WOODS' FAIR

New Laces.

Laces are in greater demand now than for years back.

The new Laces make a fine showing here just now. One may say of them that they are fresh, charming and dainty, and the adjectives are all truthful and yet they fail to picture the new Laces and their filmy beauty.

We are displaying many novelties in Laces—the finest French Valenciennes and Mechlin Laces for dainty summer gowns; Linen and Torchon Laces for more serviceable wear. Our prices are as interesting as the qualities and patterns. Special reductions for Wednesday, and the rest of the week. Prices range from 1c to 25c yard.

BLOCKED THE TRAIN OF C. P. R. PRESIDENT

Sir Thomas Shaughnessy Met an Unexpected Check at Ottawa.

Ottawa, June 1.—Sir Thomas Shaughnessy, president of the C. P. R., who left Montreal yesterday morning on a trip to the coast, encountered an unexpected difficulty when he headed Ottawa at 12:20.

Sir Thomas traveled on a special, accompanied by Mr. C. W. Spencer, and his intention was to pass through the Central Station, cross the interprovincial bridge, and then run down through Hull and cross the C. P. R. bridge into the Union Station, where he would catch the Imperial Limited for the west. On pulling into the Central Station, however, the C. P. R. president found that the officials of the Canada Atlantic Railway Company, which controls the station, had placed stop blocks on the line at its northern end, cutting off communication with the interprovincial bridge and the Ottawa and Northern Railway. The two latter, it may be explained, were recently purchased by the C. P. R.

Sir Thomas got off his car and looked at the obstruction. Then, with the utmost sang froid, he observed that he would not go across the bridge just then. He remarked to a number of press men, who were watching developments, that if the C. A. R. officials knew their business they would not have blocked the way, and steps would immediately be taken to have the rights of the C. P. R. with respect to the use of the Central Station determined. Then Sir Thomas stepped on board his train, and it backed out and reached the Union Station by another route.

In consequence of the Canada Atlantic Company's action there is likely to be a lively time when the railway committee meets. The ground occupied by the Canada Atlantic at the Central Station is government property, and is for the general use of railways, and not for the exclusive occupation of any one line. Hence there is little doubt that when the attention of the railway committee is drawn to the matter it will make an order compelling the Canada Atlantic to grant the C. P. R. a proper and reasonable use of the station premises. In its application the C. P. R. will likely be supported by the city.

DAY OF GENERAL JOY FOR EMPIRE

(Continued from page 1.)

sterdam that peace had been concluded in South Africa, Mr. Kruger has declined to receive visitors or express an opinion on the subject. The other Boer delegates there are disappointed at the outcome, and are not inclined to discuss the matter.

AT TORONTO.

The city has a gala appearance in celebration of the return of peace. Flags and bunting are seen everywhere, and at noo na royal salute was fired at the Armory by the Field Battery. The schools are closed for the afternoon, but in most mercantile establishments the pressure of business forbids any holiday making.

AT THE CAPITAL.

Ottawa celebrated the announcement of peace by giving the children in the public and separate schools a half-holiday. D Battery fired a salute from Napean Point at noon.

AT WASHINGTON.

A special from Washington says: Official Washington accepted the news that peace had finally been signed between Great Britain and the Boers as authentic. It was received with general satisfaction.

LEYDS OUT OF BUSINESS.

Dr. Leyds, European agent of the Transvaal, who has been in Paris a couple of days, when informed of the conclusion of peace in South Africa, refused to credit it. The news apparently was an unpleasant surprise to him. However, a messenger from the foreign office brought him official confirmation of the press reports, and he departed for Utrecht, Holland. When questioned, he declared he was pleased with the news, but declined to make a statement, except that he was quite ignorant of the conditions of the surrended.

ON A MISSION OF PEACE.

Pretoria, June 3.—A number of the Boer leaders left here yesterday to bring in the commandos. It is expected these operations will occupy about a fortnight.

The opinion is expressed in official quarters in London that Commandant Fouche and other Boer leaders in Cape Colony who did not attend the Vereeniging conference will come in of their own accord. It is thought extremely improbable that many troops can be brought home in time for the coronation.

Chemist's Odd Will.

Dr. Von Jirusch, formerly a professor of chemistry at the University of Prague, died recently, and, as he had no family, he left his entire fortune, amounting to about $15,000, to the Prague Museum.

In his will he said that he made this bequest on the following condition: His furniture, his linen, his silverplate, his paintings, his books, his letters, the manuscripts of his unfinished works, all the instruments in the laboratory, and all the things which he used while making his toilet, such as his comb, brush, tooth brush, etc., were to be carefully packed up, and then placed in several strong iron boxes, which were to be hermetically sealed, and were not to be opened for 200 years.

The authorities of the museum will comply with this condition, and in the year 2,102 all the property which belonged to Dr. Von Jirusch will be placed on exhibition, so that the scientists and general public of the twenty-second century may obtain an accurate idea of the manner in which an Austrian chemist lived at the opening of the twentieth century.

If Dr. Von Jirusch had been nothing but a chemist he would probably never have made such a will. The reason why he made it was because he has for years spent much of his time in archeological researches.

The Great Medicine for Building Up Weak and Sickly People in Summer.

PAINE'S CELERY COMPOUND

Gives a Lady the New Life She So Earnestly Sought for and Adds 41 Pounds to Her Weight.

The surest and speediest banisher of disease and sickness known to medical men, is Paine's Celery Compound.

The peculiar virtues of Paine's Celery Compound enables it to reach all the centers where disease is working; it quickly banishes all pain and trouble.

At this time, Paine's Celery Compound is a veritable boon to every nervous, weak and debilitated man and woman. The ailments and diseases that have held people in bondage and suffering up to the present, can be permanetnly banished by the use of a few bottles of Paine's Celery Compound this month. Mrs. Joseph Lloyd, Gananoque, Ont., tells of her complete cure as follows:

"I was always a sufferer from nervous debility and very bad headaches, and found it impossible to obtain regular rest and sleep. I read of your Paine's Celery Compound, and bought a bottle of it. After I used it, I got rest and sleep. I have used altogether seven bottles and am completely cured. Your medicine purifies the blood and regulates the system; I would not be without it if it took my last dollar. Before using Paine's Celery Compound my weight was only 100 pounds; now I weigh 141 pounds. Five of my friends are using the Compound since they have seen what it has done for me."

ENTRANCE EXAMS—CHANGE OF DATE.

Toronto, June 3.—The dates for the high school entrance examinations have been changed. They were originally announced for Wednesday, Thursday and Friday, the 25th, 26th and 27th of June. Since the announcement that Thursday, June 26, Coronation Day, has been made a statutory holiday for this year, local boards of examiners are authorized to make whatever changes may be deemed expedient respecting the timetable for the examinations. It is suggested that Wednesday, Friday and Saturday, the 25th, 27th and 28th of June be substituted respectively for the days mentioned. Any other arrangement which examiners, after consultation, prefer, may, however, be followed, with the understanding that Wednesday be the first day of the examination.

A BRACEBRIDGE BLAZE.

Bracebridge, Ont., June 2.—The dry-goods store belonging to William Kirk was burned this morning about 3 o'clock. Insurance, $7,000 on stock and $1,000 on building. Dr. Brodgland's drug store was slightly damaged, and the crown lands office burned.

Interesting events are expected in the families of President Roosevelt and Chauncey M. Depew.

Five thousand trout from Holywell, North Wales, have been released at Loch-vaa, near Boat of Garten, Inverness-shire.

Mr. Croker has paid $800 for a seat near the abbey from which to view the coronation procession, states a New York paper.

Only the church steeple of Zudycote, near Dunkirk, now rises above the sand which overwhelmed the entire village in 1777.

DEATH OF G.T.R. BRAKEMAN

By Falling From a Car in the Vicinity of Allandale.

Suicide of a Young Girl—Died in Half an Hour From Poisoning.

Tottenham, Ont., June 3.—Harry Wilson, of Allandale, formerly of this town, a brakeman on the G. T. R., was killed by falling from a car near Allandale. His remains were brought to the home of his parents here on Saturday morning, and were buried Sunday afternoon at the Presbyterian cemetery. A special train from Allandale conveyed 40 employes of the Grand Trunk, who attended the funeral in a body. The Maccabees, of which deceased was a member, were also present. The deceased, who was 28 years of age, leaves a wife and three children.

A GIRL'S SUICIDE.

Harrow, June 3.—Mabel McDonald, aged 14, an adopted daughter of J. F. Rosebrugh, of Oxley, five miles from here, committed suicide by taking strychnine. She died half an hour after taking the poison, before medical aid could reach her. No reasons are assigned for the deed.

TOOK POISON IN BEER.

Chicago, June 3.—A letter found in the possession of L. Wachman, a traveling salesman, who committed suicide in a North Clark street saloon on Sunday, leads to the belief that he was a member of a New York suicide club. From passages in the letter it is thought that another member of the club committed suicide last week in New York city. Wachman fell dead while being served with a glass of beer. Physicians who examined the body called it a case of poisoning. A bottle of poison bearing the name of a drug store in a small town in California was found in Wachman's pocket. The letter, which leads to the theory that the suicide was a premeditated affair, was from T. Wulff, New York, dated May 25. The missive was written in German, and was poorly spelled. From such parts of it, however, as could be understood, it was gathered that Wulff and Wachman were members of an organization the members of which pledged themselves to end their lives. One of the passages read: "Will commit suicide at once, and I am sorry that we could not die together and end it. I had thought that we could do this business together."

DROWNED.

Brantford, Ont., June 3.—Mervin Smale, aged 15, went into the Grand River for a swim. Getting beyond his depth, he was drowned.

Winnipeg, Man., June 3.—Ford A. Husley, a fisherman, was drowned in Sturgeon Lake. He had worked in the vicinity of Wabigoon for the past ten years.

STRUCK AND KILLED.

Fort William, June 3.—While the steamer Johnson was discharging her cargo on Saturday afternoon, a man named Graham was killed by being struck by a steel rail.

Physical Vitality

REGAINED FROM WEARING DR. McLAUGHLIN'S ELECTRIC BELT

You will never know what a grand power Electricity is until you feel its genial, glowing warmth penetrating every vital part of your body from my Electric Belt. Has restored health and strength to thousands of nervous, debilitated and pain-worn men and women. Electricity, as furnished by my Belt, cures by giving back to the weakened nerves, muscles and organs the vitality they have lost, reducing inflammation, developing the full vigor of health and removing the effects of overwork, exposure to weather and long-continued sickness.

Pick out the men who have worn my Belt. See them with head erect, chest expanded, the glow of health in their cheeks, courage in their hearts and a clasp of the hand that tells you "I am the man."

And how is it with you? Have you rheumatism and back pains, a dull ache and weakness over your kidneys, dull headaches, with a tired, stupid feeling? Are you losing your vitality power? Do you feel yourself growing aged before your time? Are you nervous, sleepless, short of memory and lacking in spirit and self-confidence? Do you know that you are not the man you would like to be?

If so, I can cure you. What you lack is just what electricity supplies. My Belt will cure you, and after I have cured your case you can pay me, and should I fail you will have the satisfaction of knowing that the best and strongest electric appliance has failed. My confidence in my method enables me to allow any man or woman, who will offer me reasonable security, to use the Belt at my risk and

Pay When Cured

NEVER BURNS—It is warranted not to burn or blister the skin as other electric belts do. The special cushion electrodes prevent that. If you have a belt that burns I will sell you one of mine at half price in exchange.

MY BOOK, devoted to the development of perfect manly vigor, with 80 pages, beautifully illustrated, will be sent, closely sealed, free to any man who wishes to recover the vigor that he has lost. It is a book written upon common sense, and any man will enjoy reading it. Write for it.

CRASH ON ST. CLAIR RIVER

Barge Sunk and the Captain's Wife Drowned.

One Man Missing and Another Injured—Run Down by Steamer.

Port Lambton, Ont., June 3.—The tug Seaman was at this port this morning and reported a collision between an unknown steamer and the barge Gleniffer, which she had in tow. The accident happened at the southeast bend between 9 and 10 o'clock last night.

The captain's wife, Mrs. C. Moore, was drowned, and Archie Misner, of Windsor, who is missing, is also supposed to be drowned.

Thomas Brown, of Southampton, had his nose broken and one leg and side badly bruised.

Capt. Rutherford, of the tug Seaman, left for the scene of the accident in search of the missing bodies. After having struck, the steamer backed out and pushed the Gleniffer ashore. She is now in about twelve feet of water. The tug also had the barge Lothair in tow to Port Lambton.

GRAVEL CURED.

Remarkable Case of a Quebec Gentleman—Passed Stones Four Years Ago—How He Was Cured.

Bristol, Quebec, June 2.—Reuben Draper thought he had the gravel, but was not sure, and sent for a doctor, with no good result.

A short time afterwards he had another bad attack and sent for another doctor, but all to no purpose, he was getting weaker all the time, and the pain he endured was something fearful.

He was advised to try Dodd's Kidney Pills by a man who had said they cured his mother. In a week after he had taken the first dose he passed a stone as large as a bean, and about four days later another about the size of a grain of barley.

This gave him great relief, and he continued to improve and gain strength until he was soon as well as ever.

This is four years ago, and he has not had the slightest pain since.

VITAL STATISTICS OF GREAT BRITAIN

Returns for 1900—Decline in Marriages and Births—More Deaths.

New York, June 3.—A special to the Sun from London says that the return of the registrar-general of births, marriages and deaths for the year 1900, the first complete year since the war broke out, shows a decline in marriages and births, and an increase in deaths.

The marriage rate was 16 per 1,000, compared with 16.4 in 1898-1899. The births in 1900 numbered 927,052, or a rate of 28.7 per 1,000, the lowest record, and 1.3 per cent below the mean rate for the last ten years. The illegitimate birth rate was 1.1 per 1,000, which is the lowest record.

The deaths numbered 587,839, or 18.2 per 1,000, as against 17, 17.4 and 17.5 in the previous three years. Of the deaths 3,683 were immediately due to alcoholism or delirium tremens. The death rate from alcoholism was 132 males and 95 females per 1,000,000. Both these rates were the highest on record. The deaths from tubercular diseases were 10.4 per centum of the deaths from all causes, aggregating 61,302.

The strength of the army at home and abroad was 383,937. The deaths were 10,554, giving a rate of 27.6 per 1,000, as compared with 10, 12 and 10.5 in the preceding three years. The mortality in the army abroad was 36.1 per cent per 1,000, as compared with an average of 14.5 in the preceding five years. The death rate at home was 8.2, as compared with an average of 4.3 in the preceding five years.

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distension instantly, and by its stimulating action on the stomach aids digestion. Nerviline cures dyspeptic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaint and inflammation. Sold in large 25c bottles everywhere.
