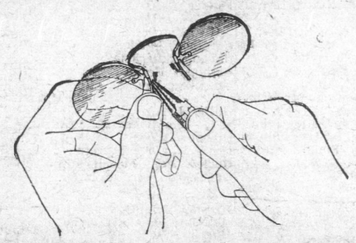
H. W. de FOREST TEA CO'Y.



SPECTACLE and EYEGLASS

fitting is not perfect unless the frames or mountings are properly adjusted, and that requires the expert hand. The beneficial effect of a correct glass may be upset by an ill fitting frame. It has been my special work for over twenty years to correct troubles emenating from eyestrain, and placing the proper lenses in the most suitable and becoming frame or mountings. All my work is guaranteed.

R. H. TRAPNELL, Eyesight Specialist.

Garland's Bookstores,
177 and 353 Water Street.
feb1,tf St. John's

Good cakes—the kind that are best for the children—are those baked at home and raised with "Paisley Flour."—Best because they are light, wholesome, and digestible, and because mothers can see that all the ingredients are clean and sound. Economy also results from home baking with "Paisley Flour." It costs less than buying from the baker, and much less than cake and bun flours.

"Paisley Flour" (Trade Mark.)

The SURE raising powder.

Method.—To eight parts ordinary flour add ONE part "Paisley Flour," then follow with other ingredients.

Sold in 22c., 14c. and 5c tins.

The 22c. tin contains 14 ozs. and will raise half a stone of flour.
" 14c. " 7 ozs. " 3½ lbs. of flour.
" 5c. " 2 ozs. " 1 "

A Remarkable Test!

Locally Made

By Messrs. W. & G. RENDELL.

To test Solignum as a preservative for Wood against the attacks of Worms, we tried a piece of 2 x 4 Spruce, about two feet in length, by painting one-third with Solignum, leaving the balance clear wood, this we suspended by a wire through the centre, in the water about one foot from the bottom, immediately over a pile of stones the remains of a sunken wharf (which is the place where our Wharf Shores are eaten off first) for Three Months. On taking it up at the end of that time we found some half-dozen small holes only a very short distance in the clear part of the wood, which shows the liquid had penetrated through the whole piece and the worms had hardly begun boring before coming in contact with it.

Last year as a test of some brands of Copper Paint we handle, we had a similar piece of wood treated at both ends, leaving the centre third clean; this was in exactly the same place as the piece for the Solignum test for Three Months and Three Days, when taken up the painted ends were perfect but the centre was riddled with worm holes.

Both these pieces of wood are to be seen at our Office by those interested in the preservation of Wharf Piles or any other wood work. W. & G. RENDELL.
