S. S. KRESGE STOCK CREATES RECORD

Goes to 540 During Active Trading Today on Wall Street.

Associated Press Despatch.

New York, Aug. 17.—Wall Street.—Except in the case of Dupont, which broke 7 points before midday, realizing sales were well absorbed and the market worked steadily upward throughout the morning. There was a steady increase in public participation which stimulated short covering in high-priced issues, particularly those in which capital siltups or larger distributions to stockholders are believed to be impending.

S. S. Kresge, the highest priced issue traded in, opened 45 points higher at a record top of 540. Mack Trucks, common, extended its early gain nearly 8 points before noon, and the first preferred six, while United States Cast Iron Pipe, International Harvester, Westinghouse Electric, Postum Cereal, Railway Steel Spring, Davison Chemical, and American Brake Shoe and Foundry sold 3 to 5 points higher in that period.

Call money renewed at 4 per cent despite the sharp decrease in excess reserves shown in last Saturday's clearing house statement.

POWER AND STEEL SLIGHTLY EASIER

Breweries Stocks Show Only Fair Activity on Montreal Exchange.

Canadian Press Despatch.

Montreal, Aug. 17.—Consolidated Smelters was the outstanding feature of this morning's trading on the Montreal stock exchange. It was by far the most active issue, and it established a new record high price. Smelters opened today at 122 and after a reaction to 121 reached the record peake of 123½. Final sales of the morning session were at 122, a net gain of 1.

A good undertone prevailed in the balance of the fairly representative list traded in. Montreal Power was fractionally easier. Steel of Canada, which on Saturday touched a new high at 80, rose another ¼, and Empire Steel issues were quiet, with the common selling ¼ easier.

Breweries stocks did not call forth much trading, and prices showed little change. Frontenac being steady at 120 and National off ½. The Asbestos issues were also neglected. On a few sales, however, the prices reacted 4 points to 97½. The paper group was irregular.
