GRAND TRUNK HOG PENS.

The Local Board of Health Want Them Removed to York.

The Local Board of Health met yesterday. Present: Chairman Drayton, Ald. Lamb, Low, Johnston and Verral. The Chairman reported that himself and Ald. Low had a couple of weeks ago visited the Grand Trunk Railway hog pens at the Don. On account of a Chicago strike there were in the pens 1900 hogs, an unusually large number. The place was as clean as could be expected, but the drainage was bad. The committee decided to suggest to the company the advisability of removing the pens to their land at York Station.

John Glanville and Henry Wickson of the Butchers' Association handed in an informal report of the condition in which the association's inspectors has found a number of slaughter houses in the city. The association had in some cases recommended certain alterations and in each case the individual had expressed his willingness to comply. On the same question the City Solicitor reported that in his opinion the council had the power to alter in the direction required, the Public Health Act clause prohibiting the maintenance of slaughter houses within the city limits.

The Chairman stated in reference to complaints as to the condition of the John-street School privy vaults, that a health inspector had visited the building and found the vaults cleaned out and eight feet deep. The committee expressed itself as of the opinion that the day for privy vaults was gone and that water closets should be substituted in every city school. Ald. Lamb said Dr. Canniff had reported that there were 10,000 privy vaults in the city. The city should have properly trapped water closets put into every house not already so equipped. The closets might be paid for on the local improvement plan. The secretary will acquaint the school trustees of the board's opinion on the matter.

See this young man with a downcast look
Who would like to get married by hook or crook,
But his means are scanty and his business took
Nearly all his capital.

But hearing of WALKER'S he quickly did go,
For dear Julia's mother, to ask her and show
Where things could be bought on time and so low,
Through Walker's easy system.

Julia's mother expressed herself highly delighted,
So Charlie and Julia were quickly united;
And their home from attic to cellar is righted,
With goods obtained from Walker.

MORAL:
