GOD SAVE THE QUEEN!

WEDNESDAY, MAY 24TH, 1882.

— A correspondent, signing himself "Albany," sends us the following in reference to the Nictaux and Atlantic Central Railway:—

"Can you give any information about the Nictaux Railway? When Mr. Stearns returned from Halifax at the close of the last session of the House, he informed us that the Attorney General had partly promised to give him notice about 15th to 20th of April to proceed with the work. A month has gone by since that time and no word has yet been received from the Government. What is the matter? What causes the delay? I understood that the Syndicate agreement has been completed, and the contract signed. The act passed last session provides that *so soon* as the Syndicate securities are deposited with the Government, they, the Government, *shall* notify the Nictaux & Atlantic Company that they may commence operations. Why is this not done? The securities must be all in, for it is not possible the Government would be so silly as to sign the contract until they were. Now, why is all this valuable time being wasted? Is it the election that is troubling the Government? Do they want to do nothing about the N. & A. Railway until they decide when the elections are to be held? Many persons here believe that if there were not to be a general election there would be no Nictaux Railway, at least that it would not be commenced this year. I am inclined to agree with them. If the Government give the company permission to commence operations only that their chances for re-election may be enhanced they won't find a very hearty expression of gratitude among the people of these western counties."

We must confess our inability to answer the question. By the clause in the Act as printed in our columns some time ago, it would appear that the fate of the N. and A. C. R. hangs on the new Syndicate Co. The latter we have been assured have made matters satisfactory with the Government, and the requisite papers have been signed. If this really be the case, then why in the name of common sense cannot the present capitalists who stand ready to build the road, as Mr. Stearns and "Albany" state, be allowed at least to make a commencement on the work. We should like to hear from our representatives on this subject, and freely open our columns to them for any information they can give.

— J. R. Ellis, Esq., of the firm of Messrs. J. R. Ellis & Sons, Boston, Mass., was in town last week. This firm are large egg, fruit, &c., dealers, and it is to them that Mr. R. H. Bath consigned the thousands of dozens of eggs he has bought from our farmers. This is Mr. Ellis' first visit to our valley, and he in common with all strangers is surprised at the extent and beauty of the surrounding country. Said he had no idea that we had such a country. The question that naturally presents itself when we hear strangers express themselves in this way is: Why is it, that our own countrymen are not more alive to the advantages of our Province? This valley in particular has as fair a future before it as any section of country of the same size and extent in the world. The trouble is to make its inhabitants see it in that light.

Mr. Ellis said he thought many people from Boston would visit our town if the hotel accommodation was better and larger. There is no mistake about it our hotels are by no means equal to the requirements of the town, and we believe if a stock company was formed among our townspeople and a really good hotel put up and a capable man placed in charge, it would prove a paying speculation, indirectly if not directly. Our hotels are too old fashioned and of course are not of a class that city people who come with plenty of money to pay for comforts are willing to put up with. In another way it is also a great detriment to us. In the event of any large exhibition being proposed to take place in the County, Bridgetown's claims are invariably met with, "How will you accommodate visitors?" This was the case with the ensuing District Exhibition, and was also urged at the time the movement was made to secure the holding of the Provincial Exhibition in the town. Something should be done to alter such a condition of affairs, and a stock company is the only way in which to do it. For a year or two perhaps a well-appointed hotel would barely pay expenses; but eventually as the claims of the town as a summer resort became more fully known, it would pay a handsome dividend. The local travel in itself is a very large item, owing to the central position of Bridgetown in the County.

— Those who do not know the worth of money can never appreciate the misery they often cause in not paying their obligations promptly to those who are needy. One dollar promptly paid, will in a day's time cancel many obligations, make many a heart glad, and do much good. It is not business to say, "Call again," when you have money to pay a legitimate bill. Prompt pay makes better times. Misers are curses upon our land.—*Acadian Recorder.*

Our contemporary has compressed a vast deal of common-sense in the above short paragraph. We know of men who make it a point never to pay a bill as long as it is possible to avoid doing so. They are men of ready means, too, but who apparently keep hold of their money simply because they cannot bear to part with their idol. How much trouble and loss would be avoided, if everyone would regard it a sacred duty to endeavor to cancel all obligations as soon as possible. Hundreds of men have gone away from this valley with plenty of money, and owing bills without number to traders and others who have *honored* them by trusting them as *honest* men. Instead of appreciating the trust reposed in them, they *study* the best way by which to defraud their neighbors, and escape to the "States," where they can chuckle over their "cuteness" in evading their honest liabilities. No wonder Nova Scotians as a class are not regarded very highly by our republican cousins when those who leave our shores are composed so largely of such characters mentioned. If "pay as you go" was a law instead of a maxim we venture to say the effect on business and morals would be most salutary.

— James Vick, the well-known Rochester seedsman, died on the 15th inst.

PRESENTATION.—Mr. James Kerr who has been Chief Book-keeper and confidential clerk in the employment of Messrs. Gordon and Keith during a period of ten years being about to leave for the North West, was presented a few days ago with an address by the employes of that extensive firm, accompanied with a very valuable gold ring, suitably engraved, as an indication of the esteem in which he was held by them.

— Schr. "Meteor," Capt. Foster arrived on Monday, from St. John. Miscellaneous cargo. Left last night.

ACCIDENT AT WILMOT.—C. W. Shaffner, Esq., M. P. P., was thrown from a carriage this morning and fractured the leg and badly sprained the knee joint.

LIME FOR SALE.—Capt. Foster has 25 casks of Greenhead Lime for sale on reasonable terms. Apply to him or A. D. Cameron, Esq. 1i

— Potatoes are commanding high prices in Boston, Rose, Prolifics and Burbank Seedlings are quoted from $1.15 to 1.25 per bushel.

— A Dancing Assembly will be held in Victoria Hall this evening. All interested are invited. By order of the Committee.

— The Liberal-Conservative party will hold a meeting on Saturday next in the Court Houre, to nominate their representatives to contest the ensuing Dominion and Local Elections.

PORT LORNE.—Sixteen persons were baptised at Port Lorne by Revs. Sweet and Young on Sunday last. Meetings are now to be discontinued, after the most successful series ever held in Port Lorne and Hampton.

— Buckley's drive arrived in the pond on the Bloody Creek stream on which FitzRandolph's Gang Mill is situated, on Monday last. The drive consisted of about 9,000 logs, comprising 800,000 feet lumber, the largest drive ever on this stream.

CORRECTION.—An error was made in the Proceedings of the Council in our last in the report of road and bridge service committee in the item of division of money. For Ward No. 3 read $378.50 for $278.50.

— Election excitement is running high, but it is small in comparison to the excitement among those parties who have found out that by not taking their eggs to J. W. Beckwith they have been losing from 1c. to 3c. upon every dozen. 1i

— Revival meetings are now in progress in the Baptist Church in this town. Revs. Messrs. Sweet, of Port Lorne, and Young of St. John, were in attendance on Sunday night last, and the meeting was protracted until a late hour.

— "Notes on Annapolis History" are omitted again this week. Mr. Calnek has been absent from town for the past week or more canvassing the County in the interest of his forthcoming publications, and he has been unable probably to prepare the copy. We hope to continue them as soon as he arrives here again.

THREE TRIPS PER WEEK.—The steamers of the International Line will commence making three trips a week about May 29th. We have also heard it reported that the International Company will place four of their fine boats on the route this summer, and run a daily line from Boston East.—*News.*

— Our Ottawa despatches state that the Dominion election writs are dated May 18th and are made returnable August 7th. The Toronto *Mail* of Friday has the following editorial notice, which may be considered official: "Nomination day is fixed for Tuesday, the 13th day of June, and the elections will be held on Tuesday, the 20th."

The nomination and election for the Local House take place on the same days.

TREES! TREES!—Dr. Primrose, Lawrencetown has just received from Wm Little & Co's Nursery, Rochester, N. Y., a large number of very fine apple trees of the following varieties, viz:—Roxbury Russets, Lady Apples, and Kennedy Reds. All parties wishing these desirable varieties should send in their orders at once either to Dr. Primrose, or to this office.

The Dr. has also received a number of choice rose bushes. Both apple trees and rose bushes will be sold at very low prices.

— Owing to press of business we could not attend the school examination this week, but understand the examination in the primary department was highly satisfactory. Yesterday examination in the advanced department we are unable to report about as we went to press early last evening to give our boys a holiday and could not obtain particulars. We will endeavor to give the views of some one present in our next issue.

— The Philadelphia Musical Journal for April, fully maintains its high character, and certainly will delight all who see it. It contains the following choice selections of sheet music, arranged for the piano: "Douglass, Tender and True," a favorite and beautiful ballad; "I'm going home to Clo'," a taking song; "Little Birdie Mine," a song sure to please everybody; "Maid of Beauty Waltz," a gliding and pretty melody, and "Sweet Smile Schottische," an excellent composition. Musical Gossip, Editorials, etc., in addition. $1.00 per year. Wm. Nuneviller, No. 1300 Chestnut Street, Philadelphia, Pa.

— A correspondent of the *Western Chronicle*, Kentville, speaking of enterprise, says:—

* * * * I refer to L. O. Neily, of the firm of Neily & Co., manufacturers of phosphates, Aylesford. This gentleman put his fertilizer on our market last year; the results were satisfactory, as certificates will show. This season they have made a ton expressly for my use, to be applied to onions and strawberries. I am very much pleased with it, and believe it to be fully equal to Bradley's, although costing $20 per ton less. I will test it thoroughly and report results to the farmers of the county. I would advise every one to try at least one barrel this season, and feel quite certain that they will like it and that the Company will get orders for one thousand barrels for next season's use.

— At the Annual Meeting of the Board of School Commissioners for Annapolis East held at Lawrencetown on Friday last the 19th inst., the following preamble and resolution was unanimously adopted by the Board:—

Whereas God in His Providence has removed by death since the last meeting of this Board two of its esteemed members, viz.—A. M. Gidney, Esq., the respected Chairman, and H. H. Morse, Esq., a worthy member,

Therefore Resolved, that this Board record its deep-felt sorrow, and regret that the cause of education will no longer receive their self-sacrificing and devoted energy in its support; and also that it express its sympathy and condolence with the families and friends of the said deceased.

— Messrs. Manchester, Robinson & Allison of St. John, want one hundred shirt-makers.

— Nearly seven thousand immigrants landed at Castle Garden, New York, on the 15th inst.

— The reform Association meet to-night in Tupper's Hall at half-past 7 p. m. A full attendance of the members is requested.

— The assassins of Cavendish and Burke are said to have escaped to America. Hopes of their arrest are slim

— J. W. Beckwith is greedily taking in all the wool he can lay his hands upon at the highest market price. 1i

— £400 per year has been granted by the Gladstone Government as a pension to Miss Burke, sister of the murdered Under Secretary.

— Sullivan, the prize pugilist, was laid out the other day by a diminutive Boston barber, for making insulting remarks about the latter's wife.

— Mr. Chas. Hoyt, of this town, is ahead this year and no mistake. He laid a bunch of early radishes on our table last Wednesday morning.

— An amateur boat race for $5 a side is talked of for to-day at Annapolis. The amateurs are respectively from Annapolis Royal and Granville Ferry.

— The last news we have heard before going to press is that J. W. Beckwith is selling Ladies' sunshades at the rate of a mile a minute for 20c. each. *Still later*—"There is no mistake about it." 1i

— D. B. Woodworth, Esq., has been nominated to run the Dominion election in Kings, and Messrs. J. S. McDonald and T. R. Harris of Aylesford, the local.

— There is no excuse for anyone allowing their parlor floors to go bare, when J. W. Beckwith is selling Tapestry Carpets worth 65c. for 45c. per yard. Best value ever offered. Call and see for yourselves. 1i

— B. R. Balcom, Esq., of Paradise, on the 17th inst., sold and delivered to John Charlton, Esq., a veal calf which dressed in Halifaax market 209 lbs, and brought $20.

KENTVILLE.—The races that were to take place to-day are off, as not sufficient entries were made.

Mr. Neary, the owner of the stallion Confidence, that lately died at Kentville, has gone to Boston to buy another stock horse.

FIRE.—A tenant house owned by John Hall, Esq., Lawrencetown, was burned on Thursday night, 18th inst. The tenant had moved the day previous. No *human* lives lost. Cause of fire unknown. Mr. Hall was absent in the U. S. at the time. No insurance.

METHODISM.—The Nova Scotia Wesleyan Conference will be held in Windsor this year, commencing with the 3rd week in June. It will be the Anniversary of the Century of Methodism in Nova Scotia, and a good time is expected.

— Beecher contends that he could cure the most rapid Socialist in five minutes by giving him $500,000. Henry, we are a rabid Socialist by inspiration and if you can guarantee a cure on one application you can send on your medicine.

— The trial of the Malleys for the alleged murder of Jennie Cranmer, is now in progress at New Haven, Conn. Our readers will remember that we gave a notice of the circumstances at the time of their occurrence. No decision has been arrived at yet; but the web of circumstantial evidence of criminality on the part of at least one of the Malleys is slowly being woven.

— The Re-distribution of Seat's Bill was passed in the Dominion Senate on the 16th inst. On the same day in the Commons Sir John introduced a bill giving an annual grant of $150,000 to aid in the development of the sea fisheries. The bill was read a second and third time and passed.

— Mr. Frank Bristowe, formerly organist of St. James' Church, in this town, has accepted a similar position in a church in St. John. The *Sun* says:—

"Mr. Bristowe, the new organist of St Andrew's Church, arrived from Napanee, Ont., on Saturday, and put up at the Waverley House. He entered upon the duties of his new position yesterday."

BOOT AND SHOE FACTORY.—There is no better opportunity for the establishment of a boot and shoe factory anywhere in this Province than there is in this town. We have no doubt if some capitalist would pay us a visit with that object in view, he would be induced to stay. We have a steam tannery in constant and efficient operation, labor is cheap and rents, provisions and fuel are reasonable. There is also a first-class chance for a good grist mill with thresher combined. A constantly yearly increase of grain particularly wheat, is being grown and it taxes the capacity of the mills and threshers already in operation to their fullest extent.

— Mr. F. E. Nutt, the corn canning factory proprietor, has been taking a circuit throughout the surrounding country to see what the prospect is for farmers planting sweet corn the coming season. We are gratified to be able to report that our farmers as a rule signify their willingness to give the corn another trial. Quite a number of them found it to be a profitable crop last year, (this we are prepared to show if called upon to do so) notwithstanding the very unfavorable season, and the general opinion is that with an average season the yield would be very productive and correspondingly remunerative. We have always felt much interested in the success of this enterprise, and are certain if it once gets a fair start that it will prove a permanent institution. It is in the hands of the right man, and the corn shipped last year was in great demand by dealers, who said that consumers choose it in preference to any other. Mr. Nutt is desirous of securing as large a quantity of corn as possible this year, and we hope our farmers one and all will respond to his wishes.

— A young man belonging to this County, who lately went to the neighboring republic in search of work, has returned. He says that although he visited several of the largest cities in the state of Massachussetts, he was unable to obtain employment. All departments of labor seemed to be overcrowded. He said that work might have been obtained at something he would not be seen doing at home; but he was too patriotic for that. This proves the assertion that we have often made, that although there is plenty to do in the United States, there are plenty and more than enough to do it, consequently unless a man is a skilled artisan, he stands but very little better chance to obtain employment in the United States than he does at home.

— A special correspondent of the *Acadian Recorder* says:—

"Winnipeg is coming right to the front as far as aquatics are concerned. She is going to have a big regatta, open to the world, to last for four days, during which Hanlan and Ross are to row for $5,000. The 28th, 29th and 30th of June are for the regatta, and Hanlan and Ross row their race on the 1st of July. There is a purse of $15,000 to be made up into prizes, and all the leading oarsmen of the world will take part, no doubt, as there are big inducements. This will be a big advertisement for Winnipeg, as they intend sending circulars all over Europe and the United States.

There are a great many Nova Scotians coming in here now, and every one you talk with has the same story about the "dull times." In all my travels, I have never met with a Nova Scotian but will acknowledge the fact that they would rather live in Nova Scotia than any place they have been—if there was anything to do."

— Fears seem to be entertained by many for the present year's crop, in consequence of the backward spring; but some of our shrewd agriculturists think there is still plenty of time, and that when the season fairly opens vegetation will advance very rapidly, and by the first of July will stand abreast with average years. The ground is in fine condition; the grass appears to have taken a good start and looks very well, all things considered; and the trees are commencing to show leaf buds; consequently, a few days' favorable weather would cause a complete transformation in the face of the country. A gentleman of this town who has kept a diary of the weather for some years past, informed us that this is by no means an exceptionally unfavorable year. During the year 1876 his diary shows that on the 30th day of May snow was visible on the mountain.

NIGHT-BLOOMING CEREUS.—Mrs. Alfred Vidito, a lady residing just out of this town, has a rare plant—an exotic—most vigorous growth, called the Night-Blooming Cereus. It was sent her nearly three years ago, from Illinois, by her brother, J. L. M. Young. It was then only a leaf, about four by two inches in size. For ten months it made no perceptible growth above the earth. Then it sent up a shoot which has been developing, until now it is over four feet high, with sixteen leaves, one of which is nearly eighteen inches long. It is now budding to blossom, having one bud five inches in length, growing at the rate of two inches per week. The plant is very peculiar in its growth, the leaves growing from the edge of other leaves as well as from the stalk. Another peculiarity of this plant is, it blossoms only in the night, the buds not beginning to open until after sundown, and closing at sunrise, never to open again. The calyx is greenish pink, the petals pinkish white and very fragrant; the pistils yellow, and the stamens light brown. The cup and flower leaves extend to more than eighteen inches in circumference. This particular plant is expected to bloom in two or four weeks.

WITHOUT A DOUBT.—J. W. Beckwith has the largest and finest assortment of Dry Goods of any description ever opened in the town. His assortment of Dress Goods cannot be surpassed, ranging in price from 12c. to 60c. per yard. Melange Sateens, plain and colored Sateens from 15c. to 40c. per yard; all wool serge and all wool DeBlege dress goods in great variety of quality and shades, from 23c. to 40c. per yard; Cross Dyed Cashmeres, Cashmerette, Cashmeres and Merinoes in various shades and qualities from 26c. to $1.10. He also has Silk, Satin, Fringe and Lace Trimmings to match, in fact a call will convince you that he has taken particular pains to select for spring trade goods that will please the public in variety, quality and price. 1i

DOMINION PARLIAMENT

Prorogation.

OTTAWA, May 17.—At five o'clock the gentleman usher of the Black Rod summoned the members of the House of Commons to the Senate Chamber where His Excellency assented to bills passed and delivered th following speech from the throne:

Honorable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I desire to convey to you my best thanks for the earnestness and assiduity which you have shown in the performance of your duties, and I am glad to believe that on returning to your homes you will find the country everywhere enjoying a large measure of prosperity. The Civil Service Act will, I trust, be productive of the best results. It will improve the organization and add to the usefulness of that service, already so efficient. The measures relating to the extradition of fugitive offenders; to the winding up of insolvent banks, insurance companies, and trading corporations and for amending the crimnal law are all of an important nature. The appropriation in aid of railway enterprise will tend greatly to open up vast tracts of fertile country, hitherto almost inaccessable to the settler. The annual grant for the encouragement of sea fisheries will be of great value to that important branch of the national industries. The removal of duties on tea and coffee will lessen the cost of those important articles of food to the people; and the repeal of the stamp tax on bills of exchange and promisory notes will be appreciated by the commercial community as a relief from an irksome burden, while transmission of newspapers and periodicals free from postage will be accepted as a boon by the whole country. Our manufacturers, already in a prosperous condition will be further aided by the abolition of the duties on metal and other raw materials used in their several productions. It is satisfactory to know that the buoyant state of the revenue will permit these reductions, amounting to about a million and a quarter of dollars, to be made without inconvenience. During the recess my Ministers will continue their efforts to secure favorable commercial arrangements with France and Spain. In these endeavors the High Commissioner will receive the same hearty support from Her Majesty's Government and the Imperial diplomacy as has already been given to him. Such support must greatly strengthen Canada in any negotiations entered into for the improvement of her trade with foreign countries. It has been the more readily accorded that Her Majest y's Government rely on no preference being given by Canada against the trade or products of the Mother Country.

Gentleman of the House of Commons:

I thank you in Her Majesty's name for the supplies you have granted, which will be expended with all due attention to economy.

Hon. Gentleman of the Senate:

Gentlemen of the House of Commons:

I heartily congratulate you on the rapid and successful developement of our manufacturing, agricultural and other industries. I am, however, advised that their progress would have been still greater were it not that capitalists hesitate to embark their means in undertakings which would be injured, if not destroyed, by a change in the trade and fiscal policy adopted by you in 1879. In order therefore to give the people without further delay an opportun ity of expressing their deliberate opinion on this policy, and at the same to bring into operation the measure for the re-adjustment of the representation in the House of Commons, it is my intention to cause this Parliament to be dissolved at an early day.

If Nearly Dead

after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

THE AVERILL PAINT

has been in use in the United States and France for over fourteen years, and is constantly growing in favor.

It has been thoroughly tested by chemists, and applied on over 500,000 residences in the United States, and is pronounced by all who have used it to be the most BEAUTIFUL, DURABLE and ECONOMICAL paint for either wood, brick stone or plaster. It does not fade or chalk off, but retains its freshness and brilliancy for many years, and will last much longer than the best lead and oil made in the old way.

It is made ready for use in all shades. Also inside and outside white. It can be applied by any one whether a practical painter or not.

Sold by the gallon, in packages from one to fifty gallons.

Testimonials can be given from every party who have used it here.

S. N. JACKSON, Clarence, Agent.

N. B.—The subscriber keeps constantly on hand a general stock of GOODS, low for cash or prompt barter.—m22 3m

Above Life Companies are fully guaranteed by our Government, and ABSOLUTE SECURITY had by policy holders. The standing of these Companies is unquestionable. The one has been doing business over fifty years, the other over 30 years. CLAIMS PAID PROMPTLY.

The subscriber, who has been many years in the insurance business, respectfully solicits inquiries for rates on the several popular plans of Life Insurance. Applications for Life, Fire and Marine Insurance promptly attended to.

Albert Morse.

BARRISTER-AT-LAW, AND GENERAL INSURANCE AGENT.

Office: QUEEN STREET, BRIDGETOWN, N. S.

Middleton Hotel,

MIDDLETON, ANNAPOLIS CO., N. S.

C. C. DODGE, Proprietor.

THE Subscriber wishes respectfully to say to the general public that the old well known Middleton Hotel still stands on the old site, and its proprietor is still on the acting side, "hale and hearty."

He thanks the public (travelling and least) for past patronage, and with confidence solicits a continuance of their favors.

No exertion shall be spared (in the future as in the past) by the Proprietor, to make his house a pleasant and agreeable home for those who may take up their abode at his house, permanently or temporally.

A COMFORTABLE CONVEYANCE will attend all trains to convey passengers to and fro.

Good Stabling, and a respectful, attentive hostler always at call.

Charges Very Moderate.

C. C. DODGE.

Middleton, March 27th, 1882. 1y
