I.O.O.F. AT GUELPH.

Grand Lodge Welcomed to the City By Mayor Kennedy.

Guelph, Aug. 13.—The session of the Rebekah Assembly convened in the Odd-Fellows' Hall at 9 o'clock this morning, President Mrs. A. Pulford, Amherstburg, in the chair. The first business on hand was the presentation of addresses of welcome, and the replies thereto from the city by Mayor Kennedy, for the local Rebekah Lodge, by Mrs. Brill, past president.

The Grand Encampment began its session at 9 o'clock this morning, Grand Patriarch L. Ferguson of St. Thomas in the chair. The first business was the official welcome in the encampment by Mayor Kennedy, for the city, and P. G. P. Sam Law for the local encampment. The only business that came before the Grand Encampment this morning was the appointment of the various committees. P. G. Patriarch W. H. Kempfer of Kansas, who was cordially welcomed, briefly addressed the encampment. The rest of the morning was occupied with the appointment of committees and an address from the Grand Master, Mr. Lewis. This evening, there is an open-air concert at the O. A. College.

TYPOS IN SESSION.

Separation of Stereotypers From I.T.U. Will Be Considered.

Birmingham, Ala., Aug. 13.—At to-day's session of the 47th annual convention of the International Typographical Union, President Lynch submitted a supplementary report regarding the joint ownership of the label, as well as the opinion of the attorneys of the International Typographical Union, to the effect that joint ownership of the label is a legal impossibility.

In view of recent criticisms of the affairs of the Printers' Home at Colorado Springs, Col., Trustee McCafferty asked for an investigation, which request was submitted by President Lynch.

A report of the Laws Committee, looking to the practical separation of the stereotypers and electrotypers from the International Typographical Union, was then considered. The committee made no recommendation. The proposition provides for complete autonomy of the stereotypers' and electrotypers' trade in the district union, and those employed in connection therewith. It was defeated at the convention last year.

Architect Wants More Latitude.

Architect Jarvis writes to the Board of Control that matters are more satisfactory on the St. Lawrence Market work. He advises the pulling down of the old City Hall, and thinks the market building could be completed in a couple of months if the city would give him latitude in ordering extras. The roof will be covered in a few days.

Arrangements for the Duke's Three-Hour Visit—Cases in the County Criminal Court.

Hamilton, Aug. 13. — (Special.) — The High Court of Ontario, Independent Order of Foresters, was opened this morning in the Court House. There were present over 300 representatives, nearly 20 of them being ladies, representing companion courts. The officers are as follows: High chief ranger, J. M. After the high court degree had been conferred on the new delegates, James Weir, chairman of the local Reception Committee, welcomed the representatives in a witty speech. The high chief ranger suitably responded.

Later in the morning, Mayor Hendrie, Ald. Walker, chairman, and other members of the Civic Reception Committee, were presented, and the Mayor and Ald. Walker tendered the delegates the freedom of the city.

Encouraging reports were presented by the high chief ranger, the high secretary, and the high treasurer. According to the secretary's report, the standing of the membership of the high court's jurisdiction is as follows:

Membership June 30, 1900, 14,253; initiated during the year, 1925; total, 16,178. Loss by removals and lapses, 853; loss by death, 109; total, 962; total membership June 30, 1901, 15,216; net gain for the year, 963; number subordinate courts, 282; number companion courts, 17.

Disbursements were $7305.02. This left a balance in the bank to the credit of the high court of $3009.88. But since the books were closed on June 30, several accounts have been sent in and paid, and others, such as prizes for securing new members, are yet to be sent in, thus reducing the balance.

The H.C.R. appointed the following District Deputies: W H Wardrope, Hamilton; R D Cameron, Lucknow; George Geddes, St. Thomas; H Simpson, Niagara Falls; Richard Coburn, Blenheim; Dr. McKay, Woodstock.

John Peebles, Hamilton, moved that the Supreme Court be memorialized to amend the constitution, so as to abolish the offices of High Counsellor and High Physician, substituting therefor two members of the High Standing Committee. The motion brought on a lengthy discussion, and finally it was referred to the Committee on Constitution and Laws.

The Mayor of Sarnia telegraphed, asking the High Court to meet there next year.

The election of the Supreme representatives will take place in the morning.

Delegates Entertained.

This evening the delegates were given a trolley ride about the city and afterwards taken to Mountain View Park. In the Pavilion, a concert was given, those taking part being Mrs. McArthur, Miss Torrey, W. Melody, Scot Morrison and Birdsall's orchestra. R. Foster was chairman.

The police were called to the residence of J. Waldorf, King William-street, to-night to protect him from his wife, who returned home drunk from a picnic.

The Duke Here Three Hours.

Hon. J. M. Gibson has imparted to Mayor Hendrie some idea of the time the Duke of York and Royal party will spend in Hamilton. The powers that be have allowed him just three hours for the visit to the city, and he will arrive about noon. Mayor Hendrie last evening wired to Ottawa an outline of the proceedings in Hamilton. There will be a reception and address from the city, at the City Hall, between 12 and 1 o'clock, and then a drive thru the city, winding up at Dundurn Park, where the new colors of the 13th Regiment will be presented; also the South African war medals and the long-service medal by the Duke. Following this, there will be another drive, if time permits. This outline was reported by the Mayor to the Reception Committee this morning, and met with its approval.

County Criminal Court.

Before Judge Monck this morning, Fred. Taylor pleaded guilty to the charge of stealing a gold watch and chain from Mrs. Dingwall, North Bay-street, and, as his record showed him to be and old offender, he was sent to the Central Prison for six months.

David Ecker of Dunnville has a large number of friends among the farmers around his home, and they sent a big petition to the judge asking for clemency in his punishment for stealing turkeys and sheep. As it was David's first offence, he got off with a month in jail, sentence to date from Aug. 1.

Lizzie Dow, charged with living with a man named Rae, who has a wife in Toronto, was acquitted.

Minor Mention.

City Clerk Beasley has served notice on the Hamilton Radial Railway Company that it must pay mileage on the portion of its tracks in the city, from April 13 last. The mileage is 2.038, and the payment $300 a mile per annum.

It looks now as if the 13th Band will accompany the excursionists to Buffalo next Wednesday.

The motion to commit John Calder for failing to attend examination for the benefit of his creditors has been again enlarged till Sept. 10.

The employes of the street railway company object to sign three-years' contracts with the company, and there is some friction.

MR. WHITNEY IN TOWN.

Will Meet His Friends at the Albany Club This Afternoon.

Mr. J. P. Whitney, M. L.A., leader of the Conservative opposition in the Ontario Legislature, arrived in Toronto last night, and was seen at the Grosvenor House by The World. The leader came to Toronto to confer with leading party men relative to the first meeting of the approaching campaign of education, which will be held in Toronto, in all probability, on Tuesday evening, Sept. 3.

This afternoon, Mr. Whitney will be at the Albany Club, to meet any of his friends who may wish to see him. He will hold a reception between the hours of 2 and 5 o'clock.

Mr. Whitney was asked to state positively if the opening meeting would be held on Sept. 3, as announced by The World a few days ago. He could not say; he was here partly to arrange for the meeting, and that was one of the dates mentioned. If nothing transpired to warrant a change, that date would be decided upon, he thought.

During the Toronto Exhibition, the Liberal-Conservative Association of Ontario must meet in Toronto, as stipulated by the bylaws of the association, and this matter will also be disposed of to-day. The intention is to convene on Sept. 2 and 3.

Mr. Whitney is not stocked with information as to the intentions of the government in respect to the election, but is ready whenever Mr. Ross says the word. After a careful study of the field, he believes the prospects of the Conservatives sweeping the Province are growing brighter every day.

NORTH TORONTO.

Rev. A. G. Hudson, pastor of the Davisville Methodist Church, left yesterday for a holiday with friends in Barrie.

His Honor Judge Morgan has arranged for the final Court of Revision for York Township's assessment for Tuesday next, and a meeting of the Council, to strike the rate, will be held on Thursday following.

Mr. Fred Goulding has purchased a lot on Balliol-street, Davisville, and will commence the erection of a dwelling at once.

The annual garden party of the Leaside Mission will be held on the church lawn on Saturday afternoon next.

Several interesting cases will be considered by Police Magistrate Ellis at the Town Hall this morning.

RICHMOND HILL.

The concrete sidewalks laid for some years past in the village have attracted the attention of Beaverton Council, who have sent for particulars of the material.

The villagers are awaiting the return home of Reeve Savage, to arrange an excursion to the "Pan."

County Engineer McDougall has taken a residence here, and will move into the village shortly.

A new system of heating and ventilating will be placed in the Public School next week.

CITY AND ELECTRIC LIGHT COS.

Mayor Howland Seeks Information About Existing Contracts.

Mayor Howland wants to know where the city stands with the electric light companies, and has written the following letter to Corporation Counsel Fullerton:

"Will you kindly look into the city's position with the electric light companies, with a view to advising what contracts now exist between the city and the companies, or either of them; whether such contracts are now in force, or have been forfeited; whether under such contracts, or in the absence of them, they have any statutory rights in our streets, or any claim to such rights which there would be grounds for us to test in an action. Specifically, I may state that I have observed that their wires are damaging our shade trees, notably on College-street, and it is very important to know whether we have power to restrain such injury or make the company or companies responsible for the damage. Kindly give this subject your early attention."

ON TOP OF ST. JAMES' STEEPLE.

Hundreds Watch Movements of Two Men at Dizzy Height.

The spectacle of two men working away at the top of St. James' Cathedral steeple attracted a large number of sightseers yesterday. It will not be a nine-days' wonder, but will last for three months. The men are James Plumb and Frank Scully of Ormsby & Co., metallic roofers.

Will Stand on Their Heads.

They laugh over their task, and say that they intend to stand on their heads on the weather vane. The steeple is to be retinned and repainted, at a cost of $2000. The weather vane, which is 28 feet high above the steeple, was painted yesterday afternoon. Plumb and Scully are regular employes on Messrs. Ormsby. A number of spectators used field glasses in watching the movements of the agile steeple climbers.

MUSKOKA CATTLE.

Editor World: The remark has been made to me many times, by farmers in Muskoka; "Why don't butchers and drovers come here from Toronto and other places and buy our cattle, sheep, etc.?" I replied: "Because they don't know that there are any good cattle in Muskoka." The writer is a Toronto man and has traveled a good deal and can truly say that he has seen nothing to equal the good, well-fed stock that the farmers raise in Muskoka. One may ask how is that? This is the reason: The cattle of the country are clean and healthy, have the run of hundreds of acres of good rich pasture, and can browse on wild plants, flowers and leaves, and have the freedom of the very best of pure spring water, lakes and creeks. The Muskoka townships are just full of cattle. The very best milk and butter to be had anywhere is in Muskoka. The writer has no financial interests in the business. Should parties go out to buy, let them drive into the country and see for themselves. But should they call at a local town or village butcher's and ask him if there are any cattle in the country he will at once say that there are not a dozen head to be had in the township, and that he buys somewhere else. Don't believe him, as he wants to control the trade of the place.

GRAVE CHARGES ARE MADE

Against the Publishers' Syndicate By a Shareholder Who Wants Business Wound Up.

SAID TO HAVE SECRETED BOOKS

With the Intent of Defrauding Their Creditors—Other Secrets Disclosed in the Petition.

Papers were filed at Osgoode Hall yesterday, in which application is made for the winding up of the Publishers' Syndicate, Limited, 7 and 9 East King-street. The petitioner is Frank Demill Price, dental surgeon, who holds five $100 shares of stock in the company, and his solicitors are Hossack, Dods & Grant.

The company was incorporated under the Ontario Companies Act in 1897, with an authorized capital stock of $250,000, of which the petitioner says $115,000 was subscribed for and $91,600 paid up.

The petitioner says at the last previous annual meeting of the company, held on the 25th of last month, the manager of the company admitted that the company had lost large sums of money in carrying on its business, and that it is continuing to lose money, and that its assets are insufficient to meet the liabilities. He further says that the company has been obliged to ask accounts to stand over. Several creditors are pressing the company, he says, and the officers acknowledge that the company is insolvent. The petitioner adds that a number of stockholders favor winding up the company.

Grave Charges.

The petitioner continues as follows:

"With the intention to defraud, defeat and delay the creditors of the company, the company removed during the night and secreted, unknown to the petitioner, large quantities of books and other property and assets, so that they might be available to pay the debt of Creditor John McGrail in full, to the prejudice and loss of all their other creditors, which books so removed amounted in value to $10,000. With the same intent the company has assigned to the same creditor all the balances due on the stock subscribed and unpaid, amounting to $23,400, and has given a mortgage to John McGrail on the premises occupied by the company, at 7 and 9 East King-street, for the sum of $16,500. The company has also assigned all its book accounts, except those of the subscription book department, to the Union Bank of Canada. The company is indebted to other creditors to the amount of $52,500."

Half the Assets Gone.

The petitioner charges that the company has been carrying on business at a loss, selling below cost, and sacrificing assets to meet pressing liabilities, wasting assets and otherwise impairing the interests of the shareholders. The conveyances made by the management, he says, have disposed of upwards of one-half of the assets, and that these conveyances were made without the consent of the creditors. The balance of unpledged assets amount to $40,000, against $91,600 paid in by shareholders. The petitioner says the company has been asking an extension of time within which to pay claims standing against it. Unless a winding-up order is made, the petitioner says, the assets will be depleted and wasted, whereas if they are at once placed on the hands of a liquidator he believes there will be a surplus left to be distributed among shareholders.

The motion will come up next Tuesday.

RESULT IN REVOLUTION.

New German Tariff Law Raises a Great Outcry Thru the Empire.

Chicago, Aug. 13.—Theodore Barth, cabling to The Record-Herald, from Berlin, says: Dangerous social troubles, along with a costly fiscal conflict, is, without doubt, the catastrophe with which the proposed tariff law threatens the German Empire. The fervent prayer of every well-wisher of the Fatherland is that the Reichstag will smash the measure beyond recognition. It would meet with that fate if submitted to popular vote.

The correspondent adds that the bill was not conceived in a spirit of hostility to the United States, but is directed against all countries that export products to Germany. There is a great outcry against the measure, and it is impossible to believe that the government will commit suicide by grafting such a measure on the statute books. The Kaiser is expected to bear his influence against its radical features, which would produce discontent, if not revolution.

Ald. Foster a Favorite.

A resolution was passed, commending Ald. Foster for presenting a flag-staff to the City Hall, and suggesting that it be fitted at the top with colored electric lights.

A motion was passed suggesting that if the statue of Sir John A. Macdonald is moved it be placed before the City Hall, and have cut in stone in large letters: "A British subject I was born; a British subject I have died."

A hundred members have joined this year, and the association now numbers about 300. It celebrated its 15th anniversary on Aug. 9.

NOMINATED FOR HALIFAX.

Halifax, Aug. 13.—A Conservative convention was held in this city to-night, to nominate candidates for the coming local election. J. Walter Allison, Minier T. Foster and Adam B. Crowley received the nomination. They were not present, and a committee was appointed to wait upon them.

Watch Your Dogs.

There have been many complaints recently of depredations by stray dogs, especially in the eastern suburban districts. The county police will begin today a raid on the owners of unlicensed animals and ownerless dogs will probably be destroyed. The habit of bringing dogs into Munro and Victoria Parks has been so much on the increase that it has been found necessary to issue an order against their admission. This will be welcome news to the thousands of visitors to these popular resorts. The dog catchers will be set to work, if necessary, to abate, the nuisance.

"BELL" Pianos

The whole world their field, classes and masses alike admirers and patrons.

Good Music From a Poor... PIANO?

Impossible!

Just as impossible as to find the Scriptural grapes on thorns, or figs on thistles.

The wise piano buyer will make his investment with a view primarily to "good" and "lasting" qualities in the instrument.

The "Bell" piano represents all that is modern, artistic and pleasing—in short, all that is "good" in the piano-making art.

Moreover, the familiar legend associated with the name: "Built to last a life-time," means exactly what it conveys.

And the buyer finds his faith in the instrument confirmed and strengthened by the "ten years' absolute guarantee." That goes with every piano sold.

When you test the Art Bell you'll want to buy; and we shall make price and terms just about as you want.

Miniature Pan-American.

Crowds gathered about the front of the Grand Trunk Ticket Office, corner of King and Yonge-streets, last night, and had a birdseye view of the electric illumination at the Pan-American Exposition. One of the advertising maps of the Grand Trunk had been fixed up as a transparency, and, shown over a strong light, revealed a perfect reproduction of the actual view. Altho in miniature, it gave an excellent idea of the spectacle about which all visitors to the Exposition go into raptures.
