that they kindly bear in mind the fact that we were here all through the winter and that we are in no mood to hear from them long speeches as to how we should spend our hard earnings.

A story is told of a little boy who asked his father for the price of the Nickel. "What do you want?" says the indulgent father, "were you not out one night last week to see the eclipse of the moon? Do you want your life to be one continual round of pleasure?" And this is how the Travelling Gentry seem to think that the stay-at-homes are extravagant.

EXPENSE RATIO AND INTEREST RATE

The ratio of expense to total income has again fallen while the rate of interest earned has risen, both facts being favorable to the payment of liberal dividends.

HIGH QUALITY OF THE BUSINESS

During the year there has been a remarkable decrease in the number of policies lapsed and surrendered, showing the increased value placed upon life insurance, and the conspicuous persistency of our business.

NET INCREASE IN BUSINESS

The increase in business in force after allowing for all terminations was 55% of the new business written—a notable record—bringing the business now in force up to nearly \$110,000,000.

THE SURPLUS EARNED

It is a subject for congratulation that in spite of the extra death losses due to the war the surplus earnings were so satisfactory that we are able to continue the payment of dividends to policyholders on the generous scale they have enjoyed heretofore.

A glance at the following statement will show how rapid yet substantial has been the growth of the Company's business.

Look After the Boys.

London Daily Express:—The large number of boys of the hooliddey age, freed from the influence of their fathers at the front, and looting in the streets, is a present nuisance and a future menace. Conscripted for boys to join the Baden-Powell Boy Scouts would be an admirable scheme. Time that is now spent in idle mischief and worse could be employed to the nation's advantage. Squads of boys, disciplined and enthusiastic, could do all sort of work that badly needs doing, much to their own physical and moral benefit. The fanatics would protest, but in war time a boy is better and happier spending the after-school hours sweeping out a shop under supervision than in looting without restraint in the streets.

LONDON, Jan. 12. 'ROYALISTS' HOLIDAY.

The King and Queen have appreciated their quiet stay at Cottage with their children, as they have had the privilege of leaving from the royal residence to be home for Christmas. The King and Queen have been greatly enjoyed by the royal family, in which he has included a couple of days in the Prince Albert for the theatre.

THE TWO-COURSE DINNER.

The quaint regulation limiting the number of courses for the dinner at hotels and restaurants to two courses for the first and three for dinner is being considered. It was not a happy regulation has sometimes been used by "proffiteers" in a small way. For instance, a certain railway company now serve a lunch consisting of soup, joint and vegetables, and a (course and a half), and expect any hungry passenger who is not to be filled that it is a good thing. Parliament, gentlemen." It is not mentioned that it would be quite in accordance with the regulation that they have thrown in horse droll (quantity unlimited) or that they could have given choice of fish joint and joint and sweet, is more, they raise the price of abbreviated lunch from 2s. 6d. to 3s. (5 cents) and passengers should remember that on the whole there is nothing but shyness to vent them from emulating the Twist and asking for more.

RESIGNATIONS OF OFFICERS.

A slight but welcome change in manner of notifying the resignation of Army officers has been adopted by the "London Gazette." It is the custom merely to intimated to the officer "relinquishes his position on account of ill health" without any indication how the cause arose. Under the new system the officer has to retire from the service on account of illness, or in the field, the Gazette notice will state that he "relinquishes his position on account of ill health" or "active service." The small details of the formula is calculated to give greater justice to the officer by putting on record officially that he sacrificed his health in the active service of his country.
