Blue Glasses.

By RUTH CAMERON.

RUTH CAMERON

To judge people by their deeds is right and natural. To judge people by the people who do them is wrong and unnatural.

Do you know what I mean by that last?

Let me explain my illustration. I told a neighbor of mine the other day the news that a mutual neighbor had fallen down and sprained his ankle.

"He's Always Tumbling Around"

"Is that so?" she said. "And it wasn't more than two months ago that he fell down stairs and bruised himself all up. He's always tumbling around."

You would certainly conclude from that response that my neighbor was a most unsympathetic person, wouldn't you?

And yet, in regard to people she likes, she is far from that. But she doesn't like that man and, so, instead of pitying him for his misfortunes (which come from the fact that he is very near sighted), she says unamiably that "he is always tumbling around."

They See Everything Those People Do Through Their Prejudice.

I think a great many people are like that. That is, they get prejudiced against certain people and then view everything they do through the blue glass of that prejudice.

If the person disliked does some kind act they search jaundicedly for an unenvy motive.

If he does something really objectionable they fall upon it with delight, repeat it, exaggerate it.

When they hear something that is neither good nor bad (like the news

of the sprained ankle) they still find some caustic, unamiably comment to make.

It is strange to see what good, conscientious, lovable people will permit themselves to wear "the blue glasses of prejudice."

And the worst of those blue glasses is that one gets used to them so easily that one does not realize one is wearing them.

Cripples Being Forced Back Into German Army.

Miners Insufficiently Fed and Coal Output Cut.

COPENHAGEN, Aug. 26.—Revelations of the growing difficulties of Germany are coming out during discussions in the Reichstag Main Committee at Berlin.

The trouble which the military authorities have to obtain men to fill the ranks of the army is shown by an interpellation by Deputy Davidsohn, calling attention to the practice of recalling to the service pensioners discharged for disability.

The interpellation says that men receiving pensions for 50 per cent. and more of total disability, and even cripples to whom supplementary pensions have been granted, are being constantly forced into the army again, and that in some cases men are taken from hospitals before their treatment is completed.

Statements made in the Reichstag committee in debate on the fuel problem show that strikes of miners in Silesia last month reduced the German production of coal by more than 1,000,000 tons, and Vice Chancellor Helfferich uttered an urgent and earnest warning against further strikes.

The Government report stated that the production had been affected by inadequate food supplies. This was corroborated by speakers of various parties, who said that undernourished workmen could not do a normal day's work. A representative of the military authorities stated in the same connection that more miners could not be spared from the army.

The gravity of the situation is shown by the seriously considered proposal to restrict the production of iron, although this is needed for munitions.

Socialists, Centre and Radical speakers brought up this subject in connection with the question of the recent retirement of General Groener, the Munitions Minister, who, according to a current report, was forced out of the War Bureau by representatives of the coal, iron, and steel industries because he insisted on adequate protection of the interests of workmen under the civil mobilization law.

Speakers asserted that the explanations of the Government regarding the General's retirement were unsatisfactory.

Patriotic Football.

The St. Andrew's and Stars will clash this evening. The final match for the season will be played by the C. E. I. and B. J. S. to-morrow evening.

The G. E. I. and Stars are in the running for second place.

It is calculated approximately that the proceeds of the Football and Baseball Leagues combined will be in the immediate vicinity of \$1,500, to be devoted to the Patriotic Fund.

KEEP MINARD'S LINIMENT IN THE HOUSE.

MINARD'S LINIMENT CURES DISTEMPER.

A Good Move at the G. P. O.

Box-holders at the G. P. O. have been notified by circular from the Postmaster General that under no circumstances will their mail-matter be delivered to messengers unknown to the window clerks, unless they present a written authority. In order to avoid mail-matter passing into unauthorized hands, this step has been found necessary. In none of the large cities of Canada or the United States would box-holders be given their mail through the window, whether they are known to the officials or not. This is a move in the right direction and the delay and inconvenience caused by the window-clerk in the performance of her duties will henceforth be removed.

S. S. Wren Takes Mail AND PASSENGERS.

The Postmaster General has arranged that the S. S. Wren, which will leave Clarendville after the arrival of the 12:30 p.m. train from here to-day, will take mail and passengers for points on the north side of Trinity Bay as far as Catalina, returning by the usual ports of call. This step was made necessary by the recent train wreck between Trinity Junction and Seal Cove.

Deanery Meeting Held AT BELL ISLAND.

The Administrator and the Rev. Canon Bolt, who with a number of clergymen held a Deanery meeting on Bell Island on Tuesday, are now back in the city. While at the island the visiting clergymen were the guests of Rev. John Stead, Rector of Bell Island, and were kindly received and shown through the mines by the head officials of the mining companies.

Socialists, Centre and Radical speakers brought up this subject in connection with the question of the recent retirement of General Groener, the Munitions Minister, who, according to a current report, was forced out of the War Bureau by representatives of the coal, iron, and steel industries because he insisted on adequate protection of the interests of workmen under the civil mobilization law.

Speakers asserted that the explanations of the Government regarding the General's retirement were unsatisfactory.

Removed from Seriously Ill List September 3rd—Previously Reported Gunshot Wound right side, Etaples, Aug. 27.

2433—Private Charles Stevens, Barenced, C.B.

R. A. SQUIRES, Colonial Secretary.

The Gas Range!

The Gas Range means comfort for the housewife; shorter kitchen hours for her, and a cleaner kitchen. It is a great mistake to think that cooking with gas is expensive.

Whenever a woman becomes used to gas for cooking, thoughts of a coal or wood stove fill her with gloom. A Gas Range is so much easier to operate, so efficient for all kinds of cooking, and so much cleaner, that the idea of going back to the old style methods is decidedly unpleasant. Yet in winter many housewives think they must use a coal or wood stove, because there is no other way of heating the kitchen. THERE IS ANOTHER WAY AND IT IS FAR BETTER THAN THE OLD. THE CLOW GAS STEAM RADIATOR WAY.

Stafford's Liniment cures Rheumatism, Lumbago, Neuralgia and all Aches and Pains.

Overmantels!

No room seems really complete unless special attention is given to the arrangement of fireplace and mantel, the latter particularly needing careful planning.

To-day this difficulty is easily overcome by using an Overmantel, which article of furniture is becoming more popular every year.

New and attractive designs in Overmantels, in Mahogany and other woods, fitted with finely bevelled mirrors, are now to be seen in our Rooms at a figure that will please anyone who is seeking Quality Goods at Moderate Prices.
