MEDICAL.

CONSUMPTION
CAN BE CURED.

Ontario Pulmonary Institute
135 Church street, (opposite Metropolitan church), TORONTO, ONT.
M. HILTON WILLIAMS, M. D.,
Graduate of Victoria College, Toronto, and member of the College of Physicians and Surgeons of Ontario.
Proprietor.
The only Institute of the kind in the Dominion of Canada.
Permanently established for the cure of all the various diseases of the Head, Throat and Chest, viz: Catarrh, Throat Diseases, Bronchitis, Asthma, Consumption, Catarrhal Ophthalmia (Sore Eyes), and Catarrhal Deafness. Also Diseases of the Heart. Nearly 40,000 cases successfully treated during the past 16 years by our new system of Medicated Inhalation, combined with proper constitutional remedies for the blood, etc.

CHRONIC LARYNGITIS.

Laryngitis, like nearly all affections of the throat and nose, usually begins with a severe cold, and is most always attended with hoarseness. It is more frequent a mere extension of catarrh or sore throat than an original disease, the irritation escaping down and fixing itself upon the delicate organism of this part, and then gradually journeying onward to the lungs. When it occurs as a consequence of catarrh or sore throat the symptoms are comparative y mild. There may be pain, but it is more common to find only a sense of tickling, which provokes cough. Many complain of a sensation as of "something tickling there," to get rid of which they keep up a r sping effort to clear the windpipe. The voice is always more or less affected, being rough in the early stage, but more feeble after the disease is established. There is often a slight tendency over that prominence of the neck known as the "Apple of Adam" (Pomum Adum), a heat and a sense of tightness, and frequently some slight difficulty in swallowing.

In this form the disease is simple and readily removed in a few weeks. In all cases it must be treated by the direct application of astringents and alteratives by inhalation to the affected parts. Like catarrh and granular sore throat, it is a local affection and can only be cured by local treatment. There is no use of torturing the unoffending stomach for an inflamed condition of the vocal chords of the larynx. Change of air is equally unavailing, for there is no climate without dust and draughts of air sufficient to feed and keep the disease alive. The inhaling instrument charged with such sedative, alternative and astringent medicine as may be indicated by the stage of disease must be used morning and evening and every night before going to bed, and the larynx fumigated by warm, sedative vapors. Treated by these means there are few cases of Chronic Laryngitis which are not readily curable.

Inhalation is the only system which will cure these diseases, and yet the treatment of the two are entirely different. In the one we must allay the irritation, while in the other we must stimulate a healthy action.

This will convince us of the necessity of fully understanding the system of Medicated Inalation in the treatment of the various diseases of the pulmonary organs, for when properly applied there is no system of medicine to be compared to it.

Those who desire treatment should spend no time in writing; if you can come to the Institute this month or this week it may be of the greatest possible value to you; it may be the turning point of your disease for fatality or recovery. Later in the season probably you cannot come more conveniently nor as well.

Consultation free, and prices within the reach of all.

The very best of references given from those already cured. If impossible to call personally at the Intitute, write for a "List of Questions," and "Medical Treatise." Address

It cannot be said that St. Jacobs Oil, the Great German Remedy, is ever demonstrative over a case of rheumatism; quietly he performs his mission, leaving the relieved one to tell of its result. Mr. Carl Siegmund, cor. Congress and Washington sts., Ypsilanti, Michigan writes:—My daughter had suffered from rheumatism to such an extent that it crippled her, rendering her unable to walk at all. We consulted many physicians and used all kinds of medicines, but in vain. At last we decided to try the St. Jacobs Oil, and this wonderful remedy effected the happiest results. It cured my daughter and the little girl is now well and strong. Such facts, plain and uncontrovertible, are always in order and are convincing; and it gives us no small pleasure to add our endorsement of the article which has accomplished such results.

The Dominion of Canada stands in the front rank as far as medical science is concerned. Several physicians and surgeons from the leading hospitals of France and England have associated themselves with Dr. M. Souvielle, ex-Aide Surgeon of the French army, founder of the International throat and lung institute, and inventor of the spirometer, recognized in the leading hospitals of Europe as the only means of curing catarrh, catarrhal deafness, bronchitis, asthma and throat and lung diseases. Parties unable to visit the institute can be successfully treated by letter addressed Dr. M. Souvielle, ex-Aide Surgeon of French army, International Throat and Lung Institute, 13 Phillips Square, Montreal, and 75 Yonge St. Toronto, offices for Canada, where French and English specialists are always in charge. Full particulars free. 135

The Oka Indians' Claim.

MONTREAL, Sept. 6.—Twenty young Oka Indians, who came of age, are about to enter suits against the seminary of Sulpice for allotments in the lands in the reserve.

THE LATEST WAR NEWS.

TURKISH MOVEMENTS BETRAYED TO THE ENEMY.

The Cause of Wolseley's Delay — The Strength of the Rebel—The Greek Conspiracy—Aden to be Fortified—Boldness of the Rebel Force.

LONDON, Sept. 6 —It is stated that the authorities have decided to fortify Aden at once. A number of heavy guns will be sent there.

CAUSE OF WOLSELEY'S DELAY.

The absence of reliable information as to the strength of and whereabouts of Arabi's forces is the principal obstacle to Gen. Wolseley's advance. All efforts to obtain such information has failed. Not the slightest reliance can be placed upon the statements of the natives, and British Spies are instantly detected. Arabi, however, manages to keep himself well advised as to the movement of the British troops and every movement is promptly met. A few of the deserters to the British lines have been driven from Arabi's camp as unfit for military life—physically. Private advices states in Egypt there is not the slightest credit to be placed in the reports of any alleged desertions from Arabi's ranks, or any alleged betrayal of Arabi's plans,

THE GREEK CONSPIRACY.

ALEXANDRIA, Sept. 6.—Antonio Paulo, who was arrested on suspicion of being connected with a plot against the lives of Europeans, will be sent to Greece. He is not a consular agent, as stated. The police have advised several other suspected persons to quit the city. A fire broke out early this morning in the Rue Cherif Pasha. Several persons suspected of starting the fire were arrested.

POISONING THE ISMAILIA CANAL.

The Arabs are throwing the carcasses of horses and other foul matter into the Ismailia canal. It is feared the water will become unfit for drinking.

MILITARY CONVENTION SIGNED.

After a conference which lasted three hours between Lord Dufferin and Said Pasha to-day, the Anglo-Turkish military convention was formally signed.

GETTING RID OF THE DESTITUTE.

Three hundred persons of different nationalities, without visible means of support, have been sent away by the steamer. Many of the passengers by the steamer were not allowed to disembark.

COMPENSATION FOR WAR LOSSES.

A council of the ministers is now engaged considering the question of indemnifying the inhabitants for their losses sustained by excendearism and pillage. It is almost certain that the ministry proposed to the powers to appoint an international commission to settle claims, the decision of the commisserate to be final.

RISE OF THE NILE.

It is reported that part of the enemy's position at Kafr-el-Dwar is flooded.

THE PORTE'S PROCLAMATION.

CONSTANTINOPLE, Sept, 6—The proclamation of the Porte against Arabi, declares the maintenance of the authority and prestige of the khedive is indispensably necessary and the designs of Arabi justify his being described as a rebel.

THE ENEMY'S STRENGTH.

ISMAILIA, Sept. 5—It is reported that Arabi has 28,000 troops at Tel-el-Kebir, well armed and in good condition. He has large forces at Shoubra, Ghizi, and Moukattan, where he is constructing formidable earthworks. He also has 6,000 men at Cairo, and several thousand camped outside the city close to the pyramids. Damietta is garrisoned by a regiment of black troops, and a large number of the same troops are within reach in case of necessity. Arabi has an Italian and four Germans on his staff, all able officers. It is reported that he has flooded the entire country above Zagazig by cutting the canal.

MORE INDIAN TROOPS ARRIVED.

Another regiment has arrived from Bombay. The men will be kept on board ship for the present.

The resolution to keep the men on board ship instead of forwarding them to the front appears to give color to the rumor that Gen. Wolseley is afraid to trust the Indian troops to fight against their co-religionists.

BOLDNESS OF REBEL TROOPS.

KASSASSIN, Sept. 6.—The enemy are showing increasing boldness. Yesterday a force of rebels was observed within half an hour's march of the British camp. Infantry disguised as peasants frequently arrive at British videttes.

EXTRA PRESS CENSORSHIP.

PARIS, Sept. 6.—The correspondent of the Temps at Ismailia telegraphs that, with several English correspondents, he protested against the additional censorship of telegrams at Port Said, after they passed headquarters. Gen. Wolseley promised to remove the grievance.

A NAVAL BRIGADE NEEDED

PORT SAID, Sept. 6.—Gen. Wolsely has requested the presence of a naval brigade in the army in order that the navy may share in the advance, a brigade consisting of 100 blue jackets and 10 officers.

A SKIRMISH AT KASSASSIN.

KASSASSIN, Sept. 8.—The British outposts, strongly reinforced, to-day drove the enemy back. Lieutenant Holland, 15th Hussars, was wounded.

ENGLISH MULE TRAIN ATTACKED.

An English train of 300 mules was attacked near Rames to-day by Bedouins. The escort repulsed the Bedouins.

NOTES.

Orders have been sent Suda bay to forward the first detachment of Turkish troops for Egypt.

A Kassassin despatch says that a brisk firing took place yesterday between the outposts.

An Ismailia despatch says no advance can be expected before the 9th inst.

The Duke of Connaught's brigade of Foot Guards will arrive at Kassassin on Wednesday.

A party of natives have been engaged to bury the dead at Kassassin.

Dervisch Server, Baker Pashas and Sebel Effendi start from Constantinople for Egypt on Saturday.

A battery of four gatling guns leaves Port Said for Ismailia to-day.

THE DUKE'S COMPANY.

The Stock Goes Up and Down—A Big Cheque—Who Will Make?

There is great excitement on the street, so to speak, in regard to the Duke of Manchester's company. The shares were reported to have gone up eight shillings premium on the London market, but they have declined somewhat since. But another rise is expected. The stock has been "listed" on London, but it will not be quoted here for two or three days, by which time the Toronto transfer books will be ready. To-day the representatives of Messrs. Scarth and Osler in this city ought to pay into the Bank of Montreal nearly a million dollars for bonds of the Pacific railway, with which bonds the land purchase is made. We understand the money was ready yesterday and the cheques will be signed to-day.

But the speculating gents who invested in the ducal stock are not all able to meet their payments. There was great running round yesterday to raise the wind. Many who bought, bought hoping to unload when the stock called for a premium. They cannot carry what they got any other way.

A VERDICT OF WILFUL MURDER.

Returned Against James Bibby—A Husband's Misery.

The inquest touching the death of Mary Ann Bibby, who was found dead in her bed on the morning of Aug. 24, was concluded last night before Coroner Philbrick at the Royal Standard hotel on the Kingston road. The only witness examined was W. H. Doel, J. P., who was served with a coroner's warrant by County Constable Bedley yesterday morning. Mr. Doel testified as to Bibby coming to him for advice in connection with the dead woman's addiction to liquor. The J. P. told him that he had no jurisdiction except where the woman was found on the streets drunk, and nothing was done. The jury retired at 9.30 and returned at 11 o'clock with a verdict of wilful murder against Bibby. The prisoner took the matter very coolly. The jury stood eight for wilful murder and five for manslaughter. He was then committed to jail.

Murder for Money.

KENSICO, N.Y., Sept. 6—Albert Montfort, who was murdered in his store on Sunday night, intended to visit New York on Monday to purchase goods. Montford was found with his forehead split open and with other wounds in the head and stomach. His pockets were turned inside out, and not a cent of money could be found anywhere. Mrs. Montford went to Tarrytown on Saturday to visit her sister. Her brother, Charles Reynolds, has been in the penitentiary, and on Saturday the sheriff of Tarrytown was looking for him at Kensico, having tracked him there from Tarrytown, on account of a new charge against him. A quarter mile from the house an axe was found covered with blood and grey hairs. A shirt spotted with blood was also found in the house of Montfort's father-in-law, near White Plains. Near a barn on this farm another shirt was found torn and covered with blood. The coroner has ordered the arrest of Mrs. Montfort, her mother, Mrs. Stillson, her father-in-law, and her sister Mary Reynolds.

Meany and the British Bastile.

DUBLIN, Sept. 6.—Acting upon instructions from the American government, Meany, who was recently arrested at Ennis, has taken a most decisive course for the purpose of testing the legality of the arrest. He notified Mr. Purcell, the resident magistrate, that he surrenders his recognizances entered into August 11. Meany says: I no longer consider myself bound by the condition and obligation of the recognizances. I cannot as an American citizen carry the stigma of the British bondsmen unaccused of any offences. I place myself in the position I occupied prior to the execution of my recognizances, but shall for 36 hours hold myself on parole for your action. Meany's securities likewise notified Purcell that they refused to hold themselves obligated by the bonds. They ask to be absolved from further responsibility. It is a noteworthy fact that while surrendering himself to one magistrate, Meany was the guest of another.

The Jews in Russia.

ST. PETERSBURG, Sept. 6.—The recent speech of Gen. Drenteln, governor of Kieff, accusing the Jews of slander in asserting that the authorities connived at the anti-jewish disorders, and advising them to give the country a little of the inordinate love they lavish on their money, caused a sensation. Gen. Drenteln pointed out that many Jews had been obliged to return from America and were starving in Palestine. They were better off in Russia than anywhere if they only knew it.

Kurdish Raids on Persia.

CONSTANTINOPLE, Sept. 6.—The Persian minister has sent a fresh note to the Porte demanding the arrest of the Kurdish chief Oberdullah, whose tribe are committing hostilities on the Turco-Persian frontier. The Russian Ambassador supports the note. The chief however has submitted and has been ordered to reside at Medina, where a pension will be allowed him.

Experts' Report on Guiteau's Brain.

WASHINGTON, Sept. 6—Dr. Lamb has received the report of the microscopical experts who examined Guiteau's brain. While declining to express any opinion, he would say the position taken by Dr. Godding, that Guiteau was insane, would be materially supported by the report. He did not believe the report would cause a change of opinion as to Guiteau's sanity to any great extent, but that the medical fraternity must draw on conclusions.

The Indians at the Zoo.

The Indians at the Zoological gardens are attracting large crowds. Among the many scenes depicted are the fallowing; the medicine man praying for rain; inauguration of a chief; the strawberry festival. &c., &c.

THE EXHIBITION OPEN.

HON. OLIVER MOWAT DELIVERS A SHORT ADDRESS.

Beautiful Weather—The Departments Filling up—Speeding in the Horse Ring—The Electric Light.

At fifteen minutes after two o'clock yesterday afternoon Hon. Oliver Mowat entered the main building at the Exhibition grounds and stepped up to a small raised platform on the south side. There were probably 400 people gathered around the platform. Among them were a number of clergymen and leading citizens. In the absence of the lieutenant-governor, Mr. Withrow, president of the association, called on Mr. Mowat to deliver the opening address. The premier then stepped upon the platform, where already Archbishop Lynch and Mrs. Mowat were seated. Mr. Withrow then presented the premier with the following address:—

To the Hon. Oliver Mowat, Premier of Ontario

YOUR HONOR:—We desire to congratulate you, as the premier of the leading province in the dominion of Canada, on the many evidences of prosperity given by the scene around you in the exhibition you have been requested to open this day. The inability of manufacturers and others to supply the demands made upon them to fill orders that would brook no delay, has caused several blanks in the space taken for exhibition which will be filled up in the course of a few hours. The lateness of the harvest in the province has materially interfered with the attendance of farmers on this, the opening day. The directors sincerely hope that your honor and your colleagues in the government of the province will again visit the exhibition, to see even greater evidence than to-day of the improvement in the large manufacturing interest of the country, and the great extent of the products of the "field and fold" with which a bountiful providence has blessed this section of the dominion.

J. J. WITHROW,
President.

Mr. Mowat, in replying, said it gave him great pleasure to look around him and feel assured that the present exhibition was not inferior, but, he thought, far superior to any that had yet been held. It showed that the country in which we lived had made a leap from infancy to the highest plane of civilization. It also fitly illustrated the advancement made by our province, and it proved the richness of our mines, our forests and our manufactures, the talents of our artists and the mechanical skill of our artizans. The premier congratulated the association on all this, and spoke of the encouragement offered by having on exhibition the products from far off Brazil, from the republic of the United States and from the provinces of our own monarchal dominion. He said that the officers of the association deserved great credit for the earnest manner in which they had worked to make a success of the affair, and alluded to the many self-sacrifices that these gentlemen had made from time to time. In conclusion he declared the exhibition of 1882 duly open. [Applause.]

AROUND THE GROUNDS.

There was a fair attendance at the grounds yesterday. The weather was beautiful, just such weather as should make an outside gathering of merit a great success. Many of the exhibitors are slow in getting their exhibits on the grounds, but the work of completeing the display is being energetically pushed forward by the officers of the association. The Brazilian exhibis will command a great deal of attention, being one of the most interesting on the ground. Men are still hard at work putting the finishing touch on here and there. The presence of the Tenth Royal Greenadiers' band enlivened the scene yesterday and those who are fond of witnessing horse flesh in rapid motion were delighted with the bill of fare in the horse ring.

SPEEDING IN THE HORSE RING.

There was quite a crowd gathered in the stand opposite the horse-ring when the first equine event of the day was called by the judges. This was for pair of mares or geldings, 16 hands and over, style, speed and value to be considered. The distance was twice round the ring, best three in five. An entrance of $10 was charged, to which was added $75 by the association and $25 by the street railway company, 75 per cent to 1st and 25 percent to 2d. There were two teams started: Thos. Taylor of this city entered Red Cloud and Bay Diamond and M. Vogan of Charlestown entered Jim Christie and J. K. Leslie. Red Cloud and his mate appeared in good shape and had no trouble in winning three straight heats. The second race was for single horse (mare or gelding), same conditions as first race, with $20 given by R. McCleary & Co. and $50 by the association. John Riordan's Alexander had no trouble at all in leaving a field of four away behind him. The Collingwood mare Minnie, owned by Mr. Collins, got second place in the first and third heats, and Walter Grant's St. Lawrence Maid was second in the second heat. The others were nowhere. For the farmers' premium race, $50, there were nine horses came to the scratch. This was a very exciting brush, and what was lacked in speed was made up in the grotesque pictures cut by the alleged trotters and their drivers. One young man, who was proudly mounted on a red skeleton wagon, paraded himself up and down past the stand for hours. Confidence in his nag was planted on his otherwise anxious brow. He avowed that he would "clean 'em all out." He was invariably last, and a very bad last at that. He finally took his trotter off in disgust. Maud E. won the race in three straight heats, the 3d, 4th and 5th. Yorkville Maid won the first heat and Ontario Maid the second. The event throughout proved very interesting. There will be more speeding in the ring today.

THE ELECRIC LIGHT.

Last night the grounds and buildings were illuminated for the first time with the electric light. The effect outside was not very great, but inside the full power of the light made the exhibits to be seen equally as well as by daylight. By to-morrow night, when the next evening's exhibition takes place, the companies hope to have their arrangement for lighting the grounds in better shape. A display of electro-hydraulic fire works will also take place tomorrow evening. There was a good attendance last night.

STEAMSHIP ARRIVALS.

ARRIVALS.
