Two Des Moines Girls Attacked In Two Days

Second Victim Was Left Bound and Gagged in a Vacant Lot.

Des Moines, Ia., June 12.—Police today hunted a moron who brutally attacked a young girl here—the second crime of the sort within forty-eight hours.

Closely following the discovery of the brutal assault and murder of Sara Barbara Thorsdale, young school teacher, the second victim, a 15-year-old girl, was found bound, gagged and unconscious in a vacant lot.

After regaining consciousness at a hospital she said a man in an automobile who told her he was a minister, tried to pick her up on her way to a camp-meeting. When she refused, he hit her over the head with some heavy instrument. She could remember nothing more. She must have been in the vacant lot all night, she said.

Sheriff W. E. Robb today said he had obtained evidence which he thought would justify holding Tom Lemis, the negro who has been in custody since Saturday, for the 23-year-old school teacher's murder.

Dentist And Girl In Burglar Gangs

Paris, June 12.—The police made an important arrest when Georges Bellet, a dentist with an office on the fashionable Champs Elysees, and his 18-year-old companion, Gaby Millet, were caught last night, together with a dozen members of two burglar gangs which the police say are responsible for a score of jewelry robberies in Paris and its suburbs during the last two months.

Although working separately the bands, which are known as the "Jacket Gang" and the "Blouse Gang," coordinated the sale of their loot through Gaby Millet, she in turn sharing the profits with the dentist. Most of the gangsters are army deserters.

The police obtained their first tip last week when a former woman member of the "Jacket Gang" confessed just before she committed suicide in a prison cell at St. Lazare.

Examinations For Teachers This Week

To be Held at Fredericton, Chatham and St. John—Fewer Writing Them.

Fredericton, N. B., June 12.—The license examinations conducted by the department of education for qualifying of teachers for schools of the province, will begin on next Tuesday morning. The examining stations will be in Fredericton, Chatham and St. John. The greater number of candidates will write in Fredericton because of the normal school and U. N. B. being located here.

The total number is 239, which is smaller than usual, as the attendance at the normal school is less than for many years. Fewer than 200 completed the courses for class 1 and 2. in former years there have been upwards of 300.

The classification of the candidates at the three stations is as follows: Fredericton—Grammar school, two; Superior, two; class 1, eighty-one; class 2, 102; total 196.

Chatham—Grammar school, two; Superior, one; class 2, six, total thirteen.

St. John—Grammar school, five; Superior, three; class 1, six; class 2, six, total 20.

The large number of candidates writing for grammar school licenses at Fredericton is accounted for by the fact that a considerable number of graduates and undergraduates of the U. N. B., are writing the papers in this city.

JUDGEMENT WAS RESERVED.

Ottawa, June 11—Judgment was reserved yesterday in the Supreme Court in the case of Samuel vs. Black, Lake Asbestos and Chrome Company. The appellants are dealers in ore at Philadelphia, and the action was brought to recover damages for failure to deliver to them certain quantities of chrome ore in accordance with contracts.

Pleads For Husband After He Shot Her

Woman Telephones for Aid for Would-be Suicide After He Attempted Murder.

Philadelphia, June 12.—While she was asleep in her home in Westfield avenue, Camden, yesterday, Mrs. Mabl Simon, 29 years old, was shot in the head by her husband, who then turned the pistol upon himself in an attempt to end his life. Both are in a critical condition, but the woman may recover.

No reason is known for the shooting, except that given by his wife, that Simon had been suffering from nervous depression. She said they had never had a quarrel.

Mrs. Simon, after the shooting, walked to the floor below to telephone the police. While she was doing this, her husband shot himself.

Both Simon and his wife were conscious when the police arrived.

Two small children were with their wounded parents, having been awakened by the shots.

Mrs. Simons urged that first attention be given her husband, and declared he should not be held accountable, as he was mentally impaired.

Want Journalism Taught In College

Weekly Newspaper Association Favor This Step—Halifax Next Place of Meeting.

Vancouver, B. C., June 12.— The Canadian Weekly Newspaper Association adopted a resolution at the closing session of its convention here Friday, urging that provincial governments take steps to add journalism to the curriculum of the universities.

The resolution expressed commendation of Manitoba and Ontario as the pioneer provinces in this respect.

Other resolutions oppose any move at present for the reduction of hours of labor; urge the necessity for better publicity campaign and urge members of the association to pay their license fees as job printers and collect the sales tax as manufacturers.

This point was hotly debated, but the resolution carried.

Halifax was chosen as the next meeting place.

The convention spent yesterday in Victoria.

V. C. French, publisher of the Times, Wetaskiwin, Alta., was yesterday chosen president of the Canadian Weekly Newspapers Association for the coming year, in succession to W. P. Davis, of Renfrew, Ont.

Sunday School Held 93rd Anniversary

Excellent Programme Carried Out in Portland St. Methodist Church Last Evening.

A programme of great excellence was heard last evening at Portland street Methodist church on the occasion of the ninety-third anniversary of the Sunday school. Very high praise must be given H. W. Bromfield, who trained the scholars. The singing in choruses was peculiarly sweet, while the distinct speech of those giving recitations in the clever exercises presented was most favorably commented upon. Mention should be made of these exercises which were very beautiful and contained lessons of great helpfulness.

The pastor, Rev. Harry B. Clarke, presided and on the platform were Honorary Superintendent R. T. Hayes, M. L. A.; Percy J. Steel and Charles McConnell, assistant superintendents, and A. C. Powers. Assisting in the music were Miss E. Huey, Mrs. J. Howe, A. C. Powers and Mrs. F. Smiler. Miss Lillian Bromfield presided very capably at the organ. The absence of S. A. Kirk, superintendent, who was confined to his home by illness, was regretted.

R. T. Hayes, M. L. A.

In his address R. T. Hayes, M. L. A, spoke of his twenty-seven years association with the Sunday school as superintendent and paid a high tribute to the officers and teachers who had made the school so successful. He spoke of S. A. Kirk superintendent who has also been in the work twenty-seven years, and thanked all those who had supported the officers through those years. Mr. Hayes said that it was a work which made young people not only good citizens of the heavenly city, but which fitted them for this life on earth. He appealed to all to help carry on and asked that the school might improve even upon its good record of this year. He praised the work of the pastor and said he was glad to see, from the large attendance, that the congregation are taking an active interest in the school.

Presented With Cup.

Rev. Harry Clarke called to the platform Herbert Naves, Chief Mentor of the Trail Rangers, and Ross Corbett, Chief Ranger, and presented to them the city cup as second prize for Canadian standard efficiency tests. Mr. Naves replied hoping that Portland street might continue to be successful and hold the cup. Mr. Clarke told of the splendid record of the church for the past year. He praised the consecrated men and women who teach in the Sunday school instructing young people in the religion of a loving Father.

Outbragged The Yankee Visitor

Roman Cab Driver Puts One Over on Boastful American Tourist.

Rome, June 12.—They are telling a story in the Roman cafes of how an American visitor to Rome came off second best in a boasting contest with a Roman cab driver.

The American undertook to see Rome in a day and used the cab driver as a guide. The American was driven to all the great Roman monuments and took great interest in the buildings, always asking how long each took to build.

At St. Peter's, the cab driver confessed that it took 50 years to complete that structure. The American did not think that that was such a great feat for he was certain such a building could be built in America in two years. Other large churches, like St. John Lateran, the visitor said, could be built in a year or even six months.

Finally, they were passing the new massive buildings occupying several city blocks containing the Italian law courts.

"What's that," inquired the American.

"I don't know," retorted the driver. "It wasn't there last night."

Granted Respite On Eve of Death

Raving Maniac Receives Notice of Ten Days' Delay 3 Hours Before Time to Die.

Ossining, N. Y., June 12.—Less than three hours before he was to have been put to death in the electric chair, Paul LaGuidice, sentenced from Monroe County for the murder of Mrs. Sophia Fichera, received a ten days' respite from Governor Miller. Although no official announcement as to the grounds for the respite was made at Sing Sing prison, it is understood that it was for the purpose of further investigating the condemned man's sanity.

La Guidice, in the opinion of many of the prison officials and keepers, is a hopeless maniac. He has been put into a straight jacket to prevent him from killing himself and the keepers. Three weeks ago a board headed by Dr. Charles W. Pilgrim, of Poughkeepsie, examined him, but during the examination his actions were normal. For ten days since he has raved continually in his cell and keepers have been unable to keep any clothing on him.

Governor Miller's attitude at the time of a recent plea for executive clemency was that LaGuidice's crime was such that no clemency should be shown, even commutation to life imprisonment. LaGuidice asserted that he stabbed Mrs. Fichera to death as the result of threats by her husband, now serving a life sentence in Auburn, that he would be killed if he did not do it.

Jury Unable To Decide In Suit Over Trousers

New York, June 12.—A jury before Justice of the Peace Emerson A. Burdick, in Hammonton, N. J., was discharged yesterday morning after it had deliberated for eleven hours without being able to decide whether a pair of trousers made by Joseph Amirotto fit Antonia Notto. Notto had brought suit against the tailor, alleging that the latter refused to give him his money back.

The trousers were in court, and Notto put them on and paraded before the court and the jury, so they could judge the fit for themselves. Amirotto said that he had offered to make Notto another pair of trousers, but that the latter refused and after several months demanded his money.

NEURASTHENIA---
NERVE STARVATION

A Disease of the Down Hearted—Practical advice on what to do.

Many a man is broken down and discouraged without having any actual disease in his organs and tissues,—he has lost his grip, feels weak and nervous and everything looks dark. He is suffering from the great American disease—Neurasthenia or nerve starvation, due to over-work, worry, continual hurry and nervous strain. The longer this continues the more certainly will it end in real disease of his organs, his nerves or his mind.

Such a man should live on the simple foods, eat plenty of cooked fruit and green vegetables, sleep nine hours at night if he can, an hour in the afternoon and feed his starving nerves and weak, thin blood, with a good nerve and blood food like Nuxated Iron. Nuxated Iron contains a product brought to the attention of the French Academy of Medicine by the celebrated Doctor Robin, which represents the principal chemical constituent of active living nerve force; it also contains genuine organic iron like the iron in your blood and like the iron in spinach, lentils and apples.

Nuxated Iron may therefore be said to be a real nerve and blood food since it supplies the principal ingredients demanded by your nerves and blood to give you strength, energy, force and endurance. It often increases the bodily and mental vigor of weak, wornout, down hearted, and nervous folks in two weeks' time. Your money will be refunded by the manufacturers if it does not produce perfectly satisfactory results. For sale by all druggists.
