Fredericton, July 7—John Alfonso, aged 28, a Finlander, suffered a fatal heat prostration while employed on the St. John Valley Railway construction work by Messrs. James H. Corbet & Sons Company, Inc., in Lincoln, Sunbury county, Saturday.

Alfonso had only joined the Corbett force about a week before, having come here from Newcastle, Miramichi. He was attached to the gang employed about the steam shovel operating in the Waasis district and had only been working a short time after dinner when he was suddenly overcome.

After resting a few moments he was still unable to resume work and then started to walk to the home of Oran Howland, about half a mile distant, with whom he boarded. He had only gone a short distance when he collapsed and he was taken the rest of the way by James H. Corbett, jr., and a number of employes. On his arrival at the house it was found that he was in a very serious condition and Dr. Peake, of Oromocto, was summoned. The young man was then unconscious and although everything possible was done for him he died before the doctor arrived. Inasmuch as Dr. Peake found death to have been due to natural causes, an inquest was not necessary.

The unfortunate young man had no friends in this country, but his employers and fellow workmen made arrangements for the funeral which was held this morning from Mr. Howland's residence, Rev. T. D. Bell conducting the funeral services and interment was made at the True burial ground at Lincoln.

Bristol, N. B., July 25th, 1911.

"I am unable to say enough in favor of "Fruit-a-tives" as it saved my life and restored me to health, when I had given up all hope and when the doctors had failed to do anything more for me. I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the Constipation of the bowels was terrible. Nothing did me any good and I was wretched in every way. Finally, I took "Fruit-a-tives" for the Constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis. Under the use of "Fruit-a-tives," I grew stronger and stronger until all the palsy and weakness left me. I am now well again and attend my store every day and all day."

DEFENCE TO CALL WITNESSES IN NON-SUPPORT CASE

Herman Johnston, Defendant, Says Charge Is Blackmail, and Accuses Man in Court—Enough Evidence to Commit Him.

Wednesday, July 9.

The non-support case brought against Herman Johnston by his wife, was continued in the police court yesterday afternoon. The evidence was all in and the counsel, G. H. V. Belyea for the defence, and J. King Kelley, K. C., representing the S. P. C., entering their arguments, the magistrate said that there was sufficient evidence to commit the man for trial.

He said he would grant Johnston the privilege of taking the stand to explain the evidence set forth by the prosecution. He was warned, however, he would not contradict evidence, but merely state anything that might be asked him regarding the evidence and if he could do so satisfactorily, he would be dismissed. Mr. Belyea explained to the magistrate that the statement of the defendant would probably be in contradiction and he asked for an adjournment to procure other witnesses in defence.

This was then granted, and the prisoner was released on his former securities, put up by himself, A. A. Filson, K. C., and Mr. Belyea, his attorneys.

The defendant emphatically denied that he refused to support his wife and before leaving the court declared: "It is nothing short of a case of blackmail, and," he continued, "it is all at the instigation of that man there," pointing to a gentleman who was seated beside the complainant, his wife, and who so far has not been interested in the case.

FURTHER COMPLAINT OF DELAY ON I. C. R.

Passengers from Point du Chene Subjected to Needless Delay at Moncton—It Happens Often.

(Evening Times.)

The number of complaints regarding the management of the I. C. R. and the lack of attention to the convenience of the patrons of the road are not growing fewer. When the train which comes from Point du Chene and connects with the Ocean Limited at Moncton arrived in the city last evening there were more than a score of persons whose indignation regarding the treatment they had received had not cooled off even after a three hours run from Moncton.

The cause for the complaint lay in the fact that they arrived from Prince Edward Island via Point du Chene, and reached Moncton in plenty of time to connect with the C. P. R. express, but were not notified of the fact and had no means of learning until after the C. P. R. had pulled out and they were condemned to a wait of an hour and forty minutes until their own train left.

Although the time of the arrival of this train at Moncton is dependant upon the time of the arrival of the island steamer and therefore does not always connect with the C. P. R., it frequently does so, and complaints to the same effect have been made frequently in the past. In the case of through passeng
