St. Francois, Fish, Allagash, Madawaska and Grand rivers, upon the St. John, above Baker's, and also upon the Restigouche, which is carried down to the Bay of Chaleur, in all amounting to some Millions of feet. Beside this, there is the lumber cut by the settlers under license from the Governor of New Brunswick. It is admitted by Sir John Harvey, we understand, that he has given such permission to the settlers at Madawaska, the population of which is 4000 or over. From this view of the case, there cannot be a doubt that we ought to seize this lumber. The only way to do this, will be to throw a boom across the St. John below the mouth of Grand river. Nothing to any effect will be accomplished without doing this, towards putting an end to this plunder of our property. The lumber on Fish river, cannot be secured without adopting the plan proposed. There is a double saw mill on Fish river, three miles above its mouth, owned by Merchants at the city of St. John. Sir John Caldwell has an immense establishment at Grand falls, on the St. John with 14 perpendicular saws and several circular ones, all of which are of the finest model and construction, have been built within four or five years past, and are superior to the mills on the Penobscot river. He is supposed to be very rich and makes an immense sum every year. He employed the men who were taken on Fish rive by our force, to haul the logs at 60 cents per thousand, for his mills.

Every stick of this lumber cut on our territory should be seized, and we shall then make the British feel the importance of an adjustment of the controversy. The British Government care not a straw about the Aroostook territory. Unless our State do what is proposed, the expedition has been of no sort of value. We are just where we always have been, in possession of the Aroostook, while the territory on both sides of the river St. John is held by others, and the country being stripped of its value. —*Ib.*

A letter received in this city at eleven o'clock last night by express from an officer at Houlton, states that a letter had been received at Head Quarters from Mr. McIntire, stating that he was apprehensive of an attack, as a large number of axes had been carried up from Woodstock to the mouth of the Aroostook, as he supposed, for the purpose of opening a road to his camp. The remainder of Gen. Hodsdon's force was ordered forthwith to proceed to the camp, and they took up the line of march yesterday morning.—*Ib.*

Col. Jarvis arrived last evening from Augusta and goes up to resume the command on the Aroostook, and Mr. McIntire is to return home.

Mr Jarvis states that Gen. Scott had written Sir John Harvey very fully in regard to the Boundary troubles and explained fully the views and feelings of our state, and the National Government.

The communication brought by the express yesterday, is, he says, undoubtedly Sir John Harvey's reply to the letter of Gen. Scott—When its contents are known we can calculate with some certainty upon the prospect of a war. Sir John Harvey is forced to this extremity—he must back out or fight.

The Norfolk Beacon of the 11th inst., states on he authority of a gentleman from Washington, that two companies of U. S. Dragoons, stationed at Carlisle, (Penn.) have been ordered by the President to proceed forthwith to Maine.

Mr. Jarvis, provincial Land Agent, arrived at Augusta on Tuesday of last week, having left the Aroostook on the Saturday previous. He reports that all was quiet in that vicinity. He has discharged a part of his force, deeming so large a one unnecessary. His encampment is now on the Aroostook within about two miles of the line, where his men are engaged in constructing a boom across the river.

The Bangor Whig of Thursday states, that an Express had just arrived from Houlton, bringing a letter from Gov. Harvey to Gen. Scott.

A gentleman who arrived in town yesterday, states the purport of the abovementioned letter to be the relinquishment by Gov. Harvey of his claim to exclusive jurisdiction over that portion of the disputed territory lying South of the St. John.

Sealed Proposals.—A Vermonter, we understand has written Gov. Fairfield, recommending him to advertise for sealed proposals for taking the Province of New Brunswick. We hope the Governor will not follow in the footsteps of Amos Kendall, and give the job to some loco-foco or a party favor.

From the Frontier Journal.

We are informed that the President has ordered two companies of Dragoons into Maine.

Our news from Augusta shews that the Legislature of Maine will fully sustain the Governor and that there will be no backing out. Our information from all parts of the Union is cheering. Our State will be sustained by all the States enthusiastically.

DEMOCRATIC CONVENTION.

Resolved, That we regard with the warmest feelings of joy the "signs of the times" in relation to our North Eastern Boundary: that the public interest which has been awakened upon that subject, is matter of great felicitation and pleasure, and promises an early adjustment of our too long unsettled controversy.

Resolved, That we approve of the measures which have been taken for the protection of our property and the defence of our territorial rights, and that we do not the less approve them because they were taken without the consent or knowledge of any foreign power.

Resolved, That the claim set up by England to a portion of our State, is alike contradicted by the language of the Treaty of 1783, by the debates in the British Parliament subsequent to its ratification, and by all the negotiations between the two Governments connected with it, and that we cannot yield to such a claim, without a sacrifice of every principle of National honor and a total disregard of the rights of Maine.

Resolved, That the Hon. John Fairfield by his able defence of the interests of Maine in Congress and by his recent manly and energetic assertion of our rights at home, has shown that he possesses that wisdom and decision of character which eminently qualify him to be the Chief Magistrate of an independent State.

Resolved, That the prompt and efficient measures adopted by the General Government to sustain and protect Maine in the possession of her rights and territory, clearly evince that the confidence she has reposed in it, has not been misplaced.

Resolved, That the promptitude with which the Military Department of our State has answered the late calls of the Commander-in-Chief, is a source of peculiar gratification, and should convince the most skeptical that the Militia is the right arm of our defence which can in every emergency be relied on.

Resolved, That the whole course of Martin Van Buren since he has been in public life, has been identified with the principles of Jeffersonian Democracy, and that we repose with unshaken confidence in his wisdom, decision and integrity.

First Public Sale of the Assam Tea.—The commercial sale-room, in Mincing-lane, where the public tea sales are held, was crowded this morning, in consequence of its being known that the whole of the Hon. Company's recent importation of teas from their territories in Upper Assam were to be sold—These teas consisted of three lots of Assam Souchong, and five lots of Assam Pekoe. On offering the first lot, which was souchong, Mr. Thompson announced that each lot would be sold without the least reservation to the highest bidder. The first bid was 5s. per lb., a second bid was made of 10s. per lb. After much competition it was knocked down for 21s. per lb. The purchaser being Capt. Pidding, proprietor of the "Howqua's Mixture" tea. The second lot of souchong was bought for the same person for 20s. per lb. The third and last lot of souchong sold for 16s. per lb., Captain Pidding being the buyer. The first lot of Assam pekoe sold for 24s. per lb., after much competition, every broker appearing to bid for it—it was bought for Captain Pidding. The second, third, and fourth lots of Assam pekoe fetched the respective prices of 25s., 27s. 6d., and 28s. 6d. per lb., and were also purchased, like the previous lots, for Captain Pidding. For the last lot of pekoe, which was the last lot of the tea to be sold, a most exciting competition took place. There were near sixty different bids made for it. It was at last knocked down at the extraordinary high price of 34s. per lb. Captain Pidding was also the purchaser of this. The general opinion of the collected tea-brokers and dealers, with whom the room was crowded, was, that the Assam tea is not only valuable as a curiosity, but that the tea itself is of very superior quality.—*Lon. Courier, 10th Jan. 1839.*

To Correspondents—We beg to inform our correspondent "Methodist" that his communication was too long delayed before it reached us, to have any good effect at this time, as the grant he alludes to, did not pass the Legislature.

She had been very severely afflicted with the disease, in her face, for six years; had tried various medicines, both internal and external, but without producing any good effect, until by the advice of a friend who was cured by your medicine she was induced to use it, and, I am thankful to say the result has been a perfect cure.

Yours, respectfully, JOHN CHAPMAN.
