HEADQUARTERS FOR DRESS GOODS

Henry Young & Co.

AMERICAN LADY CORSET

Most Exclusive

WE have received by express a few most exclusive embroidered linen and linen lawn costumes and blouse lengths, also a moderate quantity of most exquisitely embroidered linen blouse lengths only. It is almost unnecessary for us to mention the extreme beauty and exclusive nature of these goods when we cordially invite your inspection. There is only one to each design and even as a matter of education it is a delight to see the beautiful workmanship and originality of the designs.

HENRY YOUNG & Co.

DRESS GOODS, MILLINERS, DRESSMAKING, ETC.

Government Street, Victoria

Fit-Reform

SUITS

IF there's anything a man is particular about it's his suit. No amount of advertising and no amount of hard work could sell the thousands of suits we are selling every year if they didn't like them. People want them. People who try them find they are everything we claim. They fit and retain their shape to the end. Superior in many respects to the custom-tailor's, yet Fit-Reform retails at about half the price.

Suits and Overcoats $10 to $30

ALLEN & CO.

125 Government St., Victoria, B. C.

DEADLY KEROSENE

New York, March 2.—Mrs. Benj. P. O'Connell, 42 years old, was probably totally injured, her husband, aged 42, seriously injured and seven of their ten small children painfully injured by an explosion of a can of kerosene oil at their home on Popular street, Brooklyn, tonight. The explosion of the can caused a lamp to explode also. The mother, father and children received burns as they ran out to the street.

B. C. BEATS ONTARIO IN MINERAL OUTPUT

Misleading Statement Telegraphed From Toronto Corrected

A telegram, ostensibly from Toronto, appearing in the Victoria Times and other papers of Thursday last does a great injustice to the province of British Columbia. It stated—"Not only in variety but in values of mineral productions Ontario is first among the provinces of the Dominion."

This is at direct variance with the facts. The official estimate for British Columbia, forwarded to the agent general in London by the provincial mineralogist on January 5, gave the product of this province as considerably in excess of $26,000,000 for 1906, while the total for Ontario as given in the despatch mentioned is only $22,221,808, a difference in favor of British Columbia of 25 per cent.

When separate items are considered the unjust reflection on this province is even more noticeable. In 1906, Ontario produced 3,519 ounces of gold, while British Columbia produced 250,000 ounces, at the respective values being given as $59,274 and $6,070,000. In this connection it may further be said that the gold output of this province is always calculated on the fine gold value, $20.67 an ounce, while that of Ontario, as given above, is evidently on bullion value.

Misleading Figures

Coming to silver, it has to be admitted that Ontario has passed this province for the present, owing to the wonderfully rich veins of the Cobalt camp, but the figures given in the despatch that the product of Ontario was 5,857,830 ounces, value $3,543,089 is misleading. The estimated output of British Columbia was 3,470,000 ounces valued at $2,203,000. This is calculated at 63.5 cents per ounce, the average market price for the year, less 5 per cent. The figures given for Ontario work out at over 66 cents per ounce, unjust in comparison to this province for this metal of at least $134,000.

In copper there is another instance of unjust comparison. The Ontario estimate is 5,940 tons, value $938,548. This is evidently some matte valuation, not that of pure copper, as it only works out at $168 per ton or 8.4 cents per pound. British Columbia's output of this metal during 1906 was 45,000,000 pounds, or 22,500 tons of pure copper.

Doubled Metallic Output

Ontario has large productions of cobalt, nickel and iron but even including these the total value of its metallic products last year was only $13,179,162 against over $25,000,000 for British Columbia. This province therefore nearly doubled the metallic output of Ontario during last year.

Ontario must, of necessity have a lead where non-metallic minerals are concerned. These, such as stone, brick, cement and other building materials always increase with a large population. Ontario claims this branch of industry produced in value $9,042,646 last year while British Columbia's total is only estimated at $1,000,000. But, for this province $5,500,000 must be added for coal and coke, making $6,000,000 or two-thirds that of Ontario.

British Columbia is, and always will be, "the mineral province of Canada." When shown the despatch referred to the provincial mineralogist merely remarked—"The people who publish these figures as greater than those of British Columbia know very little about the province."

PRINT FOR THE BLIND

Albany, N. Y., March 1.—The Seigler Publishing company, of New York, which will publish a magazine and other literature in raised type for the blind, was incorporated here today with a capital of $1,000,000. The directors are E. Mariada Zeigler, Walter M. Holmes, L. Bertrand Smith, Wm. Schampko, Wm. Curtis De Marest, all of New York. The literature will be distributed at a minimum cost.

NEW TOURIST HOTEL MAY SOON BE BUILT

Men From the Prairies Have Eyes on Site on Willow Beach

It is reported, upon what appears to be reliable authority, that a new and modern tourist hotel will be erected upon a portion of the property recently purchased by Northwesterners from Mrs. Mary Bowker. The site is an admirable one for such a building, fronting upon one of the most beautiful beaches to be found in the vicinity of Victoria.

As far as can be gathered those who contemplate this venture believe that the Willow's beach, surrounded as it is with a country, which though undeveloped, is exceedingly picturesque, can be made a centre of attraction to the large numbers of visitors expected here during the summer season of each year. Even now, without any artificial beautification or conveniences as would be provided by a hotel such as is proposed, it is one of the most popular local resorts. The bathing there is, beyond exception, the best to be obtained any where in the vicinity. Good fishing may be had at almost any time, while the scenery is grand, the water for miles in all directions being broken by pretty islets while in the distance may be clearly or dimly discerned—according to the atmospheric condition—the snow-capped summit of Mount Baker.

Only a short distance from the property, upon which it is proposed to construct a hotel, is the large block of land recently purchased from the Hudson Bay company by Messrs. Oldfield and Gardner, of Winnipeg, and which is being sub-divided for sale.

With a hotel at the beach and a park-like residential area in the immediate neighborhood, it is predicted that this section of the city would become one of the most charming and most widely patronized pleasure spots adjoined to Victoria.
