HAMILTON NEWS

THE JUBILEE HOSPITAL WING

Is Going to Cost More Than Was Anticipated.

A DEFICIENCY OF $1500.

At Which There is Some Misgiving Among the Aldermen.

To Make Matters Worse, the Tenderers Say the Architect's Plans Cannot Be Carried Out for Less Than $9000. Which Is $2000 Above the Estimate—Dr. McDonald, the Retiring U.S. Consul, Will Still Reside in the City—General News From Hamilton.

Hamilton, July 18.—(From The World's Staff Correspondent.)—There is considerable misgiving of spirit among the aldermen over the excessive cost of the tenders for building the Jubilee Hospital wing. Seven thousand dollars had been placed as the utmost figure, some $4000 of which was guaranteed by the city, and the remainder was to be raised by the different Jubilee entertainments. To the city's chagrin, when the bill came in there was a deficiency of nearly $1500. Now, to make matters worse, the various tenderers say that the accepted plans of Architect Lachance cannot be carried out for less than $9000. A majority of city doctors, however, favor the plans at any price, as they say the building will be a good investment for the city, and will pay for the extra $2000 the first year.

The Temple Stable Fire.

The official adjustment of the loss sustained by Proprietor Temple himself in the fire of Thursday night is $2288. The total insurance was $6700. The individual losses of the eight doctors concerned will probably aggregate another $2000.

THE U.S. CONSULATE.

Dr. McDonald, the Retiring Consul, Says He Will Remain in Hamilton.

Hamilton, July 18.—(From The World's Staff Correspondent.)—Mr. J. M. Shepherd, United States consul-elect to Hamilton, is still writing editorials for his Michigan paper and will not take up his duties here until the end of July. Dr. McDonald, the present holder, told The World to-day that he had found Hamilton and its people so agreeable that he intended to stay here. "I'm functus officio," remarked the consul, "but that is no reason why I should retire from a city filled with pleasant associations and 3000 of my countrymen."

Dr. McDonald spoke disparagingly of the American system of changing its officials at the incoming of a different administration. Asked if it was not strange that the McKinley Government had given the Hamilton consulate to the editor of a paper in a 1200 inhabitant town, Dr. McDonald replied that the position had been awarded as the reward for Editor Shepherd's persistent booming of the Senator of his district.

A Spike Through His Skull.

Frank Elliott, a boy of 12, living at 108 Napier-street, while climbing after cherries in Dr. Stark's garden last evening, lost his hold and fell head first upon the spiked iron fencing beneath him. One of the spikes pierced the skull just below the eyebrow, laying bare the posterior of the eyeball and the optic nerve. Dr. McGillivray removed two pieces of the skull bone and the boy still lingers.

John Dewey Badly Hurt.

John Dewey, brother of Daniel Dewey, the ice dealer, was seriously injured in a runaway accident on Stuart-street east last evening. He was thrown from a wagon and struck his head on a big stone. The ambulance conveyed him to the City Hospital in an unconscious condition. This afternoon he regained consciousness, but the doctors have little hope for his recovery.

Tried to Rob Him.

Last night George Schumacher, Vine-street, was attacked by two men near his home. They knocked him down and kicked him, and he alleges they tried to rob him. He shouted "Police," and Constable English responded and arrested James Gradfield, Sanford-avenue, and Walter Church, Strachan-street, on a charge of assult.

Minor Notes.

John Morin was arrested last night, charged with threatening to kill William Anderson.

The Finance Committee will hold a session to-morrow afternoon and the City Council meets in the evening.

Pearl Finn, 69 Wilson-street, a 12-year-old girl, fell down the steps at the Mountain View Hotel pavilion to-night and broke her left hip bone. She was conveyed to the General Hospital.

John Mitchell, who was arrested on Friday for threatening to kill his wife, was removed to the Insane Asylum to-night.

Mrs. Smith, who keeps a grocery on Wellington-street, near Barton-street, got her face terribly burned last night. The bottom fell out of a kettle in which she was boiling fruit, and the stuff blazed up.

Mining Around Sudbury.

Sudbury Mining News, July 15.

Mr. T. Foster was in this week from Lake Koogagaming, where he has been at work on his old property. The vein is about 70 ft. wide and has been traced half a mile. A shaft 15 feet in depth has been sunk, and considerable free gold has been found all the way down.

Mr. C. S. Hubbell, M.E., came in yesterday evening from Lake Wahnapitae, and left to-day for Montreal and Toronto.

Mr. A. McCharles also came in last evening from a trip to the Lake, where he has been looking up gold properties for capitalists.

Mr. J. R. Gordon, M.E., is out at the Lake reporting on gold claims.

Reports by wire to-day state that a bunch of claims near S. Lake have been disposed of to Toronto parties. This part of the Wahnapitae country is showing up well, and claims that a year ago were considered scarcely worth examining are to-day eagerly picked up at fairly good prices.

A wagon road is being pushed through from Markstay into the S. Lake and Koogagaming by parties interested in that section. When this is completed the distance will only be about 13 miles.

We have the satisfaction knowing that our gold fields, as they are becoming better known, are being estimated more highly. A year ago an occasional stranger came in, hired a rig, went out to the Lake, canoed across, and roughed it in the wilds. To-day there are three stage lines running, a snug little steamer conveys the passengers from Mr. O'Connor's commodious hotel across the Lake to the Crystal and Comstock mines, where excellent accommodation may be secured. Last year an occasional curiosity-seeker strayed in, now the average is at least 20 per day and all bent on business. We cannot boast of a boom, but a steady, legitimate increase that will advance the next twelve months with tremendous strides.

A New Departure by the Wabash.

The Wabash Railroad now runs its own solid trains from Buffalo to Chicago, St. Louis and Kansas City, passing through Niagara Falls, St. Catharines, Hamilton, Woodstock, London and Chatham. These trains are the finest ever seen in Canada, being vestibuled from end to end. Wabash trains reach more large cities than any other railroad in the world. Time tables and detailed information of this most wonderful railway from any R.R. agent, or J. A. Richardson, Canadian Passenger Agent, northeast corner King and Yonge-streets, Toronto.

Unusually Good.

It is whispered that the ale and porter manufactured by the Eaton Bros. Brewing Company of Owen Sound (Limited) is unusually good this summer. This explains why there is such a run on their goods. Messrs. Eaton Bros. deserve great credit for placing on the market such a health restoring stimulant as their XXX Porter, which is highly recommended as a tonic.

Tisdale's Toronto Iron Stable Fittings.

Healthful, durable, attractive. Send for catalogue. Tisdale Iron Stable Fittings Company, Limited, 6 Adelaide-street east, Toronto. 136

The following team will represent the Garrison C.C. in an all-day match with Brampton to-day, commencing at 10.30 a.m., on the Garrison Commons: Cameron, Emsley, Galloway, Lunon, Male, Hobkirk, Warr, Cooper, W. H. Cooper, Lingman and Hardwick.

Comfort Clothes.

Hot-weather clothing is still much in demand, and the flannel suits, in stripes and neat small checks, designed by Henry A. Taylor, draper, the Rossin Block, bear the stamp of excellence, good style and lasting qualities.

SOCIALISTS AND NIHILISTS

Appear to be Having a Warm Time in Germany.

EIGHT REICHSTAG MEMBERS

Have Been Sent to Prison for Indignity to the Emperor.

Some Russo-Polish Students of Nihilistic Tendencies Arrested in Berlin and Handed Over to the Russian Police—A German Baron Who Had Been Deprived of His Rights Has Them Restored—A Social Science Professor Makes a Sensation—Farmers Up in Arms.

Berlin, July 17.—Eight out of 148 Socialists in the Reichstag, including Herr Leibnicht, Herr Luetgeman, and Herr Stadthagon are serving terms of imprisonment for the offence of lese majeste. For a similar offence a number of Russo-Polish students of the Technical High School at Charlottenburg were arrested yesterday and taken to the Russian frontier, where they were handed over to the Russian police.

Among them was the noted Nihilist Witscherwin, who will be immediately sent to Siberia. There have been several other arrests upon suspicion.

As a result of a close espionage of the military barracks at Ulm the son of a prominent citizen named Wagner and a Frenchman named Estocq are in custody. Upon the latter were found special maps and charts with plans of fortifications and a number of letters written in cypher.

Baron von Muench, a member of the Reichstag, who had been declared insane and deprived of the control of his estate and fortune by order of court, has been restored to his civic rights, the court admitting that an error had been committed.

William Displeased.

Emperor William is greatly displeased with the decision of the Court of Arbitration which deprives his brother-in-law, Prince Adolf Schaumburg-Lippe, of the right to succession to the regency in Lippe Detmold. The regency is worth 240,000 marks a year. Prince Adolf is comparatively poor. He has gone back to Bonn to resume his military duties.

The Emperor's telegram to the Prince after the decision by the King of Saxony in favor of Count Lippe Biesterfeld, has caused a great sensation among the German particularists. It contains the following sentence:

"Detmold could never have a better and worthier master and mistress than you two."

Special offence has been given in this reference to the Princess, whose escapades are a familiar topic of gossip in court circles. But the tenor of the whole telegram, and the fact that the Emperor addresses his brother-in-law with the familiarity of private correspondence shows that he did not intend his despatch for publication.

Embarrassing Predicament.

The Government, the agrarians and the producers are all placed in a very embarrassing predicament, through a miscarriage of the Government's attempts to effect a compromise with the striking Produce Exchangers in the leading German cities, so as to enable the agrarians to have representatives in the boards of directors and yet have traders in futures attend the exchanges regularly as heretofore.

The farmers no longer know what prices to ask or expect for grain, no market quotations being published. This condition of things is seriously felt in connection with new crops especially in the rural districts, where the small farmers are powerless and in the hands of unscrupulous speculators.

As a matter of fact the prices paid in Germany for cereals have declined steadily since May, and the Government is daily receiving from thousands of small farmers vigorous protests against the new law.

Sensational Speech.

Dr. Reimhold of Wiesbaden, the newly appointed Professor of Social Science at the University of Berlin, took occasion at a farewell banquet tendered him to make a sensational speech, ridiculing the Government's fear of Socialism. He said that the method of governing now in vogue in Russia was a danger for Prussia and for the whole of Germany, and predicted that the German people in the coming elections would show plainly that they intended to be ruled no longer as at present. He concluded:

"Monarchism is powerless to accomplish radical reformatory measures. Only a free people, though one with a strong government, can accomplish radical reforms."

Good Blood
Is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,
Hood's Sarsaparilla
Is the best—in fact the One True Blood Purifier.
Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

IT BEATS THE WORLD

Continued from Page 1.

in the afternoon, on passing the point of an island, we came in sight of an Indian village across a wide sweep of rapid river a mile or more away. We knew then that we were near the mouth of the Klondike. We made a landing at a slight projection of land a mile below the village, and were surprised to find the camp of a white man near the little patch of quiet water afforded by the point.

"The owner of the camp was Carmack. He caught the line we threw out and pulled our boat into his little harbor. He gave us a hearty welcome and showed us a pleasant place to put our tents.

Married a Native.

"Then it developed that Carmack had a family with him. Two little dark-skinned children followed him everywhere, and presently he pointed out his wife, who was a native, a woman of the Stick tribe.

"Carmack, who is a very intelligent man, gave us much information about the upper Yukon. The Klondike had been known for several years to drain a gold country, and the first five miles of it had been indifferently prospected, but the gold hunters were generally run out by bears.

Hunts for Gold.

"Carmack told us of his intention to prospect the Klondike as soon as the salmon season was over. Four weeks later, as we afterward learned, he took two Indians and started up the stream. After a few miles of laborious poling against a rapid current they turned into the first considerable tributary that came in from the right. Here conditions were favorable for prospecting, the water being shallow, and they found gold in encouraging quantities on the bars of the creek. They followed the windings of this stream for 20 or 25 miles before they made locations and went to work.

"The results were almost enough to turn the brain of a prospector who had searched for many years in the hope of finding gravel that would yield a few grains weight of gold to the pan. Here at depth of three feet in the low bars of the creek they found dirt that carried a dollar to the pound in coarse, ragged bits of gold. Others have since found diggings tenfold richer."

How to Get There.

San Francisco, July 18.—Go 2500 miles to St. Michaels, the Alaskan seaport, near the mouth of the Yukon River, than travel on the river steamer 1895 miles clear across the American territory and well into the British possessions and after the long, difficult and expensive journey you will arrive at Dawson City, the centre of the new Alaskan mining region along the Klondike River. From that northern gold field the Alaska Commercial Company and 24 miners have returned with $800,000 in gold dust.

"Modern history records nothing so rich in extent as the placer mines of the Yukon district," said J. O. Hestwood, one of the miners. "The ton of gold dust which was turned into the Selby Smelting Company's office yesterday is only a slight indication of what is to follow in the near future."

Beats All Former Strikes.

San Francisco, July 18.—A correspondent, writing from St. Michael's Island under date of June 30, says:

"The richest gold strike the world has ever known was made in the Klondike region [on the Canadian side] last August and September, but the news did not get even to Circle City until Dec. 15, when there was a great stampede over the 300 miles intervening between here and the newer fields. On Aug. 13 George Carmack made the first great strike on Bonanza Creek, and on Aug. 19 seven claims were filed in that region. Word got to Forty-Mile and Circle City [in Alaska], but the news was looked upon as a grubstake rumor. On Dec. 15, however, authentic news was carried to Circle City by J. M. Wilson of the Alaska Commercial Company, and Thomas O'Brien, a trader. They carried not only news but prospects, and the greatest stampede ever known in this part of the world commenced. Those who made the 300 miles first struck it richest. Of all the two hundred claims staked out on the Bonanza and Eldorado Creeks, not one has proved a blank.

"In all about seventy-five lucky miners have reached St. Michael's. Some brought but a portion of their clean-up, preferring to invest other portions in mines they know to be rich. Among the most lucky are J. J. Clements of Los Angeles, who has cleaned up about $175,000. He brought out $50,000 and invested the rest. Prof. T. C. Lippy of Seattle, who brought out about $50,000 and has $150,000 in sight, and who claims his mine is worth $500,000 or more; William Stanley of Seattle, who cleaned up $112,000; Clarence Berry, $110,000; Henry Anderson, $55,000; Frank Keller, $50,000; T. J. Kelly, $53,000; William Sloane of Nanaimo, B.C., $85,000; and at least thirty more, who will not talk, but stand guard over the treasure in their staterooms."

CANADA'S ELDORADO.

Where millions have been found and millions await miners. These fields are estimated to be worth $70,000,000. The name of the district is spelled "Klondike," "Klondyke," "Clondyke." The Indians pronounce it "Trondek."

A NEW VIEW OF THE SULTAN.

Represented As a Mild-Mannered, Polite and Gentle Man, Who Is Terrorized Into Being An Assassin.

New York, July 18.—Harold Frederic cables to The Times to-day from London the following:

"A curious light is thrown on the Sultan and his surroundings in the new number of The Quarterly Review by one who evidently has an inward knowledge of Eastern affairs. I have myself heard similar things from men brought in close contact with the Sultan, but it will astonish many, who only know of Abdul Hamid as the 'Great Assassin,' to be told by those personally acquainted with him, that they agree in describing him as remarkably gentle, polite and amiable. Indeed, one experienced French diplomatist speaks of him as a Prince whose heart is always open to every generous sentiment, and he is so well able to gain the confidence of clever men of the world that the present French Minister of Foreign Affairs, in a famous essay in The Revue de Paris, did all he knew how to excuse and defend some of the Sultan's worst acts. His morals are, they say, irreproachable, and they are puzzled to find an explanation of so mild-mannered a man cutting so many throats.

"The Review writer comes to the conclusion that the Sultan is dominated by terror to such an extent as to have entirely lost his balance and his reason. He who, in the early days, would allow no life, even of the vilest criminal, to be taken, has developed under the fear of assassination into a shrinking tyrant, who is urged on by the fanatical dervish, Aboul Houda, now his counsellor and his conscience as well, and sends without pity thousands to their doom.

"Then follows a grave forecast of what has been lately prophesied by other observers on the spot, namely, that a fresh series of massacres is in contemplation, but that Macedonia, and not Armenia, is to be the scene of slaughter on this occasion.

"A curious fateful figure has recently appeared on the scene. This strange creature, half hypocrite, half fanatic, whom the worshipping populace regard as a saint and avenging angel, is speaking to the people as they gather around the mosques, and is telling them of the wishes of the master. This Mollah Zeka man, whose character is not unlike that of the murdering Dervish who is in the confidence of the Sultan, has returned to the Western Province from Constantinople, and has been received with frantic enthusiasm. It is said that the Armenian massacres were organized by creatures like this. Stoon prophets, however, have omitted from their reckoning the fact that Macedonia is not so far off as was Armenia. Possibly the deaf orchestra of the European concert, even if the individual performers are not altogether in tune, might yet be roused by explosions so near to its doors. That mischief is brewing is beyond all doubt."

THE CRACKS AT BISLEY.

Canadians Capture Many Prizes—England Won the Eicho Shield—Gift From Lord Mountstephen.

London, July 17.—At Bisley to-day in the shooting for the "Imperial" prize, second stage, squadded competition, ten shots each at 800 yards, with service rifles, Sergeant Whitehead of the Third South Staffordshire Regiment was first, with a score of 144. Of the Canadian team Windatt wins £5 sterling and a gold medal for the highest colonial score. Miller became entitled to shoot off for the bronze medal with a Queensland rifleman.

Other Canadians winning prizes in the contest for the "Imperial" are Skidden, Broadhurs, Smith, Drysdale and Capt. Davidson, each of whom takes £2, and Lieutenant Davidson, who takes £1.

In the competition for the "Indian and Colonial" commemoration prize, open to the highest duly qualified scorers in the "Imperial" competition, Windatt, of the Canadian team, was first, taking £25 sterling; Miller, of the Canadian team was third, taking £10; Skidden sixth, Broadhurst seventh, Smith tenth, Drysdale twelfth. These four take £5 each.

The shoot off for the bronze medal was won by Miller. The claim of the Canadians for an inner at the 200 yards distance in Langstroth's score in the competition for the Rajah of Kolapore's Imperial Challenge Cup yesterday has been disallowed by the committee, thus reducing Langstroth's four points and making the Canadian team fourth instead of third, the Motherland team having a total of 732.

Major Perley will be buried at Bisley to-morrow. The pall-bearers selected are Colonial Majors, including Major Mason, Major Dunbar and Major Henderson of Canada.

In the competition to-day at Bisley for the "Elcho Challenge Shield," England won with a score of 1603. The competition is open to one team of eight from England, Scotland, Ireland and Wales respectively, with the distances of 800, 900 and 1000 yards (aggregate), and 15 shots at each distance. The weapons are match rifles, and no sighting shots are allowed. A silver miniature shield is presented by the National Rifle Association to each member of the winning team, to its captain and its adjutant.

A Gift From Lord Mountstephen.

(Telegram Special.)

London, July 17.—In the Prince of Wales' prize, 200 yards, Lieut. W. L. Ross, 13th Battalion, won £5 and Sergt. R. Corrigan, 56th Battalion, £5.

Lieut. N. C. King won £3 and Pte. W. Swaine, 14th Battalion, £2.

Lord Mountstephen gives a £50 prize for competition among the members of the Canadian team. It will take the shape of a trophy or money prizes, the choice being left to the decision of Major Mason, the commandant.

A LEAGUER LOST.

Went from Toronto to the Falls, Entered the Cave of the Winds and Has Not Been Seen Since.

Niagara Falls, N.Y., July 18.—John L. Brown, of Sweetwater, Tenn., visited this place Friday last in company with a number of Epworth League delegates from Toronto. Brown, accompanied by his father and several friends, visited the Cave of the Winds. The young man donned a rubber shuit, and, declining the assistance of a guide, started out to explore the cave. That was the last seen of him. It is believed that he missed his footing and was swept away. The matter has been kept quiet until now in hopes that he would turn up, but now his father has given up all hope, and has offered a reward for the recovery of the body.

TWO MEN DROWNED.

One Essays to Rescue the Other and Both Perish.

Oshawa, July 17.—Last evening at Foley's Pond, three miles east of Oshawa, Fred Morrow and Norman Oke, accompanied by two brothers, Thomas and Moses Lymer, went in for a bath. The pond is naturally deep, but near the shore it is comparatively shallow, and young Oke, who could not swim, went to bathe, but being too venturesome soon found himself in water beyond his depth. Morrow seeing this gallantly went to the rescue of the unfortunate boy, but on reaching him he was seized by Oke. Both went down together and never reappeared. The pond was dragged, but it was fully two hours before the bodies were found. The young men belonged to the Township of Darlington.

A FATAL EXCURSION.

John Curran, Aged 17, Perishes in the River at Brockville.

Brockville, Ont., July 17.—John Curran, son of James J. Curran, grocer, was on the steamer Haggart, on an excursion to Union Park last night. On the return trip, when opposite Hill Crest, he fell overboard and was drowned. The boat was stopped and search made for him, but he could not be found. He was about 17 years of age.

Two Torontonians Hurt.

Montreal, July 17.—Albert Jeffry and H. Ball, cattle hands of Toronto, while walking through the hold of the S.S. Caledonia this morning, were struck by a cable which fell from the deck. They were removed to the Notre Dame Hospital. Both sustained cuts, bruises on the neck and shoulders. The men reached the city yesterday in charge of a shipment of cattle.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually expels worms and gives health in a marvelous manner to the little one.

A 3-year-old child named Ethel Poneton was taken to the General Hospital Sunday evening, suffering from some contusions on the head that had been caused by a fall. The injuries are not serious.

TRUSTS Corporation OF ONTARIO.
Safe Deposit Vaults 19-21 King-street West, Toronto.
Capital.....$1,000,000
President—Hon. J. C. Aikins, P.C.
