Insisting on Payment

Germany has balked at the Allied indemnity terms, and the inevitable has occurred. The London Conference ended without any feasible method of settlement being arrived at, the German delegates having been instructed that "negotiations should be based on proposals which the German Government reserves to itself the right to lay before the Conference."

Germany has pursued with persistent intent a course calculated to neglect compliance with the terms of the Treaty. Furthermore she has by act and deed set herself to nullify its provisions. The move at the London Conference was a bold attempt to treat the solemn agreement entered into at Versailles, as a comedy, by a presentation of new terms so "ridiculously inadequate that their instant rejection was inevitable."

manded, in the period given, cannot be borne out by an examination of German finance and industry. So extravagant is the administration of the present form of Government, it was pointed out in February, that Germany could cut her reported deficit by about seventy six thousand million (76,000,000,000) paper marks a year through effecting certain administrative economies and by ceasing to count as expenditures, huge sums appropriated, but not actually spent.

From the Fleet.

The following messages were received by the owners from the sealing fleet last night; 18th:-
To Bowring Bros.

McMurdo's Store News.

SATURDAY, March 19.
There is no reason at all why you should be suffering from want of appetite, winter cough, or an undue tired feeling. A bottle or two of Gault's Cod Liver Oil Compound will change all that, and make life enjoyable again.

Girls' Hockey Match.

A very interesting game of hockey was played on St. Patrick's Day between teams of the Mercy Convent Academy and Bishop Spencer College. The game was played on the Mount Cashel rink, and after a spirited contest the Mercy Convent girls won by a score of 3 goals to 0.

TO CORRESPONDENTS—One Who Knows, Argentina. Such charges, as you prefer in your letter against certain Government officials, were better made to the authorities, who could then investigate them. No newspaper could consider for a moment the publishing of your letter as written, unless over your own signature—and then only with modification.

S. S. Portia Ashore.

SENEF ORDERED TO ASSISTANCE
A message has been received by the Minister of Shipping's Department saying that s.s. Portia had gone ashore about one and a half miles west of St. Jacques, during a snow and wind storm early this morning.

Preparing for Rugger.

The officers of the Bishop Field College Rugger team for the coming season have just been elected as follows: Captain—W. H. Smith; Vice-Capt.—F. J. Quinton; Secretary—H. Smith. During the Easter holidays as much practice as possible will be got in and as soon as the ground becomes really fit the game will be taken up in real earnest.

Charity Hockey.

ON MONDAY NIGHT.
On next Monday night a hockey game will be played between the pupils of St. Bonaventure's and Bishop Field Colleges. As by ex-pupils are those who have at one time been pupils of these colleges, irrespective of what team they have played for in the League, quite an interesting exhibition will undoubtedly result, and the St. Bon's will benefit considerably by this rule. It is reported that the Fieldians will have their usual lineup. Another interesting game set down for the same night is a return match of St. Bon's vs. the Combined Schools. The St. Bon's were beaten by the narrow margin of one goal in the last game and this one should therefore provide some thrills.

FREE TRADE EVERYWHERE.
It is rumored that the Government has rescinded the Fish Regulations to Brazil and in the next issue of the Royal Gazette a proclamation to that effect will appear. With the lifting of the regulations for Brazil, goes the last of the Coaker control, which has done irreparable harm to Newfoundland's main industry.

Supreme Court.

(Before Mr. Justice Kent.)
The King vs. Augustus Hodder, Stewart Noseworthy and William Noseworthy.

The prisoners at the Bar having been asked if they had anything to say before the sentence of the Court be passed upon them, Higgins, K.C., on behalf of the prisoners made a plea for clemency.

The sentence of the Court is that Augustus Hodder and Stewart Noseworthy be sentenced in the Penitentiary at St. John's for a term of 12 months with hard labor, and William Noseworthy for the term of eight months with hard labor from the 1st of March, 1921.
Sentence for indecent assault, of which Hodder was convicted, was deferred.

Buying Site for Race Track.

We learn that the Horsemen's Association is negotiating for the purchase of a site on which to build a race track. The piece of land under consideration is in the northwest suburbs and splendidly situated. If the deal goes through the work of preparing the track will start on the opening of spring, and it is likely that during the summer some interesting meets will take place.

Employers' Association Meet.

A meeting of the Employers' Protective Association was held in the Board of Trade Rooms yesterday afternoon, when representatives of the various mercantile firms were present. Matters in connection with the present labor situation were discussed, but nothing definite was decided. A further meeting will be held when the matter will be more fully dealt with.
