Little Boy Dead From Currant in His Nose

Son of Mr. and Mrs. John F. Lampkin Passed Away From Unusual Cause—Age Four Years.

In some inexplicable manner little William Everett Lampkin, the four and a half year old son of Mr. and Mrs. John F. Lampkin, Hamilton road, got a green black currant up his nose. That was three weeks ago. The little fellow passed away yesterday afternoon from what it is believed were the direct effects of the currant getting into his nasal organs. The parents were unable to remove the currant until next morning, and a few days afterward complications set in. The little boy grew worse, the attending physician pronouncing it a case of quinsy. Symptoms were presented, however, which lead to the belief that instead of one currant, two currants had become injected into the organs, and a poisoned condition resulted. The parents are grief-stricken over their sad loss. The funeral takes place on Sunday to Brant Church burying grounds.

CASTRO STARTS A REVOLUTION

And President Gomez Calls Upon Country to Retain Its Decorum.

CARACAS, Venezuela, Aug. 1—In consequence of the out outbreak of the revolution in Venezuela and the invasion of country by forces under the leadership of former-President Cipriano Castro, the federal council has constitutionally authorized President Juan Vicente Gomez to assume dictatorial powers until the movement is crushed.

President Gomez on Wednesday night sent the folowing telegram to the governors of all the Venezuelan states:

"General Cipriano Castro, impelled by ambition and the craze for power has provoked a revolution in this republic by ordering his partizans to arm themselves against the constitutional government.

"Already rebel forces in several localities have disturbed the public order.

"It is necessary for you to be alert and to act rapidly and energetically in assisting the government to crush the rebels.

"The peace of the community which conscientious Venezuelans are abliged to nourish, cannot be left at the mercy of adventurers who possess no idea of decorum.

"I trust you will fulfill your duty."

The governors in their reply promised unqualified support of the government. Some of them requested the despatch of additional arms and ammunition.

SEVERAL SMALL BLAZES YESTERDAY

Firemam Had a Somewhat Busy Afternoon on Thursday.

Yescterday afternon the firemen at the Central Hall were kept quite busy. At 1.20 two firemen extinguished a grass fire with chemicals, which was beginning to burn a quantity of old lumber at the Brantford Carriage Co., dangerously near the company's plant.

Some boys had started a fire in the hollow of an oak tree at the corner of St. Paul's avenue and Alonzo St., and the sparks were blowing in the direction of several houses. Several firemen and the exercise wagon responded at 2.30. A stream was laid and the fire was soon extinguished.

Mr. B. F. Gainer who keeps a barber shop at 107 Colborne street was burning a quantity of old rubbish in the yard in the rear of his shop. The windows were open on the second floor where reside a number of foreigners and the smoke blew through, coming out on Colborne street, alarming those who happened to be on the street,, and almost suffocating the foreigners. Someone turned in an alarm, and when the firemen turned the corner it looked to them like a fairly good fire. One of the foreigners had his head out of the window, and despite the smoke, whenever he could get his breath took a drag at his big pipe. He evidently wanted smoke and more of it.

Soaked Motorists Right and Left Did Magistrate To-Day in Court

To-Day's News With the Police—Joy Riders Claimed That P. C. Boylan's Method of Timing Them is a Crude One—Some Kicked Hard and Long Against Being Fined.

To-day was motorists day at the police court, and Magistrate Livingston showed little mercy towards the joy riders. Many of the autoists claimed that the methods used in registering the time of speeders was decidedly crude. There were eight autoists summoned before the court this morning, due to the watchful eye of Constable Thomas Boylan. Quite a discussion was entered upon regarding the best methods of timing speeders.

A. O. Secord was fined ten dollars and costs for exceeding the speed limit.

Iden Champion and Mr. F. S. Schell were also touched for a similar amount.

Mr. D. S. Gibson, who is a very careful driver, and although he has had a car for four years, has never before been up in court, was also charged $13.10. Stanley Lee was assessed the same amount. He protested strongly regarding the traffic laws of Brantford. Mr. Wm. Gibbs' case was adjourned until Monday Two others did not appear.

Mr. C. F. Avery of Cainsville, was also charged, with exceeding the limit, and was required to donate $10 and costs to the police coffers.

A case against Chris Young for theft was remanded on account of John H. Spence, the complainant, not being on hand. This is probably the stolen breakfast case.

Albert Henderson and Clarence Betts, who were not able to give a satisfactory account of themselves at an early hour this morning, and being mixed up in a more serious affair, were remanded until to-morrow.

Wm. Clouse was arrested on a charge of cruelty to a horse. It appears that Clouse had bought a horse last Saturday out in the country, but the horse was so weak that he could not drive it to the city, and left it on the Hamilton road. On Monday Dr. Cutcliffe was called, and found the animal in such a condition that it had to be killed. Clouse was fined $2 and costs, amounting in all to $14.50

Wh. Hallett, for not being dressed in propriety, was assessed $5.00 or twenty days.

Mrs. Carry Longbottom had her husband, John, up for non-support. As John did not appear the case was laid over.

"Tommy" Is In Fight

Church Announces Mayoralty Ambitions in Toronto To-day.

[Canadian Press Despatch]

TORONTO, Aug. 1 — Controller "Tommy" Church announced positively this morning that he would be a candidate for the mayoralty of Toronto at the next municipal elections, standing on the policy of opposition to the proposed purchase by the city of the street railway and the Toronto Electric Light property. Without any definite statement from Mayor Hocken it is expected that he will seek re-election and as he is the man responsible for the proposed purchase the fight will be an interesting one. Should the ratepayers have an opportunity of passing on their merits of the proposition before the elections, as has been suggestted, he situation as has been suggested, the situation somewhat altered.

WHISKEY IN BEEF CARCASES

[Canadian Press Despatch]

TORONTO, Aug. 1.—The introduction of whiskey into the forbidden districts of Northern Ontario in pieces of beef has been discovered by Chief Rogers of the provincial police, and several prosecutions have been undertaken as the result. It was known that a woman in the Porcupine district was getting whiskey, and after the authorities had been puzzled for some time an examination of beef going in was made and deep cuts were noticed. Exploration developed the fact that cunningly hidden away under each of the cuts was a hot water bottle filled with whiskey, containing about two quarts of the liquid, which the woman mixed with water and sold at fancy prices.

Can't Meet The Request

"Nothing to Arbitrate" Says Frank Cochrane Re the I. C. R.

OTTAWA, Ont., Aug. 1.—The I. C. R. situation, as seen from the Governmental end here to-day, presents some rather unique features, and it is extremely improbable that the request of the Brotherhood of Railway Employees for a board of arbitration will be acceded to by the Labor Department. The reason is that Hon. Frank Cochrane, Minister of Railways, feels that better wages and working conditions having already been granted, there is nothing to arbitrate. He takes the ground that men in responsible secretarial positions have no business to belong to unions, and that such a system must no longer prevail on the Government line.

If the railway department refused to appoint a representative on the arbitration board, it would be the duty of the labor department to appoint one for it if a board were granted. But there is little likelihood that one branch of the Government would in that way act contrary to the wishes of another.
